INTRODUCTION

Puerto Rico Health Insurance Administration

Description	The Puerto Rico Health Insurance Administration, hereinafter known as PRHIA or ASES, is a government corporation created in accordance with the Act No. 72 of September 7, 1993 as amended, also known as the "Puerto Rico Health Insurance Administration Act". PRHIA is created with the purpose of management, negotiation and contracting of health insurance plans that enable it to obtain, for its beneficiaries, particularly the medically needy, quality hospital services.
Responsibilities	Moving in that direction, PRHIA is the entity responsible of the negotiation, in representation of the Puerto Rico Health Department, the federal coverage authorized by CMS (this is, Medicare Platino and Federal PRGHP, which is constituted by the programs Medicaid and CHIP), with the corresponding health insurance companies. In addition, PRHIA manages issues of contracting related to the coverage provided by the State Puerto Rico Government Health Program "PRGHP" which addresses the State or Commonwealth Population which is found to be non-eligible to receive the benefits under a federal coverage classification with the contracted health insurance companies. Also, the PRHIA is charged with the administration of the services provided to the eligible beneficiaries under various health programs including the Platino Program and is responsible of executing the daily informatics operations and promoting its good performance. The PRHIA Information Systems Office is responsible of the management and processing of the enrollments for all the beneficiaries that are recipient of the services that the government administrated health insurance plans provide and is also responsible of validating the processes in progression to the payments of the contracted health insurance premium.

About This Document

Description	This document constitutes a reference manual designed with the purpose of aiding the Medicare Advantage Organizations (MAO) contracted by the PRHIA, in the Beneficiary enrollment processes. Within it, the topics about eligibility and enrollment related to transactions that are processed daily at the PRHIA Information Systems Office are addressed, and the implications that these transactions have over the enrollment processes and the corresponding premium payments are discussed. This version of the reference manual represents the first since the VITAL Program became operational on November 1, 2018. With its introduction, the VITAL Program received its very own Enrollment Manual and to that effect, this document delivers an exclusive reference of the enrollment processes for the Platino Program.

Purpose	This Enrollment Manual acts as the main support document for the Platino Program Enrollment Processes.
Content Highlights	Among the particular topics addressed, the following are noteworthy: the initial determination of eligibility and the transmission of the records of eligibility of the Beneficiary from the Medicaid Program, information contained within the enrollment records, daily Beneficiary enrollment processes (like the processing of new enrollments, updates, rejections and disenrollments), information exchange between the PRHIA and the health insurance companies, premium payment processes and the enrollment of beneficiaries in historical data archives. This document also contains tables, diagrams and examples that will help in the process of understanding all of the mentioned transactions which in turn will improve the efficiency and enable that the tasks related can be completed within the corresponding timeframes agreed with a successful outcome.

TERMS AND CONCEPTS

Definitions

Adjustments	A payment adjustment is calculated when there is a need to reverse a payment that was awarded to a Contractor during a previous premium payment process.
ASES	Puerto Rico Health Insurance Administration (ASES for its acronym in Spanish). It is a public corporation created by Law in order to manage MCO services administered to the eligible population. Specifically, it is the organization responsible for the supervision and management of the Puerto Rico Government Health Insurance Plan (State and Federal GHP). In addition, it is the entity responsible for contracting the Medicare Advantage Organizations that will provide managed care to beneficiaries of the Platino Program. It also develops and supervises the administrative functions related to the beneficiaries' enrollment, providers, claims and premium payments.
ASES Information Systems Department	The Information Systems Office is the Department responsible of the management and processing of the enrollments for all the beneficiaries that are recipient of the services that the government administrated health insurance plans provide and is also responsible of validating the processes

	in progression to the payments of the contracted health insurance premium.
Beneficiary	A person who is eligible to receive services under a State GHP (State Population), Federal GHP (Medicaid and CHIP) Program or Platino Program, by virtue of federal and local laws and regulations.
Business Day	Every official working day of the week (Monday, Tuesday, Wednesday, Thursday, Friday). Puerto Rico holidays are excluded.
Calendar Days	The seven days of the week, except as otherwise stated.
Cancellation Date	The date in which a member loses his or her eligibility for the GHP Program. The Medicaid Office is the only entity with the authority to cancel an enrollee's eligibility.
Contractor	Provides Managed Care Services to beneficiaries. It is responsible for contracting with PMG's, PCP's and other providers. The Contractor charges ASES a PMPM Premium for its services.
Centers for Medicare and Medicaid Services (CMS)	The agency within the U.S. Department of Health and Human Services which is responsible for the Medicare, Medicaid and the Children's Health Insurance Plan (CHIP).
Certification	A decision by the Puerto Rico Medicaid Program that a person is eligible for services under the GHP Program because the person is Medicaid Eligible or a member of the Commonwealth Population.
Certification Date	Date in which a person visits the Medicaid Program to apply for healthcare services and receives a favorable decision by the Puerto Rico Medicaid Program that a person is eligible for services under the GHP Program because the person is Medicaid Eligible, CHIP Eligible, or a member of the State Population.
Contractor	The Managed Care Organization that is a Party of this Contract, licensed as an insurer by the Puerto Rico Commissioner of Insurance ("PRICO"), which contracts hereunder with ASES under the GHP program for the provision of Covered Services and Benefits to Enrollees on the basis of PMPM Payments.
Coverage Code	Code assigned by the Medicaid Program of Puerto Rico to all beneficiaries eligible to receive healthcare services under Federal and State GHP. This code establishes the level of indigence and, therefore, the Plan Type that should apply according to such a code. In the State GHP plans ("Commonwealth Population") the coverage code will coincide with the Plan Version.
Daily Run Processes Date	Day on which the validation processes of the data received from the Medicaid Program or the Contractors is carried out. These processes are carried out daily in the ASES Information Systems Office.

Data	A series of meaningful electrical signs that may be manipulated, assigned or data set: demographic. Health or other information elements suitable for specific use.
Disenrollment	The process by which an Enrollee's membership in the Contractor's Medicare Platino terminates.
Dual Eligible Beneficiaries	An Enrollee or potential enrollee eligible for both Medicaid and Medicare Programs.
Effective Date of Disenrollment	The date on which an Enrollee ceases to be covered under the Contractor's Plan.
Eligibility Effective Date	The period of eligibility specified for the population covered under the GHP Plan.
Enrollment Effective Date	Date on which the Contractor enrolls a Beneficiary in its database.
PCP Effective Date	Date on which a PCP1 or PCP2 change becomes effective.
Recertification Date	Date on which the Medicaid Program reevaluates a Beneficiary's eligibility.
Eligibility	Eligibility is determined by the Medicaid Program of the Puerto Rico Department of Health. Once the applicants are certified as eligible by the Medicaid Program, ASES is responsible for administering posterior business processes related to the provision of medical attention services.
Eligible Person	A person whom the Department of Health and/or the federal government determines to be eligible for Medicaid and who meet all other conditions for enrollment in the Medicare Platino Program.
Enrollee	An Eligible Person who, either personally or through an authorized representative, has enrolled in the Contractor's Medicare Platino Product.
Federal GHP	Program that offers coverage to the eligible population under the Medicaid Program.
Government Health Insurance Plan (GHP)	The Government Health Services Program (formerly referred as "La Reforma" or "Vital") offered by the Government of Puerto Rico, and administered by ASES, which serves mixed population of Medicaid Eligible, CHIP Eligible, and other Eligible Persons, and emphasizes integrated delivery of physical and behavioral health services.
Identification Card (ID)	Insurance Card that the Contractor offers to the Beneficiary, which identifies said Beneficiary by his name and contract number, and includes information about coverage, copayments, and customer service and health counselor phone numbers.

Managed Care Services	The services provided to the Beneficiaries by the doctors who belong to the network of preferred providers in their Primary Medical Group (PMG). The Primary Care Physician (PCP) is the primary service provider and responsible for periodically evaluating the Beneficiary's health and coordinating medical services.
MA-10	Form issued by the Puerto Rico Medicaid Program, entitled "Notice of Action Taken or Application and/or Recertification" containing the Certification decision (whether a person was determined eligible or ineligible for Medicaid, CHIP, or the Commonwealth Population).
Master Patient Index (MPI)	Unique number which identifies a Member in ASES and the Medicaid databases.
Medicare Advantage Organization (MAO)	A public or private organization licensed by the Insurance Commissioner Office of Puerto Rico as a risk-bearing entity that is under contract with CMS to provide the Medicare Advantage Benefit Package.
Medicaid	The medical assistance federal/state joint government program established by Title XIX of the Social Security Act. It also refers to the Program through which, in Puerto Rico, eligibility is determined for the Government Health Insurance Plan for an individual with low income, no income or limited resources, in compliance with regulations established by the Federal government and the Commonwealth of Puerto Rico.
Medicare	The Federal Program of medical assistance for persons over sixty-five (65) and certain disabled persons under Title XVIII of the Social Security Act.
Medicare Beneficiaries	People older than sixty-five (65) years of age or disabled or people who have kidney conditions, who are eligible for Medicare Part A coverage which covers hospital services or Parts A and B, which cover hospital, ambulatory and medical care services.
Medicare Part A	The part of the Medicare program that covers inpatient hospital stays, skilled nursing facilities, home health and hospice care.
Medicare Part B	The part of the Medicare program that covers physician, outpatient, home health, and preventive services.
Medicare Part C	The part of the Medicare program that permits Medicare recipients to select coverage among various private insurance plans.
Medicare Platino	A program administered by ASES for Dual Eligible Beneficiaries, in which Managed Care Organizations (MCOs) or other insurers under contract with ASES function as Part C plans to provide services covered by Medicare, and also provide a "wraparound" benefit Covered Services and Benefits under the GHP.

National Provider Identifier (NPI)	The unique identifying number system for health care providers created by the Centers for Medicare and Medicaid Services (CMS), through the National Plan and Provider Enumeration System.
Plan	The Contractor's Managed Care Plan offering services to enrollees under the GHP.
Plan Type	Code 01: VITAL (GHP); Code 02 Medicare Platino.
Plan Version	Product identification number that corresponds with the Plan Type. For GHP Plans, the Plan Version will be the same as the coverage code assigned to the beneficiaries by the Medicaid Program. For Platino Plans, ASES will assign a Plan Version code for each contracted product.
Platino Health Plans	Medicare Advantage Organization (MAO) contracted with ASES. They have specific plans that cover beneficiaries with dual eligibility (Medicare Part A and Part B). ASES pays a monthly premium to these insurance companies to cover a differential between ASES and Medicare Advantage ("wraparound" benefit).
Premium Payment (PMPM Payment)	The fixed monthly amount that the Contracted Contractor is paid by ASES for each Enrollee to ensure that benefits under this contract are provided. This payment is made regardless of whether the enrollee receives benefits during the period covered by the payment.
Potential Enrollee	A person who has been certified by the Puerto Rico Medicaid Program as eligible to enroll in the GHP Program whether on the basis of Medicaid Eligibility, CHIP eligibility or eligibility as a member of the Commonwealth Population, but who has not yet enrolled with the Contractor.
Primary Care Physician (PCP)	A licensed medical doctor (MD) who is a provider and who within the scope of practice and in accordance with Puerto Rico Certification and licensure requirements, is responsible for providing all required by Enrollees, provides continuity of care, and provides referrals for medicine physician, obstetrician/gynecologist, or pediatrician. This type of provider is contracted as part of the PMG on a PMPM basis.
Primary Medical Group (PMG-IPA)	A grouping of associated Primary Care Physicians and other Providers for the delivery of services to GHP Enrollees using a coordinated care model. PMGs may be organized as provider care organizations, or as another group of Providers who have contractually agreed to offer a coordinated care model to GHP Enrollees under the terms of the Contract. This Type of provider is contracted by the Contractor on a PMPM basis.
Process Date	For the export file (.exp) it is the date related to the daily run process. For the enrollment files (.sus) it is the date in which the changes in the enrollment records were processed at the Contractor. In the case of a new enrollment under a Platino Plan, it refers to the date on which the Beneficiary contracted the coverage services with the corresponding Contractor. In Platino plans,

	the Process Date must be prior to the Effective Date of the new enrollment or the change in question, but subsequent to the three (3) months prior to the Effective Date of the new enrollment or change.
Provider	A natural Person or facility authorized to offer healthcare services under the laws of the Government of Puerto Rico.
Re-enrollment	Refers to the process of re-enrollment for a Beneficiary of Federal GHP (Medicaid or CHIP) or State GHP (State Population) or Platino who has lost eligibility for a period of two (2) months. A Platino Medicare Beneficiary that recovers his/her eligibility within a period of two (2) consecutive months, may be enrolled automatically and prospectively under the Platino Medicare plan of the Contractor in question.
Recertification	A determination by the Puerto Rico Medicaid Program that a person previously enrolled in the GHP subsequently received a Negative Redetermination Decision, is again eligible for services under the GHP Program.
Retroactive Payment	Refers to a payment that corresponds to a period prior to the month in which the premium payment is made.
Special Adjustments	The special adjustments are carried out as a result of internal audit processes that reveal that a wrongly adjudicated payment must be reverted or that, on the contrary, an omitted payment must be adjudicated.
State Population	A group eligible to participate in the GHP as Other Eligible Persons, with no Federal participation supporting the cost of their coverage, which is comprised of low-income persons and other groups.
SYSPREM	System that provides for the enrollment of a Beneficiary in historical data. It allows the update and/or enrollment of data that corresponds to eligibility periods prior to the cancellation period of the eligibility of a Beneficiary or before an enrollment to a different Contractor comes into effect.
SYSRETRO	Term used by ASES which means retroactive eligibility record.
Eligibility Concepts	
Eligibility Determination	For each applicant to the Government Health Insurance Plan, hereinafter GHP, an eligibility determination precedes to the enrollment and premium payment processes performed at the ASES Information Systems Office. The Medicaid Program of the Commonwealth of Puerto Rico, which administers the Puerto Rico Medical Assistance Program, is the entity with authority to determine whether a person is eligible to receive medical services under the Federal GHP (Medicaid and CHIP) and State GHP (Commonwealth Population). The Medicaid Program is also responsible for certifying that a potential Platino Beneficiary is eligible to receive Medicaid coverage. The evaluation of the eligibility to each of the programs is based on criteria

	that comply with applicable state and federal regulations. Generally, the guiding criterion for determining the eligibility of an individual for the State GHP or Federal GHP is the level of income and its correlation with the levels of indigence. In the case of Platino Medicare plans, the age of the applicant (65 years or more) or the disability status as referred to in Title XVIII of the Social Security Act are considered. In any of the categories of the health plans, beneficiaries are annually certified. This means that normally their eligibility is extended for a period of one (1) year on each successful certification. Nevertheless, for Platino Medicare plans, the enrollment period may be extended for a period of eighteen (18) months. In those cases, in which the Medicaid Program had granted a period of eligibility of less than twelve (12) months, the period of enrollment will correspond to the shorter period granted.
MA-10	The determination of eligibility of the Puerto Rico Medicaid Program granted to an applicant under both GHP programs is contained in the Form MA-10 which is provided to the Beneficiary on the day it is certified. The potential Beneficiary may receive covered medical services by submitting the Form MA-10 to the health care provider from the day they were certified by the Medicaid Program until the day they receive their health insurance card by regular mail. Only eligible applicants for Federal GHP (Medicaid and CHIP) and State GHP (State Population) receive a Form MA-10 and can access covered medical services by submitting it.
Eligibility Effective Date	The Effective Date of Eligibility for purposes of a Medicaid or CHIP Potential Enrollee is the first day of the month in which the Medicaid Office determines eligibility. This should be the same date indicated as the eligibility period on the Form MA-10. When an Enrollee re-certification is filed, and the Enrollee is again eligible, as determined by the Medicaid Office, the Effective Date of Eligibility for the subsequent period is generally the 1st of the month after eligibility expires from the previous eligibility period. If an Enrollee does not apply for Re-certification at the Medicaid Office once his/her eligibility period has expired, the eligibility for the GHP is lost. This will happen even in cases in which the Enrollee's eligibility was lost for at least one (1) day. The Effective Date of Eligibility for a new eligibility period for these cases will be the first (1st) day of the month of the new application for certification. The Effective Date of Eligibility for the State Population is the eligibility period specified on the Form MA-10, and Potential Enrollees are eligible to be enrolled as of that date. Recertification for State Enrollees in which the Enrollee is found eligible again, the Effective Date of Eligibility is the first (1st) day of the month after the current eligibility expires. The date of certification for State beneficiaries will be when the certification is completed. If a State Enrollee's eligibility period expires before re-certification, the State Enrollee's eligibility will be processed as a new case and the Effective Date of Eligibility will be the new Effective Date of Eligibility provided in Form MA-

ADMINISTRACION DE SEGUROS DE SALUD
Contrato Número
20-002

	10.
Certification Date and its Relationship with the Effective Date	The date on which the Medicaid Program issued an eligibility determination is known as the Certification Date. Under the State GHP the Effective Date will always coincide with the Certification Date and it would mark the beginning of the eligibility period granted to the Beneficiary. Under Federal GHP (Medicaid and CHIP), the Effective Date will fall in the first day of the month in which the Beneficiary is certified by the Medicaid Office. In both cases, the Certification Date is provided on Form MA-10.
Dual Eligible	An Enrollee or Potential Enrollee eligible for both Medicaid and Medicare (Part A or Part A and B).
Enrollment Concepts	
Effective Date of Enrollment	The Effective Date of an Enrollment refers to the date that a Contractor establishes as the beginning of the coverage period for a Beneficiary. The Effective Date for a Beneficiary's Enrollment under a Platino Medicare Plan will fall on the first day of the month in which the name of the Beneficiary appears on the CMS Prepaid Premium Plans List and on the first day of the month in which it appears enrolled in the Platino Medicare plan of the Contractor in question. Said information should be provided to ASES in the Enrollment Record's Effective Date data field.
PCP/PMG Change Enrollment Effective Date	If an enrollee changes PCP/PMG during the first five days of the month the change will be effective in the subsequent month. If an enrollee changes PCP/PMG after the fifth day of the month the change will be effective in the second month subsequent to the change. The enrollees can still receive services until the change is effective through the original PCP/PMG assigned by the Contractor.
Process Date	The Process Date has relevance both in cases of new enrollment of a Beneficiary and in cases of changes of PMG, PCP or Plan Version in relation to a record of enrollment of a Beneficiary. In the case of a new enrollment under a Platino Plan, it refers to the date on which the Beneficiary contracted the coverage services with the corresponding Contractor. This could be, also, a date provided by the Contractor that identifies the day on which a change of PMG/PCP or Plan Version in the record of a Beneficiary's enrollment was processed in its databases. In Platino plans, the Process Date must be prior to the Effective Date of the new enrollment. However, it must not go back beyond three (3) months prior to that Effective Date.
Transfer of Beneficiaries to Platino Products	Medicare Advantage beneficiaries who are granted Medicaid coverage may elect to transfer to the Medicare Platino products offered by their preferred Contractor or may enroll to Medicare Platino products available to dual eligible individuals. In these cases, ASES and the Contractor must process a

	new enrollment for the purpose of transferring the Beneficiary of the Medicare Advantage product to Medicare Platino. To the extent possible, such enrollments will be effective on the first day of the month in which the Beneficiary's Medicaid coverage is effective.
Recovery of Eligibility and Prospective Enrollment	In those cases in which the enrollment of a Platino Medicare Beneficiary is canceled due to the loss of eligibility under the Medicaid Program, but which recovers that eligibility within a period of two (2) consecutive months, it may be enrolled automatically and prospectively under the Platino Medicare plan of the Contractor in question assigning the same PCP/PMG in which the Beneficiary was previously enrolled.
Retroactive Enrollment for Platino Plans	For Platino plans, the enrollment may be extended retroactively from six (6) to eighteen (18) months prior to the date on which the Beneficiary's enrollment is processed at ASES. That is, the Information Systems Office of ASES may accept an enrollment of a Beneficiary of the Platino Plan for up to eighteen (18) retroactive months as long as the limits of the period to be enrolled fall within periods of eligibility granted by the Medicaid Program.

PLATINO PROGRAM ENROLLMENT PROCESS

Main Process

Description	ASES is able to employ a variety of methods for the purpose of subscribing persons who are eligible to receive coverage under Medicare Platino plans. This includes enrollment assisted by Platino Contractors, enrollment by ASES or a combination of both. The procedure used for the enrollment under the Platino Medicare Program is described below.
Eligibility Query Preceding a Medicare Platino Enrollment *See Reference C for Files Nomenclature	**Step 1a: CMS Query/Enrollment:** The Contractor requests a verification of a Beneficiary's eligibility for the Medicare Program with CMS and proceeds to enroll the Beneficiary accordingly. **Step 1b: ASES Query:** Through a file (".qry"), the Contractor requests to ASES a verification of a Beneficiary's eligibility for the Medicaid Program.
	Step 2: Response: ASES processes this query file and sends a response to the request in a file (.res). This file includes information regarding the Beneficiary's eligibility for the Medicaid Program, Medicaid Program specification for which the Beneficiary is eligible (federal or state), and the data that identifies the Beneficiary in the database, both at Medicaid and ASES.
	Step 3: Enrollment: If the Beneficiary is eligible for Medicaid coverage, the Contractor will complete an enrollment record that will include data corresponding to the health plan under which the Beneficiary is to be enrolled.
	Enrollment Rejections: **Step 4a: Enrollment File Integrity Validation Rejections:** While processing the enrollments file it is possible for an integrity validation error to occur. In these cases an error file (.err file) will be produced and a corrected version of the file in question should be resubmitted by the Contractor. The

	length of the content of the required fields, the region and the data source is considered. **Step 4b: Enrollment Records Data Quality Validation Rejections:** While processing the enrollments file it is possible for a data quality validation error to occur. In these cases a rejection file (.rjc file) will be produced and a corrected version of the file in question should be resubmitted by the Contractor. **Step 4c: Validated Enrollment Records:** Once appropriately validated, ASES will edit and update the data in the electronic enrollment record to identify the individual as a Platino Medicare Beneficiary. A daily export (.exp) file is then sent to the Contractor that contains the data that shows the Beneficiary's enrollment to Medicare Platino.
	Step 6: PCP/PMG and Plan Version Enrollment Updates: Further enrollment updates for a given enrolled Beneficiary may be submitted by the Contractor to notify ASES of changes in the Beneficiary's enrollment pertaining to the PCP/PMG and Plan Version. Such enrollment updates will be submitted as enrollment records that will be subject to the processes, validations, corrections and resubmissions described in steps 3 thru 4c.
Enrollment Record	
Description	The enrollment record that is used by Contractors to notify ASES of the enrollment of a Beneficiary contains a series of data that are used for the purpose of informing the details of the enrollment made and to verify the accuracy and certainty of these. The enrollment transaction is the Contractor's confirmation and guarantee that the enrollee has been successfully enrolled in the Contractor databases and that a Platino Welcome Package or membership card has been sent to the enrollee. The Platino Program plans contracted with ASES require the assignment of Primary Care Physicians (PCPs) to beneficiaries by the Contractors. The enrollment record includes these fields as well as the Plan Type and the Plan Version. The enrollment record also reports the date in which a Beneficiary has been processed by the Contractor and the Effective Date of Enrollment.
Enrollment Record Fields	
RECORD_TYPE	In every case, and regardless of the transaction in question, this field requires the insertion of code "E" that identifies the entry as an enrollment record for both new enrollments of beneficiaries and changes on records of beneficiaries previously enrolled.
TRAN_ID	This field allows the ASES systems to identify the action to take on the record submitted. It can contain one of the values listed below. E=new enrollment C=Carrier change V= Version change I=IPA change 1=PCP1 change

*See Reference A for supporting information.		2=PCP2 change 3=PCP1 and PCP2 change
	E	New Enrollment. This value identifies that the record is a new enrollment for a Beneficiary who has not been previously enrolled or that is currently inactive. For transactions previously enrolled, either by the same Contractor or one that is different from the previous enrollment, a "C" would be inserted. Note: For New Enrollments("E"): The system will require all fields related to information about the Contractor, Plan Type, Plan Version, PMG and PCP1 to be completed. The PCP2 information will remain as optional information for some cases.
	C	Contractor Change. Used when the Beneficiary has selected a different Contractor than the one in which he/she is presently enrolled. It is also used for initial enrollment in Platino Plans when the beneficiaries were previously enrolled in a GHP plan and they opt to change to Platino. Note: For Change of Contractor Transactions ("C"): The system will require registering the name of the new Contractor and inserting information regarding the Plan Type, Plan Version, Primary Medical Group, PCP1 and PCP2 (optional) and Card Issue Date as the Process Date of the enrollment.
	V	Plan Version Change. For Platino Contractors, it implies a change from a product the Contractor offers to one which is identified under the same Plan Type. This transaction code is also used when a GHP Beneficiary's coverage code changes. In these cases, the Contractor must reissue a health plan ID card displaying the new benefits, and submit a version change enrollment record to ASES where the version number corresponds to the new coverage code. **Failure to submit said information to ASES, will trigger an automatic disenrollment of the Beneficiary from the Contractor that omits the timely submission.** While in these circumstances the Beneficiary continues being eligible to receive the medical services, the Contractor will remain unable to claim a premium payment for said Beneficiary until a submission of the required information is performed. Note: For Plan Version Change Transactions ("V"): The Contractor code and Plan Type information provided must match the information in the ASES databases. Only information regarding the new assigned Plan Version will be provided. Information should also be provided in relation to the PMG and PCP1 Center.
	I	Primary Medical Group (PMG) Change. It is used to register, in ASES, a change in the beneficiaries' selected PMG under the same Contractor, Plan Type and Version. Note: For PMG Change Transaction ("I"): Information regarding the Contractor, Plan Type and Plan Version must match the information contained in the ASES databases. Only new information will be sent to

	ASES regarding the new PMG that corresponds to the Beneficiary.
1	PCP1 change. It is used to register, in ASES, a change in the beneficiaries' selected PCP1 under the same Contractor, Plan Type, Version and PMG. Note: For Change of PCP1 Transactions ("1"): It will be necessary that the information of Contractor, Plan Type, Plan Version and PMG provided coincide with the information contained in the ASES databases. It will be necessary to submit the new information regarding the change in PCP1 and it will not be necessary to provide information on the PCP2.
2	PCP2 change. It is used to register, in ASES, a change in the beneficiaries' selected PCP2 under the same Contractor, Plan Type, Version and PMG. Note: For Change of PCP2 ("2") Transactions: It will not be necessary to provide information about the PCP1. The only information allowed to differ with the one contained in the ASES records will be the one related to the PCP2.
3	PCP1 and PCP2 change. It is used to register, in ASES, a change in the beneficiaries' selected PCP1 and PCP2 under the same Contractor, Plan Type, Version and PMG. Note: For Change of PCP1 and PCP2 ("3"): It will be necessary to submit new information regarding the assigned PCP1 and PCP2. The information provided regarding the other fields should remain unchanged.
PROCESS_DATE	Process Date. Refers to the date on which the Beneficiary contracted the coverage services with the corresponding Contractor. It also refers to the date on which the Contractor processed a change in PMG, Plan Version, Plan Type or PCP.
REGION *See Reference B for supporting information.	Contains the region code assigned by ASES. This code must correspond to the region assigned to the Beneficiary in the ASES database. ASES is responsible for assigning this code to Platino Contractors. The Platino Plan Contractors obtain this code directly from ASES after a request process initiated for these purposes.
CARRIER	Two-digit Platino Contractor code assigned by ASES to each of the Contractors with the purpose of identification.
MEMBER_PRIMARY_CENTER	Primary Medical Group (PMG) code.
ODSI_FAMILY_ID	Eleven (11) last digits of the MPI number assigned by the Medicaid Office. Platino Contractors obtain this code from the ASES query response.
MEMBER_SSN	Social Security number of the member. It is required that this number matches with the one for the member in the ASES database.
	Two-digit number which identifies a member within a family. This is the

MEMBER_SUFFIX	second part of the identifier for the beneficiaries in the ASES database.
EFFECTIVE_DATE	Date in which the Contractors start providing coverage for the Beneficiary under the enrolled Plan or the change for which the enrollment record was submitted becomes effective. This date also refers to the date in which the PMG, PCP or Plan Version change becomes effective.
PLAN_TYPE	Plan Type code that identifies the one under which the member is enrolled.
PLAN_VERSION	Plan Version code that identifies the one under which the member is enrolled.
MPI- Master Patient Index.	It is a unique number that identifies a member in the ASES and Medicaid Program's databases.
PCP1	PCP1's NPI number. It is used to identify the PCP1 assigned by the Contractor or selected by the beneficiaries.
PCP1_EFFECTIVE_DATE	Date in which the PCP1 assignment became effective. If there is a change of PCP1, the initial PCP1 Effective Date will be kept until the Effective Date of the PCP1 Change has been reached.
PCP2	PCP2's NPI number. It is used to identify the PCP2 assigned by the Contractor or selected by the beneficiaries.
PCP2_EFFECTIVE_DATE	Date in which the PCP2 assignment was effective. If there is a change of PCP2, the initial PCP2 Effective Date will be kept until the Effective Date of the PCP2 Change has been reached.
FAMILY_PRIMARY_CENTER	Not in use.
PMG_TAX_EFF_DT	Date in which the assignment of the Beneficiary's PMG became effective.
IPA_PCP_CHANGE_REASON	This field is not currently in use.
MEDICARE INDICATOR	Required for Platino enrollments only. (01=A&B, 03=A, 09=B).
Health Insurance Claim Number (HICN Number)	MBI Number. Refers to the number assigned by the Social Security Administration to an applicant with the purpose of identifying him as a Medicare Beneficiary. The HICN appears in the Beneficiary's insurance card. All Medicare Beneficiary claims are processed according to this number. It is required for Platino beneficiaries' enrollment.
Additional Data Elements	When a Beneficiary's record is validated, the ASES system enters the following data in the enrollment record.
REJECT IDENTIFIERS	A = Accepted Enrollment M = Accepted Retroactively R = Rejected Enrollment

A = Accepted Enrollment	Identifier = "A": Identifies an accepted enrollment that will be applied on a current or future effective date. In this case, the update process moves the enrollment fields of the Contractor, Plan Type, Plan Version, PMG and PCP to the fields intended for new enrollments in the Beneficiary record. Until such time as the new Effective Date is reached, the Beneficiary will remain under the current enrollment condition (same Contractor, Plan, Version, PMG and PCP). During the end-of-month cycle, the new fields are moved to the current fields and the enrollment becomes effective.
M = Accepted Retroactively	Identifier = "M": Indicates a retroactive enrollment. In these cases, Enrollment data (Contractor, Plan Type, Plan Version, PMG and PCP) are updated directly in the Beneficiary's historical record.
R = Rejected	Reject Identifier "R": In cases when an enrollment record is not successfully processed because an error has been identified, it indicates a record returned for correction.
Reservation Number	Not applicable to Platino enrollments.
Error Codes one (1) to ten (10)	It is possible to record up to ten (10) error codes.
Update Date	Date for which the validation is run. Corresponds to the date of the daily cycle the validation run was a part of.
Update User	ASES internal user code.
IPA_ESPECIAL	Not applicable to Platino enrollments.
CONTRACT NUMBER	Contract number assigned by the Contractor. It should be the number by which the member is identified in the Contractors' ID card and internally in their database.
SPECIAL ENROLL	Not applicable to Platino enrollments.
PMG Tax ID	Include PMG Tax ID Number.
Data Source	**Specify "MA" for Platino enrollments.**
Enrollment Record Rejection	
Description	An enrollment record related to any type of enrollment, modification or update transaction could be rejected if it does not pass the validation tests at the ASES systems. As mentioned above, rejected enrollments are sent daily to Contractors in a rejection file (.rjc) that includes error codes for records that have not successfully passed the validation process. Contractors must correct identified errors and resubmit the corrected records to ASES with the next file submission.

ERROR CODES	This section addresses the Platino Error Codes produced by the ASES validation process.
011	The Record Type field contains an invalid code.
021	The Tran Id field is blank.
022	The Tran Id field content does not indicate a Prospective MCO Change ("C"), but the Data Source field content indicates the transaction comes from the Enrollment Counselor ("CO", "JC").
032	The Process Date field contains a date before 2010.
035	The Plan Type indicates a Platino Beneficiary transaction for a non-Retroactive Eligibility period (Special Enroll is different from "T"), but the Process Date field contains a date on or after the Effective Date or earlier than three (3) months before the Effective Date.
036	The Process Date field contains a date earlier than three (3) months before the PCP1 Effective Date.
037	The Process Date field contains a date earlier than three (3) months before the PCP2 Effective Date.
038	The Process Date field contains a date earlier than three (3) months before the PMG Tax Id Effective Date.
041	The Region field is empty.
042	The Region field content does not correspond with the region in process.
043	The Region field content indicates a Beneficiary that is part of the Foster Children and Domestic Abuse Victims Population ("P"), but the Data Source field content indicates a transaction that comes from a Vital MCO performing a Prospective Enrollment (Tran Id = "C") or a transaction that comes from the Enrollment Counselor or a Platino Contractor.
051	The Contractor field is blank.
052	The Contractor field contains an invalid code in general or in the context of the Data Source field content.
053	The Tran Id field content indicates a Future Enrollment Transaction ("C") that does not come as a Just Cause Transaction from the Enrollment Counselor (Data Source is different from "JC") , but the Contractor field content indicates the same Contractor in which the Beneficiary is already enrolled.
055	The Contractor and Plan Type fields content indicates a combination for

	which an active contract, according to the Effective Date and Beneficiary's residential municipality, could not be found at ASES Contracted Contractors registry.
061	The Tran Id field content indicates an Enrollment Transaction at the Contractor ("E", "C"), Plan Version ("V") or PMG ("I") level and a PMG is required, but the PMG Tax Id field is blank.
062	The Tran Id field content indicates a PCP Enrollment Transaction ("1", "2", "3") and the PMG Tax Id field is populated, but the PMG Tax Id field contains an id that differs from the one enrolled at ASES.
071	The ODSI Family Id field is blank.
072	The ODSI Family Id field content is not of the appropriate length (11).
073	The ODSI Family Id field contains an id that was not found in ASES data.
081	The Member SSN field is blank.
082	The Member SSN field content is not of the appropriate length (9).
091	The Member Suffix field is blank.
092	The Member Suffix field content is not of the appropriate length (2) or is not "01".
093	The Member Suffix field contains a code that was not found in ASES data for the given ODSI Family Id.
101	The Effective Date field contains an invalid date.
102	The Effective Date field contains a date before 2015.
105	The Tran Id field content indicates that the transaction for a Platino Beneficiary is not about a PCP Change ("1","2","3") and the Effective Date field contains a date that is not the first of the month.
107	The Data Source field content indicates a transaction that does not come from the Enrollment Counselor and the Contractor field content does not come from a Vital MCO (but could be from a regional model MCO), but the Effective Date contains a date that falls within a previous eligibility period before a termination of eligibility.
109	The Effective Date field contains a date that falls within a Retroactive Eligibility Period and the Tran Id field content does not indicate a Retroactive Eligibility Transaction (Special Enroll = "T").
10D	The Special Enroll field content indicates a Late Eligibility Enrollment ("E"),

	but the Data Source or the Plan Type fields contents indicate a transaction that does not come from a Vital MCO.
111	The Plan Type field is blank.
112	The Data Source field content indicates a transaction that comes from the MCO, or the Enrollment Counselor, but the Plan Type field content indicates a Platino Beneficiary.
113	The Plan Type field contains a code that was not found in ASES Data for the given Contractor, Plan Version and Effective Date specified.
121	The Plan Version field is blank.
122	The Plan Version field content is not of the appropriate length (3).
123	The Plan Version field content is invalid for the given Effective Date.
131	The MPI Number field is blank, or its content is not of the appropriate length (3).
132	The MPI Number field contains a number that was not found in ASES data.
141	The Tran ID field content does not indicate a PCP2 Enrollment Transaction ("2"), but the PCP1 field is blank and a PCP1 is required.
142	The Tran ID field content indicates a PCP2 Enrollment Transaction ("2"), but the PCP1 field is not blank.
151	A PCP1 is required and the PCP1 Effective Date field contains an invalid date.
152	A PCP1 is required and the PCP1 Effective Date field contains a date before 2010.
153	The Tran ID field content does not indicate a PCP2 Enrollment Transaction ("2"), but the PCP1 Effective Date field is not blank and a PCP1 is not required.
154	The Tran ID field content indicates a PCP2 Enrollment Transaction ("2"), but the PCP1 Effective Date field is not blank.
155	The Tran Id field content indicates an Immediate Enrollment Transaction ("E") and a PCP1 is required, but the PCP1 Effective Date field contains a date after the ASES Daily Run Process Date.
156	The Data Source indicates a Platino Contractor transaction ("MA"), the Tran Id field content indicates a Contractor Change ("C") and a PCP1 is required, but the PCP1 Effective Date field contains a date on or before the ASES and

	not first of the month.
157	The PCP1 field is not blank, but the PCP1 Effective Date is blank.
158	The Tran Id field content indicates an Enrollment Transaction at the Contractor ("E", "C") or PMG ("I") level and the PCP1 field is populated, but the PCP1 Effective Date field content differs from the Effective Date field content.
161	The Tran ID field content indicates a PCP2 Enrollment Transaction ("2") or a PCP1 and PCP2 Enrollment Transaction ("3"), but the PCP2 field is blank.
162	The Tran ID field content indicates a PCP1 Enrollment Transaction ("2"), but the PCP2 field is not blank.
171	The Tran Id field content indicates a PCP2 or PCP1 and PCP2 Change and the PCP2 Effective Date field contains an invalid date.
172	The Tran Id field content indicates a PCP2 or PCP1 and PCP2 Change and the PCP2 Effective Date field contains a date before 2010.
173	The Tran Id field content indicates an Immediate Enrollment Transaction ("E") and the PCP2 field is populated, but the PCP2 Effective Date field contains a date after the ASES Daily Run Process Date.
174	The Data Source indicates a Platino Contractor transaction ("MA") and the Tran Id field content indicates a Contractor Change ("C"), but the PCP2 Effective Date field contains a date on or before the ASES and not first of the month.
175	The PCP2 field is not blank, but the PCP2 Effective Date is blank.
177	The Data Source field indicates that the transaction does not come from the Enrollment Counselor ("JC", "CO") and the Tran Id field content indicates an Enrollment Transaction at the Contractor ("E", "C") level, but an enrollment exists in ASES data with effective date on or after the date indicated by the Effective Date and a process date, if applicable, on or after the date indicated by the Process Date.
178	The Tran Id field content indicates an Enrollment Transaction at the Contractor ("E", "C") or PMG ("I") level and the PCP2 field is populated, but the PCP2 Effective Date field content differs from the Effective Date field content.
179	The Data Source field indicates that the transaction does not come from the Enrollment Counselor ("JC", "CO") and the Tran Id field content indicates an Enrollment Transaction at the Contractor ("E", "C") level, but a prospective enrollment exists in ASES data with effective date coinciding with the date indicated by the Effective Date and a process date on or after the date

	indicated by the Process Date.
181	The Tran Id field content does not indicate a Disenrollment Transaction ("D") and a PMG is required, but the PMG Tax Id field is blank.
191	The Tran Id field content indicates a PMG Change and the PMG Tax Id Effective Date field contains an invalid date.
192	The Tran Id field content indicates a PMG Change and the PMG Tax Id Effective Date field contains a date before 2010.
211	The Tran Id field content does not indicate a Disenrollment Transaction ("D"), the PMG Tax Id Effective Date field is blank and Federal Medicaid Coverage is required for enrollment, but the Beneficiary is not identified as a Federal Medicaid Enrollee at ASES data.
221	Multiple transactions were found for a given Beneficiary among Current or Retroactive Eligibility transactions.
222	The Tran Id field content indicates an Immediate Enrollment ("E"), but the Beneficiary is already enrolled in the same Contractor as the one indicated by the Contractor field content.
223	The Tran Id field content indicates an Immediate Enrollment ("E"), but the Beneficiary is already enrolled in a different Contractor than the one indicated by the Contractor field content.
224	(1)The Tran Id field content does not indicate a Disenrollment Transaction ("D") for a non-Retroactive Eligibility period (Special Enroll is different from "T") and the individual was not found to be eligible by the date indicated in the Effective Date field. (2) The Effective Date field contains a date that does not fall within a Retroactive Eligibility Period and the Special Enroll field content indicates a Retroactive Eligibility Transaction (Special Enroll = "T").
228	The Tran Id field content indicates a Plan Version Change ("V"), but the Data Source field content does not indicate that the transaction comes from a Platino Contractor, or the Contractor or Plan Type field content differs from the corresponding Enrollment data at ASES.
229	The Tran Id indicates a PMG Enrollment ("I"), but the Contractor, Plan Type or Plan Version field content does not match the corresponding Enrollment data at ASES.
22A	The Tran Id indicates a PCP Enrollment ("1", "2", "3"), but the Contractor, Plan Type, Plan Version or PMG Tax Id field content does not match the corresponding Enrollment data at ASES.
22B	The Tran Id field content indicates a PCP1 and PCP2 Change ("3") and the PCP1 Effective Date and the PCP2 Effective Date fields are populated but

	one of them is immediate and the other prospective when compared with the ASES Daily Run Process Date.
22D	The Tran Id field content does not indicate a Disenrollment Transaction ("D"), but the Effective Date, the PCP1 Effective Date, the PCP2 Effective Date or the PMG Tax Id Effective Date indicates a date that occurs later than four (4) months after the ASES Daily Run Process Date.
22G	The Data Source field indicates a transaction that comes from a Platino Contractor ("MA") and the Plan Type field content indicates a Platino Beneficiary ("02", "03"), but the Plan Version field contains a code that is not related to the Coverage Code of the Beneficiary at ASES data by the Effective Date specified.
230	The Data Source field is blank.
231	The Data Source field contains an invalid code.
232	The Data Source field content indicates the transaction comes from a Vital MCO or the Enrollment Counselor, but the Plan Type field is not "01".
233	The Data Source field content indicates the transaction comes from a Platino Contractor, but the Plan Type is not "02" nor "03".
251	The Tran Id field content does not indicate a Disenrollment Transaction ("D") and the Plan Type field content indicates a Platino Beneficiary, but the HIC Number field is blank.
280	Individual was found to be not currently eligible.
281	Individual was not found in ASES data.

DISENROLLMENT

Description	The process of a disenrollment occurs only when ASES or the Medicaid Program determines that a Beneficiary is no longer eligible for GHP or Medicare Platino (termination of eligibility) or in those cases where a disenrollment is produced in response to a Coverage Code change if a corresponding Plan Version change is not successfully submitted before the end of the month after said coverage code change occurs (programmatic disenrollment).
Disenrollment Concepts	
Termination of Eligibility	The termination of eligibility refers to the cancellation of health services transaction due to the expiration of the eligibility period. It will be notified by the Medicaid Program and will be reflected in the ASES databases on the last day of each month. In these cases, ASES will be updating the

	information through the export file. Only the Medicaid Program may notify the cancellation of a Beneficiary's eligibility. Accordingly, the Contractor must disenroll the Beneficiary from the Platino Program.
Programmatic Disenrollment	Contractors should identify when a record received has a different coverage code than is recorded in their databases. This disenrollment takes place in those cases in, which the Medicaid Program has sent a change of coverage code for a Beneficiary and the Contractor has not submitted an enrollment with the new Plan Version related to the change of coverage. In these cases, Contractors must assess whether the new Coverage Code requires the Beneficiary to be enrolled in a different Plan Version. If so, they must re-enroll these beneficiaries under the new Plan Version to correspond with the new coverage code. Subsequently, a change of Plan Version must be sent to ASES before the end of the current month. Beneficiaries who are not registered with a Plan Version that corresponds with the coverage code will be disenrolled in the run of the end-of-month cycle in the ASES databases. The carrier should re-enroll the beneficiaries that have been cancelled or disenrolled for this reason.
Carrier Change	When Beneficiary's data is received by ASES with a different carrier code from the one that appears in ASES database, it could mean that the Beneficiary has been enrolled with a different Contractor. In this case, the previous Contractor will be notified through the export file where a different carrier code than its own will occupy the carrier field. Accordingly, the previous Contractor must disenroll the Beneficiary in its database. In the case that the change is prospective, the previous Contractor enrollment data remains in the current data fields and the future Contractor data occupies the new data fields. At the end of the month previous to the prospective enrollment effective date, the new fields data is moved to the current data fields and both Contractors are duly notified. A premium payment recoupment will be performed if a payment has been previously granted to a Contractor that loses the Beneficiary retroactively.
Effective Date of Disenrollment	The effective date of disenrollment will fall on the last day of the month in which any of the events mentioned above take place.
SYSPREM	
Description	The main function of SYSPREM will be to allow the registration of the Beneficiary's enrollment in historical data in those cases that cannot be processed as current enrollments. Contractors must modify their systems so that the SYSPREM data is not included as current data when processing the

	eligibility file. Once a transaction is received, which must be processed through SYSPREM, a process of verification and validation of the information that is contained in the record is carried out. Once the validation tests have been passed, the record, in the database, containing the information corresponding to historical transactions is updated. Those records that do not successfully complete the verification processes will be sent in a file of rejected enrollments to the corresponding carrier for correction. Some beneficiaries will not appear as enrolled in history because they are not eligible for the Effective Date or because they are enrolled with a different carrier. Carriers need to evaluate the cases rejected by SYSPREM in order to identify errors in the assigned Effective Date and the correctness of the beneficiaries' data included in the enrollment record.
SYSPREM Classification Codes: Primary Error Codes	
Description	The following are enrollment validation error codes that represent base cause for classification for SYSPREM processing.
107	Effective Date before ineligibility period.
177	Effective date on or before current enrollment.
280	Not currently eligible.
SYSPREM Allowed Error Codes: Secondary Error Codes	
Description	The following are enrollment validation error codes that are allowed as secondary to any Classification Codes during a SYSPREM candidate enrollment record evaluation.
053	Currently enrolled in same carrier (Platino Carrier Change).
132	Failed MPI match in current data.
211	Coverage limited to Federal Medicaid and beneficiary is not currently classified as so.
222	Currently enrolled in same carrier (Immediate Enrollment).
223	Currently enrolled in another carrier (Immediate Enrollment).
225	Failed SSN match in current data.
226	Failed MPI match for the given family id and member suffix.

SYSPREM Validation Error Codes	
Description	SYSPREM will perform certain validations in the process of evaluating candidate enrollment records for registering in historical data.
980	The latest enrollment from ASES historical data with effective date on or after but during the same month as the Effective Date of the Enrollment candidate to SYSPREM was processed later by the source of the enrollment.
982	Platino enrollment Effective Date is earlier than '2015-01-01'.
983	Already enrolled in the same carrier in ASES historical data by the Effective Date specified in the enrollment candidate to SYSPREM.
984	Already enrolled in ASES historical data by the Effective Date specified in the enrollment with Tran_Id = 'E' candidate to SYSPREM.
986	Effective Date is on or later than current enrollment Effective Date or Cancellation Date.
987	Member SSN not found in ASES historical data.
988	The MPI number specified by the enrollment candidate to SYSPREM did not match the MPI number found in ASES historical data by the stated Effective Date.
996	Not an error, but a notification that the record was processed by SYSPREM.

PREMIUM PAYMENT

Description	The premium payment system operates under the concept that premiums are calculated and paid only in relation to beneficiaries who are already enrolled before the first day of the month to which the payment corresponds. Beneficiaries enrolled after that date will be considered for the next payment of the corresponding premium, following all processing of updates and cancellations effective in that month. In order to standardize the payment schedule with VITAL, a Rate Cell was assigned for both Medicaid (Rate Cell: 38) and State (Rate Cell: 40) Platino beneficiary classifications. The detailed premium payment information for each beneficiary is relayed to the Contractor through the EDI 820 Payment File.

Premium Payment Concepts	
Payment Execution	In a monthly fashion, the system performs an automatic execution of payment. The premium paid for each enrollee will depend on his or her Rate Cell classification. Premium payments corresponding to Rate Cell 38 (EAP Medicaid) and Rate Cell 40 (EAP Commonwealth) will be made on the first day of the month following the acceptance of the enrollment by ASES. ASES will not pay premiums on beneficiaries that are not duly enrolled in the ASES databases nor will it pay premiums for beneficiaries whose records contain transactions that have been rejected in the ASES databases and have not been corrected within the periods established by contract.
Reasons for Not Executing a Payment	A premium payment will not be executed in favor of a Contractor in the following circumstances: (1) If the enrollee is not enrolled in the ASES databases before the first day of the month for which the payment transaction is being executed; (2) If the enrollment had been rejected by ASES and a new enrollment was not submitted by the Contractor with the relevant corrections (3) If ASES eligibility data demonstrates that the enrollee had a disenrollment (blank Card Issue Date), eligibility cancellation or changed the Contractor.
Monthly Payments	In this case the system produces a payment for those beneficiaries whose enrollment has already taken effect before the first day of the month for which the payment transaction is executed. The execution of premium payment is run on the first day of the month.
Retroactive Payments	These payments are calculated when the Effective Date of the Enrollment falls on a period prior to the month for which the premium payment process is being executed. In other words, this type of payment is executed when payments are identified corresponding to months prior to the month in which a premium payment is made. The retroactive payments will be computed based on the Enrollment Effective Date. The system will process the premiums for enrolled beneficiaries with an Effective Date prior to the payment date in the case of monthly premiums or prorated premiums that have not been previously paid within the time limits for retroactive payments. Retroactive payments may result in an adjusted payment if they are the result of a Contractor's cancellation of a previous enrollment or Contractor change.

Adjustments	A payment adjustment is calculated when there is a need to reverse a payment that was awarded to a Contractor during a previous premium payment process. It occurs when, as a result of a retroactive payment calculation, a payment made in relation to the same enrollee is identified within the same period under which a Contractor change has been executed. In these cases, an adjustment to the premium paid to the first Contractor is made.
Special Adjustments	Generally, the special adjustments are carried out as a result of internal audit processes that reveal that a wrongly adjudicated payment (like for example, deceased beneficiaries, duplicate payments, PARIS eligibility match, etc.) must be reverted or that, on the contrary, an omitted payment must be adjudicated. F or this type of adjustment, the Contractor will receive a list of transactions in which they can identify the type of adjustment (for example: a deceased), the adjusted months and the amount adjusted. The description of this list is found in Attachment 9, Special Adjustment File Layout.
Adjustment Type	The table below describes the various adjustment types identified by the premium payment process.

Adjustment Type Code	Description
1	DblPay
2	Deceased
4	COB
5	Rate Adjustment
6	Reverse Adjustments
7	Fix Rate
8	Full Month Adjustment
9	Newborn
10	Ineligible
11	Special Reconciliation
12	Rate Cell
13	Maternity Kick Payment

EDI 820 Payment File

The reconciliation process carried out between ASES and the Contractors in relation to the payment of premiums must take into account the content of the EDI 820 files. This file is produced monthly by region, Contractor and Plan Type. It includes details for the premium payments that correspond to each of the beneficiaries assigned to the Contractors for the months in question. This encompasses the rate cell and, if applicable, the adjustment type information for each of those premium payments.

In this file, a distinction is not made about if the payment corresponds to an adjustment from a regular premium payment process or a special adjustment. Thus, in cases when special adjustments proceed, ASES will provide a separated file for the special adjustments to the Contractor.

REFERENCES

Reference A: Enrollment Hierarchy Table

Note: The table on the right identifies the information that each change will require and states the fields that will be impacted by each one.

Legend

Y: Information required for the transaction type specified.

O = Optional information.

N = Information that should not be sent for the transaction type specified.

Tran Id	Contractor	Plan Type	Version	PMG	PCP1	PCP2
E	Y	Y	Y	Y	Y	O
C	Different than ASES	Y	Y	Y	Y	O
P	Same as ASES	Different than ASES	Y	Y	Y	O
V	Same as ASES	Same as ASES	Different than ASES	Y	Y	O
I	Same as ASES	Same as ASES	Same as ASES	Different than ASES	Y	O
1	Same as ASES	Same as ASES	Same as ASES	Same as ASES	Y	N
2	Same as ASES	Same as ASES	Same as ASES	Same as ASES	N	Y
3	Same as ASES	Same as ASES	Same as ASES	Same as ASES	Y	Y

Reference B: Region Codes

Region	Data Region Codes
North	A
Metro-North	B
East	E
Northeast	F
San Juan	J
Southeast	G
Southwest	S
Special	P
West	Z

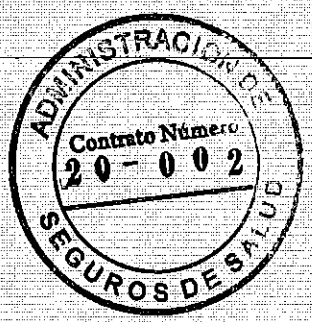
Reference C: File Nomenclature

The tables below explain the nomenclature for several files that play important roles in the exchange of data pertaining with the eligibility and enrollment of beneficiaries.

1

ENROLLMENT FILE [CCYYMMDD.sus]
CC = Contractor Code
YY = Year
MM = Month
DD = Day
.sus = Identifies the file as an enrollment file. The enrollment file may contain records belonging to any of the regions contracted by the Contractor.
Notes: ✓ Files received at 9:00 am are entered in the ASES daily cycle. ✓ If a file is received after 9:00 am, it will be entered in the next day's cycle. See File Layout Attachment – Enrollment Record Layout (.sus)

2



ELIGIBILITY FILE [VYYMMDD.ref]
a. V = indicates that it is an eligibility file
b. YY = Year
c. MM = Month
d. DD = Day
e. .ref = Indicates that it is a file containing the records of the beneficiaries' eligibility.

3	**DATA EXPORT FILE [CCYYMMDD.exp]** b. CC = Contractor code c. YY = Year d. MM = Month e. DD = Day f. .exp = Indicates that it is a file containing all the eligibility and enrollment transactions processed during the daily run. See File Layout Attachment – Carrier Eligibility File Layout (.exp)
4	**ENROLLMENT FILE [CCYYMMDD.err]** a. CC= Contractor Code b. YY = Year c. MM = Month d. DD = Day e. .err = Indicates that the records it contains did not pass the file integrity validation. These records are not going to be processed. **Notes:** The format is the same as the subscriptions file (.sus)
5	**REJECTED ENROLLMENTS FILE [CCYYMMDD.rjc]** a. CC= Contractor Code b. YY = Year c. MM = Month d. DD = Day e. .rjc= Indicates that it is a file containing the records of the beneficiaries who have been rejected. **Notes:** ASES will continue to run a separate edition and update cycle for each region. Enrollments are filtered through various editing and verification programs and identified as valid or rejected. This process produces a file (.rjc) that contains all the records that are rejected. See File Layout Attachment – Rejected Enrollment (.rjc) Note the (.rjc) and (.sus) share the same layout structure.

6

Premium Payment Transactions [PRCC0YYMM0000.820]
a. P = Identify Premium Payment
b. R = region code
c. CC = Contractor code
d. 9 = Frequency
e. YY = Year
f. MM = Month
g. 0000 = IPA Direct Contract
h. .820 = Indicates that it is a file containing all premium payment transactions processed monthly run.

7

Eligibility Query File [CCYYMMDD.qry]
a. CC= Carrier Code
b. YY=Year
c. MM=Month
d. DD=Day
e. .qry =Indicates that is a file for eligibility verification.
Notes: A '.qry' file is submitted by the carriers to verify a person's eligibility for the Medicare Platino Plan and GHIP Plans if necessary. Consequently, ASES generates a response in a '.res' (response) file with the requested information.

8

Eligibility Query Response File [CCYYMMDD.res]
a. CC=Carrier Code
b. YY=Year
c. MM=Month
d. DD=Day
e. .res = Indicates that it is a query response file.
Notes: This file is sent by ASES in response to a query file.

Refers to the NCPDP Post Adjudication Standard V4.2

Puerto Rico Department of Health Post Adjudication Companion Guide

Companion Guide Version Number: 2.Ø

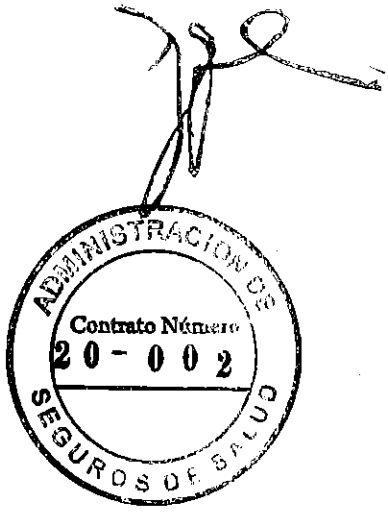
June 2Ø17

For Module I Implementation

Puerto Rico Medicaid Management Information System
Fiscal Agent Services

Disclosure Statement

This template is based on ACA Operating Rules Phase I mandate.



Preface

This Companion Guide to the NCPDP Post Adjudication 4.2 Implementation Guide clarifies and specifies the data content when exchanging electronically with Puerto Rico Department of Health. Transmissions based on this companion guide, used in tandem with the Post Adjudication 4.2 Implementation Guides, are compliant with NCPDP. This Companion Guide is intended to convey information that is within the framework of the Post Adjudication 4.2 Implementation Guides. The Companion Guide is not intended to convey information that in any way exceeds the requirements or usages of data expressed in the Implementation Guides.

This page is intentionally left blank.

Table of Contents

1 Introduction

This section describes how the NCPDP Post Adjudication (4.2) Implementation Guides (IGs) will be detailed with the use of a table. The table contains a row for each segment that Puerto Rico Department of Health (PRDoH) has something additional, over and above, the information in the IGs.

In addition to the row for each segment, one or more additional rows are used to describe PRDoH usage for composite and simple data elements and for any other information. The following table is an example:

SHADED Rows represent "segments" in the NCPDP Post Adjudication Implementation Guide.
NON-SHADED rows represent "data elements" in the NCPDP Post Adjudication Implementation Guide.

Field	Field Name	Mandatory or Situational	Source	Format	Size	Start	End	PRDoH Requirement
6Ø1-Ø4	RECORD TYPE	M	P	A/N	2	1	2	
6Ø1-Ø9	TOTAL RECORD COUNT	M	P	N	1Ø	3	12	
895	TOTAL NET AMOUNT DUE	M	P	D	12	13	24	

1.1 Scope

This Companion Guide (CG) is to be used in addition to the NCPDP Post Adjudication 4.2 Implementation Guide, Data Dictionary, and External Code list.

This Companion Guide contains two types of data; instructions for electronic communications with PRDoH (Communications/Connectivity Instructions) and supplemental information for creating transactions for PRDoH while ensuring compliance with the associated Post Adjudication 4.2 Implementation Guide.

The Transaction Instruction component is included in the CG when PRDoH wants to clarify the Implementation Guide instructions for submission of specific electronic transactions. The Transaction Instruction component content is limited by NCPDP's copyrights and Fair Use statement.

1.2 Overview

The Transaction Instruction component of this companion guide must be used in conjunction with an associated NCPDP Post Adjudication 4.2 Implementation Guide, Data Dictionary, and External Code List. The instructions in this companion guide are not intended to be stand-alone requirements documents. This companion guide conforms to all the requirements of any

associated NCPDP Post Adjudication 4.2 Implementation Guide, Data Dictionary, and External Code List and is in conformance NCPDP's Fair Use and Copyright statements.

1.3 References

The CORE v5Ø1Ø Master Companion Guide Template has been adapted from the CAQH/WEDI Best Practices Companion Guide Template originally published January 1, 2ØØ3.

2 NCPDP Post Adjudication Transaction Standard Version 2.2 File Information

The batch specifications contained in this document include the header, detail and trailer. Batch files should contain one header record, one trailer record, and a maximum of 25,ØØØ transaction details.

- Post Adjudication History Header (Occurs 1);
- Post Adjudication History Detail (Occurs 1 to 25,ØØØ);
- Post Adjudication History Compound Detail 1 (Occurs 1 as Applicable with Detail Record);
- Post Adjudication History Compound Detail 2 (Occurs 1 as Applicable with Detail Record); and,
- Post Adjudication History Trailer (Occurs 1).

Batch files should have a creation date in the batch header that is valid and less than 3Ø days old from the submission date of the file. Values in the header and trailer will be edited to verify that they contain appropriate values.

2.1 Record Delimiter

Carriage returns only – UNIX-based system (record length n+1)

2.2 Over Punch Sign Requirements

Positive Signed		Negative Signed	
Numeric	Graphic	Numeric	Graphic
Ø	{	0	}
1	A	1	J
2	B	2	K
3	C	3	L
4	D	4	M
5	E	5	N
6	F	6	O
7	G	7	P
8	H	8	Q
9	I	9	R

Examples

1. 1Ø} is -1ØØ
2. 45A is 451

Decimal points are usually implied not explicit in the text. Using numbers with two decimal digits: 1ØØØ} is -1ØØ.ØØ

2.3 Additional NCPDP Post Adjudication Transaction Standard Version 2.2 File Information.

Following is a list of the field, use, field name and values/comments for Puerto Rico Medicaid using the batch NCPDP Batch Transaction Standard Version v1.1 and Telecommunication Standard Version v5.1.

The following definitions are given to ensure consistency of interpretation:

- **Field** – The Post Adjudication Transaction Standard Version 2.2 field number;
- **Field Name** – The Post Adjudication Transaction Standard Version 2.2 field name;
- **Mandatory or Situational** – Field designation, Indicates whether a field is mandatory or situational. Mandatory fields may be mandatory by the NCPCP Post Adjudication Transaction Standard Version 2.2 and/or required by the processor. If a field is situational and data does not exist for the field, the field MUST be populated with the appropriate padding;
    - M – Mandatory field;
    - S – Situational field;
- **Source** – Data source;
    - C – Submitted Claim or the Processor's response to the Submitted Claim;
    - P – Processor/Payer;
- **Format** – Field format values;
    - A/N – Alpha/Numeric, upper case when alpha, always left justified, space filled, upper case, printable characters and default values of spaces;
        - Example: X(14) represents "1234ABC44bbbbb";
    - N – Unsigned Numeric, always right justified, zero filled and when used for dollar fields, have default values of zeros;
        - Example: 9(7)v999 represents "9999999999";
    - NX – Numeric Extended, are always right justified and zero filled, with the right most position reserved for the sign. The field must be blank when not reported. The symbol "b" indicates a "blank" or a "positive" value. The symbol "-"indicates a negative value. Zeros represent a valid numeric value and do not mean "null". All decimals are implied not explicit;
        - Example: 9999v99- represents a negative 9999.99 9999v99b – represents a positive 9999.99.
    - R – Numeric Ø – 9 with decimal point;

For numeric values that have a varying number of decimal positions, a decimal data element may contain an explicit decimal point and is used. This data element type is represented as "R.".

The decimal point always appears if it is at any place other than the right most position. If the value is an integer (decimal point at the right most position), the decimal point should be omitted. For negative values, the leading minus sign (-) is used. Absence of a sign indicates a positive value. The plus sign (+) should not be transmitted. Leading zeros should be suppressed unless necessary to satisfy a minimum length requirement. Trailing zeros following the decimal point should be suppressed unless necessary to indicate precision. The use of triad separators (for example, the commas in 1, ØØØ, ØØØ, ØØØ, ØØØ) is prohibited. The length of a

decimal type data element does not include the decimal point. A value of 12345.67 is valid in a field defined with a maximum length of 7.

  - Example: A transmitted value of 12.34 represents a decimal value of 12.34 a transmitted value of 25.4 when applied to a monetary use represents $25.4Ø.

- **Size** – The field length size;
- **Start** – The starting position in the record of the field;
- **End** – The ending position in the record of the field ; and,
- **Values/Comments** – Defines the Puerto Rico Medicaid required values or default values for each field.

3 Transaction Specific Information

This section describes how the NCPDP Post Adjudication 4.2 Implementation Guide (IG), Data Dictionary, and the External Code List will be used. The tables contain a row for each segment that PRDoH has something additional, over and above, the information in the IGs in addition to any other information tied directly to a segment, composite or simple data element pertinent to trading electronically with PRDoH.

3.1 POST ADJUDICATION HISTORY HEADER RECORD

Field	Field Name	Description	Values	Mandatory or Situational	Source	Format	Size	Start	End	PRDoH Requirement
6Ø1-Ø4	RECORD TYPE	Type of record being submitted.	PA- Post Adjudication History Header Record	M	P	A/N	2	1	2	
1Ø2-A2	VERSION/RELEASE NUMBER	Code uniquely identifying the transmission syntax and corresponding Data Dictionary.	42- Version 4.2	M	P	A/N	2	3	4	PRDoH uses 42-
879	SENDING ENTITY IDENTIFIER	Party creating the data enclosed or the entity for whom the data is being enclosed.	n/a	M	P	A/N	24	5	28	
8Ø6-5C	BATCH NUMBER	This number is assigned by the processor/sender. A number generated by the sender to uniquely identify this batch from others, especially when multiple batches may be sent in one day.	n/a	M	P	N	7	29	35	

Field	Field Name	Description	Values	Mandatory or Situational	Source	Format	Size	Start	End	PRDoH Requirement
88Ø-K2	CREATION DATE	Date the file was created.	n/a	M	P	N	8	36	43	Format CCYYMMDD
88Ø-K3	CREATION TIME	Time file was created.	n/a	M	P	N	4	44	47	Format HHMM
88Ø-K7	RECEIVER ID	An identification number of the endpoint receiver of the data file.	n/a	M	P	A/N	24	48	71	
6Ø1-Ø6	REPORTING PERIOD START DATE	The first day of the period being reported in the file.	n/a	M	P	N	8	72	79	Format CCYYMMDD
6Ø1-Ø5	REPORTING PERIOD END DATE	The last day of the period being reported in the file.	n/a	M	P	N	8	8Ø	87	Format CCYYMMDD
7Ø2-MC	FILE TYPE	Code identifying whether the file contained test or production data.	T- Test- In processing systems, the test environment P- Production- In processing systems, the live environment	M	P	A/N	1	88	88	
981-JV	TRANSMISSION ACTION	Indicates whether this is a replacement file, file updates or a file delete	O- Original Submission (New)- a new file	M	P	A/N	1	89	89	Please use value "O"
888	SUBMISSION NUMBER	Indicates the number of times a data set has been resent.	Blank- Not Specified ØØ- First Submission Ø1- First Resubmission Ø2- Second Resubmission Ø3-99 Number of Resubmission	M	P	A/N	2	9Ø	91	
	FILLER	n/a	n/a	M	P	A/N	36Ø9	92	37ØØ	

3.2 POST ADJUDICATION HISTORY DETAIL RECORD

Field	Field Name	Description	Values	Mandatory or Situational	Source	Format	Size	Start	End	PRDoH Requirement
6Ø1-Ø4	RECORD TYPE	Type of record being submitted.	DE- Post Adjudication History Detail Record	M	P	A/N	2	1	2	
398	RECORD INDICATOR	Action to be taken on the record.	Blank- Not Specified Ø- New Record 1- Overwrite existing record 2- Delete existing record	S	P	A/N	1	3	3	.
SECTION DENOTES ELIGIBILITY CATEGORY:										
248	ELIGIBLE COVERAGE CODE	Coverage Level Code. Code indicating the level of coverage being provided for the insured.	IND- Individual	S	P	A/N	3	4	6	IND- Individual
898	USER BENEFIT ID	Member's benefit ID based upon User Group Number from Eligibility when submitted by Client.	n/a	S	P	A/N	1Ø	7	16	
899	USER COVERAGE ID	Member's coverage ID based upon User Group Number submitted by Client on eligibility data.	n/a	S	P	A/N	1Ø	17	26	
246	ELIGIBILITY GROUP ID	Identifier of the group that determines eligibility parameters for	n/a	S	P	A/N	15	27	41	

Field	Field Name	Description	Values	Mandatory or Situational	Source	Format	Size	Start	End	PRDoH Requirement
		the member when submitted by the client.								
27Ø	LINE OF BUSINESS CODE	Line of Business Code from Client eligibility or as defined by trading partner agreement.	n/a	S	P	A/N	6	42	47	
267	INSURANCE CODE	Special group/member data as supplied on eligibility record when supplied by the client.	n/a	S	P	A/N	2Ø	48	67	
22Ø	CLIENT ASSIGNED LOCATION CODE	The location of the member within the Client's Company from Client eligibility when submitted by the client.	n/a	S	P	A/N	2Ø	68	87	
222	CLIENT PASS THROUGH	Information from Client eligibility when submitted by the client.	n/a	S	P	A/N	2ØØ	88	287	
SUBSECTION DENOTES CARDHOLDER INFORMATION:										
3Ø2-C2	CARDHOLDER ID	Insurance ID assigned to the cardholder or identification number used by the plan.	n/a	M	C/P	A/N	2Ø	288	3Ø7	1. The number that the submitter transmits in this position is echoed back to the submitter in

Field	Field Name	Description	Values	Mandatory or Situational	Source	Format	Size	Start	End	PRDoH Requirement
										the 835 and other transactions. This field is mapped to bytes 28-42 of the flat file fed into MMIS. It can only be 15 bytes because that's all we allow in MMIS for this field. The NCPDP allows for 2Ø bytes in field 3Ø2-C2. If you put more than 15 bytes in field 3Ø2-C2 of the NCPDP, the translator will truncate and only move the first 15 bytes into the MMIS field.
716-SY	LAST NAME	Last name.	n/a	S	P	A/N	35	3Ø8	342	
717-SX	FIRST NAME	First name.	n/a	S	P	A/N	35	343	377

274	MEDICARE PLAN CODE	This represents if the member is eligible for Medicare coverage as provided in eligibility data.	Blank- Not specified A- Medicare Part A - Part of the Original Medicare Plan managed by the federal government. Covers some, but not all, of the expenses incurred for inpatient hospital care or medical care that a person may receive at a skilled nursing facility (not a custodial care facility). Some hospice care and some home health care are also covered. Limitations apply, and have deductibles, copays, or other costs to satisfy. B- Medicare Part B - Part of the Original Medicare Plan	S	P	A/N	1	527	527	

Field	Field Name	Description	Values	Mandatory or Situational	Source	Format	Size	Start	End	PRDoH Requirement
			managed by the federal government. This covers medically necessary services from doctors or outpatient hospital care. It also helps with costs associated with some physical and occupational therapist services and some home health care services. A person typically must sign up for Part B and pay a monthly premium in order to benefit from coverage. C- Medicare Part C - Part of Medicare includes medical and other benefits provided through private health benefits companies (approved by the federal government) known as Medicare Advantage Plans. Plans cover the same or better benefits as the Original Medicare Plan with easy-to-budget copay and coinsurance amounts when a person uses a network doctor and hospital. D- Medicare Part D - The optional Medicare prescription drug coverage. X- Medicare Part Unknown - Person is eligible for a Medicare plan but the plan is unidentified Z- Not Medicare Eligible - Person is not eligible for any Medicare plan.

			Ø5- Medicaid- A number assigned to a provider by a state Medicaid agency. Each state has a unique identifier. Medicaid is a program established pursuant to Title XIX of the Social Security Act to provide medical benefits for certain categories of low-income individuals. The program provides benefits to indigent and disabled individuals and members of families receiving Aid to Families with Dependent Children. States have the option to provide benefits to a broader range of individuals. The program is a cooperative arrangement between the federal government and the states, under which both the federal government and a participating state contribute financial support. The state, however, retains a considerable amount of discretion over the operation and administration of the program, and has the right to determine the benefits to be provided, rules for eligibility, rates of payment for services and other matters, as long as broad regulatory guidelines established by the federal government are followed.							submit the Qualifier value, Ø5 - Medicaid ID.

	DISPENSE AS WRITTEN (DAW)/PRODUCT SELECTION CODE	Code indicating whether or not the prescriber's instructions regarding generic substitution were followed.	Ø- No Product Selection Indicated – This is the field default value that is appropriately used for prescriptions for single source brand, co- branded/co-licensed, or generic products. For a multi-source branded product with available generic(s), DAW Ø is not appropriate, and may result in a reject. 1- Substitution Not Allowed by Prescriber – This value is used when the prescriber indicates, in a manner specified by prevailing law, that the product is Medically Necessary to be Dispensed As Written. DAW 1 is based on prescriber instruction and not product classification. 2- Substitution Allowed-Patient Requested Product Dispensed – This value is used when the prescriber has indicated, in a manner specified by prevailing law, that generic substitution is permitted and the patient requests the brand product. This situation can occur when the	S	C	A/N	1	1571	1571

			established criteria. Most codes are numeric and consist of 3, 4, or 5 numbers and a description. The codes are maintained by the World Health Organization and published by the Centers for Medicare and Medicaid Services. Ø2- International Classification of Diseases-1Ø – Clinical Modifications (ICD-1Ø-CM) – Code indicating that the following information is a diagnosis as defined by ICD-1Ø-CM. As of January 1, 1999, the ICD-1Ø is used to code and classify mortality data from death certificates. The International Classification of Diseases, 1Øth Revision, Clinical Modification (ICD-1Ø - CM) is a statistical classification system that arranges diseases and injuries into groups according to established criteria. The codes are 3 to 7 digits with the first digit alpha, the second and third numeric and the remainder A/N. The codes are maintained by the World Health Organization and published by the Centers for Medicare and Medicaid Services. From the code set maintainer: The ICD codes do have a decimal; however, for transaction/submission of the codes the decimal is not included in the code.

			indicating that in the course of assessment or discussion with the patient, the pharmacist identified an actual or potential problem when the patient presented to the pharmacist complaints or symptoms suggestive of illness requesting evaluation and treatment. DA- Drug-Allergy – Indicates that an adverse immune event may occur due to the patient's previously demonstrated heightened allergic response to the drug product in question. DC- Drug-Disease (Inferred) – Indicates that the use of the drug may be inappropriate in light of a specific medical condition that the patient has. The existence of the specific medical condition is inferred from drugs in the patient's medication history. DD- Drug-Drug Interaction – Indicates that drug combinations in which the net pharmacologic response may be different from the result expected when each drug is given separately. DF- Drug-Food interaction – Indicates interactions between a drug and certain foods. DI- Drug Incompatibility – Indicates physical and chemical incompatibilities between two or more drugs. DL- Drug-Lab Conflict – Indicates that laboratory values							

Field	Field Name	Description	Values	Mandatory or Situational	Source	Format	Size	Start	End	PRDoH Requirement
			may be altered due to the use of the drug, or that the patient's response to the drug may be altered due to a condition that is identified by a certain laboratory value. DM- Apparent Drug Misuse – Code indicating a pattern of drug use by a patient in a manner that is significantly different than that prescribed by the prescriber. DR- Dose Range Conflict – Code indicating that the prescription does not follow recommended medication dosage. DS- Tobacco Use – Code indicating that a conflict was detected when a prescribed drug is contraindicated or might conflict with the use of tobacco products. ED- Patient Education/Instruction – Code indicating that a cognitive service whereby the pharmacist performed a patient care activity by providing additional instructions or education to the patient beyond the simple task of explaining the prescriber's instructions on the prescription. ER- Overuse – Code indicating that the current prescription refill is occurring before the days' supply of the previous filling should have been exhausted.							

Field	Field Name	Description	Values	Mandatory or Situational	Source	Format	Size	Start	End	PRDoH Requirement
			EX- Excessive Quantity – Code that documents the quantity is excessive for the single time period for which the drug is being prescribed. HD- High Dose – Detects drug doses that fall above the standard dosing range. IC-Iatrogenic Condition – Code indicating that a possible inappropriate use of drugs that are designed to ameliorate complications caused by another medication has been detected. ID- Ingredient Duplication – Code indicating that simultaneous use of drug products containing one or more identical generic chemical entities has been detected. LD- Low Dose – Code indicating that the submitted drug doses fall below the standard dosing range. LK- Lock In Recipient – Code indicating that the professional service was related to a plan/payer constraint on the member whereby the member is required to obtain services from only one specified pharmacy or other provider type, hence the member is "locked in" to using only those providers or pharmacies. LR-Underuse – Code indicating that a prescription refill that occurred after the days' supply

997-G2	CMS PART D DEFINED QUALIFIED FACILITY	Indicates that the patient resides in a facility that qualifies for the CMS Part D benefit.	Y- Yes = CMS qualified facility							
SECTION DENOTES FIELDS ADDED IN VERSIONS CATEGORY:										
393-MV	BENEFIT STAGE QUALIFIER	Code qualifying the 'Benefit Stage Amount' (394-MW).	Ø1- Deductible – The amount of covered expenses that must be incurred and paid by the insured before benefits become payable by the insurer. Ø2- Initial Benefit – The first monthly benefit, or the first monthly benefit following any break in participation. Ø3- Coverage Gap (donut hole) – Commonly referred to as the "donut hole." Amount paid for Medicare prescription drug coverage, with a PDP or an MA-PD, after the initial coverage limit and until the total out of your pocket paid for covered prescription drugs reaches a certain amount. Ø4- Catastrophic Coverage – Once a total maximum is reached, the insured pays a small amount for a drug claim until the end of the calendar year. 5Ø- Not paid under Part D, paid under Part C benefit (for MA-PD plan): · This qualifier applies to MA-PD plans where the claim is	S	C	A/N	2	2895	2896	

Field	Field Name	Description	Values	Mandatory or Situational	Source	Format	Size	Start	End	PRDoH Requirement
			submitted under the Part D BIN/PCN. · The claim is NOT paid by the Part D plan benefit · The claim IS paid for by Part C benefit (MA portion of the MA-PD). · When the qualifier value of 5Ø is used, the Benefit Stage Count is 1 and no other benefit stage qualifier should be used. · The field 394-MV Benefit Stage Amount should be populated with the total amount (total of 5Ø5-F5 Patient Pay Amount, 5Ø9-F9 Total Amount Paid, and 566-J5 Other Payer Amount Recognized) of the claim. 6Ø- Not paid under Part D, paid as or under a supplemental benefit only: · This qualifier applies to co-administered plans, where the claim is submitted under the part D BIN/PCN and where one pharmacy response is provided. · This qualifier also applies to Primary claims submitted under the Part D BIN/PCN when a supplemental benefit is provided (drugs covered outside of the allowable Part D benefit). · The claim is NOT paid by the Part D plan benefit but is

HIPAA Transaction
Standard Companion Guide

Refers to the Technical Report Type 3 (TR3) Implementation Guides Based on ASC X12 Version 005010X224A2 Dental Health Care Claim/Encounter (837D)

Companion Guide Version Number: 5.0

December 2017

For Module One Implementation

Puerto Rico Medicaid Management Information System Services Project

Disclosure Statement

Companion guides may contain two types of data, instructions for electronic communications with the publishing entity (communications/connectivity instructions), and supplemental information for creating transactions for the publishing entity while ensuring compliance with the associated ASC X12 implementation guide (transaction instructions). Either the communications/connectivity component or the transaction instruction component must be included in every companion guide. The components may be published as separate documents or as a single document.

The communications/connectivity component is included in the companion guide when the publishing entity wants to convey the information needed to commence and maintain communication exchange.

The transaction instruction component is included in the companion guide when the publishing entity wants to clarify the implementation guide instructions for submission of specific electronic transactions. The transaction instruction component content is limited by ASC X12's copyrights and Fair Use statement.

Preface

This companion guide to the v5010 ASC X12N Technical Report Type 3 (TR3) adopted under the Health Insurance Portability and Accountability Act of 1996 (HIPAA) clarifies and specifies the data content when exchanging transactions electronically with the Puerto Rico Department of Health. Transmissions based on this companion guide, used in tandem with the TR3, also called the Health Care Dental Claim/Encounter ASC X12N version 005010X224A2 (837D), are compliant with both ASC X12 syntax and those guides. This companion guide is intended to convey information that is within the framework of the ASC X12N TR3 adopted for use under HIPAA. The companion guide is not intended to convey information that in any way exceeds the requirements or usages of data expressed in the TR3.

Additional information on the Final Rule for Standards for Electronic Transactions can be found at http://aspe.hhs.gov/admnsimp/final/txfin00.htm. The HIPAA Implementation Guides can be accessed at http://www.wpc-edi.com/hipaa/HIPAA_40.asp.

Disclaimer: The information contained in this Companion Guide is subject to change.

(This page was intentionally left blank.)

Contents

1 INTRODUCTION

This section describes how TR3, also called 837D ASC X12N (version 005010X224A2), adopted under HIPAA, will be detailed with the use of a table. The tables contain a Notes/Comments column for each segment that Puerto Rico Department of Health has information additional to the TR3. That information can:

1. Limit the repeat of loops, or segments.
2. Limit the length of a simple data element.
3. Specify a sub-set of the implementation guide's internal code listings.
4. Clarify the use of loops, segments, composite, and simple data elements.
5. Provide any other information tied directly to a loop, segment, composite, or simple data element pertinent to trading electronically with Puerto Rico Department of Health.

In addition to the row for each segment, one or more additional rows are used to describe Puerto Rico Department of Health's usage for composite and simple data elements and for any other information. Notes and comments should be placed at the deepest level of detail. For example, a note about a code value should be placed on a row specifically for that code value, not in a general note about the segment.

The following table specifies the columns and suggested use of the rows for the detailed description of the transaction set companion guides. The table contains a Notes/Comments column to provide additional information from Puerto Rico Department of Health for specific segments provided by the TR3. The following is just an example of the type of information that would be spelled out or elaborated on in Section 6: TRANSACTION-SPECIFIC INFORMATION.

Page#	Loop ID	Reference	Name	Codes	Length	Notes/Comments
193	2100C	NM1	Subscriber Name			This type of row always exists to indicate that a new segment has begun. It is always shaded at 10 percent and notes or comments about the segment itself go in this cell.
195	2100C	NM109	Subscriber Primary Identifier		15	This type of row exists to limit the length of the specified data element.
196	2100C	REF	Subscriber Additional Identification			
197	2100C	REF01	Reference Identification Qualifier	18, 49, 6P, HJ, N6		These are the only codes transmitted by Puerto Rico Department of Health.
			Plan Network Identification Number	N6		This type of row exists when a note for a particular code value is required. For example, this note may say that value N6 is the default. Not populating the first three columns makes it clear that the code value belongs to the row immediately above it.
218	2110C	EB	Subscriber Eligibility or Benefit Information			
231	2110C	EB13-1	Product/Service ID Qualifier	AD		This row illustrates how to indicate a component data element in the Reference column and also how to specify that only one code value is applicable.

1.1 Scope

This companion guide is intended for trading partner use in conjunction with the TR3 HIPAA 5010 837D (referred to as Dental Claim/Encounter in the rest of this document) for the purpose of submitting 837D electronically. This companion guide is not intended to replace the TR3. The TR3s define the national data standards, electronic format, and values for each data element within an electronic transaction. The purpose of this companion guide is to provide trading partners with a guide to communicate Puerto Rico Department of Health-specific information required to successfully exchange transactions electronically with Puerto Rico Department of Health. The instructions in this companion guide are not intended to be stand-alone requirements documents. This companion guide conforms to all the requirements of any associated ASC X12 Implementation Guide and is in conformance with ASC X12's Fair Use and Copyright statements.

The information contained in this companion guide applies to Puerto Rico Department of Health for processing.

Puerto Rico Department of Health will accept and process any HIPAA-compliant transaction; however, a compliant transaction that does not contain Puerto Rico Department of Health-specific information, though processed, may be denied. For example, a compliant 837D Claim/Encounter created with an invalid Puerto Rico Department of Health member identification number will be processed by Puerto Rico Department of Health but will be denied. For questions regarding appropriate billing procedures, as well as for policy and billing information, providers should refer to their policy-specific area of the Puerto Rico Department of Health.

Refer to this companion guide first if there is a question about how Puerto Rico Department of Health processes a HIPAA transaction. For further information, contact **their policy-specific** area of the Puerto Rico Department of Health or PRMMIS MCO EDI (PRMMISMCOEDI@hpe.com). This guide is intended as a resource to assist trading partners (Managed Care Organizations – MCO) and clearinghouses with Puerto Rico Department of Health in successfully conducting EDI of administrative health care transactions. This document provides instructions for obtaining technical assistance, initiating and maintaining connectivity, sending and receiving files, testing, and other related information. This document does not provide detailed data specifications, which are published separately by the industry committees responsible for their creation and maintenance.

1.2 Overview

Per HIPAA requirements, Puerto Rico Department of Health and all other covered entities must comply with the EDI standards for health care as established by the Secretary of the federal Department of Health and Human Services (HHS). The Secretary of the HHS is required under HIPAA to adopt standards to support the electronic exchange of administrative and financial health care transactions primarily between health care providers and plans. Additionally, HIPAA directs the Secretary to adopt standards for transactions to enable health information to be exchanged electronically and to adopt specifications for implementing each standard.

The HIPAA requirements serve to:

- Create better access to health insurance.
- Limit fraud and abuse.
- Reduce administrative costs.

This guide is designed to help those responsible for testing and setting up electronic Dental Claim/Encounter transactions. Specifically, it documents and clarifies when situational data elements and segments must be used for reporting and identifies codes and data elements that do not apply to Puerto Rico Department of Health. This guide supplements (but does not contradict) requirements in the ASC X12N 837D (version 005010X224A2) Implementation Guide. This guide provides communications-related information a trading partner needs to enroll as a

trading partner, obtain support, format the interchange control header (ISA) and functional group header (GS) envelopes, and exchange test and production transactions with Puerto Rico Department of Health.

This companion guide must be used in conjunction with the TR3 instructions. The companion guide is intended to assist trading partners in implementing electronic 837D transactions that meet Puerto Rico Department of Health processing standards by identifying pertinent structural and data-related requirements and recommendations.

1.3 References

For more information regarding the ASC X12 Standards for Electronic Data Interchange 837D Health Care Claim/Encounter (version 005010X224A2) and to purchase copies of the TR3 documents, consult the Washington Publishing Company Web site at www.wpc-edi.com/.

The implementation guide specifies in detail the required formats for transactions exchanged electronically with an insurance company, health care payer, or government agency. The implementation guide contains requirements for the use of specific segments and specific data elements within those segments and applies to all health care providers and their trading partners. It is critical that the provider's information technology (IT) staff or software vendor review this document in its entirety and follow the stated requirements to exchange HIPAA-compliant files with Puerto Rico Department of Health.

Provider taxonomy code set can be obtained from www.wpc-edi.com/reference.

1.4 Additional Information

The American National Standards Institute (ANSI) is the coordinator for information on national and international standards. In 1979, ANSI chartered the Accredited Standards Committee (ASC) X12 to develop uniform standards for electronic interchange of business transactions and eliminate the problem of non-standard electronic data communication. The objective of the ASC X12 committee is to develop standards to facilitate electronic interchange relating to all types of business transactions. The ANSI X12 standard is recognized by the United States as the standard for North America. Electronic Data Interchange adoption has been proved to reduce the administrative burden on providers.

The intended audience for this document is the technical and operational staff responsible for generating, receiving, and reviewing electronic health care transactions.

National Provider Identifier

As a result of HIPAA, the federal HHS adopted a standard identifier for health care providers. The Final Rule published by the HHS adopted the National Provider Identifier (NPI) as the standard identifier.

The NPI replaces all payer-specific identification numbers (e.g., Medicaid provider numbers) on nationally recognized electronic transactions (also known as standard transactions); therefore, all health care providers are required to obtain an NPI to identify themselves on these transactions. The NPI is the only identification number that will be allowed on these transactions.

All providers, except those that the Puerto Rico Department of Health determined as not a healthcare provider such as non-emergency transportation, are health care providers (per the definitions within the NPI Final Rule) and, therefore, are required to obtain and use an NPI. Puerto Rico Department of Health requires all health care providers to submit their NPI on electronic transactions.

Acceptable Characters

The HIPAA transactions must not contain any carriage returns nor line feeds; the data must be received in one, continuous stream. Puerto Rico Department of Health accepts the extended character set. Uppercase characters are recommended. Files should be less than 100 MB.

File/System Specifications

EDI only accepts Windows/PC/DOS formatted files. Any file transmitted to EDI must be named in accordance to standard file naming conventions, including a valid three character file extension. The following standards should be used:

- To avoid accidently overwriting files, do not send multiple files with the same name on the same day.
- File Names should not be longer than 45 characters.
- File Names should not contain spaces or special characters.
- File Names should contain a file extension such as .dat or .txt.
- Zip or compressed files are allowed, but a zip or compressed file should contain only one X12 file.
- Zip files must contain the extension .zip (not case sensitive).

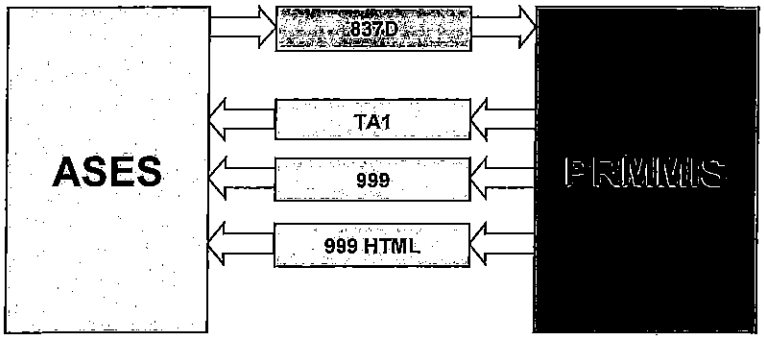
2 CONNECTIVITY WITH PUERTO RICO DEPARTMENT OF HEALTH / COMMUNICATIONS

This section describes the process to interactively submit HIPAA 837D transactions, along with various submission methods, security requirements, and exception handling procedures.

2.1 Process Flows

This section contains process flow diagrams and appropriate text.
Each transaction is validated to ensure that the 837D complies with the 005010X224A2 TR3.

Transactions that fail this compliance check will generate a "Rejected" 999 file back to the sender with an error message indicating the compliance error. Transactions that pass this compliance check will generate an "Accepted" 999 file back to the sender with AK9*A to indicate that the file passed compliance. Transactions with multiple ST/SE loops that fail this compliance check in some of the ST/SE loops will generate a "Partial" 999 file back to the sender with an error message indicating the compliance error (all claims/encounters in the ST/SE envelopes that pass compliance will be processed). Claims/Encounters that pass compliance checks, but fail to process (e.g., due to member not being found) will be denied. Claims/Encounters that pass compliance checks and have not failed to process (e.g., the member was found with enrollment within the date(s) of service) will be classified as "paid".



2.2 Transmission Administrative Procedures

This section provides Puerto Rico Department of Health's specific transmission administrative procedures.

The trading partner must determine if the transmission being sent is Test or Production and is using the appropriate indicator (ISA15). For details about available Puerto Rico Department of Health access methods, refer to the Communication Protocol Specifications section.

Puerto Rico Department of Health is available only to authorized users. Submitters must be Puerto Rico Department of Health trading partners. A submitter is authenticated using a username and password assigned by the trading partner.

2.3 Communication Protocol Specifications

This section describes Puerto Rico Department of Health's communication protocol(s). The following communication methods are available to get a member's Eligibility and Benefits from Puerto Rico Department of Health:

Batch

Trading partners can submit all batch transactions to Puerto Rico Department of Health and download acknowledgements and response files. Access is free; however, the user must have his or her own Internet connection to access the Web application.

3 CONTROL SEGMENTS / ENVELOPES

3.1 ISA-IEA

This section describes Puerto Rico Department of Health's use of the interchange control segments. It includes a description of expected sender and receiver codes, authorization information, and delimiters.

Interchange Control Header (ISA)

To promote efficient, accurate electronic transaction processing, please note the following Puerto Rico Department of Health specifications:

- Each trading partner is assigned a trading partner ID.
- All dates are in the CCYYMMDD format. Except for ISA09.
- All dates/times are in the CCYYMMDDHHMM format.
- Payer IDs can be found in the companion guides.
- Batch responses are not returned until all inquiries are processed. Limiting the number of total inquiries per ISA-IEA will produce faster results.
- Each Payer ID must be in its own file.
- No more than 999 claims/encounters per Transaction Set (ST-SE).
- Only one interchange (ISA/IEA) loop and one functional (GS/GE) loop is allowed per file.

Transactions transmitted as a batch are identified by an ISA and trailer segment (IEA), which form the envelope enclosing the transmission. Each ISA marks the beginning of the transmission (batch) and provides sender and receiver identification. The table below represents only those fields in which Puerto Rico Department of Health requires a specific value or has additional guidance on what the value should be. The table does not represent all of the fields necessary for a successful transaction — the TR3 should be reviewed for that information.

The ISA data segment is a fixed length record and all fields must be supplied. Fields that are not populated with actual data must be filled in with spaces.

Note: Puerto Rico Department of Health accepts files with one ISA/IEA loop per file.

TR3 Page #	Loop ID	Reference	Name	Codes	Notes/Comments
C.3	None.	ISA	Interchange Control Header		
C.4		ISA01	Authorization Information Qualifier	03	ENCOUNTER - '03' - Additional Data Identification.
C.4		ISA02	Authorization Information		ENCOUNTER - MCO Medicaid ID + [space fill]
C.4		ISA03	Security Information Qualifier	00	00 = No Security Information Present.
C.4		ISA04	Security Information		[space fill]
C.4		ISA05	Interchange ID (Sender) Qualifier	ZZ	ZZ.= Mutually defined.
C.4		ISA06	Interchange Sender ID		Trading Partner ID' supplied by Puerto Rico Department of Health, left justified and space filled.
C.5		ISA07	Interchange ID (Receiver) Qualifier	ZZ	ZZ = Mutually defined.
C.5		ISA08	Interchange Receiver ID	PRMMIS	PRMMIS - left justified and space filled.
C.5		ISA09	Interchange Date		The date format is YYMMDD.
C.5		ISA10	Interchange Time		The time format is HHMM.

TR3 Page #	Loop ID	Reference	Name	Codes	Notes/Comments
C.5		ISA11	Repetition Separator	^	A Caret "^" is recommended.
C.5		ISA12	Interchange Control Version Number	00501	00501 = Control Version Number
C.5		ISA13	Interchange Control Number		The interchange control number assigned in ISA13 must be identical to the value in IEA02.
C.6		ISA14	Acknowledgement Requested	0	0 = No interchange acknowledgment requested (TA1).
C.6		ISA15	Usage Identifier	P, T	Code indicating whether the data enclosed is production or test.
			Production Data	P	Enter value "P" to indicate that the file contains production data
			Test Data	T	Enter value "T" to indicate that the file contains test data.
C.6		ISA16	Component Separator	:	A colon ":" is recommended.

IEA – Interchange Control Header

Communications transport protocol interchange control trailer segment. This segment within the X12N implementation guide defines the end of an interchange of zero or more functional groups and interchange-related control segments. This segment may be thought of traditionally as the file trailer record.

TR3 Page #	Loop ID	Reference	Name	Codes	Notes/Comments
C.10	None	IEA	Interchange Control Trailer		
C.10		IEA01	Number of Included Functional Groups		Number of included Functional Groups
C.10		IEA02	Interchange Control Number.		Must be identical to the value in ISA13

3.2 GS-GE

This section describes Puerto Rico Department of Health's use of the functional group control segments.

It includes a description of expected application sender and receiver codes.

Functional Group Header (GS)

In the table below fields in which Puerto Rico Department of Health requires a specific value or has additional guidance on what the value should be. The TR3 should be reviewed for specific information.

Note: Puerto Rico Department of Health only accepts files with one GS/GE loop per file.

TR3 Page #	Loop ID	Reference	Name	Codes	Notes/Comments
C.7	None	GS	Functional Group Header		
C.7		GS01	Functional ID Code	HC	"HC" – Health Care Dental Claim/Encounter (837D)
C.7		GS02	Application Sender's Code		'Trading Partner ID' supplied by Puerto Rico Department of Health.

TR3 Page #	Loop ID	Reference	Name	Codes	Notes/Comments
C.7		GS03	Application Receiver's Code	PRMMIS	'PRMMIS' Puerto Rico Department of Health Sender ID.
C.7		GS04	Date		The date format is CCYYMMDD.
C.8		GS05	Time		The time format is HHMM.
C.8		GS06	Group Control Number		Group Control Number – Must be identical to GE02.
C.8		GS07	Responsible Agency Code	X	"X" – Responsible Agency Code
C.8		GS08	Version/ Release/ Industry Identifier Code	005010X224A2	Version/ Release/ Industry Identifier Code

Functional Group Trailer (GE)

In the table below fields in which Puerto Rico Department of Health requires a specific value or has additional guidance on what the value should be. The TR3 should be reviewed for specific information.

TR3 page #	Loop ID	Reference	Name	Codes	Notes/Comments
C.9	None	GE	Functional Group Trailer		
C.9		GE01	Number of Transaction Sets Included		Total number of transaction sets
C.9		GE02	Group Control Number		Must be identical to the value in GS06

3.3 ST-SE

This section describes Puerto Rico Department of Health's use of transaction set control numbers.

Puerto Rico Department of Health recommends that trading partners follow the guidelines set forth in the TR3 — start the first ST02 in the first file with 000000001 and increment from there. The TR3 should be reviewed for how to create compliant transaction set control segments.

TRANSACTION SET HEADER (ST)

The TR3 should be reviewed for specific information.

TR3 page #	Loop ID	Reference	Name	Codes	Notes/Comments
70	None	ST	Transaction Set Header		
70		ST01	Transaction Set Identifier Code	837	837 Health Care Claim
70		ST02	Transaction Set Control Number		The Transaction Set Control Number in ST02 and SE02 must be identical. The number must be unique within a specific interchange (ISA-IEA).
70		ST03	Implementation Guide Version Name	005010X224A2	This field contains the same value as GS08.

TRANSACTION SET TRAILER (SE)

The TR3 should be reviewed for specific information.

TR3 page #	Loop ID	Reference	Name	Codes	Notes/Comments
496	None	SE	TRANSACTION SET TRAILER		
496		SE01	Transaction Segment Count		Total number of transaction sets
496		SE02	Transaction Set Control Number		The Transaction Set Control Number in ST02 and SE02 must be identical.

3.4 Control Segment Notes

The ISA data segment is a fixed length record and all fields must be supplied. Fields that are not populated with actual data must be filled in with spaces.

3.5 File Delimiters

Puerto Rico Department of Health requests that you use the following delimiters on your file. If used as delimiters, these characters must not be submitted within the data content of the transaction sets. Contact PRMMIS MCO EDI (PRMMISMCOEDI@hpe.com) if there is a need to use a delimiter other than the following:

- Segment Terminator = ~
- Element Separator = *
- Component Separator = :
- Repetition Separator = ^

Element Separator

Byte 4 in the ISA segment defines the element separator to be used throughout the entire transaction. The recommended element separator is an asterisk (*).

Repetition Separator

ISA11 defines the repetition separator to be used throughout the entire transaction. The recommended repetition separator is a caret (^).

Component Separator

ISA16 defines the component separator to be used throughout the entire transaction. The recommended component separator is a colon (:).

Segment Terminator

Byte 106 of the ISA segment defines the segment terminator used throughout the entire transaction. The recommended segment terminator is a tilde (~).

4 PUERTO RICO DEPARTMENT OF HEALTH-SPECIFIC BUSINESS RULES AND LIMITATIONS

4.1 Trading Partner Identification Number

In Module One of the Puerto Rico Department of Health's implementation of the PRMMIS the EDI team will create any needed Trading Partner Profiles.

4.2 Testing

Module one of the Puerto Rico Department of Health's implementation of the PRMMIS will not require any Production Authorization Testing.

4.3 Terminology

The term "subscriber" will be used as a generic term throughout the companion guide.

4.4 Limits

File Size is restricted to 5,000 transactions (claims/encounters) per file. One transaction set includes all data between and including a Transaction ST segment and Transaction SE segment.

4.5 Scheduled Maintenance

Puerto Rico Department of Health schedules regular maintenance every Sunday from 01:00 a.m. to 05:00 a.m. EST.

4.6 Procedures for Voiding Encounters

PRMMIS requires that the MCO's internal Transaction Control Number (TCN) be sent for every claim:

Loop 2330B – Other Payer Name
REF – Other Payer Claim Control Number
REF01 = F8 – Original Reference Number
REF02 = The TCN, in the MCO's system, of the claim being submitted

When voiding a claim/encounter, the MCO should send their internal Transaction ID of the claim being voided in:

Loop: 2300 — CLAIM INFORMATION
REF - PAYER CLAIM CONTROL NUMBER
REF01 = F8 - Original Reference Number
REF02 = The TCN, in the MCO's system, of the encounter being voided

5 ACKNOWLEDGEMENTS AND/OR REPORTS

5.1 Acknowledgements

TA1 — Transaction Acknowledgement

Puerto Rico Department of Health will only respond with a TA1 when the batch X12 contains Envelope errors. If a TA1 is produced, then a 999 will be sent. The submitted 837D will need to be corrected and resubmitted.

999 — Functional Acknowledgement

This file informs the submitter that the transaction arrived and provides information about the syntactical quality of the Functional Groups in a batch X12 file. Puerto Rico Department of Health will always respond with a 999 for a batch X12 file. If a "rejected" 999 is produced then claims/encounters will not be sent to the claims engine for adjudication. The submitted 837D will need to be corrected and resubmitted.

6 TRANSACTION-SPECIFIC INFORMATION

This section describes how ASC X12N implementation guides adopted under HIPAA will be detailed with the use of a table. The tables contain a row for each segment that Puerto Rico Department of Health has something additional, over and above, the information in the implementation guides. That information can do the following:

1. Limit the repeat of loops or segments.
2. Limit the length of a simple data element.
3. Specify a sub-set of the implementation guides' internal code listings.
4. Clarify the use of loops, segments, composite, and simple data elements.
5. Any other information tied directly to a loop, segment, composite or simple data element pertinent to trading electronically with Puerto Rico Department of Health.

In addition to the row for each segment, one or more additional rows are used to describe Puerto Rico Department of Health's usage for composite and simple data elements and for any other information. Notes and comments will be placed at the deepest level of detail. For example, a note about a code value will be placed on a row specifically for that code value, not in a general note about the segment.

The following table specifies the columns and suggested use of the rows for the detailed description of the transaction set companion guides. The table contains a row for each segment that Puerto Rico Department of Health has something additional, over and above, the information in the TR3s.

6.1 005010X224A2 — 837D Health Care Claim/Encounter

TR3 page #	Loop ID	Reference	Name	Codes	Notes/Comments
66	None	BHT	Beginning of Hierarchical Transaction		
66	None	BHT02	Transaction Set Purpose Code	00	"00" – Original
67	None	BHT06	Claim Identifier	CH, RP	CH = Claims — Chargeable. RP = Encounters — Reporting.
69	1000A	NM1	Submitter Name		
70	1000A	NM108	Identification Code Qualifier	46	"46" – Electronic Transmitter Identification Number (ETIN)
70	1000A	NM109	Submitter Identifier		Enter the same value as ISA06 'Trading Partner ID' supplied by Puerto Rico Department of Health.
71	1000A	PER	Submitter EDI Contact Information		This segment identifies the person in the submitter organization who deals with data transmission issues. If data transmission problems arise, this is the person to contact in the submitter organization.
71	1000A	PER01	Contact Function Code	IC	"IC" – Information Contact
71	1000A	PER02	Submitter Contact Name		Required if different than the name contained in the Submitter Name (Loop 1000A, NM1 segment)
71	1000A	PER03	Communication Number Qualifier	EM, FX,TE	"EM" – Electronic Mail "FX" – Fax "TE" – Telephone
71	1000A	PER04	Communication Number		Email Address, Fax Number, or Telephone Number (including the area code)
74	2100A	NM1	Receiver Name		

TR3 page #	Loop ID	Reference	Name	Codes	Notes/Comments
75	1000B	NM103	Receiver Name	PUERTO RICO DEPARTMENT OF HEALTH	'PUERTO RICO DEPARTMENT OF HEALTH'
80	1000B	NM108	Identification Code Qualifier	46	"46" - Electronic Transmitter Identification Number (ETIN)
75	1000B	NM109	Receiver Primary Identifier	PRMMIS	"PRMMIS" – Puerto Rico Department of Health's Payer ID
78	2000A	PRV	Billing Provider Specialty Information		ENCOUNTER - When required for NPI crosswalk, this loop should contain the Taxonomy Code for the Provider paid by the MCO (see 2010AA below).
78	2000A	PRV03	Reference Identification		Enter the taxonomy that was reported to Puerto Rico Department of Health for the service you are billing.
82	2010AA	NM1	Billing Provider Name		*Note:* Puerto Rico Department of Health only accepts the use of NPIs as identification for dental providers.
83	2010AA	NM102	Entity Type Qualifier	1, 2	Enter the "1" value to indicate that the biller is a person. Enter the "2" value to indicate that the biller is a non-person entity.
86	2010AA	N3	Billing Provider Address		Enter the address that is currently on file with Puerto Rico Department of Health. *Note:* Do not enter a P.O. Box in this segment. If a P.O. Box needs to be reported, use the Pay-To Address loop.
87	2010AA	N4	Geographic Location		Use the physical address as reported on the provider's Puerto Rico Department of Health certification.
88	2010AA	N403	Billing Provider Postal Zone or ZIP Code		Enter the ZIP+4 code that will correspond to the physical address on file with Puerto Rico Department of Health.
96	2010AB	NM1	Pay-To Address Name		This loop will not be used by Puerto Rico Department of Health's PRMMIS.
101	2010AC	NM1	Pay-to Plan Name		This loop will only be used for subrogation.
114	2010BA	NM1	Subscriber Name		Enter information about the subscriber/member in this loop.
115	2010BA	NM102	Entity Type Qualifier	1	Enter the value "1" to indicate that the member is a person.
115	2010BA	NM103	Subscriber Last Name		Enter the member's last name.
115	2010BA	NM104	Subscriber First Name		Enter the member's first name.
115	2010BA	NM108	Identification Code Qualifier	MI	Enter the value "MI" for member identification number.

TR3 page #	Loop ID	Reference	Name	Codes	Notes/Comments
116	2010BA	NM109	Subscriber Primary Identifier		PRMMIS will only use the last 10 digits of the Puerto Rico Department of Health's member identification number. ENCOUNTER: Add 008 to the beginning of the 10 digit Member ID.
123	2010CA	REF	Property and Casualty Patient Identifier		This segment will not be used by Puerto Rico Department of Health.
124	2010BB	NM1	Payer Name		
125	2010BB	NM103	Payer Name	PUERTO RICO DEPARTMENT OF HEALTH	Enter the value "PUERTO RICO DEPARTMENT OF HEALTH".
125	2010BB	NM108	Identification Code Qualifier	PI	"PI" – Payer Identification
125	2010BB	NM109	Payer Identifier	PRMMIS	"PRMMIS" – Puerto Rico Department of Health's Payer ID
125	2010BB	N4	Payer City, State, Zip Code		
125	2010BB	N401	City Name	SAN JUAN	
125	2010BB	N402	Payer State Code	PR	
126	2010BB	N403	Payer Postal Zone or ZIP Code	009220000	
123	2010CA	REF	Property and Casualty Patient Identifier		This segment will not be used by Puerto Rico Department of Health.
145	2300	CLM	Claim Information		
146	2300	CLM01	Patient Control Number		*Note:* Puerto Rico Department of Health's PRMMIS will process patient control numbers up to 20 characters in length. ENCOUNTER: MCO should send the original PCN from the provider's original claim.
147	2300	CLM02	Total Claim Charge Amount		Enter the total billed amount for the entire claim/encounter.
147	2300	CLM05-3	Claim Frequency Code	1, 7. 8	The third digit of the type of bill, as defined by the National Uniform Billing Committee (NUBC), is the frequency code. Use the claim frequency code to indicate whether the claim/encounter is being submitted for the first time or if it is a replacement/void of a previously adjudicated and "paid" claim/encounter: "1" — indicates that this is the first claim/encounter submitted to PRMMIS. "7" — Indicates that this claim/encounter is replacing a previously submitted and adjudicated claim/encounter. Puerto Rico Department of Health's PRMMIS will void the previously submitted

ADMINISTRACIÓN DE SEGUROS DE SALUD
Contrato Número
20 - 002

TR3 page #	Loop ID	Reference	Name	Codes	Notes/Comments
					claim/encounter and completely replace it with this corrected claim/encounter. "8" — Indicates that Puerto Rico Department of Health's PRMMIS should recoup the previously submitted claim/encounter in its entirety. ENCOUNTER: Use "1" as a frequency code when resubmitting a denied claim. *Note:* The use of values "7" and "8" can result in the previously submitted claim/encounter being adjusted. Include the internal control number (ICN) from the previously submitted claim/encounter in the original reference number segment in Loop 2300. The claim frequency code was switched to an external code source during the addenda process. See the NUBC Manual or Web site, www.nubc.org/. ENCOUNTER: Paper submissions/requests will not be supported for encounter processing. ENCOUNTER: MCOs are required to send their claim ID (TCN) for each encounter submitted as well as their claim ID (TCN) for an encounter being voided (see 4.6 - Procedures for Voiding Encounters).
148	2300	CLM19	Predetermination of Benefits Code		*Note:* Puerto Rico Department of Health does not support predetermination of benefits.
154	2300	DTP	Service Date		
154	2300	DTP01	Date / Time Qualifier	472	"472" – Service
154	2300	DTP02	Date Time Period Format Qualifier	D8, RD8	"D8" – Date Expressed in Format CCYYMMDD "RD8" – Range of Dates Expressed in Format CCYYMMDD-CCYYMMDD (including dash)
154	2300	DTP03	Service Date		Service Date

TR3 page #	Loop ID	Reference	Name	Codes	Notes/Comments
166	2300	REF	Service Authorization Exception Code		*Note:* If all services were not the result of emergency care, submit multiple claims/encounters.
156	2300	DN1	Orthodontic Total Months of Treatment		
156	2300	DN101	Orthodontic Treatment Months Count		The estimated number of treatment months.
156	2300	DN102	Orthodontic Treatment Months Remaining Count		The number of treatment months remaining.
159	2300	PWK	Claim Supplemental Information		Puerto Rico Department of Health's PRMMIS does not use this segment for processing of the claim/encounter.
162	2300	CN1	Contract Information		ENCOUNTER – Required:when the encounter claim was paid at the header level This refers to the contract between the plan and the provider paid by the plan.
162	2300	CN101	Contract Type Code		ENCOUNTER - Required "05" – If provider's services were provided under a capitation agreement FFS encounter claims should indicate the appropriate value as listed in the TR3.
162	2300	CN102	Contract Amount		ENCOUNTER - Required If CN101 = 05, then amount is zero. For all other values of CN101, then the amount paid to the provider for services rendered. *Note:* The Other Payer Amount Paid (the sum of SVD02 elements in the 2430 loop) and CN102 contains the total monetary amount the health plan paid the provider.
168	2300	REF	Payer Claim Control Number		Include this segment when requesting an electronic adjustment/void (a value of "7" or "8" in CLM05-3 indicates that an adjustment/void is being requested). ENCOUNTER: MCOs are required to send their claim ID (TCN) for an encounter being voided (see 4.6 - Procedures for Voiding Encounters).
168	2300	REF01	Reference Identification Qualifier	F8	F8 = Original Reference Number
168	2300	REF02	Payer Claim Control Number		The ID (TCN), in the MCO's system, of the encounter being voided.
171	2300	REF	Prior Authorization		
172	2300	REF01	Reference Identification Qualifier	G1	G1 = Prior Authorization Number

TR3 page #	Loop ID	Reference	Name	Codes	Notes/Comments
172	2300	REF02	Prior Authorization Number		Enter the 10-digit Prior Authorization Number. Enter this number only if the services rendered required and received. This number must be entered with the qualifier "G1" (Prior Authorization Number).
190	2310A	NM1	Referring Provider Name		
191	2310A	NM101	Entity Identifier Code	DN, P3	DN = Referring Provider Use on the first iteration of this loop. Use if loop is used only once. P3 = Primary Care Provider Use only if loop is used twice. Use only on second iteration of this loop.
192	2310A	NM108	Identification Code Qualifier	XX	XX = Centers for Medicare and Medicaid Services National Provider Identifier
192	2310A	NM109	Referring Provider Identifier		
193	2310A	PRV	Referring Provider Specialty Information		
193	2310A	PRV01	Provider Code	RF	"RF" – Referring
193	2310A	PRV02	Reference Identification Qualifier	PXC	"PXC" – Health Care Provider Taxonomy Code
193	2310A	PRV03	Provider Taxonomy Code		Referring Provider Taxonomy Code. Used for claims submitted with NPI.
194	2310A	REF	Referring Provider Secondary Identification		
194	2310A	REF01	Reference Identification Qualifier	G2	"G2" – Provider Commercial Number *Note:* The "G2" qualifier must be used for non- healthcare providers.
196	2310B	NM1	Rendering Provider Name		*Note:* If a zip code is required for the Rendering Provider's NPI crosswalk, then it must be entered in the facility loop; 2310C N403.
197	2310B	NM101	Entity Identifier Code	82	82 = Rendering Provider
198	2310B	NM108	Identification Code Qualifier	XX	XX = Centers for Medicare and Medicaid Services National Provider Identifier
198	2310B	NM109	Rendering Provider Identifier		
199	2310B	PRV	Rendering Provider Specialty Information		
199	2310B	PRV01	Provider Code	PE	PE = Performing
199	2310B	PRV02	Reference Identification Qualifier	PXC	PXC = Health Care Provider Taxonomy Code
199	2310B	PRV03	Provider Taxonomy Code		Rendering Provider Taxonomy Code. Used for claims submitted with NPI.
200	2310B	REF	Rendering Provider Secondary Identification		

TR3 page #	Loop ID	Reference	Name	Codes	Notes/Comments
200	2310B	REF01	Reference Identification Qualifier	G2	"G2" – Provider Commercial Number *Note:* The "G2" qualifier must be used for non- healthcare providers.
202	2310C	NM1	Service Facility Name		*Note:* Required when the location of health care service is different than that carried in Loop ID-2010AA (Billing Provider). *Note:* If a zip code is required for the Rendering Provider's NPI crosswalk, then it must be entered in the facility loop; 2310C N403.
203	2310C	NM101	Entity Identifier Code	77	77 = Service Location
203	2310C	NM108	Identification Code Qualifier	XX	XX = Centers for Medicare and Medicaid Services National Provider Identifier
204	2310C	NM109	Laboratory or Facility Primary Identifier		
205	2310C	N3	Service Facility Location Address		
205	2310C	N301	Laboratory or Facility Address Line		Service Facility Location Address Line
206	2310C	N4	Service Facility Location City, State, Zip Code		
206	2310C	N401	Laboratory or Facility City Name		Service Facility Location City
207	2310C	N402	Laboratory or Facility State or Province Code		Service Facility Location State
207	2310C	N403	Laboratory or Facility Postal Zone or ZIP Code		Service Facility Location 9-digit Zip Code
221	2320	SBR	Other Subscriber Information		ENCOUNTER - Loop 2320 (Other Subscriber Information) is required on all encounter claims. *Note*: For encounter claims, the MCO should always be reported as one of the other payers. For example, when there is TPL, the TPL is primary and the MCO is secondary. When there is no TPL, the MCO is primary.
224	2320	SBR09	Claim Filing Indicator Code		ENCOUNTER: When the MCO is the payer the value should be "HM" NOTE: All valid values will be accepted for other payer loops.
225	2320	CAS	Claim Level Adjustments		
227	2320	CAS02	Adjustment Reason Code	A1	ENCOUNTER: "A1" – MCO denied claim
227	2320	CAS03	Adjustment Amount		
231	2320	AMT	Coordination of Benefits (COB) Payer Paid Amount

231	2320	AMT01	Amount Qualifier Code	D	"D" – Payer Amount Paid
231	2320	AMT02	Payer Paid Amount		Other Payer Amount Paid (TPL or MCO)
246	2330B	NM1	Other Payer Name		ENCOUNTER - Loop 2330B (Other Payer Name) is required on all encounter claims. *Note*: For encounter claims, the MCO should always be reported as one of the other payers. For example, when there is TPL, the TPL is primary and the MCO is secondary. When there is no TPL, the MCO is primary.
247	2330B	NM109	Other Payer Primary Identifier		This number must be identical to at least one occurrence of the 2430-SVD01 to identify the other payer. Puerto Rico Department of Health captures third party payment amount(s) from the service line(s) in 2430-SVD02. *Note*: The 2320/2330 Loop(s) can repeat up to 10 times for a single claim and the 2430 Loop can repeat up to 25 times for a single detail. ENCOUNTER – This value should be the MCO's assigned trading partner ID.
258	2330B	REF	Other Payer Claim Control Number		PRMMIS requires the MCO's internal claim ID be entered here for every encounter.
258	2330B	REF01	Reference Identification Qualifier	F8	Original Reference Number
258	2330B	REF02	Other Payer's Claim Control Number		The ID, in the MCO's system, of the encounter being submitted
281	2400	LX	Service Line Number		
281	2400	LX01	Assigned Number		Puerto Rico Department of Health accepts up to the HIPAA allowed 50 detail lines per claim/encounter. The claim/encounter would need to be split to submit more than 50 detail lines.
282	2400	SV3	Dental Service		
282	2400	SV304-1	Oral Cavity Designation Code		Enter the appropriate Mouth Quadrant code for each procedure. Only the first value listed for each procedure is used to process the claim. Enter data in the Oral Cavity Designation Code or the Tooth Code/ Number and Tooth Surface, but not both. See Appendix A.

ADMINISTRACIÓN DE SEGUROS DE SALUD
Contrato Número
20 - 002

TR3 page #	Loop ID	Reference	Name	Codes	Notes/Comments
288	2400	TOO	Tooth Information		
288	2400	TOO01	Code List Qualifier Code	JP	"JP" – Universal National Tooth Designation System
288	2400	TOO02	Tooth Code		Enter the appropriate 2-digit Tooth Number on the detail line for each procedure. Each line should contain only one Tooth Number (for permanent teeth) or Tooth Character (for primary teeth). Refer to the National Standards Tooth Numbering System for the appropriate Tooth Number or Tooth Letter for the procedure. Enter data in the Oral Cavity Designation Code or the Tooth Code/ Number and Tooth Surface, but not both.
289	2400	TOO03-1	Tooth Surface Code		Enter the appropriate Tooth Surface code for each procedure. Enter data in the Oral Cavity Designation Code or the Tooth Code/ Number and Tooth Surface, but not both.
290	2400	DTP	Service Date		
290	2400	DTP01	Date/ Time Qualifier	472	"472" – Service This DTP Segment is Required if Dates of Service are different than those submitted within the 2300-DTP03, where DTP01=472.
290	2400	DTP02	Date Time Period Format Qualifier	D8	"D8" – Date Expressed in Format CCYYMMDD
290	2400	DTP03	Service Date		
296	2400	CN1	Contract Information		ENCOUNTER - This information is required on all encounter claims paid at the line level. This refers to the contract between the plan and the provider paid by the plan.
296	2400	CN101	Contract Type Code		ENCOUNTER - Required "05" – If provider's services were provided under a capitation agreement. FFS encounter claims should indicate the appropriate value as listed in the TR3.
296	2400	CN102	Contract Amount		ENCOUNTER - Required If CN101 = 05, then amount is zero. For all other values of CN101, then the amount paid to the provider for services rendered.

TR3 page #	Loop ID	Reference	Name	Codes	Notes/Comments
					Note: The Other Payer Amount Paid (SVD02 in 2430 loop) and CN102 contains the amount the health plan paid the provider for this detail.
316	2420A	NM1	Rendering Provider Name		*Note*: Required if the Rendering Provider NM1 information is different than that carried in the 2310B (claim) loop, or if the Rendering provider information is different than the Billing/Pay-to Provider (2010AA\AB).
318	2420A	NM108	Identification Code Qualifier	XX	"XX" – Health Care Financing Administration National Provider Identifier (NPI) for Healthcare Providers
318	2420A	NM109	Rendering Provider Identifier		National Provider Identification (NPI)
319	2420A	PRV	Rendering Provider Specialty Information		Used for claims submitted with NPI.
319	2420A	PRV01	Provider Code	PE	PE = Performing
319	2420A	PRV02	Reference Identification Qualifier	PXC	PXC = Health Care Provider Taxonomy Code
319	2420A	PRV03	Provider Taxonomy Code		Rendering Provider Taxonomy Code.
320	2420A	REF	Rendering Provider Secondary Identification		
320	2420A	REF01	Reference Identification Qualifier	G2	"G2" – Provider Commercial Number Non-healthcare providers must send this REF segment where REF01= "G2".
333	2420D	NM1	Service Facility Name		*Note*: Required when the location of health care service is different than that carried in Loop ID-2010AA (Billing Provider).
334	2420D	NM101	Entity Identifier Code	77	77 = Service Location
334	2420D	NM102	Entity Type Qualifier	2	2 = Non-Person Entity
334	2420D	NM102	Laboratory or Facility Name		
334	2420D	NM108	Identification Code Qualifier	XX	XX = Centers for Medicare and Medicaid Services National Provider Identifier
334	2420D	NM109	Laboratory or Facility Primary Identifier		
336	2420D	N3	Service Facility Location Address		
336	2420D	N301	Laboratory or Facility Address Line		
337	2420D	N4	Service Facility Location City, State, Zip Code		

TR3 page #	Loop ID	Reference	Name	Codes	Notes/Comments
337	2420D	N401	Laboratory or Facility City Name		
338	2420D	N402	Laboratory or Facility State or Province Code		
338	2420D	N403	Laboratory or Facility Postal Zone or ZIP Code		Must be 9 digits
339	2420D	REF	Service Facility Location Secondary Identification		
339	2420D	REF01	Reference Identification Qualifier	G2, LU	"G2" – Provider Commercial Number "LU" – Location Number *Note*: The "G2" qualifier should only be used for non-healthcare providers.
340	2420D	REF02	Service Facility Location Secondary Identifier		
341	2430	SVD	Line Adjudication Information		ENCOUNTER -Loop 2430 Required on all encounter claims. *Note*: Other payer payment amounts are required to be entered at the detail level.
341	2430	SVD01	Other Payer Primary Identifier		This should match one occurrence of the 2330B- NM109 identifying Other Payer.
342	2430	SVD02	Service Line Paid Amount		Enter the Third Party Payment Amount (TPL) or amount health plan paid to provider at the detail level only. This is also used for crossover detail paid amount. ENCOUNTER - If CN101 = 05, SVD02 should be zero. If CN101 = 09, then SVD02 should be the detail other payer paid amount OR amount health plan paid to provider.
345	2430	CAS	Line Adjustment		
346	2430	CAS02	Adjustment Reason Code	A1	ENCOUNTER: "A1" – MCO denied claim
346	2430	CAS03	Adjustment Amount

Version 3.1 Revision Log
Companion Document: 837D Health Care Dental Claims & Encounters
Modified by:
Name: Wil Joslyn Designation: EDI BA Date: 09-09-17
Approved by:
Name: _____ Designation: _____ Date: _____

Loop ID	Page(s) Revised	Reference	Name	Codes	Text Revised
Section 1.1	8		Scope		Modify text: For further information, contact **their policy-specific** area of the Puerto Rico Department of Health or PRMMIS MCO EDI (PRMMISMCOEDI@hpe.com). This guide is intended as a resource to assist trading partners (Managed Care Organizations – MCO) and clearinghouses
Section 1.2	8		Overview		Remove text: This information should be given to the provider's business area to ensure that Claim/Encounters are interpreted correctly.
Section 1.4	9		National Provider Identifier		Modify text in third paragraph: All providers, except those that the Puerto Rico Department of Health determined as not a healthcare provider such as non-emergency transportation
Section 1.4	9		File/System Specifications		Remove text: The recommended extension is .txt or .dat. EDI does not allow zipped files. Files will be submitted to EDI via STFP. Add text: The following standards should be used: To avoid accidently overwriting files, do not send multiple files with the same name on the same day. File Names should not be longer than 45 characters

					File Names should not contain spaces or special characters File Names should contain a file extension such as .dat or .txt Zip or compressed files are allowed, but a zip or compressed file should contain only one X12 file Zip files must contain the extension .zip (not case sensitive)
Section 1.4	9		Negative Dollar Amounts		New Paragraph: Please note that a negative dollar amount in the CAS, CN1, SV1, SV2, SV3 or SVD segments will pass HIPAA compliance, PRMMIS will not process the negative amount during adjudication.
Section 2.1	11		Process Flow		Modify text: classified as "paid".
N/A	12	ISA01	Authorization Information Qualifier		Remove text: "00" – No Authorization Information Present.
N/A	12	ISA02	Authorization Information		Remove text: Claim - [space fill]
N/A	13	ISA14	Acknowledgement Requested	0	Remove code 1 & comment.
Section 4.1	16		Trading Partner Identification Number		Modify test: In Module One of the Puerto Rico Department of Health's implementation of the PRMMIS the EDI team will create any needed Trading Partner Profiles.
Section 4.2	16		Testing		Modify Text: Module one of the Puerto Rico Department of Health's implementation of the PRMMIS will not require any Production Authorization Testing.
Section 4.4	16		Limits		Modify text: File Size is restricted to 5,000 transactions (claims/encounters) per file
Section 4.6	16		Procedures for Voiding Encounters		Modify text: When voiding a claim/encounter, the MCO should send their internal Transaction ID of the claim being voided in:
2010AB	19	NM1	Pay-To Address Name		Modify text:

ADMINISTRACIÓN DE SEGUROS DE SALUD
Contrato Número
20 - 002

					This loop will not be used by Puerto Rico Department of Health's PRMMIS.
2010BA	20	NM109	Subscriber Primary Identifier		Change text: PRMMIS will only use the last 10 digits of the Puerto Rico Department of Health's member identification number. Remove Text: *Note:* Do not enter any other numbers or letters. Use the Puerto Rico Department of Health card or the EVS to obtain the correct identification number.
2300	20	CLM01	Patient Control Number		Modify Note/Comment: *Note:* Puerto Rico Department of Health's PRMMIS will process patient control numbers up to 20 characters in length. Encounters: MCO should send the original PCN from the provider's original claim.
2300	21	CLM05-3	Claim Frequency Code		Modify Note/Comment: "1" — Indicates that this is the first claim/encounter submitted to the PRMMIS. "7" — Indicates that this claim/encounter is replacing a previously submitted and adjudicated claim/encounter. Puerto Rico Department of Health's PRMMIS will void the previously submitted claim/encounter and completely replace it with this corrected claim/encounter. "8" — Indicates that Puerto Rico Department of Health's PRMMIS should recoup the previously submitted claim/encounter in its entirety. Encounter: Paper submissions/requests will not be supported for encounter processing. Remove Note/Comment: Electronic adjustments are subject to the same requirements as paper adjustments and therefore

					may result in a letter to the provider if the requirements are not met. Do not use adjustment values if reconsideration of the original payment is needed. All requests for reconsideration should be submitted on paper with supporting documentation. Add Note/Comment: Encounter: MCOs are required to send their claim ID (TCN) for each encounter submitted as well as their claim ID (TCN) for an encounter being voided (see 4.6 - Procedures for Voiding Encounters).
2300	22	CN101	Contract Type Code		Modify text: ENCOUNTER- Required "05" -- If provider's services were provided under a capitation agreement. "09" - FFS
2300	22	CN102	Contract Amount		Modified text and note: ENCOUNTER - Required If CN101 = 05, then amount is zero. If CN101 = 09, then the amount paid to the provider for services rendered. *Note:* The Other Payer Amount Paid (the sum of SVD02 elements in the 2430 loop) and CN102 contains the total monetary amount the health plan paid the provider.
2300	22	PWK	Claim Supplemental Information		Modify Note/Comment: Puerto Rico Department of Health PRMMIS does not use this field for processing of the claim/encounter
2300	22	PWK01 thru PWK05			Delete rows.
2300	23	REF	Payer Claim Control Number		Add Note/Comment: Encounter: MCOs are required to send their claim ID (TCN) for an encounter being voided (see 4.6 - Procedures for Voiding Encounters).

Standard Companion Guide

Refers to the Technical Report Type 3 (TR3)
Implementation Guides Based on ASC X12 Version
005010X223A2 Institutional Health Care Claim/Encounter (837I)

Companion Guide Version Number: 5.0

December 2017

For Module One Implementation

Puerto Rico Medicaid Management Information System Services Project

Disclosure Statement

Companion guides may contain two types of data, instructions for electronic communications with the publishing entity (communications/connectivity instructions), and supplemental information for creating transactions for the publishing entity while ensuring compliance with the associated ASC X12 implementation guide (transaction instructions). Either the communications/connectivity component or the transaction instruction component must be included in every companion guide. The components may be published as separate documents or as a single document.

The communications/connectivity component is included in the companion guide when the publishing entity wants to convey the information needed to commence and maintain communication exchange.

The transaction instruction component is included in the companion guide when the publishing entity wants to clarify the implementation guide instructions for submission of specific electronic transactions. The transaction instruction component content is limited by ASC X12's copyrights and Fair Use statement.

Preface

This companion guide to the v5010 ASC X12N Technical Report Type 3 (TR3) adopted under the Health Insurance Portability and Accountability Act of 1996 (HIPAA) clarifies and specifies the data content when exchanging transactions electronically with the Puerto Rico Department of Health. Transmissions based on this companion guide, used in tandem with the TR3, also called the Health Care Institutional Claim/Encounter ASC X12N version 005010X223A2 (837I), are compliant with both ASC X12 syntax and those guides. This companion guide is intended to convey information that is within the framework of the ASC X12N TR3 adopted for use under HIPAA. The companion guide is not intended to convey information that in any way exceeds the requirements or usages of data expressed in the TR3.

Additional information on the Final Rule for Standards for Electronic Transactions can be found at http://aspe.hhs.gov/admnsimp/final/txfin00.htm. The HIPAA Implementation Guides can be accessed at http://www.wpc-edi.com/hipaa/HIPAA_40.asp.

Disclaimer: The information contained in this Companion Guide is subject to change.

(This page was intentionally left blank.)

Table of Contents

INTRODUCTION

This section describes how TR3, also called 837I ASC X12N (version 005010X223A2), adopted under HIPAA, will be detailed with the use of a table. The tables contain a Notes/Comments column for each segment that Puerto Rico Department of Health has information additional to the TR3. That information can:

1. Limit the repeat of loops, or segments.
2. Limit the length of a simple data element.
3. Specify a sub-set of the implementation guide's internal code listings.
4. Clarify the use of loops, segments, composite, and simple data elements.
5. Provide any other information tied directly to a loop, segment, composite, or simple data element pertinent to trading electronically with Puerto Rico Department of Health.

In addition to the row for each segment, one or more additional rows are used to describe Puerto Rico Department of Health's usage for composite and simple data elements and for any other information. Notes and comments should be placed at the deepest level of detail. For example, a note about a code value should be placed on a row specifically for that code value, not in a general note about the segment.

The following table specifies the columns and suggested use of the rows for the detailed description of the transaction set companion guides. The table contains a Notes/Comments column to provide additional information from Puerto Rico Department of Health for specific segments provided by the TR3. The following is just an example of the type of information that would be spelled out or elaborated on in Section 0: TRANSACTION-SPECIFIC INFORMATION.

Page#	Loop ID	Reference	Name	Codes	Length	Notes/Comments
193	2100C	NM1	Subscriber Name			This type of row always exists to indicate that a new segment has begun. It is always shaded at 10 percent and notes or comments about the segment itself go in this cell.
195	2100C	NM109	Subscriber Primary Identifier		15	This type of row exists to limit the length of the specified data element.
196	2100C	REF	Subscriber Additional Identification			
197	2100C	REF01	Reference Identification Qualifier	18, 49, 6P, HJ, N6		These are the only codes transmitted by Puerto Rico Department of Health.
			Plan Network Identification Number	N6		This type of row exists when a note for a particular code value is required. For example, this note may say that value N6 is the default. Not populating the first three columns makes it clear that the code value belongs to the row immediately above it.
218	2110C	EB	Subscriber Eligibility or Benefit Information			
231	2110C	EB13-1	Product/Service ID Qualifier	AD		This row illustrates how to indicate a component data element in the Reference column and also how to specify that only one code value is applicable.

Scope

This companion guide is intended for trading partner use in conjunction with the TR3 HIPAA 5010 837I (referred to as Institutional Claim/Encounter in the rest of this document) for the purpose of submitting 837I electronically. This companion guide is not intended to replace the TR3. The TR3s define the national data standards, electronic format, and values for each data element within an electronic transaction. The purpose of this companion guide is to provide trading partners with a guide to communicate Puerto Rico Department of Health-specific information required to successfully exchange transactions electronically with Puerto Rico Department of Health. The instructions in this companion guide are not intended to be stand-alone requirements documents. This companion guide conforms to all the requirements of any associated ASC X12 Implementation Guide and is in conformance with ASC X12's Fair Use and Copyright statements.

The information contained in this companion guide applies to Puerto Rico Department of Health for processing.

Puerto Rico Department of Health will accept and process any HIPAA-compliant transaction; however, a compliant transaction that does not contain Puerto Rico Department of Health-specific information, though processed, may be denied. For example, a compliant 837I Claim/Encounter created with an invalid Puerto Rico Department of Health member identification number will be processed by Puerto Rico Department of Health but will be denied. For questions regarding appropriate billing procedures, as well as for policy and billing information, providers should refer to their policy-specific area of the Puerto Rico Department of Health.

Refer to this companion guide first if there is a question about how Puerto Rico Department of Health processes a HIPAA transaction. For further information, contact **their policy-specific** area of the Puerto Rico Department of Health or PRMMIS MCO EDI (PRMMISMCOEDI@hpe.com). This guide is intended as a resource to assist trading partners (Managed Care Organizations – MCO) and clearinghouses with Puerto Rico Department of Health in successfully conducting EDI of administrative health care transactions. This document provides instructions for obtaining technical assistance, initiating and maintaining connectivity, sending and receiving files, testing, and other related information. This document does not provide detailed data specifications, which are published separately by the industry committees responsible for their creation and maintenance.

Overview

Per HIPAA requirements, Puerto Rico Department of Health and all other covered entities must comply with the EDI standards for health care as established by the Secretary of the federal Department of Health and Human Services (HHS). The Secretary of the HHS is required under HIPAA to adopt standards to support the electronic exchange of administrative and financial health care transactions primarily between health care providers and plans. Additionally, HIPAA directs the Secretary to adopt standards for transactions to enable health information to be exchanged electronically and to adopt specifications for implementing each standard.

The HIPAA requirements serve to:

- Create better access to health insurance.
- Limit fraud and abuse.
- Reduce administrative costs.

This guide is designed to help those responsible for testing and setting up electronic Institutional Claim/Encounter transactions. Specifically, it documents and clarifies when situational data elements and segments must be used for reporting and identifies codes and data elements that do not apply to Puerto Rico Department of Health. This guide supplements (but does not contradict) requirements in the ASC X12N 837I (version 005010X223A2) Implementation Guide. This guide provides communications-related information a trading partner needs to enroll as a

trading partner, obtain support, format the interchange control header (ISA) and functional group header (GS) envelopes, and exchange test and production transactions with Puerto Rico Department of Health.

This companion guide must be used in conjunction with the TR3 instructions. The companion guide is intended to assist trading partners in implementing electronic 837I transactions that meet Puerto Rico Department of Health processing standards by identifying pertinent structural and data-related requirements and recommendations.

References

For more information regarding the ASC X12 Standards for Electronic Data Interchange 837I Health Care Claim/Encounter (version 005010X223A2) and to purchase copies of the TR3 documents, consult the Washington Publishing Company Web site at www.wpc-edi.com/.

The implementation guide specifies in detail the required formats for transactions exchanged electronically with an insurance company, health care payer, or government agency. The implementation guide contains requirements for the use of specific segments and specific data elements within those segments and applies to all health care providers and their trading partners. It is critical that the provider's information technology (IT) staff or software vendor review this document in its entirety and follow the stated requirements to exchange HIPAA-compliant files with Puerto Rico Department of Health.

Provider taxonomy code set can be obtained from www.wpc-edi.com/reference.

Additional Information

The American National Standards Institute (ANSI) is the coordinator for information on national and international standards. In 1979, ANSI chartered the Accredited Standards Committee (ASC) X12 to develop uniform standards for electronic interchange of business transactions and eliminate the problem of non-standard electronic data communication. The objective of the ASC X12 committee is to develop standards to facilitate electronic interchange relating to all types of business transactions. The ANSI X12 standard is recognized by the United States as the standard for North America. Electronic Data Interchange adoption has been proved to reduce the administrative burden on providers.

The intended audience for this document is the technical and operational staff responsible for generating, receiving, and reviewing electronic health care transactions.

National Provider Identifier

As a result of HIPAA, the federal HHS adopted a standard identifier for health care providers. The Final Rule published by the HHS adopted the National Provider Identifier (NPI) as the standard identifier.

The NPI replaces all payer-specific identification numbers (e.g., Medicaid provider numbers) on nationally recognized electronic transactions (also known as standard transactions); therefore, all health care providers are required to obtain an NPI to identify themselves on these transactions. The NPI is the only identification number that will be allowed on these transactions.

All providers, except those that the Puerto Rico Department of Health determined as not a healthcare provider such as non-emergency transportation, are health care providers (per the definitions within the NPI Final Rule) and, therefore, are required to obtain and use an NPI. Puerto Rico Department of Health requires all health care providers to submit their NPI on electronic transactions.

Acceptable Characters

The HIPAA transactions must not contain any carriage returns nor line feeds; the data must be received in one, continuous stream. Puerto Rico Department of Health accepts the extended character set. Uppercase characters are recommended. Files should be less than 100 MB.

File/System Specifications

EDI only accepts Windows/PC/DOS formatted files. Any file transmitted to EDI must be named in accordance to standard file naming conventions, including a valid three character file extension. The following standards should be used:

- To avoid accidently overwriting files, do not send multiple files with the same name on the same day.
- File Names should not be longer than 45 characters.
- File Names should not contain spaces or special characters.
- File Names should contain a file extension such as .dat or .txt.
- Zip or compressed files are allowed, but a zip or compressed file should contain only one X12 file.
- Zip files must contain the extension .zip (not case sensitive).

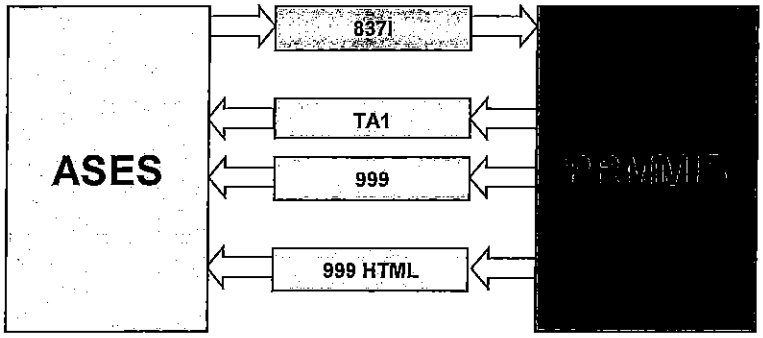
CONNECTIVITY WITH PUERTO RICO DEPARTMENT OF HEALTH / COMMUNICATIONS

This section describes the process to interactively submit HIPAA 837I transactions, along with various submission methods, security requirements, and exception handling procedures.

Process Flows

This section contains process flow diagrams and appropriate text.
Each transaction is validated to ensure that the 837I complies with the 005010X223A2 TR3.

Transactions that fail this compliance check will generate a "Rejected" 999 file back to the sender with an error message indicating the compliance error. Transactions that pass this compliance check will generate an "Accepted" 999 file back to the sender with AK9*A to indicate that the file passed compliance. Transactions with multiple ST/SE loops that fail this compliance check in some of the ST/SE loops will generate a "Partial" 999 file back to the sender with an error message indicating the compliance error (all claims/encounters in the ST/SE envelopes that pass compliance will be processed). Claims/Encounters that pass compliance checks, but fail to process (e.g., due to member not being found) will be denied. Claims/Encounters that pass compliance checks and have not failed to process (e.g., the member was found with enrollment within the date(s) of service) will be classified as "paid".



Transmission Administrative Procedures

This section provides Puerto Rico Department of Health's specific transmission administrative procedures.

The trading partner must determine if the transmission being sent is Test or Production and is using the appropriate indicator (ISA15). For details about available Puerto Rico Department of Health access methods, refer to the Communication Protocol Specifications section.

Puerto Rico Department of Health is available only to authorized users. Submitters must be Puerto Rico Department of Health trading partners. A submitter is authenticated using a username and password assigned by the trading partner.

Communication Protocol Specifications

This section describes Puerto Rico Department of Health's communication protocol(s).
The following communication methods are available to get a member's Eligibility and Benefits from Puerto Rico Department of Health:

Batch

Trading partners can submit all batch transactions to Puerto Rico Department of Health and download acknowledgements and response files. Access is free; however, the user must have his or her own Internet connection to access the Web application.

CONTROL SEGMENTS / ENVELOPES

ISA-IEA

This section describes Puerto Rico Department of Health's use of the interchange control segments. It includes a description of expected sender and receiver codes, authorization information, and delimiters.

Interchange Control Header (ISA)

To promote efficient, accurate electronic transaction processing, please note the following Puerto Rico Department of Health specifications:

- Each trading partner is assigned a trading partner ID.
- All dates are in the CCYYMMDD format. Except for ISA09.
- All dates/times are in the CCYYMMDDHHMM format.
- Payer IDs can be found in the companion guides.
- Batch responses are not returned until all inquiries are processed. Limiting the number of total inquiries per ISA-IEA will produce faster results.
- Each Payer ID must be in its own file.
- No more than 999 claims/encounters per Transaction Set (ST-SE).
- Only one interchange (ISA/IEA) loop and one functional (GS/GE) loop is allowed per file.

Transactions transmitted as a batch are identified by an ISA and trailer segment (IEA), which form the envelope enclosing the transmission. Each ISA marks the beginning of the transmission (batch) and provides sender and receiver identification. The table below represents only those fields in which Puerto Rico Department of Health requires a specific value or has additional guidance on what the value should be. The table does not represent all of the fields necessary for a successful transaction — the TR3 should be reviewed for that information.

The ISA data segment is a fixed length record and all fields must be supplied. Fields that are not populated with actual data must be filled in with spaces.

Note: Puerto Rico Department of Health accepts files with one ISA/IEA loop per file.

TR3 Page #	Loop ID	Reference	Name	Codes	Notes/Comments
C.3	None	ISA	Interchange Control Header		
C.4		ISA01	Authorization Information Qualifier	03	ENCOUNTER – "03" - Additional Data Identification.
C.4		ISA02	Authorization Information		ENCOUNTER - MCO Medicaid ID + [space fill]
C.4		ISA03	Security Information Qualifier	00	00 = No Security Information Present.
C.4		ISA04	Security Information		[space fill]
C.4		ISA05	Interchange ID (Sender) Qualifier	ZZ	ZZ = Mutually defined.
C.4		ISA06	Interchange Sender ID		Trading Partner ID supplied by Puerto Rico Department of Health, left justified and space filled.
C.5		ISA07	Interchange ID (Receiver) Qualifier	ZZ	ZZ = Mutually defined.
C.5		ISA08	Interchange Receiver ID	PRMMIS	PRMMIS - left justified and space filled.
C.5		ISA09	Interchange Date		The date format is YYMMDD.
C.5		ISA10	Interchange Time		The time format is HHMM.

TR3 Page #	Loop ID	Reference	Name	Codes	Notes/Comments
C.5		ISA11	Repetition Separator	^	A Caret "^" is recommended.
C.5		ISA12	Interchange Control Version Number	00501	00501 = Control Version Number
C.5		ISA13	Interchange Control Number		The interchange control number assigned in ISA13 must be identical to the value in IEA02.
C.6		ISA14	Acknowledgement Requested	0	0 = No interchange acknowledgment requested (TA1).
C.6		ISA15	Usage Identifier	P, T	Code indicating whether the data enclosed is production or test.
			Production Data	P	Enter value "P" to indicate that the file contains production data.
			Test Data	T	Enter value "T" to indicate that the file contains test data.
C.6		ISA16	Component Separator	:	A colon ":" is recommended.

IEA – Interchange Control Header

Communications transport protocol interchange control trailer segment. This segment within the X12N implementation guide defines the end of an interchange of zero or more functional groups and interchange-related control segments. This segment may be thought of traditionally as the file trailer record.

TR3 Page #	Loop ID	Reference	Name	Codes	Notes/Comments
C.10	None	IEA	Interchange Control Trailer		
C.10		IEA01	Number of Included Functional Groups		Number of included Functional Groups
C.10		IEA02	Interchange Control Number.		Must be identical to the value in ISA13

GS-GE

This section describes Puerto Rico Department of Health's use of the functional group control segments.

It includes a description of expected application sender and receiver codes.

Functional Group Header (GS)

In the table below fields in which Puerto Rico Department of Health requires a specific value or has additional guidance on what the value should be. The TR3 should be reviewed for specific information.

Note: Puerto Rico Department of Health only accepts files with one GS/GE loop per file.

TR3 Page #	Loop ID	Reference	Name	Codes	Notes/Comments
C.7	None	GS	Functional Group Header		
C.7		GS01	Functional ID Code	HC	"HC" – Health Care Institutional Claim/Encounter (837I)
C.7		GS02	Application Sender's Code		'Trading Partner ID' supplied by Puerto Rico Department of Health.

TR3 Page #	Loop ID	Reference	Name	Codes	Notes/Comments
C.7		GS03	Application Receiver's Code	PRMMIS	'PRMMIS' Puerto Rico Department of Health Sender ID.
C.7		GS04	Date		The date format is CCYYMMDD.
C.8		GS05	Time		The time format is HHMM.
C.8		GS06	Group Control Number		Group Control Number – Must be identical to GE02.
C.8		GS07	Responsible Agency Code	X	"X" – Responsible Agency Code
C.8		GS08	Version/ Release/ Industry Identifier Code	005010X223A2	Version/ Release/ Industry Identifier Code

Functional Group Trailer (GE)

In the table below fields in which Puerto Rico Department of Health requires a specific value or has additional guidance on what the value should be. The TR3 should be reviewed for specific information.

TR3 Page #	Loop ID	Reference	Name	Codes	Notes/Comments
C.9	None	GE	Functional Group Trailer		
C.9		GE01	Number of Transaction Sets Included		Total number of transaction sets
C.9		GE02	Group Control Number		Must be identical to the value in GS06

ST-SE

This section describes Puerto Rico Department of Health's use of transaction set control numbers.

Puerto Rico Department of Health recommends that trading partners follow the guidelines set forth in the TR3 — start the first ST02 in the first file with 000000001 and increment from there. The TR3 should be reviewed for how to create compliant transaction set control segments.

TRANSACTION SET HEADER (ST)

The TR3 should be reviewed for specific information.

TR3 Page #	Loop ID	Reference	Name	Codes	Notes/Comments
70	None	ST	Transaction Set Header		
70		ST01	Transaction Set Identifier Code	837	837 Health Care Claim
70		ST02	Transaction Set Control Number		The Transaction Set Control Number in ST02 and SE02 must be identical. The number must be unique within a specific interchange (ISA-IEA).
70		ST03	Implementation Guide Version Name	005010X223A2	This field contains the same value as GS08.

TRANSACTION SET TRAILER (SE)

The TR3 should be reviewed for specific information.

TR3 Page #	Loop ID	Reference	Name	Codes	Notes/Comments
496	None	SE	TRANSACTION SET TRAILER		
496		SE01	Transaction Segment Count		Total number of transaction sets
496		SE02	Transaction Set Control Number		The Transaction Set Control Number in ST02 and SE02 must be identical.

Control Segment Notes

The ISA data segment is a fixed length record and all fields must be supplied. Fields that are not populated with actual data must be filled in with spaces.

File Delimiters

Puerto Rico Department of Health requests that you use the following delimiters on your file. If used as delimiters, these characters must not be submitted within the data content of the transaction sets. Contact PRMMIS MCO EDI (PRMMISMCOEDI@hpe.com) if there is a need to use a delimiter other than the following:

- Segment Terminator = ~
- Element Separator = *
- Component Separator = :
- Repetition Separator = ^

Element Separator

Byte 4 in the ISA segment defines the element separator to be used throughout the entire transaction. The recommended element separator is an asterisk (*).

Repetition Separator

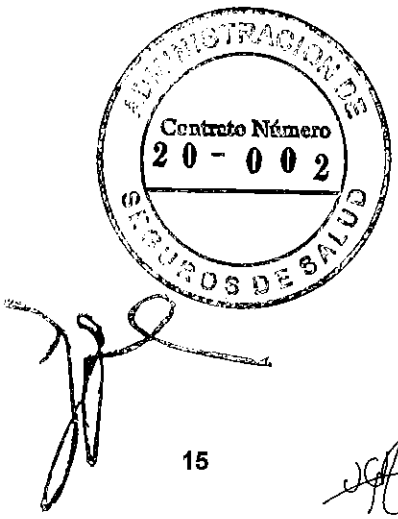
ISA11 defines the repetition separator to be used throughout the entire transaction. The recommended repetition separator is a caret (^).

Component Separator

ISA16 defines the component separator to be used throughout the entire transaction. The recommended component separator is a colon (:).

Segment Terminator

Byte 106 of the ISA segment defines the segment terminator used throughout the entire transaction. The recommended segment terminator is a tilde (~).



PUERTO RICO DEPARTMENT OF HEALTH-SPECIFIC BUSINESS RULES AND LIMITATIONS

Trading Partner Identification Number

In Module One of the Puerto Rico Department of Health's implementation of the PRMMIS, the EDI team will create any needed Trading Partner Profiles.

Testing

Module One of the Puerto Rico Department of Health's implementation of the PRMMIS will not require any Production Authorization Testing.

Terminology

The term "subscriber" will be used as a generic term throughout the companion guide.

Limits

File Size is restricted to 5,000 transactions (claims/encounters) per file. One transaction set includes all data between and including a Transaction ST segment and Transaction SE segment.

Scheduled Maintenance

Puerto Rico Department of Health schedules regular maintenance every Sunday from 01:00 a.m. to 05:00 a.m. EST.

Procedures for Voiding Encounters

PRMMIS requires that the MCO's internal Transaction Control Number (TCN) be sent for every claim:

Loop 2330B – Other Payer Name
REF – Other Payer Claim Control Number
REF01 = F8 – Original Reference Number
REF02 = The TCN, in the MCO's system, of the claim being submitted

When voiding a claim/encounter, the MCO should send their internal Transaction ID of the claim being voided in:

Loop: 2300 — CLAIM INFORMATION
REF - PAYER CLAIM CONTROL NUMBER
REF01 = F8 - Original Reference Number
REF02 = The TCN, in the MCO's system, of the encounter being voided

ACKNOWLEDGEMENTS AND/OR REPORTS

Acknowledgements

TA1 — Transaction Acknowledgement

Puerto Rico Department of Health will only respond with a TA1 when the batch X12 contains Envelope errors. If a TA1 is produced, then a 999 will be sent. The submitted 837I will need to be corrected and resubmitted.

999 — Functional Acknowledgement

This file informs the submitter that the transaction arrived and provides information about the syntactical quality of the Functional Groups in a batch X12 file. Puerto Rico Department of Health will always respond with a 999 for a batch X12 file. If a "rejected" 999 is produced then claims/encounters will not be sent to the claims engine for adjudication. The submitted 837I will need to be corrected and resubmitted.

TRANSACTION-SPECIFIC INFORMATION

This section describes how ASC X12N implementation guides adopted under HIPAA will be detailed with the use of a table. The tables contain a row for each segment that Puerto Rico Department of Health has something additional, over and above, the information in the implementation guides. That information can do the following:

1. Limit the repeat of loops or segments.
2. Limit the length of a simple data element.
3. Specify a sub-set of the implementation guides' internal code listings.
4. Clarify the use of loops, segments, composite, and simple data elements.
5. Any other information tied directly to a loop, segment, composite or simple data element pertinent to trading electronically with Puerto Rico Department of Health.

In addition to the row for each segment, one or more additional rows are used to describe Puerto Rico Department of Health's usage for composite and simple data elements and for any other information. Notes and comments will be placed at the deepest level of detail. For example, a note about a code value will be placed on a row specifically for that code value, not in a general note about the segment.

The following table specifies the columns and suggested use of the rows for the detailed description of the transaction set companion guides. The table contains a row for each segment that Puerto Rico Department of Health has something additional, over and above, the information in the TR3s.

005010X223A2 — 837I Health Care Claim/Encounter

TR3 Page #	Loop ID	Reference	Name	Codes	Notes/Comments
66	None	BHT	Beginning of Hierarchical Transaction		
66	None	BHT02	Transaction Set Purpose Code	00	"00" – Original
67	None	BHT06	Claim Identifier	CH, RP	CH = Claims — Chargeable. RP = Encounters — Reporting.
69	1000A	NM1	Submitter Name		
70	1000A	NM108	Identification Code Qualifier	46	"46" – Electronic Transmitter Identification Number (ETIN)
70	1000A	NM109	Submitter Identifier		Enter the same value as ISA06 'Trading Partner ID' supplied by Puerto Rico Department of Health.
71	1000A	PER	Submitter EDI Contact Information		This segment identifies the person in the submitter organization who deals with data transmission issues. If data transmission problems arise, this is the person to contact in the submitter organization.
71	1000A	PER01	Contact Function Code	IC	"IC" – Information Contact
71	1000A	PER02	Submitter Contact Name		Required if different than the name contained in the Submitter Name (Loop 1000A, NM1 segment)
71	1000A	PER03	Communication Number Qualifier	EM, FX, TE	"EM" – Electronic Mail "FX" – Fax "TE" – Telephone
71	1000A	PER04	Communication Number		Email Address, Fax Number, or Telephone Number (including the area code)
74	2100A	NM1	Receiver Name		

TR3 Page #	Loop ID	Reference	Name	Codes	Notes/Comments
75	1000B	NM103	Receiver Name	PUERTO RICO DEPARTMENT OF HEALTH	'PUERTO RICO DEPARTMENT OF HEALTH'
75	1000B	NM108	Identification Code Qualifier	46	"46" – Electronic Transmitter Identification Number (ETIN)
75	1000B	NM109	Receiver Primary Identifier	PRMMIS	"PRMMIS" – Puerto Rico Department of Health's Payer ID
80	2000A	PRV	Billing Provider Specialty Information		*Note:* Taxonomy codes are only required if the National Provider Identifier (NPI) has multiple certifications and the taxonomy is necessary to determine the appropriate one.
80	2000A	PRV01	Provider Code	BI	"BI" – Billing
80	2000A	PRV02	Reference Identification Qualifier	PXC	"PXC" – Health Care Provider Taxonomy Code
80	2000A	PRV03	Provider Taxonomy Code		Enter the taxonomy that was reported to Puerto Rico Department of Health for the service you are billing.
84	2010AA	NM1	Billing Provider Name		ENCOUNTER - This loop should contain the NPI information for the Provider paid by the MCO. *Note:* For MCO Plan ID submission information, see ISA01 and ISA02.
85	2010AA	NM102	Entity Identifier Code	85	85 = Billing Provider
86	2010AA	NM108	Identification Code Qualifier	XX	XX = Centers for Medicare and Medicaid Services National Provider Identifier
86	2010AA	NM109	Billing Provider Identifier		HIPAA National Provider Identifier
87	2010AA	N3	Billing Provider Address		Enter the address that is currently on file with Puerto Rico Department of Health. *Note:* Do not enter a P.O. Box in this segment. If a P.O. Box needs to be reported, use the Pay-To Address loop.
88	2010AA	N4	Geographic Location		Use the physical address as reported on the provider's Puerto Rico Department of Health certification.
88	2010AA	N403	Billing Provider Postal Zone or ZIP Code		Enter the ZIP+4 code that will correspond to the physical address on file with Puerto Rico Department of Health.
90	2010AA	REF	Billing Provider Tax Identification		
90	2010AA	REF01	Reference Identification Qualifier	EI	"EI" – Employer ID (EIN)

TR3 Page #	Loop ID	Reference	Name	Codes	Notes/Comments
90	2010AA	REF02	Billing Provider Tax Identification Number		Valid 9-digit Employer ID number
94	2010AB	NM1	Pay-To Address Name		This loop will not be used by Puerto Rico Department of Health's PRMMIS.
107	2000B	HL	Subscriber Hierarchical Level		*Note:* For Puerto Rico Department of Health, the insured and the patient are always the same person. Use this HL segment to identify the recipient and proceed to Loop 2300. Do not send the Patient Hierarchical Level (Loop 2000C). Claims received with the 2000C Loop may not process correctly.
108	2000B	HL03	Hierarchical Level Code	22	22 = Subscriber
108	2000B	HL04	Hierarchical Child Code	0	0 = No Subordinate HL Segment in This Hierarchical Structure.
109	2000B	SBR	Subscriber Information		
109	2000B	SBR01	Payer Responsibility Sequence Number Code		The X12N 837I does not support the use of the Financial Class Code that is currently billed on Hospital claims. Claim Filing Indicators and the Payer Responsibility Sequence, which indicates the relationship each payer has to Medicaid and other payers on each claim replaces the data supplied by the Financial Class Code.
110	2000B	SBR09	Claim Filing Indicator Code		See Comment on 2000B-SBR01.
112	2010BA	NM1	Subscriber Name		Enter information about the subscriber/member in this loop.
113	2010BA	NM102	Entity Type Qualifier	1	Enter the value "1" to indicate that the member is a person.
113	2010BA	NM103	Subscriber Last Name		Enter the member's last name.
113	2010BA	NM104	Subscriber First Name		Enter the member's first name.
113	2010BA	NM108	Identification Code Qualifier	MI	MI = Member identification number.
114	2010BA	NM109	Subscriber Primary Identifier		PRMMIS will only use the last 10 digits of the Puerto Rico Department of Health's member identification number. ENCOUNTER: Add 008 to the beginning of the 10 digit Member ID.
116	2010BA	N4	Subscriber City, State, Zip Code		
116	2010BA	N401	Subscriber City Name		Subscriber City
116	2010BA	N402	Subscriber State Code		Subscriber State

TR3 Page #	Loop ID	Reference	Name	Codes	Notes/Comments
117	2010BA	N403	Subscriber Postal Zone or ZIP Code		Subscriber Zip Code
121	2010CA	REF	Property and Casualty Patient Identifier		This segment will not be used by Puerto Rico Department of Health.
122	2010BB	NM1	Payer Name		
122	2010BB	NM103	Payer Name	PUERTO RICO DEPARTMENT OF HEALTH	Enter "PUERTO RICO DEPARTMENT OF HEALTH"
123	2010BB	NM108	Identification Code Qualifier	PI	"PI" – Payer Identification
123	2010BB	NM109	Payer Identifier	PRMMIS	"PRMMIS" – Puerto Rico Department of Health's Payer ID
125	2010BB	N4	Payer City, State, Zip Code		
125	2010BB	N401	City Name	SAN JUAN	
125	2010BB	N402	Payer State Code	PR	
126	2010BB	N403	Payer Postal Zone or ZIP Code	009220000	
129	2010BB	REF	Billing Provider Secondary Identification		
129	2010BB	REF01	Reference Identification Qualifier	G2	"G2" – Provider Commercial Code *Note:* The "G2" qualifier must be used for non-healthcare providers.
130	2010BB	REF02	Billing Provider Secondary Identifier		Puerto Rico Department of Health Provider ID
143	2300	CLM	Claim Information		
144	2300	CLM01	Patient Control Number		*Note:* Puerto Rico Department of Health's PRMMIS will process patient control numbers up to 20 characters in length. ENCOUNTER: MCO should send the original PCN from the provider's original claim.
145	2300	CLM02	Total Claim Charge Amount		Enter the total billed amount for the entire claim/encounter.
147	2300	CLM05-1	Facility Type Code		Value received is the 1st two positions of the Type of Bill (TOB).
147	2300	CLM05-2	Facility Code Qualifier	A	"A" – Uniform Billing Claim Form Bill Type
147	2300	CLM05-3	Claim Frequency Code	1, 3, 7, 8	The third digit of the type of bill, as defined by the National Uniform Billing Committee (NUBC), is the frequency code. Use the claim frequency code to indicate whether the claim/encounter is being submitted for the first time or if it is a replacement/void of a previously

ADMINISTRACIÓN DE SEGUROS DE SALUD

20 - 002

TR3 Page #	Loop ID	Reference	Name	Codes	Notes/Comments
					adjudicated and "paid" claim/encounter: "1" — Indicates that this is the first claim/encounter submitted to PRMMIS. "3" — Hospice Only "7" — Indicates that this claim/encounter is replacing a previously submitted and adjudicated claim/encounter. Puerto Rico Department of Health's PRMMIS will void the previously submitted claim/encounter and completely replace it with this corrected claim/encounter. "8" — Void (Credit only). Indicates that Puerto Rico Department of Health's PRMMIS should recoup the previously submitted claim/encounter in its entirety. ENCOUNTER: Use "1" as a frequency code when resubmitting a denied claim. Note: The use of values "7" and "8" can result in the previously submitted claim/encounter being adjusted. Include the Internal Control Number (ICN) from the previously submitted claim/encounter in the original reference number segment in Loop 2300. The claim frequency code was switched to an external code source during the addenda process. See the NUBC Manual or Web site, www.nubc.org/. ENCOUNTER: Paper submissions/requests will not be supported for encounter processing. ENCOUNTER: MCOs are required to send their claim ID (TCN) for each encounter submitted as well as their claim ID (TCN) for an encounter being voided (see 4.6 - Procedures for Voiding Encounters).
149	2300	DTP	Discharge Hour		
149	2300	DTP01	Date / Time Qualifier	096	"096" – Discharge

TR3 Page #	Loop ID	Reference	Name	Codes	Notes/Comments
149	2300	DTP02	Date Time Period Format Qualifier	TM	"TM" – Time (HHMM)
149	2300	DTP03	Discharge Time		Bill the Discharge Hour on all claims involving final services rendered. When a Discharge Hour is submitted, the Discharge Date is populated with the Statement Last Date of Service. This field only applies for nursing home patients discharged prior to the end of the month.
150	2300	DTP	Statement Dates		
150	2300	DTP01	Date/ Time Qualifier	434	"434" – Statement
150	2300	DTP02	Date Time Period Format Qualifier	RD8	"RD8" – Range of Dates Expressed in Format: CCYYMMDD-CCYYMMDD
153	2300	CL1	Institutional Claim Code		
153	2300	CL103	Patient Status Code		*Note:* Nursing home claims/encounters are not a covered program for the Puerto Rico Department of Health.
154	2300	PWK	Claim Supplemental Information		Puerto Rico Department of Health's PRMMIS does not use this segment for processing of the claim/encounter.
158	2300	CN1	Contract Information		ENCOUNTER – This refers to the contract between the plan and the provider paid by the plan.
158	2300	CN101	Contract Type Code		ENCOUNTER - Required "05" – If provider's services were provided under a capitation agreement FFS encounter claims should indicate the appropriate value as listed in the TR3.
158	2300	CN102	Contract Amount		ENCOUNTER - Required If CN101 = 05, then amount is zero. For all other values of CN101, then the amount paid to the provider for services rendered. *Note:* The Other Payer Amount Paid (the sum of SVD02 elements in the 2430 loop) and CN102 contains the total monetary amount the health plan paid the provider.
163	2300	REF	Referral Number		
163	2300	REF01	Reference Identification Qualifier	9F	"9F" – Referral Number

TR3 Page #	Loop ID	Reference	Name	Codes	Notes/Comments
163	2300	REF02	Referral Number		
164	2300	REF	Prior Authorization		
164	2300	REF01	Reference Identification Qualifier	G1	G1 = Prior Authorization Number
164	2300	REF02	Prior Authorization Number		Enter the 10-digit Prior Authorization Number. Enter this number only if the services rendered required and received. This number must be entered with the qualifier "G1" (Prior Authorization Number).
166	2300	REF	Payer Claim Control Number		Include this segment when requesting an electronic adjustment/void (a value of "7" or "8" in CLM05-3 indicates that an adjustment/void is being requested).
166	2300	REF01	Reference Identification Qualifier	F8	F8 = Original Reference Number
166	2300	REF02	Payer Claim Control Number		The ID (TCN), in the MCO's system, of the encounter being voided.
258	2300	HI	Occurrence Information		For those HI Segments Page 184 through Page 304 within the 837I Implementation Guide that can repeat multiple times and allow up to 12 occurrences of information within each segment are captured and stored within the MMIS.
258	2300	HI01-1	Code List Qualifier Code	BH	"BH" – Occurrence
269	2300	HI12-1	Code List Qualifier Code	BH	"BH" – Occurrence
319	2310A	NM1	Attending Provider Name		Required for Inpatient Services
319	2310A	NM101	Entity Identifier Code	71	"71" – Attending Provider
321	2310A	NM108	Identification Code Qualifier	XX	XX = Centers for Medicare and Medicaid Services National Provider Identifier
321	2310A	NM109	Attending Provider Primary Identifier		HIPAA National Provider Identifier
322	2310A	PRV	Attending Provider Specialty Information		
322	2310A	PRV01	Provider Code	AT	"AT" – Attending
322	2310A	PRV02	Reference Identification Qualifier	PXC	"PXC" – Health Care Provider Taxonomy Code
322	2310A	PRV03	Provider Taxonomy Code		Rendering Provider Taxonomy Code. Used for claims submitted with NPI.
324	2310A	REF	Attending Provider Secondary Identification		

TR3 Page #	Loop ID	Reference	Name	Codes	Notes/Comments
324	2310A	REF01	Reference Identification Qualifier	0B, G2	"0B" – State License Number "G2" – Provider Commercial Number *Note:* The "G2" qualifier must be used for non- healthcare providers.
336	2310D	NM1	Rendering Provider Name		*Note:* Required when the Rendering Provider is different than the Attending Provider reported in Loop ID-2310A of this claim.
337	2310D	NM101	Entity Identifier Code	82	82 = Rendering Provider
338	2310D	NM108	Identification Code Qualifier	XX	XX = Centers for Medicare and Medicaid Services National Provider Identifier
338	2310D	NM109	Rendering Provider Identifier		HIPAA National Provider Identifier
339	2310D	REF	Rendering Provider Secondary Identification		
339	2310D	REF01	Reference Identification Qualifier	0B, G2	"0B" – State License Number "G2" – Provider Commercial Number *Note:* The "G2" qualifier should only be used for non- healthcare providers.
341	2310E	NM1	Service Facility Name		*Note:* Required when the location of health care service is different than that carried in Loop ID-2010AA (Billing Provider).
342	2310E	NM101	Entity Identifier Code	77	77 = Service Location
342	2310E	NM108	Identification Code Qualifier	XX	XX = Centers for Medicare and Medicaid Services National Provider Identifier
342	2310E	NM109	Laboratory or Facility Primary Identifier		HIPAA National Provider Identifier
344	2310E	N3	Service Facility Location Address		
344	2310E	N301	Laboratory or Facility Address Line		Service Facility Location Address Line
345	2310E	N4	Service Facility Location City, State, Zip Code		
345	2310E	N401	Laboratory or Facility City Name		Service Facility Location City
346	2310E	N402	Laboratory or Facility State or Province Code		Service Facility Location State
346	2310E	N403	Laboratory or Facility Postal Zone or ZIP Code		Service Facility Location 9-digit Zip Code
339	2310E	REF	Rendering Provider Secondary Identification		
339	2310E	REF01	Reference Identification Qualifier	G2, LU	"G2" – Provider Commercial Number "LU" – Location Number *Note:* The "G2" qualifier should only be used for non- healthcare providers.
349	2310F	NM1	Referring Provider Name		*Note:* Required on an outpatient claim when the Referring Provider is different than the Attending Provider.

TR3 Page #	Loop ID	Reference	Name	Codes	Notes/Comments
350	2310F	NM101	Entity Identifier Code	DN	"DN" – Referring Provider
351	2310F	NM108	Identification Code Qualifier	XX	XX = Centers for Medicare and Medicaid Services National Provider Identifier
351	2310F	NM109	Referring Provider Identifier		HIPAA National Provider Identifier
352	2310F	REF	Referring Provider Secondary Identification		
352	2310F	REF01	Reference Identification Qualifier	G2	"G2" – Provider Commercial Number *Note:* The "G2" qualifier should only be used for non-healthcare providers.
354	2320	SBR	Other Subscriber Information		ENCOUNTER - Loop 2320 (Other Subscriber Information) is required on all encounter claims *Note:* For encounter claims, the MCO should always be reported as one of the other payers. For example, when there is TPL, the TPL is primary and the MCO is secondary. When there is no TPL, the MCO is primary.
355	2320	SBR01	Payer Responsibility Sequence Number Code		Enter the appropriate standard code. The X12N 837I does not support the use of the Financial Class Code that is currently billed on Hospital claims. Claim Filing Indicators and the Payer Responsibility Sequence, which indicates the relationship each payer has to Medicaid and other payers on each claim replaces the data supplied by the Financial Class Code.
356	2320	SBR09	Claim Filing Indicator Code		ENCOUNTER: When the MCO is the payer the value should be "HM" NOTE: All valid values will be accepted for other payer loops.
358	2320	CAS	Claim Level Adjustments		
360	2320	CAS02	Adjustment Reason Code	A1	ENCOUNTER: "A1" – MCO Denied Claim
360	2320	CAS03	Adjustment Amount		
364	2320	AMT	Coordination of Benefits (COB) Payer Paid Amount		
364	2320	AMT01	Amount Qualifier Code	D	"D" – Payer Amount Paid
364	2320	AMT02	Payer Paid Amount		Other Payer Amount Paid (TPL or MCO)
364	2320	AMT	Remaining Patient Liability		
364	2320	AMT01	Amount Qualifier Code	EAF	"EAF" – Amount Owed

TR3 Page #	Loop ID	Reference	Name	Codes	Notes/Comments
364	2320	AMT02	Remaining Patient Liability		
384	2330B	NM1	Other Payer Name		ENCOUNTER - Loop 2330B (Other Payer Name) is required on all encounter claims *Note:* For encounter claims, the MCO should always be reported as one of the other payers. For example, when there is TPL, the TPL is primary and the MCO is secondary. When there is no TPL, the MCO is primary.
385	2330B	NM108	Identification Code Qualifier	PI, XV	"PI" – Payer Identification "XV" – Centers for Medicare and Medicaid Services Plan ID
385	2330B	NM109	Other Payer Primary Identifier		This number must be identical to at least one occurrence of the 2430-SVD01 to identify the other payer. Puerto Rico Department of Health captures third party payment amount(s) from the service line(s) in 2430-SVD02. *Note:* The 2320/2330 Loop(s) can repeat up to 10 times for a single claim and the 2430 Loop can repeat up to 25 times for a single detail. ENCOUNTER – This value should be the MCO's assigned trading partner ID.
258	2330B	REF	Other Payer Claim Control Number		PRMMIS requires the MCO's internal claim ID be entered here for every encounter.
258	2330B	REF01	Reference Identification Qualifier	F8	"F8" – Original Reference Number
258	2330B	REF02	Other Payer's Claim Control Number		The ID, in the MCO's system, of the encounter being submitted
423	2400	LX	Service Line Number		
423	2400	LX01	Assigned Number		Puerto Rico Department of Health accepts up to the HIPAA allowed 999 detail lines per claim.
424	2400	SV2	Institutional Service Line		
424	2400	SV201	Service Line Revenue Code		*Note:* Nursing homes are not a covered service under the Puerto Rico Medicaid program.
425	2400	SV202-1	Product/Service ID Qualifier	HC	"HC" – Health Care Financing Administration Common Procedural Coding System (HCPCS) Codes
428	2400	SV205	Service Unit Count		Enter the number of days spent in hospital or at home. Puerto Rico Department of Health processes only the whole number when units are entered with decimals. Example: Units

TR3 Page #	Loop ID	Reference	Name	Codes	Notes/Comments
					entered on the transaction 3.75 are processed as 3 units.
459	2410	LIN	Drug Identification		
451	2410	LIN02	Service ID Qualifier	N4	"N4" – National Drug Code
451	2410	LIN03	Drug Identification		Enter National Drug Code in 5-4-2 Format
451	2410	CTP	Drug Quantity		
452	2410	CTP04	National Drug Unit Count		National Drug Unit Count
452	2410	CTP05-1	Code Qualifier	UN	"UN" – Unit
476	2430	SVD	Line Adjudication Information		ENCOUNTER – Loop 2430 Required on all encounter claims. *Note:* Other payer payment amounts are required to be entered at the detail level.
476	2430	SVD01	Other Payer Primary Identifier		This should match one occurrence of the 2330B-NM109 identifying Other Payer.
477	2430	SVD02	Service Line Paid Amount		Enter the Third Party Payment Amount (TPL) or amount health plan paid to provider at the line item level only. This is also used for crossover detail paid amount. ENCOUNTER - If CN101 = 05, SVD02 should be zero. If CN101 = 09, then SVD02 should be the detail other payer paid amount OR amount health plan paid to provider.
481	2430	CAS	Line Adjustment		
482	2430	CAS02	Adjustment Reason Code	A1	ENCOUNTER: "A1" – MCO Denied line item
482	2430	CAS03	Adjustment Amount

A.4 Change Summary

Version 3.1 Revision Log
Companion Document: 837I Health Care Institutional Claims & Encounters
Modified by:
Name: Wil Joslyn Designation: EDI BA Date: 09-09-17
Approved by:
Name: _____ Designation: _____ Date: _____

Loop ID	Page(s) Revised	Reference	Name	Codes	Text Revised
Section 1.1	7		Scope		Modify text: For further information, contact their policy-specific area of the Puerto Rico Department of Health or PRMMIS MCO EDI (PRMMISMCOEDI@hpe.com). This guide is intended as a resource to assist trading partners (Managed Care Organizations – MCO) and clearinghouses with Puerto Rico Department of Health in successfully conducting EDI of administrative health care transactions.
Section 1.2	7		Overview		Remove text: This information should be given to the provider's business area to ensure that Claim/Encounters are interpreted correctly.
Section 1.4	9		National Provider NPI		Modify text: All providers, except those that the Puerto Rico Department of Health determined as not a healthcare provider such as non-emergency transportation,
Section 1.4	10		File/System Specifications		Remove text: The recommended extension is .txt or .dat. EDI does not allow zipped files. Files will be submitted to EDI via STFP. Add text: The following standards should be used: To avoid accidently overwriting files, do not send

					multiple files with the same name on the same day. File Names should not be longer than 45 characters File Names should not contain spaces or special characters File Names should contain a file extension such as .dat or .txt Zip or compressed files are allowed, but a zip or compressed file should contain only one X12 file Zip files must contain the extension .zip (not case sensitive)
Section 1.4	10		Negative Dollar Amounts		New Paragraph: Please note that a negative dollar amount in the CAS, CN1, SV1, SV2, SV3 or SVD segments will pass HIPAA compliance, PRMMIS will not process the negative amount during adjudication.
Section 2.1	11		Process Flows		Modify text: classified as "paid".
N/A	12	ISA01	Authorization Information Qualifier		Remove text: "00" – No Authorization Information Present.
N/A	12	ISA02	Authorization Information		Remove text: Claim - [space fill]
N/A	13	ISA14	Acknowledgement Requested	0	Remove code 1 & comment.
Section 4.1	16		Trading Partner Identification Number		Modify text: In Module One of the Puerto Rico Department of Health's implementation of the PRMMIS the EDI team will create any needed Trading Partner Profiles.
Section 4.2	16		Testing		Module One of the Puerto Rico Department of Health's implementation of the PRMMIS will not require any Production Authorization Testing.
Section 4.4	16		Limits		Modify text: File Size is restricted to 5,000 transactions (claims/encounters) per file.
Section 4.6	16		Procedures for Voiding Encounters		Modify text:

					When voiding a claim/encounter, the MCO should send their internal Transaction ID of the claim being voided in:
2010AB	20	NM1	Pay-To Address Name		Modify text: This loop will not be used by Puerto Rico Department of Health's PRMMIS.
2000B	20	SBR01	Payer Responsibility Sequence Number Code		The X12N 837I does not support the use of the Financial Class Code that is currently billed on Hospital claims. Claim Filing Indicators and the Payer Responsibility Sequence, which indicates the relationship each payer has to Medicaid and other payers on each claim replaces the data supplied by the Financial Class Code. Remove Text: See Section 7 - Appendix A for a crosswalk of Financial Class Codes to the Claim Filing Indicator/Payer Responsibility Sequence.
2000B	21	SBR09	Claim Filing Indicator Code		Update text: See Comment on 2000B-SBR03
2010BA	20	NM109	Subscriber Primary Identifier		Change text: PRMMIS will only use the last 10 digits of the Puerto Rico Department of Health's member identification number. Remove Text: *Note:* Do not enter any other numbers or letters. Use the Puerto Rico Department of Health card or the EVS to obtain the correct identification number.
2300	21	CLM01	Patient Control Number		Modify text: *Note:* Puerto Rico Department of Health's PRMMIS will process patient control numbers up to 20 characters in length. Remove text:

					Note: Value received is returned on the 835 Remittance Advice. Add text: ENCOUNTERS: MCO should send the original PCN from the provider's original claim.
2300	21	CLM05-3	Claim Frequency Code		Modify text: "1" — Indicates that this is the first claim/encounter submitted to PRMMIS. "3" — Hospice Only "7" — Indicates that this claim/encounter is replacing a previously submitted and adjudicated claim/encounter. Puerto Rico Department of Health's PRMMIS will void the previously submitted claim/encounter and completely replace it with this corrected claim/encounter. "8" — Void (Credit only). Indicates that Puerto Rico Department of Health's PRMMIS should recoup the previously submitted claim/encounter in its entirety. Remove text: Electronic adjustments are subject to the same requirements as paper adjustments and therefore may result in a letter to the provider if the requirements are not met. Do not use adjustment values if reconsideration of the original payment is needed. All requests for reconsideration should be submitted on paper with supporting documentation. Modify text: ENCOUNTER: Paper submissions/requests will not be supported for encounter processing. Add text: ENCOUNTER: MCOs are required to send their claim

					ID (TCN) for each encounter submitted as well as their claim ID (TCN) for an encounter being voided (see 4.6 - Procedures for Voiding Encounters).
2300	25	CN101	Contract Type Code		Modify text: ENCOUNTER- Required "05" – If provider's services were provided under a capitation agreement. "09" – FFS
2300	25	CN102	Contract Amount		Modified text and note: ENCOUNTER - Required If CN101 = 05, then amount is zero. If CN101 = 09, then the amount paid to the provider for services rendered. *Note:* The Other Payer Amount Paid (the sum of SVD02 elements in the 2430 loop) and CN102 contains the total monetary amount the health plan paid the provider.
2300	23	PWK	Claim Supplemental Information		Modify text: *Note:* Puerto Rico Department of Health's PRMMIS will process patient control numbers up to 20 characters in length.
2300	23	PWK01 thru PWK05			Remove rows.
2300	23				Modify text: Puerto Rico Department of Health's PRMMIS does not use this field for processing of the claim/encounter
2300	23	CL103	Patient Status Code		Remove text: The X12N 837I does not support the use of the Nursing Home Termination Codes currently billed on Nursing Home claims. Remove Text: The Termination Code is derived from the Patient Status Code. Remove Text: See Section 9 - Nursing Home Termination Codes to

					Patient Status Codes Crosswalk. Add text: *Note:* Nursing home claims/encounters are not a covered program for the Puerto Rico Department of Health.
2300	24	REF	Payer Claim Control Number		Add Note/Comment: ENCOUNTER: MCOs are required to send their claim ID (TCN) for an encounter being voided (see 4.6 - Procedures for Voiding Encounters).
2300	24	REF02	Payer Claim Control Number		Modify Note/Comment: The ID (TCN), in the MCO's system, of the encounter being voided.
2300	25	REF02	Reference Identification Qualifier		Remove text: *Note:* This is not required for nursing homes.
2300	25	REF	Claim Identifier for Transmission Intermediaries		Remove Segment
2300	25	REF02	Reference Identification Qualifier		Remove text: *Note:* This is not required for nursing homes.
2300	26	HI01-1	Code List Qualifier Code	BH	Modify Notes/Comments: "BH" – Occurrence Remove Text: See Appendix B for a list of current Puerto Rico-specific Occurrence Codes to replacement codes and their description.
2300	26	HI12-1	Code List Qualifier Code	BH	Modify Notes/Comments: "BH" – Occurrence Remove Text: See Appendix B for a list of current Puerto Rico-specific Occurrence Codes to replacement codes and their description.
2310F	26	REF02	Reference Identification Qualifier		Remove text: *Note:* This is not required for nursing homes.
2320	27	SBR01	Payer Responsibility Sequence Number Code		Modify Notes/Comments: The X12N 837I does not support the use of the Financial Class Code that is currently billed on Hospital claims. Claim Filing

					Indicators and the Payer Responsibility Sequence, which indicates the relationship each payer has to Medicaid and other payers on each claim replaces the data supplied by the Financial Class Code. Remove Text: See Section 7 - Appendix A for a crosswalk of Financial Class Codes to the Claim Filing Indicator/Payer Responsibility Sequence.
2320	27	CAS02	Adjustment Reason Code	A1	Remove text: For Inpatient: "1" - Deductible "2" - Coinsurance Other external code source values from code source 139 are allowed.
2320	27 thru 28	CAS05 thru CAS18	Adjustment Reason Code & Adjustment Amount		Delete rows.
2400	29	SV201	Service Line Revenue Code		Remove text: Nursing home submitters must enter a revenue code. Enter Revenue Code "0101" and the per diem amount if no home days or hospital days need to be reported. Enter Revenue Code "0185" for days spent in hospital or Service Line Revenue Code "0182" for days spent at home. (Nursing Home only) Add text: *Note:* Nursing homes are not a covered service under the Puerto Rico Medicaid program.
2430	30	SVD	Line Adjudication Information		Remove (name loop) from Notes/Comments
2430	30	SVD01	Other Payer Primary Identifier		Remove number from Notes/Comments
2430	30	SVD02	Service Line Paid Amount		Modify text: Enter the Third Party Payment Amount (TPL) or amount health plan paid to provider at the line item level only.

					This is also used for crossover detail paid amount. ENCOUNTER - If CN101 = 05, SVD02 should be zero. If CN101 = 09, then SVD02 should be the detail other payer paid amount OR amount health plan paid to provider.
2430	31	CAS02	Adjustment Reason Code	A1	Remove text: For Inpatient: "1" - Deductible "2" - Coinsurance Other external code source values from code source 139 are allowed.
2430	31 thru 32	CAS05 thru CAS18	Adjustment Reason Code & Adjustment Amount		Delete rows.
N/A	36		Section 7 – Appendix A		Remove Section 7
N/A	36		Section 8 – Appendix B		Remove Section 8

Loop ID	Page(s) Revised	Reference	Name	Codes	Text Revised
2300	23	CN1	Contract Information		Modify the text: ENCOUNTER – This refers to the contract between the plan and the provider paid by the plan.
2300	23	CN101	Contract Type Code		Modify the text: ENCOUNTER - Required "05" – If provider's services were provided under a capitation agreement FFS encounter claims should indicate the appropriate value as listed in the TR3.
2300	22	CN102	Contract Amount		Modify the text: If CN101 = 05, then amount is zero. For all other values of CN101, then the amount paid to the provider for services rendered.
2300	24	K3	File Information		Remove Segment
2300	24	K301	Fixed Format Information		Remove Line: MCO Receipt Date – Format: CCYYMMDD.
2320	26	SBR09	Claim Filing Indicator Code		Modify the text: ENCOUNTER: When the MCO is the payer the value should be "HM" *Note:* All valid values will be accepted for other payer loops.
2330B	27	DTP	Claim Check or Remittance Date		Remove Segment
2330B	27	DTP01	Date / Time Qualifier	573	Remove Line: "573" – Other Payer or MCO Claim Adjudication Date
2330B	27	DTP02	Date Time Period Format Qualifier	D8	Remove Line: "D8" – Date Expressed in Format CCYYMMDD
2330B	27	DTP03	Adjudication or Payment Date		Remove Line: TPL or MCO Adjudication Date (CCYYMMDD)

HIPAA Transaction Standard Companion Guide

Refers to the Technical Report Type 3 (TR3) Implementation Guides Based on ASC X12 Version 005010X222A1 Professional Health Care Claim/Encounter (837P)

Companion Guide Version Number: 5.0

December 2017

For Module One Implementation

Puerto Rico Medicaid Management Information System
Services Project

Disclosure Statement

Companion guides may contain two types of data, instructions for electronic communications with the publishing entity (communications/connectivity instructions), and supplemental information for creating transactions for the publishing entity while ensuring compliance with the associated ASC X12 implementation guide (transaction instructions). Either the communications/connectivity component or the transaction instruction component must be included in every companion guide. The components may be published as separate documents or as a single document.

The communications/connectivity component is included in the companion guide when the publishing entity wants to convey the information needed to commence and maintain communication exchange.

The transaction instruction component is included in the companion guide when the publishing entity wants to clarify the implementation guide instructions for submission of specific electronic transactions. The transaction instruction component content is limited by ASC X12's copyrights and Fair Use statement.

Preface

This companion guide to the v5010 ASC X12N Technical Report Type 3 (TR3) adopted under the Health Insurance Portability and Accountability Act of 1996 (HIPAA) clarifies and specifies the data content when exchanging transactions electronically with the Puerto Rico Department of Health. Transmissions based on this companion guide, used in tandem with the TR3, also called the Health Care Professional Claim/Encounter ASC X12N version 005010X222A1 (837P), are compliant with both ASC X12 syntax and those guides. This companion guide is intended to convey information that is within the framework of the ASC X12N TR3 adopted for use under HIPAA. The companion guide is not intended to convey information that in any way exceeds the requirements or usages of data expressed in the TR3.

Additional information on the Final Rule for Standards for Electronic Transactions can be found at http://aspe.hhs.gov/admnsimp/final/txfin00.htm. The HIPAA Implementation Guides can be accessed at http://www.wpc-edi.com/hipaa/HIPAA_40.asp.

Disclaimer: The information contained in this Companion Guide is subject to change.

Contents

1 INTRODUCTION

This section describes how TR3, also called 837P ASC X12N (version 005010X222A1), adopted under HIPAA, will be detailed with the use of a table. The tables contain a Notes/Comments column for each segment that Puerto Rico Department of Health has information additional to the TR3. That information can:

1. Limit the repeat of loops, or segments.
2. Limit the length of a simple data element.
3. Specify a sub-set of the implementation guide's internal code listings.
4. Clarify the use of loops, segments, composite, and simple data elements.
5. Provide any other information tied directly to a loop, segment, composite, or simple data element pertinent to trading electronically with Puerto Rico Department of Health.

In addition to the row for each segment, one or more additional rows are used to describe Puerto Rico Department of Health's usage for composite and simple data elements and for any other information. Notes and comments should be placed at the deepest level of detail. For example, a note about a code value should be placed on a row specifically for that code value, not in a general note about the segment.

The following table specifies the columns and suggested use of the rows for the detailed description of the transaction set companion guides. The table contains a Notes/Comments column to provide additional information from Puerto Rico Department of Health for specific segments provided by the TR3. The following is just an example of the type of information that would be spelled out or elaborated on in Section 6: TRANSACTION-SPECIFIC INFORMATION.

Page#	Loop ID	Reference	Name	Codes	Length	Notes/Comments
193	2100C	NM1	Subscriber Name			This type of row always exists to indicate that a new segment has begun. It is always shaded at 10 percent and notes or comments about the segment itself go in this cell.
195	2100C	NM109	Subscriber Primary Identifier		15	This type of row exists to limit the length of the specified data element.
196	2100C	REF	Subscriber Additional Identification			
197	2100C	REF01	Reference Identification Qualifier	18, 49, 6P, HJ, N6		These are the only codes transmitted by Puerto Rico Department of Health.
			Plan Network Identification Number	N6		This type of row exists when a note for a particular code value is required. For example, this note may say that value N6 is the default. Not populating the first three columns makes it clear that the code value belongs to the row immediately above it.
218	2110C	EB	Subscriber Eligibility or Benefit Information			
231	2110C	EB13-1	Product/Service ID Qualifier	AD		This row illustrates how to indicate a component data element in the Reference column and also how to specify that only one code value is applicable.

1.1 Scope

This companion guide is intended for trading partner use in conjunction with the TR3 HIPAA 5010 837P (referred to as Professional Claim/Encounter in the rest of this document) for the purpose of submitting 837P electronically. This companion guide is not intended to replace the TR3. The TR3s define the national data standards, electronic format, and values for each data element within an electronic transaction. The purpose of this companion guide is to provide trading partners with a guide to communicate Puerto Rico Department of Health-specific information required to successfully exchange transactions electronically with Puerto Rico Department of Health. The instructions in this companion guide are not intended to be stand-alone requirements documents. This companion guide conforms to all the requirements of any associated ASC X12 Implementation Guide and is in conformance with ASC X12's Fair Use and Copyright statements.

The information contained in this companion guide applies to Puerto Rico Department of Health for processing.

Puerto Rico Department of Health will accept and process any HIPAA-compliant transaction; however, a compliant transaction that does not contain Puerto Rico Department of Health-specific information, though processed, may be denied. For example, a compliant 837P Claim/Encounter created with an invalid Puerto Rico Department of Health member identification number will be processed by Puerto Rico Department of Health but will be denied. For questions regarding appropriate billing procedures, as well as for policy and billing information, providers should refer to their policy-specific area of the Puerto Rico Department of Health.

Refer to this companion guide first if there is a question about how Puerto Rico Department of Health processes a HIPAA transaction. For further information, contact **their policy-specific** area of the Puerto Rico Department of Health or PRMMIS MCO EDI (PRMMISMCOEDI@hpe.com). This guide is intended as a resource to assist trading partners (Managed Care Organizations – MCO) and clearinghouses with Puerto Rico Department of Health in successfully conducting EDI of administrative health care transactions. This document provides instructions for obtaining technical assistance, initiating and maintaining connectivity, sending and receiving files, testing, and other related information. This document does not provide detailed data specifications, which are published separately by the industry committees responsible for their creation and maintenance.

1.2 Overview

Per HIPAA requirements, Puerto Rico Department of Health and all other covered entities must comply with the EDI standards for health care as established by the Secretary of the federal Department of Health and Human Services (HHS). The Secretary of the HHS is required under HIPAA to adopt standards to support the electronic exchange of administrative and financial health care transactions primarily between health care providers and plans. Additionally, HIPAA directs the Secretary to adopt standards for transactions to enable health information to be exchanged electronically and to adopt specifications for implementing each standard.

The HIPAA requirements serve to:

- Create better access to health insurance.
- Limit fraud and abuse.
- Reduce administrative costs.

This guide is designed to help those responsible for testing and setting up electronic Professional Claim/Encounter transactions. Specifically, it documents and clarifies when situational data elements and segments must be used for reporting and identifies codes and data elements that do not apply to Puerto Rico Department of Health. This guide supplements (but does not contradict) requirements in the ASC X12N 837P (version 005010X222A1) Implementation Guide. This guide provides communications-related information a trading partner needs to enroll as a

trading partner, obtain support, format the interchange control header (ISA) and functional group header (GS) envelopes, and exchange test and production transactions with Puerto Rico Department of Health.

This companion guide must be used in conjunction with the TR3 instructions. The companion guide is intended to assist trading partners in implementing electronic 837P transactions that meet Puerto Rico Department of Health processing standards by identifying pertinent structural and data-related requirements and recommendations.

1.3 References

For more information regarding the ASC X12 Standards for Electronic Data Interchange 837P Health Care Claim/Encounter (version 005010X222A1) and to purchase copies of the TR3 documents, consult the Washington Publishing Company Web site at www.wpc-edi.com/.

The implementation guide specifies in detail the required formats for transactions exchanged electronically with an insurance company, health care payer, or government agency. The implementation guide contains requirements for the use of specific segments and specific data elements within those segments and applies to all health care providers and their trading partners. It is critical that the provider's information technology (IT) staff or software vendor review this document in its entirety and follow the stated requirements to exchange HIPAA-compliant files with Puerto Rico Department of Health.

Provider taxonomy code set can be obtained from www.wpc-edi.com/reference.

1.4 Additional Information

The American National Standards Institute (ANSI) is the coordinator for information on national and international standards. In 1979, ANSI chartered the Accredited Standards Committee (ASC) X12 to develop uniform standards for electronic interchange of business transactions and eliminate the problem of non-standard electronic data communication. The objective of the ASC X12 committee is to develop standards to facilitate electronic interchange relating to all types of business transactions. The ANSI X12 standard is recognized by the United States as the standard for North America. Electronic Data Interchange adoption has been proved to reduce the administrative burden on providers.

The intended audience for this document is the technical and operational staff responsible for generating, receiving, and reviewing electronic health care transactions.

National Provider Identifier

As a result of HIPAA, the federal HHS adopted a standard identifier for health care providers. The Final Rule published by the HHS adopted the National Provider Identifier (NPI) as the standard identifier.

The NPI replaces all payer-specific identification numbers (e.g., Medicaid provider numbers) on nationally recognized electronic transactions (also known as standard transactions); therefore, all health care providers are required to obtain an NPI to identify themselves on these transactions. The NPI is the only identification number that will be allowed on these transactions.

All providers, except those that the Puerto Rico Department of Health determined as not a healthcare provider such as non-emergency transportation, are health care providers (per the definitions within the NPI Final Rule) and, therefore, are required to obtain and use an NPI. Puerto Rico Department of Health requires all health care providers to submit their NPI on electronic transactions.

Acceptable Characters

The HIPAA transactions must not contain any carriage returns nor line feeds; the data must be received in one, continuous stream. Puerto Rico Department of Health accepts the extended character set. Uppercase characters are recommended. Files should be less than 100 MB.

File/System Specifications

EDI only accepts Windows/PC/DOS formatted files. Any file transmitted to EDI must be named in accordance to standard file naming conventions, including a valid three character file extension. The following standards should be used:

- To avoid accidently overwriting files, do not send multiple files with the same name on the same day.
- File Names should not be longer than 45 characters.
- File Names should not contain spaces or special characters.
- File Names should contain a file extension such as .dat or .txt.
- Zip or compressed files are allowed, but a zip or compressed file should contain only one X12 file.
- Zip files must contain the extension .zip (not case sensitive).

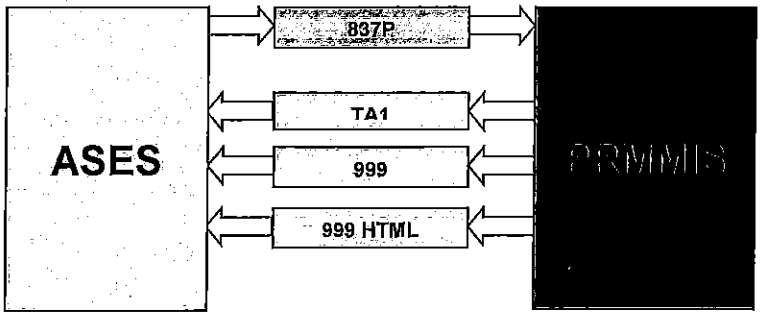
2 CONNECTIVITY WITH PUERTO RICO DEPARTMENT OF HEALTH / COMMUNICATIONS

This section describes the process to interactively submit HIPAA 837P transactions, along with various submission methods, security requirements, and exception handling procedures.

2.1 Process Flows

This section contains process flow diagrams and appropriate text.
Each transaction is validated to ensure that the 837P complies with the 005010X222A1 TR3.

Transactions that fail this compliance check will generate a "Rejected" 999 file back to the sender with an error message indicating the compliance error. Transactions that pass this compliance check will generate an "Accepted" 999 file back to the sender with AK9*A to indicate that the file passed compliance. Transactions with multiple ST/SE loops that fail this compliance check in some of the ST/SE loops will generate a "Partial" 999 file back to the sender with an error message indicating the compliance error (all claims/encounters in the ST/SE envelopes that pass compliance will be processed). Claims/Encounters that pass compliance checks, but fail to process (e.g., due to member not being found) will be denied. Claims/Encounters that pass compliance checks and have not failed to process (e.g., the member was found with enrollment within the date(s) of service) will be classified as "paid".



2.2 Transmission Administrative Procedures

This section provides Puerto Rico Department of Health's specific transmission administrative procedures.

The trading partner must determine if the transmission being sent is Test or Production and is using the appropriate indicator (ISA15). For details about available Puerto Rico Department of Health access methods, refer to the Communication Protocol Specifications section.

Puerto Rico Department of Health is available only to authorized users. Submitters must be Puerto Rico Department of Health trading partners. A submitter is authenticated using a username and password assigned by the trading partner.

2.3 Communication Protocol Specifications

This section describes Puerto Rico Department of Health's communication protocol(s).
The following communication methods are available to get a member's Eligibility and Benefits from Puerto Rico Department of Health:

Batch

Trading partners can submit all batch transactions to Puerto Rico Department of Health and download acknowledgements and response files. Access is free; however, the user must have his or her own Internet connection to access the Web application.

3 CONTROL SEGMENTS / ENVELOPES

3.1 ISA-IEA

This section describes Puerto Rico Department of Health's use of the interchange control segments. It includes a description of expected sender and receiver codes, authorization information, and delimiters.

Interchange Control Header (ISA)

To promote efficient, accurate electronic transaction processing, please note the following Puerto Rico Department of Health specifications:

- Each trading partner is assigned a trading partner ID.
- All dates are in the CCYYMMDD format. Except for ISA09.
- All dates/times are in the CCYYMMDDHHMM format.
- Payer IDs can be found in the companion guides.
- Batch responses are not returned until all inquiries are processed. Limiting the number of total inquiries per ISA-IEA will produce faster results.
- Each Payer ID must be in its own file.
- No more than 999 claims/encounters per Transaction Set (ST-SE).
- Only one interchange (ISA/IEA) loop and one functional (GS/GE) loop is allowed per file.

Transactions transmitted as a batch are identified by an ISA and trailer segment (IEA), which form the envelope enclosing the transmission. Each ISA marks the beginning of the transmission (batch) and provides sender and receiver identification. The table below represents only those fields in which Puerto Rico Department of Health requires a specific value or has additional guidance on what the value should be. The table does not represent all of the fields necessary for a successful transaction — the TR3 should be reviewed for that information.

The ISA data segment is a fixed length record and all fields must be supplied. Fields that are not populated with actual data must be filled in with spaces.

Note: Puerto Rico Department of Health accepts files with one ISA/IEA loop per file.

TR3 Page #	Loop ID	Reference	Name	Codes	Notes/Comments
C.3	None	ISA	Interchange Control Header		
C.4		ISA01	Authorization Information Qualifier	03	ENCOUNTER – "03" - Additional Data Identification.
C.4		ISA02	Authorization Information		ENCOUNTER - MCO Medicaid ID + [space fill]
C.4		ISA03	Security Information Qualifier	00	00 = No Security Information Present.
C.4		ISA04	Security Information		[space fill]
C.4		ISA05	Interchange ID (Sender) Qualifier	ZZ	ZZ = Mutually defined.
C.4		ISA06	Interchange Sender ID		Trading Partner ID supplied by Puerto Rico Department of Health, left justified and space filled.
C.5		ISA07	Interchange ID (Receiver) Qualifier	ZZ	ZZ = Mutually defined.
C.5		ISA08	Interchange Receiver ID	PRMMIS	PRMMIS - left justified and space filled.
C.5		ISA09	Interchange Date		The date format is YYMMDD.
C.5		ISA10	Interchange Time		The time format is HHMM.

TR3 Page #	Loop ID	Reference	Name	Codes	Notes/Comments
C.5		ISA11	Repetition Separator	^	A Caret "^" is recommended.
C.5		ISA12	Interchange Control Version Number	00501	00501 = Control Version Number
C.5		ISA13	Interchange Control Number		The interchange control number assigned in ISA13 must be identical to the value in IEA02.
C.6		ISA14	Acknowledgement Requested	0	0 = No interchange acknowledgment requested (TA1).
C.6		ISA15	Usage Identifier	P, T	Code indicating whether the data enclosed is production or test.
			Production Data	P	Enter value "P" to indicate that the file contains production data.
			Test Data	T	Enter value "T" to indicate that the file contains test data.
C.6		ISA16	Component Separator	:	A colon ":" is recommended.

IEA – Interchange Control Header

Communications transport protocol interchange control trailer segment. This segment within the X12N implementation guide defines the end of an interchange of zero or more functional groups and interchange-related control segments. This segment may be thought of traditionally as the file trailer record.

TR3 Page #	Loop ID	Reference	Name	Codes	Notes/Comments
C.10	None	IEA	Interchange Control Trailer		
C.10		IEA01	Number of Included Functional Groups		Number of included Functional Groups
C.10		IEA02	Interchange Control Number.		Must be identical to the value in ISA13

3.2 GS-GE

This section describes Puerto Rico Department of Health's use of the functional group control segments.

It includes a description of expected application sender and receiver codes.

Functional Group Header (GS)

In the table below fields in which Puerto Rico Department of Health requires a specific value or has additional guidance on what the value should be. The TR3 should be reviewed for specific information.
Note: Puerto Rico Department of Health only accepts files with one GS/GE loop per file.

TR3 Page #	Loop ID	Reference	Name	Codes	Notes/Comments
C.7	None	GS	Functional Group Header		
C.7		GS01	Functional ID Code	HC	"HC" – Health Care Professional Claim/Encounter (837P)
C.7		GS02	Application Sender's Code		'Trading Partner ID' supplied by Puerto Rico Department of Health.

TR3 Page #	Loop ID	Reference	Name	Codes	Notes/Comments
C.7		GS03	Application Receiver's Code	PRMMIS	'PRMMIS' Puerto Rico Department of Health Sender ID.
C.7		GS04	Date		The date format is CCYYMMDD.
C.8		GS05	Time		The time format is HHMM.
C.8		GS06	Group Control Number		Group Control Number – Must be identical to GE02.
C.8		GS07	Responsible Agency Code	X	"X" – Responsible Agency Code
C.8		GS08	Version/ Release/Industry Identifier Code	005010X222A1	Version/ Release/ Industry Identifier Code

Functional Group Trailer (GE)

In the table below fields in which Puerto Rico Department of Health requires a specific value or has additional guidance on what the value should be. The TR3 should be reviewed for specific information.

TR3 Page #	Loop ID	Reference	Name	Codes	Notes/Comments
C.9	None	GE	Functional Group Trailer		
C.9		GE01	Number of Transaction Sets Included		Total number of transaction sets
C.9		GE02	Group Control Number		Must be identical to the value in GS06

3.3 ST-SE

This section describes Puerto Rico Department of Health's use of transaction set control numbers.

Puerto Rico Department of Health recommends that trading partners follow the guidelines set forth in the TR3 — start the first ST02 in the first file with 000000001 and increment from there. The TR3 should be reviewed for how to create compliant transaction set control segments.

TRANSACTION SET HEADER (ST)

The TR3 should be reviewed for specific information.

TR3 Page #	Loop ID	Reference	Name	Codes	Notes/Comments
70	None	ST	Transaction Set Header		
70		ST01	Transaction Set Identifier Code	837	837 Health Care Claim
70		ST02	Transaction Set Control Number		The Transaction Set Control Number in ST02 and SE02 must be identical. The number must be unique within a specific interchange (ISA-IEA).
70		ST03	Implementation Guide Version Name	005010X222A1	This field contains the same value as GS08.

TRANSACTION SET TRAILER (SE)

The TR3 should be reviewed for specific information.

ADMINISTRACION DE SEGUROS DE SALUD
Contrato Número
20 - 002

TR3 Page #	Loop ID	Reference	Name	Codes	Notes/Comments
496	None	SE	TRANSACTION SET TRAILER		
496		SE01	Transaction Segment Count		Total number of transaction sets
496		SE02	Transaction Set Control Number		The Transaction Set Control Number in ST02 and SE02 must be identical.

3.4 Control Segment Notes

The ISA data segment is a fixed length record and all fields must be supplied. Fields that are not populated with actual data must be filled in with spaces.

3.5 File Delimiters

Puerto Rico Department of Health requests that you use the following delimiters on your file. If used as delimiters, these characters must not be submitted within the data content of the transaction sets. Contact PRMMIS MCO EDI (PRMMISMCOEDI@hpe.com) if there is a need to use a delimiter other than the following:

- Segment Terminator = ~
- Element Separator = *
- Component Separator = :
- Repetition Separator = ^

Element Separator

Byte 4 in the ISA segment defines the element separator to be used throughout the entire transaction. The recommended element separator is an asterisk (*).

Repetition Separator

ISA11 defines the repetition separator to be used throughout the entire transaction. The recommended repetition separator is a caret (^).

Component Separator

ISA16 defines the component separator to be used throughout the entire transaction. The recommended component separator is a colon (:).

Segment Terminator

Byte 106 of the ISA segment defines the segment terminator used throughout the entire transaction. The recommended segment terminator is a tilde (~).

4 PUERTO RICO DEPARTMENT OF HEALTH-SPECIFIC BUSINESS RULES AND LIMITATIONS

4.1 Trading Partner Identification Number

In Module One of the Puerto Rico Department of Health's implementation of the PRMMIS, the EDI team will create any needed Trading Partner Profiles.

4.2 Testing

Module One of the Puerto Rico Department of Health's implementation of the PRMMIS will not require any Production Authorization Testing.

4.3 Terminology

The term "subscriber" will be used as a generic term throughout the companion guide.

4.4 Limits

File Size is restricted to 5,000 transactions (claims/encounters) per file. One transaction set includes all data between and including a Transaction ST segment and Transaction SE segment.

4.5 Scheduled Maintenance

Puerto Rico Department of Health schedules regular maintenance every Sunday from 01:00 a.m. to 05:00 a.m. EST.

4.6 Procedures for Voiding Encounters

PRMMIS requires that the MCO's internal Transaction Control Number (TCN) be sent for every claim:

Loop 2330B – Other Payer Name
REF – Other Payer Claim Control Number
REF01 = F8 – Original Reference Number
REF02 = The TCN, in the MCO's system, of the claim being submitted

When voiding a claim/encounter, the MCO should send their internal Transaction ID of the claim being voided in:

Loop: 2300 — CLAIM INFORMATION
REF - PAYER CLAIM CONTROL NUMBER
REF01 = F8 - Original Reference Number
REF02 = The TCN, in the MCO's system, of the encounter being voided

5 ACKNOWLEDGEMENTS AND/OR REPORTS

5.1 Acknowledgements

TA1 — Transaction Acknowledgement

Puerto Rico Department of Health will only respond with a TA1 when the batch X12 contains Envelope errors. If a TA1 is produced, then a 999 will not be sent. The submitted 837P will need to be corrected and resubmitted.

999 — Functional Acknowledgement

This file informs the submitter that the transaction arrived and provides information about the syntactical quality of the Functional Groups in a batch X12 file. Puerto Rico Department of Health will always respond with a 999 for a batch X12 file. If a "rejected" 999 is produced then claims/encounters will not be sent to the claims engine for adjudication. The submitted 837P will need to be corrected and resubmitted.

6 TRANSACTION-SPECIFIC INFORMATION

This section describes how ASC X12N implementation guides adopted under HIPAA will be detailed with the use of a table. The tables contain a row for each segment that Puerto Rico Department of Health has something additional, over and above, the information in the implementation guides. That information can do the following:

1. Limit the repeat of loops or segments.
2. Limit the length of a simple data element.
3. Specify a sub-set of the implementation guides' internal code listings.
4. Clarify the use of loops, segments, composite, and simple data elements.
5. Any other information tied directly to a loop, segment, composite or simple data element pertinent to trading electronically with Puerto Rico Department of Health.

In addition to the row for each segment, one or more additional rows are used to describe Puerto Rico Department of Health's usage for composite and simple data elements and for any other information. Notes and comments will be placed at the deepest level of detail. For example, a note about a code value will be placed on a row specifically for that code value, not in a general note about the segment.

The following table specifies the columns and suggested use of the rows for the detailed description of the transaction set companion guides. The table contains a row for each segment that Puerto Rico Department of Health has something additional, over and above, the information in the TR3s.

6.1 005010X222A1 — 837P Health Care Claim/Encounter

TR3 Page #	Loop ID	Reference	Name	Codes	Notes/Comments
71	None	BHT	Beginning of Hierarchical Transaction		
71	None	BHT02	Transaction Set Purpose Code	00	"00" – Original
71	None	BHT06	Claim Identifier	CH, RP	CH = Claims — Chargeable. RP = Encounters — Reporting.
74	1000A	NM1	Submitter Name		
75	1000A	NM108	Identification Code Qualifier	46	"46" – Electronic Transmitter Identification Number (ETIN)
75	1000A	NM109	Submitter Identifier		Enter the same value as ISA06 'Trading Partner ID' supplied by Puerto Rico Department of Health.
76	1000A	PER	Submitter EDI Contact Information		This segment identifies the person in the submitter organization who deals with data transmission issues. If data transmission problems arise, this is the person to contact in the submitter organization.
77	1000A	PER01	Contact Function Code	IC	"IC" – Information Contact
77	1000A	PER02	Submitter Contact Name		Required if different than the name contained in the Submitter Name (Loop 1000A, NM1 segment).
77	1000A	PER03	Communication Number Qualifier	EM, FX, TE	"EM"– Electronic Mail "FX" – Fax "TE" – Telephone
77	1000A	PER04	Communication Number		Email Address, Fax Number, or Telephone Number (including the area code)
79	1000B	NM1	Receiver Name		

TR3 Page #	Loop ID	Reference	Name	Codes	Notes/Comments
80	1000B	NM103	Receiver Name	PUERTO RICO DEPARTMENT OF HEALTH	'PUERTO RICO DEPARTMENT OF HEALTH'
80	1000B	NM108	Identification Code Qualifier	46	"46" – Electronic Transmitter Identification Number (ETIN)
80	1000B	NM109	Receiver Primary Identifier	PRMMIS	"PRMMIS" – Puerto Rico Department of Health's Payer ID
83	2000A	PRV	Billing Provider Specialty Information		ENCOUNTER - When required for NPI crosswalk, this loop should contain the Taxonomy Code for the Provider paid by the MCO (see 2010AA below).
83	2000A	PRV01	Provider Code	BI	"BI" – Billing
83	2000A	PRV02	Reference Identification Qualifier	PXC	"PXC" – Health Care Provider Taxonomy Code *Note:* Taxonomy codes are only required if the National Provider Identifier (NPI) has multiple certifications and the taxonomy is necessary to determine the appropriate one.
83	2000A	PRV03	Provider Taxonomy Code		Enter the taxonomy that was reported to Puerto Rico Department of Health for the service you are billing. *Note:* The provider is required to use the appropriate taxonomy code that is associated to the provider type and specialty currently on file with Puerto Rico Department of Health.
88	2010AA	NM1	Billing Provider Name		ENCOUNTER - This loop should contain the NPI information for the Provider paid by the MCO. *Note:* For MCO Plan ID submission information, see ISA01 and ISA02.
88	2010AA	NM102	Entity Identifier Code	85	85 = Billing Provider
89	2010AA	NM108	Identification Code Qualifier	XX	XX = Centers for Medicare and Medicaid Services National Provider Identifier
89	2010AA	NM109	Billing Provider Identifier		HIPAA National Provider Identifier
91	2010AA	N3	Billing Provider Address		Enter the address that is currently on file with Puerto Rico Department Of Health. *Note:* Do not enter a P.O. Box in this segment. If a P.O. Box needs to be reported, use the Pay-To Address loop.
92	2010AA	N4	Geographic Location		Use the physical address as reported on the provider's Puerto Rico Department of Health certification.

TR3 Page #	Loop ID	Reference	Name	Codes	Notes/Comments
93	2010AA	N403	Billing Provider Postal Zone or ZIP Code		Enter the ZIP+4 code that will correspond to the physical address on file with Puerto Rico Department Of Health.
94	2010AA	REF	Billing Provider Tax Identification		
94	2010AA	REF01	Reference Identification Qualifier	EI	"EI" – Employer ID (EIN)
94	2010AA	REF02	Billing Provider Tax Identification Number		Valid 9-digit Employer ID number
101	2010AB	NM1	Pay-To Address Name		*Note:* This loop will not be used by Puerto Rico Department of Health's PRMMIS.
114	2000B	HL	Subscriber Hierarchical Level		*Note:* For Puerto Rico Department of Health, the insured and the patient are always the same person. Use this HL segment to identify the recipient and proceed to Loop 2300. Do not send the Patient Hierarchical Level (Loop 2000C). Claims received with the 2000C Loop may not process correctly.
115	2000B	HL03	Hierarchical Level Code	22	22 = Subscriber
115	2000B	HL04	Hierarchical Child Code	0	0 = No Subordinate HL Segment in this Hierarchical Structure.
116	2000B	SBR	Subscriber Information		
116	2000B	SBR01	Payer Responsibility Sequence Number Code		Refer to the 837 Professional Implementation Guide for valid values (pg. 296).
118	2000B	SBR09	Claim Filing Indicator Code	MC	"MC" – Medicaid
121	2010BA	NM1	Subscriber Name		Enter information about the subscriber/member in this loop.
122	2010BA	NM102	Entity Type Qualifier	1	Enter the value "1" to indicate that the member is a person.
122	2010BA	NM103	Subscriber Last Name		Enter the member's last name.
122	2010BA	NM104	Subscriber First Name		Enter the member's first name.
122	2010BA	NM108	Identification Code Qualifier	MI	MI = Member identification number.
123	2010BA	NM109	Subscriber Primary Identifier		PRMMIS will only use the last 10 digits of the Puerto Rico Department of Health's member identification number. ENCOUNTER: Add 008 to the beginning of the 10 digit Member ID.

TR3 Page #	Loop ID	Reference	Name	Codes	Notes/Comments
125	2010BA	N4	Subscriber City, State, Zip Code		
125	2010BA	N401	Subscriber City Name		Subscriber City
125	2010BA	N402	Subscriber State Code		Subscriber State
126	2010BA	N403	Subscriber Postal Zone or ZIP Code		Subscriber Zip Code
130	2010CA	REF	Property and Casualty Patient Identifier		This segment will not be used by Puerto Rico Department Of Health.
133	2010BB	NM1	Payer Name		
134	2010BB	NM103	Payer Name	PUERTO RICO DEPARTMENT OF HEALTH	Enter "PUERTO RICO DEPARTMENT OF HEALTH"
134	2010BB	NM108	Identification Code Qualifier	PI	"PI" – Payer Identification
134	2010BB	NM109	Payer Identifier	PRMMIS	"PRMMIS" – Puerto Rico Department of Health's Payer ID
136	2010BB	N4	Payer City, State, Zip Code		
136	2010BB	N401	City Name	SAN JUAN	
137	2010BB	N402	Payer State Code	PR	
137	2010BB	N403	Payer Postal Zone or ZIP Code	00922	
140	2010BB	REF	Billing Provider Secondary Identification		*Note:* Non-healthcare (Atypical) providers are required to submit this segment.
140	2010BB	REF01	Reference Identification Qualifier	G2	"G2" – Provider Commercial Code *Note:* This qualifier may only be used by non-healthcare providers who do not possess an NPI ID (i.e., Med waivers).
141	2010BB	REF02	Billing Provider Secondary Identifier		Puerto Rico Department of Health Provider ID
157	2300	CLM	Claim Information		
158	2300	CLM01	Patient Control Number		*Note:* Puerto Rico Department of Health's PRMMIS will process patient control numbers up to 20 characters in length. ENCOUNTER: MCO should send the original PCN from the provider's original claim.
159	2300	CLM02	Total Claim Charge Amount		Enter the total billed amount for the entire claim/encounter.

TR3 Page #	Loop ID	Reference	Name	Codes	Notes/Comments
159	2300	CLM05-1	Facility Type Code		Value received is the 1st two positions of the Type of Bill (TOB). Enter the two-digit Place of Service Code at the claim header. Enter Place of Service code '99' for public transportation claims.
159	2300	CLM05-2	Facility Code Qualifier	B	"B" – Place of Service Codes for Professional or Dental Services
159	2300	CLM05-3	Claim Frequency Code	1, 7, 8	The third digit of the type of bill, as defined by the National Uniform Billing Committee (NUBC), is the frequency code. Use the claim frequency code to indicate whether the claim/encounter is being submitted for the first time or if it is a replacement/void of a previously adjudicated and "paid" claim/encounter: "1" – Original Claim/encounter submitted to PRMMIS. "7" – Indicates that this claim/encounter is replacing a previously submitted and adjudicated claim/encounter. Puerto Rico Department of Health's PRMMIS will void the previously submitted claim/encounter and completely replace it with this corrected claim/encounter. "8" – Void (Credit only). Indicates that Puerto Rico Department of Health's PRMMIS should recoup the previously submitted claim/encounter in its entirety. ENCOUNTER: Use "1" as a Frequency code when resubmitting a denied claim. *Note:* The use of values "7" and "8" can result in the previously submitted claim/encounter being adjusted. Include the internal control number (ICN) from the previously submitted claim/encounter in the original reference number segment in Loop 2300. The claim frequency code was switched to an external code source during the addenda process. See the NUBC Manual or Web site, www.nubc.org/. ENCOUNTER: Paper submissions/requests will not be supported for encounter processing.

TR3 Page #	Loop ID	Reference	Name	Codes	Notes/Comments
					ENCOUNTER: MCOs are required to send their claim ID (TCN) for each encounter submitted as well as their claim ID (TCN) for an encounter being voided (see 4.6 - Procedures for Voiding Encounters).
161	2300	CLM11-1	Related Causes Code	AA, EM, OA	"AA" – Auto Accident "EM" – Employment "OA" – Other Accident If the services being rendered are the result of an injury or accident, enter one of the standard two - character injury codes listed above in each Data Element if they apply. Otherwise, this field may be left blank.
161	2300	CLM11-2	Related Causes Code	AA, EM, OA	"AA" – Auto Accident "EM" – Employment "OA" – Other Accident If the services being rendered are the result of an injury or accident, enter one of the standard two character injury codes listed above in each Data Element, if they apply. Otherwise, this field may be left blank.
182	2300	PWK	Claim Supplemental Information		Puerto Rico Department of Health's PRMMIS does not use this segment for processing of the claim/encounter.
186	2300	CN1	Contract Information		ENCOUNTER – Required:when the encounter claim was paid at the header level This refers to the contract between the plan and the provider paid by the plan.
186	2300	CN101	Contract Type Code		ENCOUNTER- Required "05" – If provider's services were provided under a capitation agreement FFS encounter claims should indicate the appropriate value as listed in the TR3.
186	2300	CN102	Contract Amount		ENCOUNTER - Required If CN101 = 05, then amount is zero. For all other values of CN101, then the amount paid to the provider for services rendered. *Note:* The Other Payer Amount Paid (the sum of SVD02 elements in the 2430 loop) and CN102 contains the total monetary amount the health plan paid the provider.
193	2300	REF	Referral Number		
193	2300	REF01	Reference Identification Qualifier	9F	"9F" – Referral Number

TR3 Page #	Loop ID	Reference	Name	Codes	Notes/Comments
193	2300	REF02	Referral Number		
194	2300	REF	Prior Authorization		
194	2300	REF01	Reference Identification Qualifier	G1	G1 = Prior Authorization Number
195	2300	REF02	Prior Authorization Number		Enter the 10-digit Prior Authorization Number. Enter this number only if the services rendered required and received. This number must be entered with the qualifier "G1" (Prior Authorization Number).
196	2300	REF	Payer Claim Control Number		Include this segment when requesting an electronic adjustment/void (a value of "7" or "8" in CLM05-3 indicates that an adjustment/void is being requested). ENCOUNTER: MCOs are required to send their claim ID (TCN) for an encounter being voided (see 4.6 - Procedures for Voiding Encounters).
196	2300	REF01	Reference Identification Qualifier	F8	F8 = Original Reference Number
196	2300	REF02	Payer Claim Control Number		The ID (TCN), in the MCO's system, of the encounter being voided.
211	2300	CR1	Ambulance Transport Information		
212	2300	CR104	Ambulance Transport Reason Code		Enter the Ambulance Transport Reason Code. *Note:* Refer to the 837 Professional Implementation Guide for the valid code values.
212	2300	CR105	Unit or Basis for Measurement Code	DH	"DH" – Miles
213	2300	CR106	Transport Distance		Puerto Rico Department of Health processes only the whole number when units are entered with decimals. Example: Units entered on the transaction 3.75 are processed as 3 units.
213	2300	CR109	Round Trip Purpose Description		Description / clarification of the Purpose of the ambulatory trip. *Note:* Only used on round-trip ambulatory claims.
214	2300	CR2	Spinal Manipulation Service Information		
215	2300	CR208	Patient Condition Code		Enter the corresponding Condition Code. *Note:* Refer to the 837 Professional Implementation Guide for the valid code values.
216	2300	CRC	EPSDT Referral

294	2310F	N403	Ambulance Drop-off Postal Zone or ZIP Code		
295	2320	SBR	Other Subscriber Information		ENCOUNTER - Loop 2320 (Other Subscriber Information) is required on all encounter claims. *Note:* For encounter claims, the MCO should always be reported as one of

TR3 Page #	Loop ID	Reference	Name	Codes	Notes/Comments
					the other payers. For example, when there is TPL, the TPL is primary and the MCO is secondary. When there is no TPL, the MCO is primary.
298	2320	SBR09	Claim Filing Indicator Code		ENCOUNTER: When the MCO is the payer the value should be "HM" *Note*: All valid values will be accepted for other payer loops.
299	2320	CAS	Claim Level Adjustments		
301	2320	CAS02	Adjustment Reason Code	A1	ENCOUNTER: "A1" – MCO denied claim
305	2320	AMT	Coordination of Benefits (COB) Payer Paid Amount		
305	2320	AMT01	Amount Qualifier Code	D	"D" - Payer Amount Paid
305	2320	AMT02	Payer Paid Amount		Other Payer Amount Paid (TPL or MCO)
320	2330B	NM1	Other Payer Name		ENCOUNTER - Loop 2330B (Other Payer Name) is required on all encounter claims. *Note:* For encounter claims, the MCO should always be reported as one of the other payers. For example, when there is TPL, the TPL is primary and the MCO is secondary. When there is no TPL, the MCO is primary.
321	2330B	NM109	Other Payer Primary Identifier		This number must be identical to at least one occurrence of the 2430-SVD01 to identify the other payer. Puerto Rico Department of Health captures third party payment amount(s) from the service line(s) in 2430-SVD02. *Note:* The 2320/2330 Loop(s) can repeat up to 10 times for a single claim and the 2430 Loop can repeat up to 25 times for a single detail. ENCOUNTER – This value should be the MCO's assigned trading partner ID.
258	2330B	REF	Other Payer Claim Control Number		PRMMIS requires the MCO's internal claim ID be entered here for every encounter.
258	2330B	REF01	Reference Identification Qualifier	F8	"F8" – Original Reference Number
258	2330B	REF02	Other Payer's Claim Control Number		The ID, in the MCO's system, of the encounter being submitted.
350	2400	LX	Service Line Number		
350	2400	LX01	Assigned Number		SV101

TR3 Page #	Loop ID	Reference	Name	Codes	Notes/Comments
351	2400	SV1	Professional Service		
351	2400	SV101	Service Line Revenue Code		*Note:* Nursing homes are not a covered service under the Puerto Rico Medicaid program.
352	2400	SV101-1	Product/Service ID Qualifier	HC	"HC" – Health Care Financing Administration Common Procedural Coding System (HCPCS) Codes
353	2400	SV101-2	Procedure Code		Enter the procedure code for this Service line. For Child Health Checkup (CHCUP) claims, enter the screening procedure code on the first service line. Enter procedure code "99998" for Public Transportation Claims.
355	2400	SV104	Service Unit Count		
357	2400	SV109	Emergency Indicator	Y	"Y" – Yes Enter 'Y' if the services are known to be an emergency.
357	2400	SV111	EPSDT Indicator	Y	"Y" – Yes Enter 'Y' when the recipient was referred for services as the result of a Child Health Check-up screening.
357	2400	SV112	Family Planning Indicator	Y	"Y" – Yes Enter 'Y' if the services relate to pregnancy or if the services were for Family Planning.
373	2400	CRC	Ambulance Certification		
374	2400	CRC03	Condition Code		Enter the Patient Condition Code. Use this Loop and Segment if Condition Code is different by detail line, otherwise use CRC03 in the 2300 Loop if Condition Code applies to entire claim. Used only for Ambulance claims.
375	2400	CRC07	Condition Code		Enter the Patient Condition Code. Use this Loop and Segment if Condition Code is different by detail line, otherwise use CRC03 in the 2300 Loop if Condition Code applies to entire claim. Used only for Ambulance claims.
395	2400	CN1	Contract Information		ENCOUNTER - This information is required on all encounter claims paid at the line level. This refers to the contract between the plan and the provider paid by the plan.
395	2400	CN101	Contract Type Code		ENCOUNTER - Required "05" – If provider's services were provided under a capitation agreement.

TR3 Page #	Loop ID	Reference	Name	Codes	Notes/Comments
					FFS encounter claims should indicate the appropriate value as listed in the TR3.
395	2400	CN102	Contract Amount		ENCOUNTER - Required If CN101 = 05, then amount is zero. For all other values of CN101, then the amount paid to the provider for services rendered. Note: The Other Payer Amount Paid (SVD02 in 2430 loop) and CN102 contains the amount the health plan paid the provider for this detail.
423	2410	LIN	Drug Identification		
425	2410	LIN02	Product or Service ID Qualifier	N4	"N4" – National Drug Code
425	2410	LIN03	National Drug Code		Enter National Drug Code in 5-4-2 Format
426	2410	CTP	Drug Quantity		
426	2410	CTP04	National Drug Unit Count		
427	2410	CTP05-1	Code Qualifier	UN	"UN" – Unit
430	2420A	NM1	Rendering Provider Name		*Note:* Required if the Rendering Provider NM1 information is different than that carried in the 2310B (claim) loop, or if the Rendering Provider information is different than the Billing Provider (2010 AA). If a zip code is required for the Rendering Provider's NPI crosswalk, then it must be entered in the facility loop; 2310C N403.
432	2420A	NM108	Identification Code Qualifier	XX	XX = Centers for Medicare and Medicaid Services National Provider Identifier
432	2420A	NM109	Rendering Provider Identifier		
433	2420A	PRV	Rendering Provider Specialty Information		
433	2420A	PRV01	Provider Code	PE	"PE" – Performing
433	2420A	PRV02	Reference Identification Qualifier	PXC	"PXC" – Health Care Provider Taxonomy Code
433	2420A	PRV03	Provider Taxonomy Code		Detail Level Rendering Provider Taxonomy Code

N/A	3		Introduction		The following is just an example of the type of information that would be spelled out or elaborated on in Section 6: TRANSACTION-SPECIFIC INFORMATION.
2300	19	CLM02	Total Claim Charge Amount		Remove Note – negative amount will fail compliance
2300	21	CN101	Contract Type Code		Modify test: ENCOUNTER- Required "05" – If provider's services were provided under a capitation agreement. "09" – FFS
2300	21	CN102	Contract Amount		Change text to: ENCOUNTER - Required If CN101 = 05, then amount is zero.

ADMINISTRACION DE SEGUROS DE SALUD
Contrato Número
20 - 00 2

					If CN101 = 09, then the amount paid to the provider for services rendered. *Note:* The Other Payer Amount Paid (the sum of SVD02 elements in the 2430 loop) and CN102 contains the total monetary amount the health plan paid the provider.
2300	22	REF02	Value Added Network Trace Number		Modify text: Enter the 13-digit ICN or 17-digit TCN assigned to the original claim submission. (ICN/TCN to be credited/voided).
2310A	23	REF01	Reference Identification Qualifier	0B, G2	*Note:* The "G2" qualifier must be used for non-healthcare providers.
2310B	24	REF01	Reference Identification Qualifier	G2	"G2" – Provider Commercial Number *Note:* This is not required for nursing homes. *Note:* The "G2" qualifier must be used for non-healthcare providers. This code designates a proprietary provider number for the destination payer identified in the Payer Name loop, Loop ID-2010BB, associated with this claim. This is to be used by all payers including: Medicare, Medicaid, Blue Cross, etc.
2310C	25	REF01	Reference Identification Qualifier	G2, LU	"G2" – Provider Commercial Number "LU" – Location Number *Note:* The "G2" qualifier must be used for non-healthcare providers.
2400	28	SV101-1	Product/Service ID Qualifier	HC	Element changed from SV102-1 to SV101-1.
2400	28	SV101-2	Procedure Code		Element changed from SV102-2 to SV101-2.
2400	29	CRC	Ambulance Certification		Loop corrected from 2410 to 2400
2400	29	CRC03	Condition Code		Loop corrected from 2410 to 2400
2400	29	CRC07	Condition Code		Loop corrected from 2410 to 2400
2420C	31	REF01	Reference Identification Qualifier	G2, LU	"G2" – Provider Commercial Number "LU" – Location Number

ADMINISTRACION DE SEGUROS DE SALUD
Contrato Número
20-002

					Note: The "G2" qualifier must be used for non-healthcare providers.

A.4 Change Summary

Version 3.1 Revision Log
Companion Document: 837P Health Care Professional Claims & Encounters
Modified by:
Name: Wil Joslyn Designation: EDI BA Date: 09-09-17
Approved by:
Name: _____ Designation: _____ Date: _____

Loop ID	Page(s) Revised	Reference	Name	Codes	Text Revised
Section 1.1	8		Scope		Modify text: For further information, contact their policy-specific area of the Puerto Rico Department of Health or PRMMIS MCO EDI (PRMMISMCOEDI@hpe.com). This guide is intended as a resource to assist trading partners (Managed Care Organizations – MCO) and clearinghouses
Section 1.2	8		Overview		Remove text: This information should be given to the provider's business area to ensure that Claim/Encounters are interpreted correctly.
Section 1.4	9		National Provider Identifier		Modify text: All providers, except those that the Puerto Rico Department of Health determined as not a healthcare provider such as non-emergency transportation,
Section 1.4	10		File/System Specifications		Remove text: The recommended extension is .txt or .dat. EDI does not allow zipped files. Files will be submitted to EDI via STFP. Add text: The following standards should be used: To avoid accidently overwriting files, do not send multiple files with the same name on the same day. File Names should not be longer than 45 characters

ADMINISTRACION DE SEGUROS DE SALUD
Contrato Número
20 - 0 0 2

					File Names should not contain spaces or special characters File Names should contain a file extension such as .dat or .txt Zip or compressed files are allowed, but a zip or compressed file should contain only one X12 file Zip files must contain the extension .zip (not case sensitive)
Section 1.4	10		Negative Dollar Amounts		New Paragraph: Please note that a negative dollar amount in the CAS, CN1, SV1, SV2, SV3 or SVD segments will pass HIPAA compliance, PRMMIS will not process the negative amount during adjudication.
Section 2.1	11		Process Flows		Modify text: classified as "paid".
N/A	12	ISA01	Authorization Information Qualifier		Remove text: Claim - [space fill]
N/A	12	ISA02	Authorization Information		Remove text: "00" – No Authorization Information Present.
N/A	14	ISA14	Acknowledgement Requested	0	Remove code 1 & comment.
Section 4.1	16		Trading Partner Identification		Modify text: In Module One of the Puerto Rico Department of Health's implementation of the PRMMIS the EDI team will create any needed Trading Partner Profiles
Section 4.2	16		Testing		Modify text: Module one of the Puerto Rico Department of Health's implementation of the PRMMIS will not require any Production Authorization Testing.
Section 4.4	16		Limits		Modify text: File Size is restricted to 5,000 transactions (claims/encounters) per file. One transaction set includes all data between and including the Transaction ST segment and Transaction SE segment.
Section 4.6	16		Procedures for voiding encounters		Modify text:

					When voiding a claim/encounter, the MCO should send their internal Transaction ID of the claim being voided in:
1000B	18	NM1	Receiver Name		Correct the Loop number.
2010AB	20	NM1	Pay-to-Address		Modify text: *Note:* This loop will not be used by Puerto Rico Department of Health's PRMMIS.
2010BA	22	NM109	Subscriber Primary Identifier		Change text: PRMMIS will only use the last 10 digits of the Puerto Rico Department of Health's member identification number. Remove Text: *Note:* Do not enter any other numbers or letters. Use the Puerto Rico Department of Health card or the EVS to obtain the correct identification number.
2300	23	CLM01	Patient Control Number		Modify text: *Note:* Puerto Rico Department of Health's PRMMIS will process patient control numbers up to 20 characters in length. Remove text: *Note:* Value received is returned on the 835 Remittance Advice. Add text: ENCOUNTERS: MCO should send the original PCN from the provider's original claim.
2300	23	CLM05-1	Facility Type Code		Remove text: *Note:* See the Medicaid Provider Reimbursement Handbook for a list of all of the valid values.
2300	23	CLM05-3	Claim Frequency Code		Remove text: Valid values are as follows: Modify text: The third digit of the type of bill, as defined by the National Uniform Billing Committee (NUBC), is the frequency code. Use the claim frequency code to indicate whether the claim/encounter is being submitted for the first time or if it is a replacement/void of

					a previously adjudicated and "paid" claim/encounter: "1" – Original claim/encounter submitted to PRMMIS. "7" – Indicates that this claim/encounter is replacing a previously submitted and adjudicated claim/encounter. Puerto Rico Department of Health's PRMMIS will void the previously submitted claim/encounter and completely replace it with this corrected claim/encounter. "8" – Void (Credit only). Indicates that Puerto Rico Department of Health's PRMMIS should recoup the previously submitted claim/encounter in its entirety.
2300		CN1			
2300	21	CN101	Contract Type Code		Modify test: ENCOUNTER- Required "05" – If provider's services were provided under a capitation agreement. "09" – FFS
2300	21	CN102	Contract Amount		Change text to: ENCOUNTER - Required If CN101 = 05, then amount is zero. If CN101 = 09, then the amount paid to the provider for services rendered. *Note:* The Other Payer Amount Paid (the sum of SVD02 elements in the 2430 loop) and CN102 contains the total monetary amount the health plan paid the provider.
2300	23	PWK	Claim Supplemental Information		Remove text: ENCOUNTER - Attachments are not permitted for Encounter Claims Modify text: Puerto Rico Department of Health's PRMMIS does not use this segment for processing of the claim/encounter.

2300	23	PWK01 thru PWK05			Delete rows.
2300	24	REF02	Referral Number		Remove text: Enter DS Waiver Coordinator Number with the REF01 = '9F'
2300	25	REF	Payer Claim Control Number		Add Note/Comment: ENCOUNTER: MCOs are required to send their claim ID (TCN) for an encounter being voided (see 4.6 - Procedures for Voiding Encounters).
2300	25	REF02	Payer Claim Control Number		Modify Note/Comment: The ID (TCN), in the MCO's system, of the encounter being voided.
2300	25	REF	Claim Identifier for Transmission Intermediaries		Remove Segment
2300	26	REF01	Reference Identification Qualifier		Remove code and text: "0B" – State License Number
2310B	26	REF01	Reference Identification Qualifier		Remove text: *Note:*This is not required for nursing homes.
2320	28	CAS02	Adjustment Reason Code	A1	Remove text: All values from code source 139 are allowed.
2320	28 thru 29	CAS05 thru CAS18	Adjustment Reason Code & Adjustment Amount		Delete rows.
2400	29	LX01	Assigned Number		Add text: Puerto Rico Department of Health accepts up to the HIPAA allowed 50 detail lines per claim/encounter. The claim/encounter would need to be split to submit more than 50 detail lines.
2400	30	SV101	Service Line Revenue Code		Remove text: Nursing home submitters must enter a revenue code. Enter Revenue Code "0101" and the per diem amount if no home days or hospital days need to be reported. Enter Revenue Code "0185" for days spent in hospital or Service Line Revenue Code "0182" for days spent at home. (Nursing Home only) Add text: *Note:* Nursing homes are not a covered service under the

					Puerto Rico Medicaid program.
2430	33	SVD	Line Adjudication Information		Remove (name loop) from Notes/Comments
2430	34	SVD01	Other Payer Primary Identifier		Remove number from Notes/Comments
2430	34	SVD02	Service Line Paid Amount		Modify text: Enter the Third Party Payment Amount (TPL) or amount health plan paid to provider at the detail level only. This is also used for crossover detail paid amount. ENCOUNTER - If CN101 = 05, SVD02 should be zero. If CN101 = 09, then SVD02 should be the detail other payer paid amount OR amount health plan paid to provider.
2430	33	CAS02	Adjustment Reason Code		Remove code & text: "1" = Medicare Deductible Amount "2" = Medicare Coinsurance Amount "66" = Medicare Blood Deductible. Remove text: Other external code source values from code source 139 are allowed.
2430	33	CAS03	Adjustment Amount		Remove codes & text: "1" = Medicare Deductible Amount "2" = Medicare Coinsurance Amount "66" enter the Medicare Blood Deductible. ENCOUNTER: "A1" - MCO Denied detail Other external code source values from code source 139 are allowed.
2430	28 thru 29	CAS05 thru CAS18	Adjustment Reason Code & Adjustment Amount		Delete rows.

TABLE OF CONTENTS

Version Changes

Version 3.0A

ASES file layouts ver. 3.0A for submission by Carriers for data generated from July 2018 forward

CAPITATION Input File Layout

CAPITATION TYPE field was modified.

PROVIDER Input File layout

The descriptions for the provider address fields was changed to specify that it refers to the provider's physical address.
New fields added to the layout.

CLAIMSERVICES Input File Layout - Added

New fields added to the layout.

Data Validation and Auditing Change

New section regarding data validation and auditing added.

Version 3.0A rev2

Frequency of Provider, Network, and IPA files changed from monthly to weekly.

Content of Provider, Network, and IPA files changed from only those entities that are present in claims to all active records.

Introduction

The island of Puerto Rico's Medicaid program, the Government Health Plan (GHP) was established in 1993 with the passing of Law 72. Through Law 72, the program to administer the Medicaid program for roughly 1.3 Milliman people, the Administración de Seguros de Salud (ASES) was established. In order to continuously review health care utilization, expenditures, and performance in Puerto Rico and to enhance the ability of ASES to make informed and cost-effective health care choices, ASES has partnered with Milliman, Inc. to provide ASES with a data warehouse and analytics system. ASES has been capturing data from its managed care health carriers for many years to populate in the data warehouse and other systems. This layout document provides health insurance carriers information to submit their health care claims, network, provider, IPA, and capitation data to ASES.

Claims Transaction Handling

All Claims files are to be submitted on a monthly basis, for all Claims PAID in the month of the file submitted. All adjustments of an adjudicated claim line are accepted in the CLAIMSERVICES file. Do not send claims that are in an open status, such as pended claims, held, rejected, or pre-adjudicated claims. Claims reversals and adjustments happen as follows:

Paid or Denied FFS Claims

Individual service lines are adjusted or reversed at the line level with additional adjustment services marked with a claim line status code of 'A' or 'R', while the original claim has a status code of 'P' for paid, 'D' for denied claims, or 'E' for encounter claims. The adjusted or reversed service may have the same claim ID and line number or may have the same claim ID and a different line number.

Encounter Claims

Claims representing encounters have no allowed or paid amounts and are therefore not able to be adjusted monetarily. If an encounter needs to be updated to change any of the fields of the encounter, the adjusting claim must have a claim line status code (sv_stat field) of 'E' and the claim ID and service line number must be the same as the encounter being adjusted. Our process will remove the original encounter so that duplicate encounters will not be counted in the data.

Provider, IPA and Network Files

The Provider, IPA, and Network files are to be submitted weekly, every Wednesday and must include the latest available data from the day prior to the submission date. For each weekly submission within a given month, keep the same file naming convention, but increment the sequence number, starting with 1, then 2,3,4.

The PRV, IPA, and NET file shall include every Provider, IPA, and Network record that is active in your system, not just the records associated with currently submitted claim records. ASES will be using this data to keep a current complete list of available Providers and IPAs.

The Provider file includes both providers directly contracted with the carrier and sub-contracted providers. Network file shall include "In Network" providers, including the subcontractor's network, and "Out of Network" providers.

ASES is requesting that provider NPIs are to always be used as the PROV_ID in order to assist in provider attribution and reporting across all Carriers. ASES will not accept the carrier's own provider id as the provider ID for medical claim, unless the carrier presents a valid reason for not using NPI's.

For pharmacy claims only

For pharmacy providers, only the NPI number will be accepted as the provider ID. Carriers must include pharmacy providers in their provider files sent to ASES and the IDs must be consistent within the carriers' claims.

Capitation Files

All Capitation files are to be submitted on a monthly basis, for all Capitation PAID in the month of the file submitted. The amount to be reported on capitation records must represent any costs associated with providing services which are not reported in claims and encounters. This may come from formal contracts with providers such as HCO/PCPs, or any other financial arrangement or allocation of costs.

The cap_amount field should represent a calculation which includes the earned capitation for the period for each member. Other types of deductions which may be taken out of the provider's payment such as repayment of advances, retentions for reserves should not be included in the calculation.

The gross_cap_amount field should represent a calculation that includes the earned capitation for the period for each member (not the group average).

The net_cap_amount field should represent a calculation which includes the earned capitation for the period for each member (gross_cap_amount) less claims paid amounts, if any, chargeable against the provider risk. Other types of deductions which may be taken out of the provider's payment such as repayment of advances, retentions for reserves should not be included in the calculation.

Capitation records shall be provided for all members enrolled in the PMG's regardless of their risk coverage. The risk coverage type will be identified with a new risk type field.

Capitation Adjustments

There may be circumstances in which capitation payments which have already been reported, need to be adjusted or reversed in a later month. To accomplish this, the Capitation records will behave differently than Claims and Services. The carrier will send a new record for the provider / member / experience date with an amount to be added or subtracted from the previously reported amount. If a capitation of $10.00 is to be reversed then the new record should contain the same information as the original but with a new Capitation Date and a Capitation Amount of -$10.00. Inside MedInsight the capitation for that Provider / Member for that particular date will be the aggregate of all the records and this example will result in $0.00.

Note that, as Capitation net amounts for any particular record may be negative, a reversal in such a case would be a positive amount.

Data Validation and Audit Process

After the files are loaded, Milliman will employ an automated validation process, File Field and Quality Checks (FFQC), to ensure that the format and content of each submitted file is valid and complete. Monthly files that do not pass the reconciliation process and the data audit process will be rejected. Load threshold levels for individual data elements submitted are validated against those pre-established levels defined by ASES and Milliman.

Failure to conform to any of the submission requirements will result in the rejection and return of the applicable data file(s). No records from such a file will be retained in the system and the carrier will be required to re-submit the rejected file in its entirety before the next

month's files become due. Such re-submitted files must be carefully named using the sequence number part of the naming convention to ensure the name is distinct from the rejected file and is named in the correct order.

Due to the large amount and complexity of the data processed, it is more efficient to resubmit an entire file rather than to correct data within the file. Partial replacement files or record specific corrections will not be accepted.

Claims and Capitation Lag Reports

Carriers are required to submit claims and capitation payment reports, called lag reports, on a monthly basis. These reports will be used to reconcile the data submitted. Data that does not match the lag reports on paid amount within a reasonable percentage will be deemed invalid and must be corrected. The lag reports submitted by the carrier will be considered to be financially accurate and may be used for other purposes, including negotiations or other financial analyses. Therefore, it is in the carrier's best interests to produce lag reports that are either from another source that the actual files that are submitted, or to verify that the lag reports tie to financial reports.

The required claims lag reports need to be an Excel file with the following characteristics:

1. Claims paid amounts by:
    a. Region code of member as defined by ASES,
    b. Incurred month with deliverable data format YYYYMM,
    c. Paid month with deliverable data format YYYYMM, and
2. Claim type for claims, where can be filled in with one of the following default values: Medical, Pharmacy and Dental.
3. The report must include at least all paid and incurred months going back 2 full years prior to the month the report is run.
4. Naming of the claims lag reports should be as follows:

CLAIMLAG_ccyymms.xls(x)

Where:

Characters 1-9	Always "CLAIMLAG_"		
Characters 10-11	cc	=	Carrier Code (See attachment II)
Characters 12-13	yy	=	Last two digits of year
Characters 14-15	mm	=	Month – last full paid month in the lags.

Character 16	s	=	sequence number of file submission.
Character 17	Always "."		
Characters 18-20(21)	Extension code for excel file, can be xls or xlsx depending on Excel version.		

An example of how the claims lag report data should look for claims is as follows:

Claim Type	Region	Incurred Month	Paid Month	Paid Amount
Medical	East	201801	201801	50,823.43
Medical	South	201801	201802	45,534.00
Medical	North	201801	201803	986,796.36
Pharmacy	East	201801	201801	686.89
Pharmacy	South	201801	201802	2,342.22
Dental	North	201801	201803	780,989.16
…	…	…	…	…

The required capitation lag reports need to be an Excel file with the following characteristics:

1. Capitation paid amounts by:
   a. Region code of member as defined by ASES,
   b. Capitation experience month (period for which the capitation payment applies) with deliverable data format YYYYMM,
2. Paid month with deliverable data format YYYYMM.
3. The report must include at least all paid and experience months going back 2 full years prior to the month the report is run.
4. Naming of the capitation lag reports should be as follows:

CAPLAG_ccyymms.xls(x)

Where:

Characters 1-7	Always "CAPLAG_"		
Characters 8-9	cc	=	Carrier Code (See attachment II)
Characters 10-11	yy	=	Last two digits of year
Characters 12-13	mm	=	Month – last full paid month in the lags.
Character 14	s	=	sequence number of file submission.

ADMINISTRACION DE SEGUROS DE SALUD
Contrato Número
20 - 002

Character 15 Always "."
Characters 16-18(19) Extension code for excel file, can be xls or xlsx depending on Excel version.

An example of how the capitation lag report data should look for claims is as follows:

Region	Incurred Month	Paid Month	Capitation Paid Amount
East	201801	201801	5,023.43
South	201801	201802	4,534.00
North	201801	201803	98,796.36
East	201801	201801	66.89
South	201801	201802	242.22
North	201801	201803	70,989.16
…	…	…	…

Primary Carrier ID

The *Primary Carrier ID* field in the ClaimServices Input File Layout identifies the entity (MBHO, Sub Contractor Entity, or TPA) which provides services to the enrollees throughout a special or capitated financial arrangement. Another field called *Carrier ID* field contains the ID of the carrier directly contracted with ASES and the one generating the ClaimServices Input File. The ClaimServices Input File will contain the same value in the *Carrier ID* and *Primary Carrier ID* fields when the carrier generating the ClaimServices Input File is the carrier providing services to the enrollees. If this entity does not have an assigned carrier ID from ASES, the *Primary Carrier ID* can be filled in with one of the following 4 default values that represents the type of entity:

MH – Mental Health
VS – Vision
DN – Dental
OT – Other/Unknown

General Notes on Field Level Requirements

Date Fields - All date fields in the following data layout are defined to the same size and format as YYYYMMDD. An 8 byte field where YYYY = 4 digit year, MM = 2 digit month and DD = 2 digit day. 1 digit month and day values must always have the leading zero (0). Date fields must contain a valid date with months between 01 and 12 and days between 01 and maximum day in month. July 1, 2006 will be coded as 20060701.

Amount Fields – All amount fields representing money must be numeric and are defined as 9 bytes in the format s9(7)v99 where v represents and implied decimal point. This allows a maximum of 7 digits for dollars plus the last two digits for cents. These numbers are always right justified and zero filled to the left. As examples:

$1.23 will be coded as	000000123
$100.00 will be coded as	000010000

All amount fields are positive and follow the above definition unless clearly specified otherwise.

End of Record Filler – All file layouts have been designed to end with a filler field of 1 byte which must always be coded as an "*" character. This is done to avoid issues between different systems when generating and transferring ASCII files in which ending field may be empty. The fixed End of Record Filler guarantees that all records in a file can be constructed to the fixed length format as defined in the layouts.

Justification and filling of Fields – The layouts have all been specified to provide fixed length fields and fixed length records. While other methods can be used, it is felt that this provides the best common ground for working with multiple entities each of which uses varying systems. To be sure everyone understands the same about the comments on justification and filling the following examples are given to help keep this concept clear.

All numeric fields must be filled completely with numeric digits. If there are exceptions these are clearly spelled out in the documentation of the layouts. Typically numeric field are right justified and to keep them numeric must be zero filled. In a field specified as numeric such a s9(7)v99 the following conventions apply:

- s - Leading sign
- 9(7) - 7 decimal digits

- `V` - Implied decimal point
- `99` - 2 digits after the implied decimal point

The following examples illustrate how data will look in the field:

Value	Field
12.50	000001250
101	000010100
1,234.56	000123456
1,000,000	100000000
-1,234.56	-00123456

All alphanumeric fields must be filled completely. If the value of data in the field is less than the width of the field then care must be taken to ensure that the field is filled with blanks. Allowing "NULLS" or other special characters through may cause unexpected results and make reading, loading and validation of the data difficult. Typically alphanumeric field are left justified and filled to the right with blanks to complete the field. In a field specified as alphanumeric such a X(20) the following examples illustrate how data will look in the field where the [ ] characters represent the start and end of the field –

Value	Field
P.R.	[P.R.]
José Rivera	[José Rivera]
blanks	[ ]
(Metro-North Region)	[(Metro-North Region)]

MPI Number fields – In all files in which MPI Number is required, carriers should code all 9s if the MPI is unknown. This should not be true for any current beneficiary. This exception will continue until such time as ASES determines that the issue of MPI being unavailable has disappeared from historical data. For Government Employee MPI should be filled with Contract Number.

Data File Naming Conventions

All data files to be delivered to ASES by the carriers must follow the naming conventions below. Files which do not fit the naming convention will be ignored and the carrier deemed to have failed in delivery of such a file.

File names must adhere strictly to this naming convention as the structure includes information for identification of the carrier, dates and file type. If not named correctly the file cannot be processed properly.

The general format of file names will be –

Dccyymms.fff

Where:

Character 1	Always "**D**"		
Characters 2-3	**cc**	=	Carrier Code (See attachment II)
Character 4-5	**yy**=	Last two digits of year	
Characters 6-7	**mm**	=	Month
Character 8	**s**	=	sequence number of file submission.

All submission start with s = 0 and continue in numeric if files are re-submitted to 9
If files must be re-submitted beyond 9, then alphabetic characters will be used a, b, c …

Character 9	Always "."	
Characters 10-12	Extension code identifying type of file	
CLM	for	CLAIMSERVICES
PRV	for	PROVIDERS
IPA	for	IPA
CAP	for	CAPITATIONS
NET	for	NETWORK

ADMINISTRACION DE SEGUROS DE SALUD
Contrato Número
20-0022

Files are always dated for the month being reported. For example, when sending claims paid in July 2018 the **yymm** part of the file name will be **1807** while the file will be sent to ASES in August.

Examples of completing this naming convention are –

For imaginary carrier 99 in the files for ClaimServices and payments in April 2018 will be named as follows –

ClaimServices	D9918040.CLM
Providers	D9918040.PRV
IPA	D9918040.IPA
Capitation	D9918040.CAP
Network	D9918040.NET

When the Capitation file is rejected, the corrected file will be re-submitted as
D9918041.CAP

PUERTO RICO HEALTH INSURANCE ADMINISTRATION

CLAIMSERVICES INPUT FILE LAYOUT

#	*Field*	*Name*	*Description*	*Deliverable Data Format*	*Validation Rules*
1	carrier_id	**Carrier ID**	Value that identifies carrier which is reporting claims. Must be a valid code. See Carrier Code List in Attachment II	**99**	Required Must be two (2) digits (numeric).). Must equal a valid Carrier ID as assigned by ASES.
2	region_code	**Region Code**	Region of member as defined by ASES Regions are identified as: "A" = North "B" = Metro-North "E" = East "F" = North-East "G" = South-East "Z" = West "J" = San Juan "S" = South-West "P" = SPECIAL "X" = All Regions	**X**	Required Must be valid ASES Region code
3	plan_type	**Plan Type**	ASES defined Plan Type 01 = GHIP 02 = MA-SNP 03 = MA-PD 04 = Law 95 Commercial 05 = Law 95 Advantage	**XX**	Required Must equal "01", "02", "03", "04", "05" Value "01' must correspond to a GHIP carrier or to an MBHO, PBM, or other assigned carrier code which is not Medicare Platino. Values of "02" or "03" must correspond to Medicare Platino Carrier ID. Values of "04" or "05" must correspond to government employee Carrier ID.

#	*Field*	*Name*	*Description*	*Deliverable Data Format*	*Validation Rules*
4	contract_type	**Contract Type**	Contract type to distinguish multiple plans within Plan Type. For government employee claims indicates contract type: 1 = Family 2 = Couple 3 = Individual 4 = Optional Dependent	X	Required for Plan Type "04" and "05" (Government Employee) Not required for Plan Type "01", "02", or "03".
5	claim_id	**Claim ID**	Unique Identification number within Carrier with the addition of the claim_parent. May be Carrier's Internal Claim Identification number. This number is used to avoid duplicated Claims, but allows multiple service lines within the same claim.	X(20)	Required Left justified, blank filled to 20 characters if value is less than 20 characters.
6	sv_line	**Service Line Number**	Number identifying individual service within a given claim.	XXXXX	Required Must be a maximum of 5 digits. ID of the Service Line within the Claim ID. Duplicates within Claim ID and Service Line Number on the same submission will be considered errors (the combination of the claim_id plus the service_line_no must be unique within the carrier).
7	bill_type	**Bill Type**	Originating bill type – U=UB-04 / Institutional H=HCFA/CMS1500 / Individual / Professional P=Pharmacy Claim D=Dental Claim	X	Required Must equal "U", "H", "P" or "D".

#	*Field*	*Name*	*Description*	*Deliverable Data Format*	*Validation Rules*
8	ub_bill_type	**UB Type of Bill**	Type of Bill on the UB claim form. The type of bill encodes facility type, bill classification, and description.	XXX	Required for all claims submitted on Uniform Bill (UB) claim form. When present, must be one of the standard three digit codes as described in the National Uniform Billing Committee (NUBC) UB-04 data specifications manual.
9	sv_stat	**Claim Line Status**	Indicates payment action on the service represented by this record. P= Paid D=Denied A=Adjustment R=Reversal E=Encounter	X	Required Must equal "P", "D", "A", "R" or "E" If value is "E", service will have zero Paid Amount.
10	adj_code	**Adjustment Reason Code**	Adjustment reason code explaining why a claim payment was adjusted. Codes used are the X12 code list maintained by CMS and NUCC. The code set can be found at the following site: http://www.x12.org/codes/claim-adjustment-reason-codes/	XXX	Must be present on claims with a Claim Line Status (sv_stat field) equal to "A". Right justified. For claims without adjustment, this field must be left blank.
11	forced_claim_ind	**Forced Claim Indicator**	This code indicates if the claim was processed by forcing it through a manual override process.	X	'Y'- Yes 'N' - No
12	adm_date	**Admit Date**	For UB-04 claims this is the date of admission. For other claims this is the Service From Date of the earliest service.	YYYYMMDD	Required Must be a valid date.
13	dis_date	**Discharge Date**	For UB-04 claims this is the date of discharge. For other claims this is the Service To date of the latest service.	YYYYMMDD	Required Must be a valid date Must be equal or later than Admit Date

#	*Field*	*Name*	*Description*	*Deliverable Data Format*	*Validation Rules*
14	from_date	**Service From Date**	Begin date of the treatment.	**YYYYMMDD**	Required Must be a valid date.
15	to_date	**Service To Date**	End date of the treatment.	**YYYYMMDD**	Required Must be a valid date Must be on or after Service From Date
16	paid_date	**Payment Date**	For an Encounter, this will be the date the transaction is processed by the carrier. For non-encounters, this will be the date of payment for paid claims or the process date for denied claims.	**YYYYMMDD**	Required Must be a valid date Must be on or after Service To Date
17	rec_date	**Received Date**	Date when claim was received in carrier in YYYYMMDD format	**YYYYMMDD**	Required Must be a valid date Must be equal or greater than Discharge Date
18	entry_date	**Entry Date**	Date when claim was entered into the carrier's system. YYYYMMDD format.	**YYYYMMDD**	Required Must be a valid date Must be equal or greater than Received Date
19	extract_date	**Extract Date**	Date on which record is originally extracted from Carrier's system to create the Claims Input File.	**YYYYMMDD**	Required Must be a valid date Must be later or equal to any other date field on record
20	mpi	**MPI Number or Contract Number**	Master Patient Index (MPI) As supplied in ASES Eligibility Data For government employee this will be the contract number	**X(13)**	Required Must be a valid MPI number For government employee only, contract number Must be left justified, blank filled to the right

ADMINISTRACION DE SEGUROS DE SALUD

#	*Field*	*Name*	*Description*	*Deliverable Data Format*	*Validation Rules*
21	primary_center	**Primary Center**	Identify the Primary Care Center (IPA/HCO) of the member. Code as assigned by the carrier.	**X(10)**	Must be present on all claims of Plan Type 01 May be present on claims of other Plan Types When present it indicates the Primary Care Center (IPA/HCO etc.) of the member. Must be left justified and blank filled to complete the field. Must be found on the IPA table matched by Carrier ID and IPA.
22	ssn_mainh	**HOH Social Security**	Social Security number of Head of Household (HOH) of family. This is available from the Family record in ASES eligibility data sent to carriers.	**X(9)**	Required Must be all numeric Must be a full 9 digits, right justified, zero filled
23	ssn	**Patient Social Security**	Social Security Number of member	**X(9)**	Required Must be all numeric Must be a full 9 digits, right justified, zero filled
24	member_suffix	**ASES Member Suffix**	Identifies the beneficiary within the family group. Must be the two digit member suffix as supplied in ASES Eligibility data.	**99**	Required Must be ASES Assigned member suffix. All numeric value 01 to 99.
25	patient_name	**Patient Name**	Member Name	**X(30)**	Required Must be left justified, blank filled to the right.
26	household_id	**ASES Household ID**	Household ID as supplied in ASES Eligibility data	**X(11)**	Required ASES / ODSI Household ID. Alphanumeric full 11 characters. For government employee use SSN Main Holder. Must be left justified, blank filled to the right.
27	sex	**Sex Code**	Gender of member M = Male F = Female	**X**	Required Must equal "M" or "F"

#	*Field*	*Name*	*Description*	*Deliverable Data Format*	*Validation Rules*
28	birth_date	**Birth Date**	Member Date of Birth in YYYYMMDD format	**YYYYMMDD**	Required Must be a valid date Cannot be in later than the Extract Date. Cannot be greater than 150 years ago compared to Extract Date. Must be equal or earlier than Admit Date.
29	municipality_res	**Municipality Residence**	Municipality of residence of member. See Municipality Codes in Attachment I.	**XXXX**	Required Must be a valid ASES Municipality Code All numeric, right justified, zero filled Must correspond to a municipality within Region Code
30	municipality_code	**Municipality Service**	Municipality in which services are provided based on provider address. See municipality Codes in Attachment I.	**XXXX**	Required Must be a valid ASES Municipality Code All numeric, right justified, zero filled. For outside of Puerto Rico, code 0666 is included in the list of Municipality Codes.
31	drg_code	**DRG Code**	Diagnosis Related Group Code	**XXXX**	Must be a valid DRG Code
32	drg_type	**DRG Type Code**	DRG Type Code, representing the type of DRG Code submitted on the claim.	**X**	Required when DRG is provided. Must be one of the following: 1= MS DRG 2= CMS DRG 3= AP DRG 4= APR DRG
33	drg_outlier_amt	**DRG Outlier Amount**	Additional amount paid by carrier on a claim that is associated with either a cost outlier or length of stay outlier.	**S9(7)v99**	For claims submitted on Uniform Bill (UB) claim form. Must be zero for encounters. Must be zero for Services with Payment Status of "D". On non-UB claims must be blank.

#	*Field*	*Name*	*Description*	*Deliverable Data Format*	*Validation Rules*
34	drg_rel_weight	**Relative DRG Weight**	Indicates the relative weight for the DRG on the claim. Each year CMS assigns a relative weight to each DRG. These weights indicate the relative costs for treating patients during the prior year.	X(6)	If populated, must be a valid weight without any decimal points. Left justified, blank filled. A DRG weight of 2.397 should be reported as 2397.
35	pre_auth_num	**Pre-Authorization Number**	The number identifying pre-authorization. An unique identification number, that indicates the services provided on this claim have been authorized by the carrier (Also called Prior Authorization)	X(20)	Should be supplied when available. Left justified, blank filled to 20 characters if value is less than 20 characters.
36	proc_code	**Procedure Code**	For non-Pharmacy Standard procedure code conforming to HCPCS/CPT or HCSPC/CDT as appropriate	X(15)	For claims from CMS1500 / UB-04, when present must be a HCPCS/CPT code. For Dental claims must be a valid dental HCPCS/CDT code. For Pharmacy claims this must be all blanks.
37	cpt_mod_1	**Procedure Modifier Code 1**	Modifier code valid for the Procedure Code	XX	Can only be present when Procedure Code is present and allows a modifier code. Must be valid as a modifier for the Procedure code.
38	cpt_mod_2	**Procedure Modifier Code 2**	Modifier code valid for the Procedure Code	XX	Can only be present when Procedure Code is present and allows a modifier code. Must be valid as a modifier for the Procedure code Must be left blank for encounters
39	cpt_mod_3	**Procedure Modifier Code 3**	Modifier code valid for the Procedure Code	XX	Can only be present when Procedure Code is present and allows a modifier code. Must be left blank for encounters.

#	*Field*	*Name*	*Description*	*Deliverable Data Format*	*Validation Rules*
40	cpt_mod_4	**Procedure Modifier Code 4**	Modifier code valid for the Procedure Code A series of procedure code modifiers used with the corresponding Procedure Codes. For example, some states use modifiers to indicate assistance in surgery or anesthesia services.	**XX**	Can only be present when Procedure Code is present and allows a modifier code. Must be left blank for encounters.
41	cpt_mod_5	**Procedure Modifier Code 5**	Modifier code valid for the Procedure Code A series of procedure code modifiers used with the corresponding Procedure Codes.	**XX**	Can only be present when Procedure Code is present and allows a modifier code. Must be left blank for encounters.
42	cpt_mod_6	**Procedure Modifier Code 6**	Modifier code valid for the Procedure Code A series of procedure code modifiers used with the corresponding Procedure Codes.	**XX**	Can only be present when Procedure Code is present and allows a modifier code. Must be left blank for encounters.
43	rev_code	**Revenue Code**	For UB-04 Claims NUBC Revenue Code	**X(4)**	Required for UB-04 claims. When present it must be a valid Revenue code. Must be zero filled to the left.
44	rx_ndc	**National Drug Code**	For Pharmacy only. National Drug Code value for prescribed drug in 5 4 2 format	**X(11)**	Required on Pharmacy claims. Must be a valid NDC code in 5 4 2 format filling all 11 bytes. For non-Pharmacy claims must be blank.
45	tooth_code	**Tooth Code**	For Dental only ADA standard tooth number as required by CDT code when procedure directly affects a tooth.	**XXX**	Must be present on Dental claims when Procedure code requires Tooth Code. Must be left justified and blank filled to complete the field. For non-Dental claims must be blank.

#	*Field*	*Name*	*Description*	*Deliverable Data Format*	*Validation Rules*
46	surface_code	**Surface Code**	For Dental only ADA standard surface code as required by CDT code when procedure directly affects one or more surfaces.	X(7)	Must be present on Dental claims when procedure code requires Surface Code. Must be a valid Surface Code. Must be left justified and blank filled to complete the field. For non-Dental claims must be blank.
47	Icd_diag_01	**Primary ICD Diagnosis code**	Non-Pharmacy/Dental ICD diagnosis code.	X(8)	Not required for Pharmacy and Dental claims. Must be a valid ICD/DSM IV code without any decimal points. Diagnosis codes must be carried to their highest degree of detail. Left justified, blank filled.
48	Icd_diag_02	**Second ICD Diagnosis code**	Non-Pharmacy/Dental ICD diagnosis code.	X(8)	Not required for Pharmacy and Dental claims. Must be a valid ICD/DSM IV code without any decimal points. Diagnosis codes must be carried to their highest degree of detail. Left justified, blank filled.
49	Icd_diag_03	**Third ICD Diagnosis code**	Non-Pharmacy/Dental ICD diagnosis code.	X(8)	Not required for Pharmacy and Dental claims Must be a valid ICD/DSM IV code without any decimal points. Diagnosis codes must be carried to their highest degree of detail. Left justified, blank filled.

#	*Field*	*Name*	*Description*	*Deliverable Data Format*	*Validation Rules*
50	lcd_diag_04	**Fourth ICD Diagnosis code**	Non-Pharmacy/Dental ICD diagnosis code.	X(8)	Not required for Pharmacy and Dental claims Must be a valid ICD/DSM IV code without any decimal points. Diagnosis codes must be carried to their highest degree of detail. Left justified, blank filled.
51	lcd_diag_05	**Fifth ICD Diagnosis code**	Non-Pharmacy/Dental ICD diagnosis code.	X(8)	Not required for Pharmacy and Dental claims Must be a valid ICD/DSM IV code without any decimal points. Diagnosis codes must be carried to their highest degree of detail. Left justified, blank filled.
52	lcd_diag_06	**Sixth ICD Diagnosis code**	Non-Pharmacy/Dental ICD diagnosis code.	X(8)	Not required for Pharmacy and Dental claims Must be a valid ICD/DSM IV code without any decimal points. Diagnosis codes must be carried to their highest degree of detail. Left justified, blank filled.
53	lcd_diag_07	**Seventh ICD Diagnosis code**	Non-Pharmacy/Dental ICD diagnosis code.	X(8)	Not required for Pharmacy and Dental claims Must be a valid ICD/DSM IV code without any decimal points. Diagnosis codes must be carried to their highest degree of detail. Left justified, blank filled.

72	primary_carrier_id	**Primary Carrier ID**	Value that identifies the primary carrier providing service to the patient. May be the same as the carrier_id field or another carrier as a sub-contractor – a MBHO, Vision, or Dental plan. See Carrier ID List in Attachment II	**XX**	Required Must be two (2) digits (alpha-numeric). Must equal a valid Carrier ID as assigned by ASES if one has been assigned. If sub-contracted entity does not have a carrier code assigned by ASES, the following default codes may be used to represent the type of sub-contracted entity is the primary carrier: MB – Mental Health VS – Vision DN – Dental OT – Other/Unknown Carrier Type
73	pos_code	**Place of Service**	Place of Service Code identifying the place in which the service is delivered. See POS Code List in Attachment IV	**XX**	Required Must be a valid Place of service Code.
74	cob_code	**COB Code**	Identify if the beneficiary has other Health Insurance for this service. "Y if member has other health insurance, "N" otherwise.	**X**	Required Must be "Y" or "N"
75	amt_billed	**Billed Amount**	For non-Pharmacy Cost of service as billed by the provider.	**S9(7)v99**	Required for non-Pharmacy claims. Must be a number on all non-pharmacy records. Cannot be left blank for non-pharmacy.

#	*Field*	*Name*	*Description*	*Deliverable Data Format*	*Validation Rules*
76	amt_allowed	**Allowed Amount**	For non-Pharmacy Amount allowed for the service by the carrier.	**S9(7)v99**	Required for non-Pharmacy claims. Must be a number on all records Must be zero for encounters or denied services (Payment Status (sv_stat) = "E" or "D") Cannot be left blank For sv_stat "P" (Payment Status = "paid") this must be greater than zero.
77	deduct	**Deductible**	Amount paid by member before payments by the carrier begin for this service	**S9(7)v99**	Required Must be a number on all records Must be zero for encounters Cannot be left blank.
78	copay	**Co-Pay**	Amount paid by member as dollar co-payment for this service	**S9(7)v99**	Required Must be a number on all records Must be zero for encounters Cannot be left blank.
79	cob	**COB Amount**	Amount paid by other Health Insurance attributable to this service.	**S9(7)v99**	Required Must be a number on all records Must be zero for encounters Cannot be left blank.
80	coins	**Coinsurance Amount**	Amount paid by member as percentage of cost for this service	**S9(7)v99**	Required Must be a number on all records Must be zero for encounters Cannot be left blank.

#	*Field*	*Name*	*Description*	*Deliverable Data Format*	*Validation Rules*
81	amt_paid	**Paid Amount**	Amount paid by carrier for this service	**S9(7)v99**	Required Must be zero for encounters Must be zero for Services with Payment Status of "D" For Services with sv_stat = "P" (Payment Status = Paid) one of the following calculations must be valid within a record – For non-Pharmacy: amt_paid = amt_allowed - deduct - copay - cob - coins For Pharmacy: amt_paid = rx_ingr_cost - deduct - copay - cob - coins + rx_disp_fee **For Plan Type "02", "03", "04", "05" only** - amt_paid may be zero if the appropriate calculation above results in 0.00. For Plan Type "01" the amt_paid must be greater than zero.
82	enc_proxy_price	**Encounter Proxy Price**	This field shows the amount that would have been paid for this exact same service if it had been processed as a Fee For Service claim. It does not represent an actual dollar disbursement.	**S9(7)v99**	Required on Encounter claims. On non-encounter claims, it must be blank.

#	*Field*	*Name*	*Description*	*Deliverable Data Format*	*Validation Rules*
83	rx_disc	**Drug Discount**	For Pharmacy only Amount Discounted at the Pharmacy This is the discount given from AWP to get the Ingredient Cost When drug is paid from a MAC list the discount amount will be Zero (0) This field does not form part of the calculation to get Amount Paid but can be used with Ingredient Cost to work back to AWP.	**S9(7)v99**	Required on Pharmacy claims. On non-Pharmacy claims must be blank.
84	rx_ingr_cost	**Ingredient Cost**	For Pharmacy only. Cost of ingredient(s) dispensed for this Service.	**S9(7)v99**	Required on Pharmacy claims. Must be greater than zero. On non-Pharmacy claims must be blank.
85	rx_disp_fee	**Dispensing Fee**	For Pharmacy only. Dispensing fee charged by pharmacy.	**S9(7)v99**	Required on Pharmacy claims. Must be a number On non-Pharmacy claims must be blank.
86	rx_total_disp	**Total Quantity Dispensed**	For Pharmacy only. Total quantity of drug dispensed by pharmacy.	**S9(7)v99**	Required on Pharmacy claims. For non-Pharmacy claims must be blank. May include decimal point. This field is only applicable when the NDC code billed can be quantified in discrete units. Left justified, blank filled.
87	rx_days_supply	**Prescription Days**	For Pharmacy only. Number of days prescribed and dispensed.	**999**	Required on Pharmacy claims Must be greater than zero On non-Pharmacy claims must be blank.
88	rx_drug_type	**Drug Type Code**	For Pharmacy only. Code identifying type of drug on pharmacy claims.	**XX**	Required on Pharmacy claims When present it must be one of the valid codes. On non-Pharmacy claims must be blank.

#	*Field*	*Name*	*Description*	*Deliverable Data Format*	*Validation Rules*
89	rx_daw	**Dispensed As Written**	For Pharmacy only. Code indicating "Dispense as written" status of the prescription on pharmacy claims	**X(6)**	Required on Pharmacy claims When present it must be one of the valid codes. On non-Pharmacy claims must be blank Valid Codes are – 0 - NO DISPENSE AS WRITTEN 1 - PHYSICIAN writes DISPENSE AS WRITTEN 2 - PATIENT REQUESTED 3 - PHARMACIST SELECTED BRAND 4 - GENERIC NOT IN STOCK 5 - BRAND DISPENSED, PRICED AS GENERIC 6 - OVERRIDE 7 - SUBSTITUTION NOT ALLOWED; BRAND MANDATED BY LAW 8 - GENERIC NOT AVAILABLE 9 - OTHER
90	rx_refill_cnt	**Refill Count**	For Pharmacy only. The number of refills specified by the physician writing the prescription on pharmacy claims.	**9(6)**	Required on Pharmacy claims When present must be a number On non-Pharmacy claims must be blank.
91	rx_par	**Participating Pharmacy Flag**	For Pharmacy only Indicates whether prescription was dispensed by a participating pharmacy on pharmacy claims Valid values – "Y" = participating pharmacy "N" = non-participating pharmacy	**X(7)**	Required on Pharmacy claims Left justified, blank filled Must be "Y" or "N" On non-Pharmacy claims must be blank.

#	*Field*	*Name*	*Description*	*Deliverable Data Format*	*Validation Rules*
92	compound_dosage_form	**Compound Dosage Form**	For Pharmacy only. Indicates the Dosage form of the complete compound mixture. Compound code are identified as: 01 = Capsule 02 = Ointment 03 = Cream 04 = Suppository 05 = Powder 06 = Emulsion 07 = Liquid 10 = Tablet 11 = Solution 12 = Suspension 13 = Lotion 14 = Shampoo 15 = Elixir 16 = Syrup 17 = Lozenge 18 = Enema Blank = Not Specified	XX	Required on Pharmacy claims On non-Pharmacy claims must be blank All numeric, right justified, zero filled.
93	compound_drug_ind	**Compound Drug Indicator**	For Pharmacy only. Indicator for whether to specify if the drug is compound or not. Y= Drug is compound N= Drug is not compound	X	Required on Pharmacy claims. On non-Pharmacy claims must be blank. Must be "Y" or "N"
94	date_prescribed	**Prescription Date**	For Pharmacy claims, this is the date where a prescription was written for the member individual.	YYYYMMDD	Required on Pharmacy claims. Must be a valid date. Must be on or before Service From Date. For non-Pharmacy claims must be blank.

#	*Field*	*Name*	*Description*	*Deliverable Data Format*	*Validation Rules*
95	ndc_unit_type	**NDC Unit of Measure**	A code to indicate the basis by which the quantity of the National Drug Code is expressed. Value must be equal to a valid value. Valid Values: "F2" = International Unit "GR" = Gram "ME" = Milligram "ML" = Milliliter "UN" = Unit	**XX**	Required on Pharmacy claims. For non-Pharmacy claims must be blank. Describes the basis of the amount reported on the NDC Quantity-QUANTITY and RX-CLAIM-QUANTITY-ALLOWED Fields.
96	prescription_num	**Prescription ID**	The unique identification number assigned by the pharmacy or supplier to the prescription. This number is used to avoid duplicated Claims, but allows multiple service lines within the same claim.	**X(20)**	Required Left justified, blank filled to 20 characters if value is less than 20 characters.
97	rx_quantity_allowed	**RX quantity allowed**	The maximum allowable quantity of a drug or service that may be dispensed per prescription per date of service or per month.	**X(9)**	Required on Pharmacy claims For non-Pharmacy claims must be blank. Must be without any decimal points May include decimal point. For example, an amount of 30 should be coded as 3000. This field is only applicable when the NDC code being billed can be quantified in discrete units and should be described by the **NDC-UNIT-OF-MEASURE** field. Left justified, blank filled.
98	rebate_eligible_indicator	**Rebate Eligible Indicator**	An indicator to identify claim lines with an NDC that is eligible for the drug rebate program.	**X**	"Y"- Yes "N"- No

#	*Field*	*Name*	*Description*	*Deliverable Data Format*	*Validation Rules*
99	ub_dis_stat	**UB Discharge Status Code**	On UB-04 claims, Patient Status Code at discharge.	**XX**	Required for all claims submitted on Uniform Bill (UB) claim form. When present, must be one of the standard two digit codes as described in the National Uniform Billing Committee (NUBC) UB-04 data specifications manual.
100	risk_type	**Risk Type**	Distinguishes for this service whether risk belongs to PCP(/Group) or carrier. If cost should be charged to PCP(/Group) then value = "PCP" Shared risk agreement should be identified as "SHR" Otherwise value = "CAR" (Carrier). Where there is no risk sharing the value should be entered as "CAR". PBM ONLY – when a PBM is submitting this file this field should be coded as "UNK" for Unknown.	**XXX**	Required Must be filled Must be "PCP" , "SHR" or "CAR" For PBM only value can be "UNK"
101	stop_loss_flag	**Stop Loss Flag**	When Risk Type is "PCP", set to "Y" if stop loss for PCP(/Group) has been reached for PCP on member Otherwise "N". When Risk Type is "CAR", set to "N" PBM ONLY – set to "N"	**X**	Required Must be filled ""Y" or "N"
102	applied_cost	**Cost Applied To**	For Medicare Platino, defines whether service is part of the ASES coverage, the CMS (MA) coverage or both. When filled the valid values are – 1=ASES 2=CMS 3=BOTH (SPLIT)	**X**	Required for Plan Type "02" and "03" (Medicare Platino) Must be filled and be a valid value. Not Required for Plan Type "01", "04", "05"

#	*Field*	*Name*	*Description*	*Deliverable Data Format*	*Validation Rules*
103	ases_split_amt	**ASES Split Amount**	For Medicare Platino, indicates the part of the Paid Amount allocated to ASES coverage.	**S9(7)v99**	Must be filled if Cost Applied To = "1" or "3" Not Required for Plan Type "01", "04", or "05".
104	cms_split_amt	**CMS Split Amount**	For Medicare Platino, indicates the part of the Paid Amount allocated to CMS (MA) coverage.	**S9(7)v99**	Required for Plan Type "02" and "03" (Medicare Platino) Must be filled if Cost Applied To = 2 or 3 Not Required for Plan Type "01", "04", or "05"
105	off_island	**Off Island Flag**	Indicator for whether service was located off of the islands of Puerto Rico, Culebra, and Vieques.	**X**	Required Y=Off Island N=On Island
106	plan_version	**Plan Version**	Plan Version to distinguish multiple plans within the Plan Type. Always three numeric characters, e.g. 001 See Plan Version List in Attachment VI	**XXX**	Required Must be a 3 digit Plan Version Code Carrier ID, Plan Type, and Plan Version must validate with a plan definition contracted with ASES. Required for Plan Type "02", "03" (Medicare Platino), "04" and "05" Not Required for Plan Type "01"
107	sv_units	**Units of Service**	Number of occurrences of service	**9(10)**	When present must be a number.
108	claim_type	**Claim Type**	Claim Type: I=Inpatient O=Outpatient P=Professional	**X**	Required for all medical claims. For Rx and Dental claims, this field can be left blank. Must equal "I", "O" or "P" if populated.

#	*Field*	*Name*	*Description*	*Deliverable Data Format*	*Validation Rules*
109	admission_hour	**Admission Hour**	For UB-04 claims, this is the hour of admission. The hour code must be a two-digit code, based on 24-hour clock. See Hour Codes in Attachment VIII	XX	Required for all claims submitted on Uniform Bill (UB) claim form. When present, must be as described in the National Uniform Billing Committee (NUBC) UB-04 data specifications manual. See attachment VIII for the codes to be used.
110	discharge_hour	**Discharge Hour**	For UB-04 claims this is the hour of discharge. The hour code must be a two-digit code, based on 24-hour clock.	XX	Required for all claims submitted on Uniform Bill (UB) claim form. When present, must be as described in the National Uniform Billing Committee (NUBC) UB-04 data specifications manual. See Hour Codes in Attachment VIII
111	admission_type	**Admit Type**	Admit type code indicates the primary reason (priority) for admission. Admission codes: 1 = Emergency 2 = Urgent 3 = Elective 4 = Newborn 5 = Trauma 9 = Information Not Available	X	Required for all claims submitted on Uniform Bill (UB) claim form. When present, must be as described in the National Uniform Bill (UB) data specifications manual.
112	adm_prov_id	**Admitting Provider Id**	National Provider Identifier (NPI) of member's admitting provider.	X(20)	When present, must be a valid Provider ID found in the provider files. When present, must be valid NPI number.

#	*Field*	*Name*	*Description*	*Deliverable Data Format*	*Validation Rules*
113	adm_prov_taxonomy	**Admitting Provider Taxonomy**	Indicates the corresponding provider taxonomy of admitting provider, to define provider's type, classification, and area of specialization.	X(12)	Generally, the provider taxonomy requires 10 bytes. However, two additional bytes have been provided for future expansion. Must be left justified and blank filled to the right
114	check_eff_date	**Check Date**	Check Date is the date when the check or electronic remittance for payment is processed.	YYYYMMDD	Must be a valid date. Must be on or after Service To Date. Not required for denied claims.
115	check_num	**Check Number**	Check Number is the check or electronic remittance number for payment.	X(50)	Must be left blank for Services with Payment Status of "E". Left justified, blank filled to 50 characters if value is less than 50 characters. Not required for denied claims.
116	claim_rem_code_01	**First Remittance Advice Remark Codes (RARCs)**	Indicates the first RARCs to convey information about remittance processing or to provide a supplemental explanation for an adjustment already described by a Claim Adjustment Reason Code.	XXXX	Must be left blank for Services with Payment Status of "E". Must be left justified and blank filled.
117	claim_rem_code_02	**Second Remittance Advice Remark Codes (RARCs)**	Indicates the second RARCs to convey information about remittance processing or to provide a supplemental explanation for an adjustment already described by a Claim Adjustment Reason Code.	XXXX	Must be left blank for Services with Payment Status of "E". Must be left justified and blank filled.
118	claim_rem_code_03	**Third Remittance Advice Remark Codes (RARCs)**	Indicates the third RARCs to convey information about remittance processing or to provide a supplemental explanation for an adjustment already described by a Claim Adjustment Reason Code.	XXXX	Must be left blank for Services with Payment Status of "E". Must be left justified and blank filled.

#	*Field*	*Name*	*Description*	*Deliverable Data Format*	*Validation Rules*
119	claim_rem_code_04	**Fourth Remittance Advice Remark Codes (RARCs)**	Indicates the fourth RARCs to convey information about remittance processing or to provide a supplemental explanation for an adjustment already described by a Claim Adjustment Reason Code.	XXXX	Must be left blank for Services with Payment Status of "E". Must be left justified and blank filled.
120	poa_ind_1	**First Present on Admission (POA) Indicator**	A code to identify conditions that are present at the time the order for inpatient admission occurs; conditions that develop during an outpatient encounter, including emergency department, observation, or outpatient surgery. POA indicator must be reported on each diagnosis code submitted on facility claims, except for "specific" diagnosis codes.	X	Required for all claims involving inpatient admissions to general acute care hospitals Must be left blank for Services exempt from POA reporting. Must be a valid value Valid values: "Y" = Diagnosis was present at time of inpatient admission "N" = Diagnosis was not present at time of inpatient admission "U" = Documentation insufficient to determine if condition was present at the time of inpatient admission "W" = Clinically undetermined whether the condition was present at the time of inpatient admission.

1	prov_carrier	**Prov Carrier ID**	Value that identifies carrier. Must be a valid code. See Carrier Code List in Attachment II	**99**	Required Must be two (2) digits (numeric). Must equal a valid Carrier ID as assigned by ASES.
2	prov_id	**Prov ID**	Must be the NPI, or if none exists, may be the Tax Id.	**X(20)**	Required Must be left justified and blank filled to the right. If NPI is used, must be 10 digit numeric NPI.
3	prov_lname	**Prov Lname**	For an individual, Last Names (Apellidos) For an entity (other than an individual), the entity name	**X(50)**	Required Must be left justified, blank filled to the right
4	prov_fname	**Prov Fname**	For an individual, First Name (Nombre)	**X(30)**	Required for individual providers Must be left justified, blank filled to the right
5	prov_mname	**Prov Mname**	For an individual, Middle Name	**X(30)**	Optional Must be left justified, blank filled to the right
6	prov_name_type	**Prov Name Type Indicator**	Indicator that tells if the provider is an individual or an entity. Valid values are: "I" = Individual "E" = Entity	**X(1)**	Required
7	prov_addr1	**Prov Addr1**	First line of provider's physical address	**X(45)**	Required Must be the physical address and use second and third line as needed. Must be left justified, blank filled to the right
8	prov_addr2	**Prov Addr2**	Second line of provider's physical address (if required)	**X(45)**	Optional Must be left justified, blank filled to the right
9	prov_addr3	**Prov Addr3**	Third Line of provider's physical address (if required)	**X(45)**	Optional Must be left justified, blank filled to the right
10	prov_city	**Prov City**	Provider's city	**X(45)**	Required Must be left justified, blank filled to the right
11	prov_state	**Prov State**	Provider's state	**X(45)**	Required Must be left justified, blank filled to the right
12	prov_zip	**Prov Zip**	Provider's Zip code Either 5 digit or plus 4 format without dashes	**X(9)**	Required Must be left justified, blank filled to the right Significant characters must be numeric and 5 or 9 digits in length

25	taxonomy4	**Taxonomy 4**	Report the NUCC healthcare provider taxonomy code. If not available, see Specialty Code in Attachment III	**X(10)**	Optional Must be left justified, blank filled to the right Must be a valid taxonomy Code.
26	spec4	**Specialty Code 4**	Provider Specialty (fourth). See Specialty Code in Attachment III	**X(20)**	Optional Must be left justified, blank filled to the right Must be a valid Specialty Code
27	network_specialist	**Preferred Network Specialist**	Indicates if the service provider is a participating specialist of the preferred network in the PMG	**X**	Required Must be "Y" or "N"
28	federal_tax_id	**Federal Tax ID**	SSN for individuals, EIN for entities.	**X(20)**	Required Left justified, blank filled to the right Must be 9 digits in significant positions
29	tax_id_indicator	**Federal Tax ID Indicator**	Identifies if the federal tax ID provided in field *federal_tax_id* is a SSN or EIN. Valid values: "SSN" "EIN"	**X(3)**	Required
30	licence_number	**License Number**	State License Number	**X(15)**	Required Should be supplied when available Must be left justified, blank filled to the right
31	npi	**NPI**	National Provider Identifier	**X(10)**	Required Must be 10 digit numeric NPI.
32	dea_number	**DEA Number**	DEA number	**X(20)**	Optional Should be supplied when available Must be left justified, blank filled to the right
33	medicare_number	**Medicare Number**	Medicare number	**X(20)**	Optional Must be left justified, blank filled to the right
34	medicaid_number	**Medicaid Number**	Medicaid number	**X(20)**	Optional. Must be left justified, blank filled to the right.

PROVIDERS INPUT FILE LAYOUT

#	*Field*	*Field*	*Description*	*Deliverable Data Format*	*Validation Rules*
35	extract_date	**Extract Date**	Date on which record is originally extracted from Carrier's system to create the Provider Input File.	**YYYYMMDD**	Required Must be a valid date Must be later or equal to any other date field on record
36	clia_id	**CLIA Number**	Indicates the Clinical Laboratory Improvement Act (CLIA) certification number for laboratory services billed by an entity performing CLIA covered procedures. CLIA number consists of ten alphanumeric positions.	**X(10)**	Required for providers with specialty code equals to "Clinical Laboratory". Left justified, blank field to the right.
37	accepting_new_pat	**Accepting New Patient Indicator**	Indicates if the provider is accepting new patients (members) or not. Valid values: 0 = No 1 = Yes 8 = N/A – The individual only practices as a member of a group.	**X**	Must be a valid value.
38	dob	**Birth Date**	For an individual, Provider Date of Birth in YYYYMMDD format	**YYYYMMDD**	Required for an individual; left blank for an entity. Must be a valid date Cannot be in later than the Extract Date. Cannot be greater than 150 years ago compared to Extract Date.
39	dod	**Death Date**	For an individual Provider, Date of Death in YYYYMMDD format.	**YYYYMMDD**	Optional for an individual; left blank for an entity Should be supplied when available Must be a valid date Cannot be in later than the Extract Date Cannot be greater than 150 years ago compared to Extract Date. Cannot be equal or less than the date of birth. A provider with a date of death before the Extract Date cannot be listed as a provider for an eligible individual.

PROVIDERS INPUT FILE LAYOUT

#	*Field*	*Field*	*Description*	*Deliverable Data Format*	*Validation Rules*
40	facility_group_ind_code	**Facility Group Indicator Code**	Indicates whether the SUBMITTING-STATE-PROV-ID is assigned to an individual, a group of providers, or a facility.	**XX**	Required Must be a valid value "01" = Facility – The entity identified by the associated SUBMITTING-STATE-PROV-ID is a facility. "02" = Group – The entity identified by the associated SUBMITTING-STATE-PROV-ID is a group of individual practitioners. "03" = Individual – The entity identified by the associated SUBMITTING-STATE-PROV-ID is an individual practitioner.
41	license_entity	**License Issuing Entity ID**	Indicates the identity of the entity issuing the license or accreditation.	**X(50)**	Required whenever a value is captured in the LICENSE-OR-ACCREDITATION-NUMBER data element. Must be left justified, blank filled to the right (Enter the applicable state code, county code, municipality name, "DEA", professional society's name, or the CLIA accreditation body's name.) If LICENSE-TYPE = 1 (State, county, or municipality professional or business license) and the license-issuing entity is a state, then enter the applicable ANSI state numeric code. If LICENSE-TYPE = 2 (DEA license), then enter the text string "DEA". If LICENSE-TYPE = 3 (Professional society accreditation), then enter the text string identifying the professional society issuing the accreditation If LICENSE-TYPE = 4 (CLIA accreditation), then enter the text string identifying the CLIA accreditation body's name
42	license_type	**License Type**	A code to identify the kind of provider's license. Valid values: "1" = State, county, or municipality professional or business license "2" = DEA license "3" = Professional society accreditation "4" = CLIA accreditation "5" = Other "9" = Unknown	**X**	Required whenever a provider is required by the state's agency requires one in order to be a Medicaid/CHIP provider. Must be a valid value. If provider has more than one license, please report the one with lowest valid value. Example: for a provider with both "1" = State, county, or municipality professional or business license and "2" = DEA license, report "1" = State, county, or municipality professional or business license.

PROVIDERS INPUT FILE LAYOUT

#	*Field*	*Field*	*Description*	*Deliverable Data Format*	*Validation Rules*
43	prov_dba	**Provider DBA Name**	The provider's name that is commonly used by the public when the "doing-business-as" (`) name is different from the legal name. DBA is an abbreviation for "doing business as." Registering a DBA is required to operate a business under a name that differs from the company's legal name.	**X(50)**	Leave the field empty when DBA name equals the legal name
44	sex	**Sex Code**	For an individual, indicates the provider's gender. Valid values: M = Male F = Female U = Unknown	**X**	Must be a valid value
45	credential_eff_date	**Credential Effective Date**	The most recent credentialing/recredentialing date of the provider. If the provider does not require credentialing, enter "1/1/1900" in this column.	**YYYYMMDD**	Required
46	credential_exp_date	**Credential Expiration Date**	The most recent credentialing/recredentialing expiration date of the provider. If the provider does not require credentialing, enter "1/1/1900" in this column.	**YYYYMMDD**	Optional
47	contract_eff_date	**Contract effective date**	The provider's contract effective date.	**YYYYMMDD**	Required for contracted providers.
48	contract_term_date	**Contract termination date**	The provider's contract termination date.	**YYYYMMDD**	For providers with an open-ended contract please report as '99991231'. For a provider with an unknown contract termination date, leave blank.

ATTACHMENT IV - PLACE OF SERVICE CODES

CODE	Name	Description
Codes included in this table are designed for completeness and in no way imply coverage of services under the Government Health Insurance Plan		
01	Pharmacy	A facility or location where drugs and other medically related items and services are sold, dispensed, or otherwise provided directly to patients.
02	Unassigned	N/A
03	School	A facility whose primary purpose is education.
04	Homeless Shelter	A facility or location whose primary purpose is to provide temporary housing to homeless individuals.
05	Indian Health Service Free-standing Facility	A facility or location, owned and operated by the Indian Health Service, which provides diagnostic, therapeutic (surgical and non-surgical), and rehabilitation services to American Indians and Alaska Natives who do not require hospitalization
06	Indian Health Service Provider-based Facility	A facility or location, owned and operated by the Indian Health Service, which provides diagnostic, therapeutic (surgical and non-surgical), and rehabilitation services rendered by, or under the supervision of, physicians to American Indians and Alaska Natives admitted as inpatients or outpatients.
07	Tribal 638 Free-standing Facility	A facility or location owned and operated by a federally recognized American Indian or Alaska Native tribe or tribal organization under a 638 agreement, which provides diagnostic, therapeutic (surgical and non-surgical), and rehabilitation services to tribal members who do not require hospitalization.
08	Tribal 638 Provider-based Facility	A facility or location owned and operated by a federally recognized American Indian or Alaska Native tribe or tribal organization under a 638 agreement, which provides diagnostic, therapeutic (surgical and non-surgical), and rehabilitation services to tribal members admitted as inpatients or outpatients.
09-10	Unassigned	N/A

PUERTO RICO HEALTH INSURANCE ADMINISTRATION

ATTACHMENT IV - PLACE OF SERVICE CODES

CODE	Name	Description
11	Office	Location, other than a hospital, Skilled Nursing Facility (SNF), military treatment facility, community health center, State or local public health clinic, or Intermediate Care Facility (ICF), where the health professional routinely provides health examinations, diagnosis, and treatment of illness or injury on an ambulatory basis.
12	Home	Location, other than a hospital or other facility, where the patient receives care in a private residence.
13	Assisted Living Facility	Congregate residential facility with self-contained living units providing assessment of each resident's needs and on-site support 24 hours a day, 7 days a week, with the capacity to deliver or arrange for services including some health care and other services.
14	Group Home	A residence, with shared living areas, where clients receive supervision and other services such as social and/or behavioral services, custodial service, and minimal services.
15	Mobile Unit	A facility/unit that moves from place-to-place equipped to provide preventive, screening, diagnostic, and/or treatment services.
16-19	Unassigned	N/A
20	Urgent Care Facility	Location, distinct from a hospital emergency room, an office, or a clinic, whose purpose is to diagnose and treat illness or injury for unscheduled ambulatory patients seeking immediate medical attention.
21	Inpatient Hospital	A facility, other than psychiatric, which primarily provides diagnostic, therapeutic (both surgical and nonsurgical), and rehabilitation services by, or under, the supervision of physicians to patients admitted for a variety of medical conditions.
22	Outpatient Hospital	A portion of a hospital, which provides diagnostic, therapeutic (both surgical and nonsurgical), and rehabilitation services to sick or injured persons who do not require hospitalization or institutionalization.
23	Emergency Room - Hospital	A portion of a hospital where emergency diagnosis and treatment of illness or injury is provided.

PUERTO RICO HEALTH INSURANCE ADMINISTRATION

ATTACHMENT IV - PLACE OF SERVICE CODES

CODE	Name	Description
24	Ambulatory Surgical Center	A freestanding facility, other than a physician's office, where surgical and diagnostic services are provided on an ambulatory basis.
25	Birthing Center	A facility, other than a hospital's maternity facilities or a physician's office, which provides a setting for labor, delivery, and immediate post-partum care as well as immediate care of newborn infants.
26	Military Treatment Facility	A medical facility operated by one or more of the Uniformed Services. Military Treatment Facility (MTF) also refers to certain former U.S. Public Health Service (USPHS) facilities now designated as Uniformed Service Treatment Facilities (USTF).
27-30	Unassigned	N/A
31	Skilled Nursing Facility	A facility, which primarily provides inpatient skilled nursing care and related services to patients who require medical, nursing, or rehabilitative services but does not provide the level of care or treatment available in a hospital.
32	Nursing Facility	A facility which primarily provides to residents skilled nursing care and related services for the rehabilitation of injured, disabled, or sick persons, or, on a regular basis, health-related care services above the level of custodial care to other than mentally retarded individuals.
33	Custodial Care Facility	A facility which provides room, board and other personal assistance services, generally on a long-term basis, and which does not include a medical component.
34	Hospice	A facility, other than a patient's home, in which palliative and supportive care for terminally ill patients and their families are provided.
35-40	Unassigned	N/A
41	Ambulance - Land	A land vehicle specifically designed, equipped and staffed for lifesaving and transporting the sick or injured.
42	Ambulance - Air or Water	An air or water vehicle specifically designed, equipped and staffed for lifesaving and transporting the sick or injured.
43-48	Unassigned	N/A

PUERTO RICO HEALTH INSURANCE ADMINISTRATION

ATTACHMENT IV - PLACE OF SERVICE CODES

CODE	Name	Description
49	Independent Clinic	A location, not part of a hospital and not described by any other Place of Service code, that is organized and operated to provide preventive, diagnostic, therapeutic, rehabilitative, or palliative services to outpatients only.
50	Federally Qualified Health Center	A facility located in a medically underserved area that provides Medicare beneficiaries preventive primary medical care under the general direction of a physician.
51	Inpatient Psychiatric Facility	A facility that provides inpatient psychiatric services for the diagnosis and treatment of mental illness on a 24-hour basis, by or under the supervision of a physician.
52	Psychiatric Facility Partial Hospitalization	A facility for the diagnosis and treatment of mental illness that provides a planned therapeutic program for patients who do not require full time hospitalization, but who need broader programs than are possible from outpatient visits to a hospital-based or hospital-affiliated facility.
53	Community Mental Health Center	A facility that provides the following services: • Outpatient services, including specialized outpatient services for children, the elderly, individuals who are chronically ill, and residents of the CMHC's mental health services area who have been discharged from inpatient treatment at a mental health facility. • 24 hour a day emergency cares services. • Day treatment, other partial hospitalization services, or psychosocial rehabilitation services. • Screening for patients being considered for admission to State mental health facilities to determine the appropriateness of such admission. • Consultation and education services.
54	Intermediate Care Facility/Mentally Retarded	A facility which primarily provides health-related care and services above the level of custodial care to mentally retarded individuals but does not provide the level of care or treatment available in a hospital or SNF.

PUERTO RICO HEALTH INSURANCE ADMINISTRATION

ATTACHMENT IV - PLACE OF SERVICE CODES

CODE	Name	Description
55	Residential Substance Abuse Treatment Facility	A facility, which provides treatment for substance (alcohol and drug) abuse to live-in residents who, does not require acute medical care. Services include individual and group therapy and counseling, family counseling, laboratory tests, drugs and supplies, psychological testing, and room and board.
56	Psychiatric Residential Treatment Center	A facility or distinct part of a facility for psychiatric care, which provides a total 24-hour therapeutically, planned and professionally staffed group living and learning environment.
57	Non-residential Substance Abuse Treatment Facility	A location which provides treatment for substance (alcohol and drug) abuse on an ambulatory basis. Services include individual and group therapy and counseling, family counseling, laboratory tests, drugs and supplies, and psychological testing.
58-59	Unassigned	N/A
60	Mass Immunization Center	A location where providers administer pneumococcal pneumonia and influenza virus vaccinations and submit these services as electronic media claims, paper claims, or using the roster billing method. This generally takes place in a mass immunization setting, such as, a public health center, pharmacy, or mall but may include a physician office setting.
61	Comprehensive Inpatient Rehabilitation Facility	A facility that provides comprehensive rehabilitation services under the supervision of a physician to inpatients with physical disabilities. Services include physical therapy, occupational therapy, speech pathology, social or psychological services, and orthotics and prosthetics services.
62	Comprehensive Outpatient Rehabilitation Facility	A facility that provides comprehensive rehabilitation services under the supervision of a physician to outpatients with physical disabilities. Services include physical therapy, occupational therapy, and speech pathology services.
63-64	Unassigned	N/A
65	End-Stage Renal Disease Treatment Facility	A facility other than a hospital, which provides dialysis treatment, maintenance, and/or training to patients or caregivers on an ambulatory or home-care basis.

PUERTO RICO HEALTH INSURANCE ADMINISTRATION

ATTACHMENT IV - PLACE OF SERVICE CODES

CODE	Name	Description
66-70	Unassigned	N/A
71	State or Local Public Health Clinic	A facility maintained by either State or local health departments that provide ambulatory primary medical care under the general direction of a physician.
72	Rural Health Clinic	A certified facility, which is located in a rural medically, underserved area that provides ambulatory primary medical care under the general direction of a physician.
73-80	Unassigned	N/A
81	Independent Laboratory	A laboratory certified to perform diagnostic and/or clinical tests independent of an institution or a physician's office.
82-98	Unassigned	N/A
99	Other Place of Service	Other service facilities not specified above.

ATTACHMENT VIII - HOUR CODES

CODE	Description
Codes included in this table are designed for completeness of fields that require providing the hour using a two-digit code, based on 24-hour clock.	
01	1:00 a.m.
02	2:00 a.m.
03	3:00 a.m.
04	4:00 a.m.
05	5:00 a.m.
06	6:00 a.m.
07	7:00 a.m.
08	8:00 a.m.
09	9:00 a.m.
10	10:00 a.m.
11	11:00 a.m.
12	12:00 noon
13	1:00 p.m.
14	2:00 p.m.
15	3:00 p.m.
16	4:00 p.m.
17	5:00 p.m.
18	6:00 p.m.
19	7:00 p.m.
20	8:00 p.m.
21	9:00 p.m.
22	10:00 p.m.
23	11:00 p.m.
00	12:00 a.m.

Query and Response files Layouts

QUERY RESPONSE FILE LAYOUT

October 20, 2008

This file is sent by ASES to Carriers as a response to query records. The Response Record informs if a Beneficiary is elegible for GHIP (Reform) coverage. It provides the key data elements which the Carrier will use to notify enrollment to ASES once approved by CMS.

Query Response Record

# Field	Record Fields	Position	Size	Notes
1	RECORD_TYPE	1	1	"R" for Response
2	CARRIER_PROCESS_DATE	2	8	YYYYMMDD
3	**BENEFICARY SSN**	10	9	
4	CARRIER_1ST_LAST_NAME	19	15	
5	CARRIER_2ND_LAST_NAME	34	15	
6	CARRIER_FIRST_NAME	49	20	
7	CARRIER_SEX	69	1	1 = Male, 2 = Female
8	CARRIER_DATE OF BIRTH	70	8	YYYYMMDD
9	CARRIER_REGION	78	1
