Ensure Prompt Payment to Contractor	PRHTA shall ensure paying all contractors by Electronic Funds Transfer (EFT) within 40 days of receipt of invoices*. The payment should be performed on the first business day after funds are received from FHWA. *On May 9, 2019 PRHTA issued a Directive which established that the lead time for payment to contractors begins when the Designated Person by Regional Director receives the Certification for Payment for review.	Phase 2 - Q21-FY2023		Phase 2 - Q3-FY2021	Phase 1 - Q4-FY2016.	425	This effort is considered completed in terms of compliance with the Section I of the MOU. However, PRHTA is focused on the long-term implementation using the new systems. For this reason, it was divided in two phases for reporting: Phase 1 - Completed. Currently the Contractors are being paid within 40 days period and through Electronic Funds Transfer since Q4-2016. Phase 2 - The consultant continued to work on the additional scope in the Integrated Contract Management Module (ICMM). In addition, the consultants completed integration tests and documentation. Definition and implementation of the system's integration modifications.	
Tracking the status of payments using an electronic method **	PRHTA should track the status of payments using an electronic method that is acceptable and accessible to FHWA. **The agreed method for monitoring the status of payments while completing the implementation of the systems was using Excel worksheets. However, PRHTA is focused on the long-term implementation using the new systems. For this reason, it was divided in two phases for reporting: Phase 1 -Completed. The agreed method for monitoring the status of payments while completing the implementation of the systems was using Excel worksheets.	Once the interfaces were completed, perform the final review of the tracking status report in Oracle Unifier to incorporate the additional information requested by FHWA and begin monitoring the payments status of the certifications of the pilot projects processed through the systems.	Cost code structure modification to add program code and additional modifications to comply with FHWA requirements and ICMM Deployment. Definition and implementation of the system's integration modifications.
