Executive Summary (cont'd.)

- AAFAF started its efforts to identify government bank accounts and their balances to obtain a comprehensive view of the cash position of the Government. Requests were sent to governmental instrumentalities, the Office of the Commissioner of Financial Institutions (“OCIF”) and various commercial banks.
- Based on the information obtained, AAFAF prepared an inventory of bank accounts across governmental instrumentalities, including those outside the scope of the fiscal plans submitted to the Financial Oversight and Management Board for Puerto Rico (“FOMB”).
- The exercise and the inventory described in this presentation, which had not been conducted by prior administrations, obtained information on +800 bank accounts. AAFAF now has centralized access to bank account information for most of the Government.
- AAFAF has conducted this process in consultation with the FOMB and its advisors, and has been providing periodic reports to the FOMB since July 2017.
- On October 31, 2017, AAFAF commenced publishing weekly cash flow reports for the TSA on its website and EMMA. On December 18, 2017, AAFAF commenced reporting on month-end cash balance position of the bank accounts included in this presentation to provide additional transparency.
- On December 18, 2017, the FOMB announced that it would conduct an independent forensic investigation of the information on Government bank accounts published by AAFAF. On February 6, 2018, the FOMB announced the retention of Duff & Phelps, LLC (“D&P”) to conduct this forensic analysis.
- D&P published an *“Independent Forensic Analysis Team” Report on Title III Bank Accounts as of June 30, 2018*, on March 12, 2019. AAFAF takes no position in this summary on the D&P Report.
- The information presented excludes certain funds as set forth in the “Excluded Funds” slide.

In general, the unrestricted account balances in operational accounts are used as working capital for payments of the ordinary obligations of the University, which are not subsidized by other sources. For example, accounts payable, budget deficits (including those related to UPR's Retirement System), and needs resulting from spend/reimbursement timing and uninsured portions for 2017 hurricane damages.

¹ UPR purchased T-Bills with monies from the BPPR money market account in three trades, each \$50M - with maturities of only 30, 60 and 90 days, most of which has been earmarked for Capital Expenditure projects.

² Building and Facilities (Molecular Sciences/Plant Nursery): \$7.8M; Endowment Fund: \$6.2M; Perkins Federal Program: \$1.0M; Donations: \$0.5M.

³ Overall balance also includes restricted funds totaling \$0.4M in an account at Banco Santander.
