Version Changes

Version 3.0A

ASES file layouts ver. 3.0A for submission by Carriers for data generated from July 2018 forward

CAPITATION Input File Layout

CAPITATION TYPE field was modified.

PROVIDER Input File Layout

The descriptions for the provider address fields was changed to specify that it refers to the provider's physical address. New fields added to the layout.

CLAIMSERVICES Input File Layout - Added

New fields added to the layout.

Data Validation and Auditing Change

New section regarding data validation and auditing added.

Version 3.0A rev3

Provider, Network, and IPA Files Layout

Frequency of Provider, Network, and IPA files changed from monthly to weekly.

Content of Provider, Network, and IPA files changed from only those entities that are present in claims to all active records.

CLAIMSERVICES Input File Layout

PLAN TYPE field and PLAN VERSION LIST were modified.

Version 3.0A rev4

Content of Provider and Network files changed from all active records to all active records, and "Out of Network" providers present in claims.

Carrier to ASES Data Submissions File Layouts

Version 4.1C Page 5 of 106 Last Update: February 21, 2023

ADMINISTRACION DE SEGUROS DE SALUD

25-00003

Version 3.0A rev5

Provider and Network files descriptions and/or validation rules were changed for required fields that are unavailable for "Out of Network" providers.

Version 4.0B

Additional Provider and Network files content requirements were added, for required fields that are unavailable for "Out of Network" providers.

New descriptions and/or validation rules were added to the CLAIMSERVICES Input File Layout, applicable to GHIP and Government Employee Carriers.

CARRIER CODES, PLAN VERSION LIST and Place of Service Codes were modified.

Version 4.0C

Claims Transaction Handling requirements were modified for reversals and adjustments.

Data File Naming Conventions requirements were modified.

Provider and Network files descriptions and/or validation rules were changed for required fields that are unavailable for providers/groups that do not qualify for an NPI.

Encounter Lag Reports requirements were added.

Capitation Adjustments specifications and Capitation Input File Layout fields were modified.

CLAIMSERVICES Input File Layout new field added, and field description was modified.

ATTACHMENT II - CARRIER CODES - updated

Descriptions and/or validation rules of the Municipality and Region fields were added, for Outside of Puerto Rico.

Version 4.1C

Descriptions and/or validation rules were added to the CLAIMSERVICES and Capitation Input File Layouts, to the Plan Type related fields, applicable to Government Employee Carriers.

Descriptions and/or validation rules were added to the CLAIMSERVICES, to the Primary Center field, applicable to claims for Plan Version 970.

ATTACHMENT IV - PLACE OF SERVICE CODES – updated ATTACHMENT VI – PLAN VERSION LIST – updated

Introduction

The island of Puerto Rico's Medicaid program, the Government Health Plan (GHP) was established in 1993 with the passing of Law 72. Through Law 72, the program to administer the Medicaid program for roughly 1.3 Milliman people, the Administración de Seguros de Salud (ASES) was established. In order to continuously review health care utilization, expenditures, and performance in Puerto Rico and to enhance the ability of ASES to make informed and cost-effective health care choices, ASES has partnered with Milliman, Inc. to provide ASES with a data warehouse and analytics system. ASES has been capturing data from its managed care health carriers for many years to populate in the data warehouse and other systems. This layout document provides health insurance carriers information to submit their health care claims, network, provider, IPA, and capitation data to ASES.

Claims Transaction Handling

All Claims files are to be submitted on a monthly basis, for all Claims PAID in the month of the file submitted. All adjustments of an adjudicated claim line are accepted in the CLAIMSERVICES file. Do not send claims that are in an open status, such as pended claims, held, rejected, or pre-adjudicated claims. Claims reversals and adjustments happen as follows:

Paid or Denied FFS Claims

Individual service lines are adjusted or reversed at the line level with additional adjustment services marked with a claim line status code of 'A' or 'R', while the original claim has a status code of 'P' for paid, 'D' for denied claims, or 'E' for encounter claims. The adjusted or reversed service:

- must include the claim id of the original claim to be adjusted or reversed, at the field named Original Claim Id Number, and
- may have the same claim ID and line number or a different claim ID and line number.

Encounter Claims

Claims representing encounters have no allowed or paid amounts and are therefore not able to be adjusted monetarily. If an encounter needs to be updated to change any of the fields of the encounter, the adjusting claim must have a claim line status code (sv_stat field) of 'E' and the claim ID and service line number must be the same as the encounter being adjusted. Our process will remove the original encounter so that duplicate encounters will not be counted in the data.

Carrier to ASES Data Submissions File Layouts

Version 4.1C Page 8 of 106 Last Update: February 21, 2023

ADMINISTRACION DE SEGUROS DE SALUD

25 - 000003

On the other hand, if an encounter needs to be submitted as a Fee For Service claim the carrier must:

- reverse the original service, by submitting the reversal with a claim line status code of 'R' and the same values as the original claim for the following fields: claim ID, service line number and Original Claim Id Number
- submit a new Fee for Service claim record, that may have the same claim ID and line number or a different claim ID and line number.

Provider, IPA and Network Files

The Provider, IPA, and Network files are to be submitted weekly, every Wednesday and must include the latest available data from the day prior to the submission date. For each weekly submission within a given month, keep the same file naming convention, but increment the sequence number, starting with 0, then 1, 2, 3.

The IPA file shall include every IPA that is active in your system. The PRV and NET files shall include every Provider and Network record that is active in the carrier's and/or sub-contractor's system, and "Out of Network" providers associated with currently submitted claim records. In addition, the IPA and Provider files shall include the IPA and providers associated with currently submitted capitation records. ASES will be using this data to keep a current complete list of available Providers and IPAs.

The Provider and Network files must include:

- all "In Network" providers directly contracted or sub-contracted with the carrier,
- any "Out of Network" providers included on the CLM file,
- all providers included on the CAP file (only applicable for the Provider File and excluding PMGs).

For "Out of Network" provider records, the carrier's will report as much information as available on their systems. The carrier shall submit "Out of Network" provider records with a contract effective date equal to '99991231'. For any required fields for which the carrier does not have valid information, the fields must be left blank.

ASES is requesting that provider NPIs are to always be used as the PROV_ID in order to assist in provider attribution and reporting across all Carriers. ASES will not accept the carrier's own provider id as the provider ID for medical claim, unless the carrier presents a valid reason for not using NPI's. Consequently, for providers that don't qualify to obtain an NPI by the nature of its business, the carrier may submit the Tax Id of the provider as the PROV_ID to which the capitation payment is made. The carrier will have to present an official notification to ASES of every provider that was reported with a Tax Id in lieu of an NPI.

Carrier to ASES Data Submissions File Layouts

Version 4.1C Page 9 of 106 Last Update: February 21, 2023

ADMINISTRACION DE SEGUROS DE SALUD

25-00003

For pharmacy claims only

For pharmacy providers, only the NPI number will be accepted as the provider ID. Carriers must include pharmacy providers in their provider files sent to ASES and the IDs must be consistent within the carriers' claims.

Capitation Files

All Capitation files are to be submitted on a monthly basis, for all Capitation PAID in the month of the file submitted. The amount to be reported on capitation records must represent any costs associated with providing services which are not reported in claims and encounters. This may come from formal contracts with providers such as HCO/PCPs, or any other financial arrangement or allocation of costs.

The cap_amount field should represent a calculation which includes the earned capitation for the period for each member. Other types of deductions which may be taken out of the provider's payment such as repayment of advances, retentions for reserves should not be included in the calculation.

The gross_cap_amount field should represent a calculation that includes the earned capitation for the period for each member (not the group average).

The net_cap_amount field should represent a calculation which includes the earned capitation for the period for each member (gross_cap_amount) less claims paid amounts, if any, chargeable against the provider risk. Other types of deductions which may be taken out of the provider's payment such as repayment of advances, retentions for reserves should not be included in the calculation.

Capitation records shall be provided for all members enrolled in the PMG's regardless of their risk coverage. The risk coverage type will be identified with a new risk type field.

Capitation Adjustments

There may be circumstances in which capitation payments which have already been reported, need to be adjusted or reversed in a later month. To accomplish this, the Capitation records will behave differently than Claims and Services. The carrier will send a new record

Carrier to ASES Data Submissions File Layouts

Version 4.1C Page 10 of 106 Last Update: February 21, 2023

ADMINISTRACION DE SEGUROS DE SALUD

25-00005

for the provider / member / experience date with the amount(s) to be added or subtracted from the previously reported amount(s), specifically for the following fields: Capitation Amount, Gross Capitation Amount, Net Capitation Amount, Capitation Days and Capitation Percent. If a capitation of \$10.00 is to be reversed then the new record should contain the same information as the original but with a new Capitation Date, a Capitation Amount of -\$10.00, and the corresponding adjustments to the Gross Capitation Amount, Net Capitation Amount, Capitation Days and Capitation Percent fields as well. Inside MedInsight the capitation for that Provider / Member for that particular date will be the aggregate of all the records and this example will result in \$0.00.

Note that, as Capitation net amounts for any particular record may be negative, a reversal in such a case would be a positive amount.

Data Validation and Audit Process

After the files are loaded, Milliman will employ an automated validation process, File Field and Quality Checks (FFQC), to ensure that the format and content of each submitted file is valid and complete. Monthly files that do not pass the reconciliation process and the data audit process will be rejected. Load threshold levels for individual data elements submitted are validated against those pre-established levels defined by ASES and Milliman.

Failure to conform to any of the submission requirements will result in the rejection and return of the applicable data file(s). No records from such a file will be retained in the system and the carrier will be required to re-submit the rejected file in its entirety before the next month's files become due. Such re-submitted files must be carefully named using the sequence number part of the naming convention to ensure the name is distinct from the rejected file and is named in the correct order.

Due to the large amount and complexity of the data processed, it is more efficient to resubmit an entire file rather than to correct data within the file. Partial replacement files or record specific corrections will not be accepted.

Claims, Capitation and Encounter Lag Reports

Version 4.1C

Carriers are required to submit encounter, claims and capitation payment reports, called lag reports, on a monthly basis. These reports will be used to reconcile the data submitted. Claims and capitation data that do not match the lag reports on paid amount, and/or encounter claims data that do not match the lag reports on record counts within a reasonable percentage will be deemed invalid and must be corrected.

Carrier to ASES Data Submissions File Layouts

Page 11 of 106 Last Update: February 21, 2023

ADMINISTRACION DE SEGUROS DE SALUD

25-00003

The claims and capitation lag reports submitted by the carrier will be considered to be financially accurate and may be used for other purposes, including negotiations or other financial analyses. Therefore, it is in the carrier's best interests to produce lag reports that are either from another source that the actual files that are submitted, or to verify that the lag reports tie to financial reports.

The required claims lag reports need to be an Excel file with the following characteristics:

- 1. Claims paid amounts by:
 - a. Region code of member as defined by ASES,
 - b. Incurred month with deliverable data format YYYYMM,
 - c. Paid month with deliverable data format YYYYMM, and
- 2. Claim type for claims, where can be filled in with one of the following default values: Medical, Pharmacy and Dental.
- 3. The report must include at least all paid and incurred months going back 2 full years prior to the month the report is run.
- 4. Naming of the claims lag reports should be as follows:

CLAIMLAG_ccyymms.xls(x)

Where:

Region

Claim Type

Characters 1-9	Always "C	LAIMLAG_"
Characters 10-11	cc =	Carrier Code (See attachment II)
Characters 12-13	yy =	Last two digits of year
Characters 14-15	mm =	Month - last full paid month in the lags.
Character 16	s =	sequence number of file submission.
Character 17	Always "."	

Characters 18-20(21) Extension code for excel file, can be xls or xlsx depending on Excel version.

An example of how the claims lag report data should look for claims is as follows:

Incurred Month

Medical	East	201801	201801	50,823.43
Medical	South	201801	201802	45,534.00

THE STATE OF THE S

ADMINISTRACION DE SEGUROS DE SALUD

25-000003

Primary Carrier ID

The *Primary Carrier ID* field in the ClaimServices Input File Layout identifies the entity (MBHO, Sub Contractor Entity, or TPA) which provides services to the enrollees throughout a special or capitated financial arrangement. Another field called *Carrier ID* field contains the ID of the carrier directly contracted with ASES and the one generating the ClaimServices Input File. The ClaimServices Input File will contain the same value in the *Carrier ID* and *Primary Carrier ID* fields when the carrier generating the ClaimServices Input File is the carrier providing services to the enrollees. If this entity does not have an assigned carrier ID from ASES, the *Primary Carrier ID* can be filled in with one of the following 4 default values that represents the type of entity:

MH - Mental Health

VS - Vision

DN - Dental

OT - Other/Unknown

General Notes on Field Level Requirements

Date Fields - All date fields in the following data layout are defined to the same size and format as YYYYMMDD. An 8 byte field where YYYY = 4 digit year, MM = 2 digit month and DD = 2 digit day. 1 digit month and day values must always have the leading zero (0). Date fields must contain a valid date with months between 01 and 12 and days between 01 and maximum day in month. July 1, 2006 will be coded as 20060701.

Amount Fields – All amount fields representing money must be numeric and are defined as 9 bytes in the format s9(7)v99 where v represents and implied decimal point. This allows a maximum of 7 digits for dollars plus the last two digits for cents. These numbers are always right justified and zero filled to the left. As examples:

\$1.23 will be coded as 000000123 \$100.00 will be coded as 000010000

All amount fields are positive and follow the above definition unless clearly specified otherwise.

Carrier to ASES Data Submissions File Layouts

Version 4.1C Page 15 of 106 Last Update: February 21, 2023

ADMINISTRACION DE SEGUROS DE SALUD

25 - 00000

End of Record Filler – All file layouts have been designed to end with a filler field of 1 byte which must always be coded as an "*" character. This is done to avoid issues between different systems when generating and transferring ASCII files in which ending field may be empty. The fixed End of Record Filler guarantees that all records in a file can be constructed to the fixed length format as defined in the layouts.

Justification and filling of Fields – The layouts have all been specified to provide fixed length fields and fixed length records. While other methods can be used, it is felt that this provides the best common ground for working with multiple entities each of which uses varying systems. To be sure everyone understands the same about the comments on justification and filling the following examples are given to help keep this concept clear.

All numeric fields must be filled completely with numeric digits. If there are exceptions these are clearly spelled out in the documentation of the layouts. Typically numeric field are right justified and to keep them numeric must be zero filled. In a field specified as numeric such a s9(7)v99 the following conventions apply:

- s Leading sign
- 9(7) 7 decimal digits
- · v Implied decimal point
- 99 2 digits after the implied decimal point

The following examples illustrate how data will look in the field:

ADMINIST	RACIC	NDE
SEGUROS	DE SA	LUD

25 - 00003

Contrato Número

Value	Field
12.50	000001250
101	000010100
1,234.56	000123456
1,000,000	100000000
-1.234.56	-00123456

Carrier to ASES Data Submissions File Layouts

Version 4.1C Page 16 of 106 Last Update: February 21, 2023

All alphanumeric fields must be filled completely. If the value of data in the field is less than the width of the field then care must be taken to ensure that the field is filled with blanks. Allowing "NULLS" or other special characters through may cause unexpected results and make reading, loading and validation of the data difficult. Typically alphanumeric field are left justified and filled to the right with blanks to complete the field. In a field specified as alphanumeric such a X(20) the following examples illustrate how data will look in the field where the [] characters represent the start and end of the field —

<u>Value</u>	<u>Field</u>
P.R.	[P.R.]
José Rivera	[José Rivera]
blanks	[]
(Metro-North Region)	[(Metro-North Region)]

MPI Number fields – In all files in which MPI Number is required, carriers should code all 9s if the MPI is unknown. This should not be true for any current beneficiary. This exception will continue until such time as ASES determines that the issue of MPI being unavailable has disappeared from historical data. For Government Employee MPI should be filled with Contract Number.

Data File Naming Conventions

All data files to be delivered to ASES by the carriers must be compressed and follow the naming conventions below. Files which do not fit the naming convention will be ignored and the carrier deemed to have failed in delivery of such a file.

File names must adhere strictly to this naming convention as the structure includes information for identification of the carrier, dates and file type. If not named correctly the file cannot be processed properly.

The general format of file names will be -

Decyymms.fff.zip

Where: Character 1 Always "D"

Characters 2-3 cc = Carrier Code (See attachment II)

Carrier to ASES Data Submissions File Layouts

Version 4.1C Page 17 of 106 Last Update: February 21, 2023

ADMINISTRACION DE SEGUROS DE SALUD

25-00003

Character 4-5 yy = Last two digits of year

Characters 6-7 mm = Month

Character 8 s = sequence number of file submission.

All submission start with s = 0 and continue in numeric if files are re-submitted to 9 If files must be re-submitted beyond 9, then alphabetic characters will be used a, b, c ...

Character 9 Always "."

Characters 10-12 Extension code identifying type of file

CLM for CLAIMSERVICES
PRV for PROVIDERS
IPA for IPA
CAP for CAPITATIONS
NET for NETWORK

Characters 13-16 .zip = Extension code identifying a compressed file

Files are always dated for the month being reported. For example, when sending claims paid in July 2018 the yymm part of the file name will be 1807 while the file will be sent to ASES in August.

Examples of completing this naming convention are -

For imaginary carrier 99 in the files for ClaimServices and payments in April 2018 will be named as follows -

 ClaimServices
 D9918040.CLM.ZIP

 Providers
 D9918040.PRV.ZIP

 IPA
 D9918040.IPA.ZIP

 Capitation
 D9918040.CAP.ZIP

 Network
 D9918040.NET.ZIP

When the Capitation file is rejected, the corrected file will be re-submitted as D9918041.CAP.ZIP

ATTACHMENT IV - PLACE OF SERVICE CODES

CODE	Name	Description
17	Walk-in Retail Health Clinic	A walk-in health clinic, other than an office, urgent care facility, pharmacy or independent clinic and not described by any other Place of Service code, that is located within a retail operation and provides, on an ambulatory basis, preventive and primary care services.
18	Place of Employment- Worksite	A location, not described by any other POS code, owned or operated by a public or private entity where the patient is employed, and where a health professional provides on-going or episodic occupational medical, therapeutic or rehabilitative services to the individual.
19	Off Campus-Outpatient Hospital	A portion of an off-campus hospital provider based department which provides diagnostic, therapeutic (both surgical and nonsurgical), and rehabilitation services to sick or injured persons who do not require hospitalization or institutionalization.
20	Urgent Care Facility	Location, distinct from a hospital emergency room, an office, or a clinic, whose purpose is to diagnose and treat illness or injury for unscheduled ambulatory patients seeking immediate medical attention.
21	Inpatient Hospital	A facility, other than psychiatric, which primarily provides diagnostic, therapeutic (both surgical and nonsurgical), and rehabilitation services by, or under, the supervision of physicians to patients admitted for a variety of medical conditions.
22	On Campus- Outpatient Hospital	A portion of a hospital, which provides diagnostic, therapeutic (both surgical and nonsurgical), and rehabilitation services to sick or injured persons who do not require hospitalization or institutionalization.
23	Emergency Room - Hospital	A portion of a hospital where emergency diagnosis and treatment of illness or injury is provided.
24	Ambulatory Surgical Center	A freestanding facility, other than a physician's office, where surgical and diagnostic services are provided on an ambulatory basis.
25	Birthing Center	A facility, other than a hospital's maternity facilities or a physician's office, which provides a setting for labor, delivery, and immediate post-partum care as well as immediate care of newborn infants.
