Disclaimer

The information contained herein (the "Information") has been provided and prepared by the Puerto Rico Power Authority ("PREPA" or the "Company") and is in draft form subject to further discussions and revisions. No representation or warranty, express or implied, is made by the Company or its advisors as to the accuracy or completeness of the Information, that has not been independently verified. The Company and its advisors shall have no responsibility or liability for the accuracy or completeness of the Information, any errors, inaccuracies or omissions in the Information or the consequences of any reliance upon the Information. Without limitation of the foregoing, no representation or warranty, express or implied, is made by the Company or its advisors as to the accuracy or completeness of any forecasts or projections contained in the Information. Nothing contained in the Information may be relied upon as a promise or representation as to the future. The Information does not constitute an offer or solicitation to sell or purchase securities. Neither the Company or its advisors shall have any liability, whether direct or indirect, in contract or tort or otherwise, to any person in connection with the Information.

Projections are included in the Information. Such projections have not been examined by auditors. The projections and other material set forth herein contain certain statements that are "forward-looking statements". These statements are subject to a number of assumptions, risks, and uncertainties, many of which are and will be beyond the control of the Company including, among others, availability and timing of liquidity sources, availability of supplies and supplier financing, changes in general economic, political, governmental and business conditions globally and in Puerto Rico, the Company's ability to achieve cost savings, changes in interest rates, changes in inflation rates, changes in exchange rates, changes in fuel prices, changes in business strategy and various other factors. These statements speak as of the date indicated and are not guarantees of future performance. Actual results or developments may differ materially from the expectations expressed or implied in the forward-looking statements, and the Company undertakes no obligation to update any such statements whether as a result of new information, future events or otherwise.

Recipients of the Information agree to keep the Information strictly confidential. The Information is highly confidential and contains proprietary and confidential information about the Company, its subsidiaries and its operations. This document material is being presented solely for your information and may not be copied, reproduced or redistributed to any other person in any manner. At the request of the Company, the recipient will promptly return all non-public material received from the Company (including this document) without retaining any copies thereof. For the avoidance of doubt, Information includes the nature, substance, status, and terms of any discussions related to the Information discussed herein.

The Information does not constitute an offer or invitation to purchase or subscribe for any shares or other securities of the Company and neither any part of this document nor any information or statement contained therein shall form the basis of or be relied upon in connection with any contract or commitment whatsoever. By receiving the Information, you agree to be bound by the foregoing limitations.

Current Forecast vs October 19th Approved Budget Cash Bridge as of December 14, 2018

- Ending cash balance includes Operating Accounts, Operating Reserve Fund and the Segregated Account
- "Customer collections" variance primarily due to timing and an aggressive collections forecast that is not being realized
- "Emergency Related, net" variance due to timing of payments to restoration contractors and related FEMA reimbursements
- "Other Ineligible Uses" variance primarily due to timing of Title III payments and Other Ineligible Uses
- "Eligible Uses Energy Purchases" variance primarily due to lower diesel spend, timing of payments to AES, EcoElectrica and Fenosa, and the shift of one week in approximately \$20M of Freepoint payments
- "Eligible Uses Other" variance primarily due to lower maintenance spend and lower other accounts payable expenditures
- "Loan Activity" impacted by a loan repayment that was not forecasted

Distribution Restoration Progress Report – As of December 19, 2018

- Current load is 92% of comparable 2016 levels
- ~97% of the island's 342 substations and 96% of the 56 transmission centers are energized
- Current estimate of distribution customers who have been energized is approximately 99+%
 - This estimate assumes that weatherheads (which are owned by and are the responsibility of the customer) on residences are fully repaired and that the customer is still using the residence—which is not the case for all properties
- All linkages between substation Communication Remote Units (CRUs) and the central customer billing system have been restored for substations that are operational
