- “Other Ineligible Uses” variance primarily due to the timing of check receipts and disbursements clearing our operating accounts
- “Eligible Uses – Energy Purchases” variance primarily due to the timing of payment to Naturgy
- “Eligible Uses – Employee Disbursements” variance primarily due to the timing of a workers compensation payment
- “Eligible Uses – Other” variance due to the timing of accounts payable related disbursements
- “Loan Activity” variance due to February 1 loan payment not assumed in the budget

Distribution Restoration Progress Report – As of February 6, 2019

- Current load is 91% of comparable 2017 levels
- 97% of the island's 342 substations and 96% of the 56 transmission centers are energized
- Current estimate of distribution customers who have been energized is approximately 99+%
 - This estimate assumes that weatherheads (which are owned by and are the responsibility of the customer) on residences are fully repaired and that the customer is still using the residence—which is not the case for all properties
- All linkages between substation Communication Remote Units (CRUs) and the central customer billing system have been restored for substations that are operational
