INTRODUCTION

AAFAF has been compiling financial information from selected public corporations of the Commonwealth of Puerto Rico that are component units (“CU”) for financial reporting purposes, as part of AAFAF’s evaluation of the liquidity of the Government of Puerto Rico and its public corporations.

This report is for the month of February 2022 of FY22, and presents information with respect to the University of Puerto Rico (UPR). UPR prepared its Fiscal Year 2022 (“FY22”) Liquidity Plan in February 2022, using the FOMB certified budget as the baseline for liquidity planning. For FY22, a forecast is provided that takes into consideration timing and seasonality of cash inflows and outflows, based on conversations with UPR finance and accounting management, and based on observations for historical FY20 and FY21 actual cash flow data.

The forecast contains projections of cash receipts (which include revenues collected from operations; intergovernmental receipts – general fund appropriations and other transfers from Central Government and public corporations; disaster relief receipts and other federal funds), and cash disbursements (which include operating payments – e.g. payroll and related costs, purchased services, professional services, transportation expenses, disaster relief disbursements – e.g. expenditures related to the damages caused from Hurricanes and other disasters), and CapEx. This cash flow information is included in section “A” of this report.

UPR is also expected to report monthly headcount figures in order to monitor changes in staff levels and their actual and projected effects on payroll costs. This information is presented in the document under section “B”.

A full year FY22 Sources and Uses of Funds is provided to allow readers to bridge the beginning cash balance as of July 1, 2021 and forecasted ending cash at June 30, 2022. This information is presented in the document under section “C”.

This report also contains pertinent working capital information for UPR. Where available, UPR has provided information on Accounts Payable and Accounts Receivable. Figures are unaudited and subject to change. This information is presented in the document under section “D”.

The report contains three Appendix items. The first Appendix is the cash flow template ‘Actual vs Liquidity Plan’ for the month of February 2022 of FY22 figures and variances. The second Appendix is the headcount detail, which is based on information provided by UPR management. The third of these Appendix items is a cash reconciliation. A bridge is provided between the actual cash data provided by UPR as of February 28, 2022 and the February 2022 AAFAF reported figures represented in the “Summary of Bank Account Balances for the Government of Puerto Rico and its Instrumentalities”.

- g. (\$17.2M) unfavorable timing variance in Total Payroll & Related Costs (Including Medical Plan), which is temporary as we expect to approximate budget amounts during the FY22.
