Cash Bridge as of April 13, 2018

- Ending cash balances includes Operating Accounts, Operating Reserve Fund and the Segregated Account
- “Customer collections” variance due to recent positive experiences in cash collections, which is partially due to successful collection activities by PREPA
- “Eligible Uses – Energy Purchases” variance primarily due to timing of AES payments
- “Eligible Uses – Employee Disbursements” variance primarily due to timing of medical benefit cost payments and contract labor
- “Loan Activity” variance primarily due to timing of assumed borrowings and repayments

Distribution Restoration Progress Report – As of April 18, 2018

- Current load is approximately 91% of comparable 2017 levels
- ~95% of the island's 342 substations and 56 transmission centers are energized
- Current estimate of distribution customers who have been energized is approximately 97%
 - This estimate assumes that weatherheads (which are owned by and are the responsibility of the customer) on residences are fully repaired and that the customer is still using the residence—which is not the case for all properties
- Approximately 83% of the linkages between substation Communication Remote Units (CRUs) and the central customer billing system have been restored
