Professional and Consulting Services for Project Management for FY 2023-2024

Pursuant to OE-2021-029 and OGP Circular Letter 013-2021, the Puerto Rico Health Insurance Administration (PRHIA or “Administración de Seguro de Salud” or ASES for its Spanish acronym) is soliciting proposals for professional and consulting services in the area of project management.

Background:

Pursuant to Title XIX of the Federal Social Security Act, codified as 42 USC 1396 et seq. (“the Social Security Act”), and Act No. 72 of September 7, 1993, of the Laws of Puerto Rico (“Act 72”), as amended, a comprehensive program of medical assistance exists in Puerto Rico. The Puerto Rico Health Department (“the Health Department” or PRHD) is the single State agency designated to administer medical assistance in Puerto Rico under Title XIX of the Social Security Act of 1935, as amended, and is charged with ensuring the appropriate delivery of health care services under the Medicaid and the Children’s Health Insurance Program (“CHIP”) in Puerto Rico. ASES manages these programs pursuant to a delegation of authority.

ASES is a public corporation with autonomy to develop and execute the terms of its organic law - Act Number 72. As part of its responsibilities, ASES contracts with Managed Care Organizations (MCOs) to provide health services to persons who are eligible for Medicaid and other Enrollees, as established by applicable law. It also contracts with a Pharmacy Benefit Manager (PBM) to administer and provide pharmacy benefits and manage the Medicaid Drug Rebate Program (MDRP). Pursuant to this statutory provision, ASES has established a managed care program under the medical assistance program, known as “Government Health Plan”, GHP,” or “Plan Vital”. The GHP serves approximately 1,298,116 beneficiaries.

The purpose of the notice is to publicize that ASES has a need for services that will potentially result in the contracting of the following professional services:

- a. Project management services for the administration of ASES’ strategic plan and public policy initiatives including but not limited to representation of ASES in connection to compliance with the requirements established by Public Law 116-94, which mandated that Puerto Rico define its strategy and roadmap to comply with initiatives related to Contract Reform, Contract Oversight, Program Integrity, and Financial Reporting.
- b. Consulting services and advisement to ASES on aspects of the on-going transformation activities of the Medicaid initiatives (Puerto Rico’s Medicaid Enterprise System).
- c. Assist ASES in the provision of reports to Congress and the Center for Medicare and Medicaid Services (CMS) related to Puerto Rico’s Medicaid Enterprise System and the differences between Puerto Rico’s program and other similar State Programs.

- d. Assessment of the progress and current status of the specific requirements and initiatives related to the implementation plans adopted to comply with the mandates of P.L. 116-94.
