## Section B: State-Level Indicators

### Topic I. Program Characteristics and Enrollment

| Number | Indicator   | Response |
|--------|---|----------|
| BI.1   | <p><b>Statewide Medicaid enrollment</b></p> <p>Enter the average number of individuals enrolled in Medicaid per month during the reporting year (i.e., average member months).<br/>Include all FFS and managed care enrollees and count each person only once, regardless of the delivery system(s) in which they are enrolled.</p>                                   | 302,794  |
| BI.2   | <p><b>Statewide Medicaid managed care enrollment</b></p> <p>Enter the average number of individuals enrolled in any type of Medicaid managed care per month during the reporting year (i.e., average member months).<br/>Include all managed care programs and count each person only once, even if they are enrolled in multiple managed care programs or plans.</p> | 302,794  |

### Topic III. Encounter Data Report

| Number        | Indicator   | Response  |
|---------------|---|---|
| <b>BIII.1</b> | <b>Data validation entity</b><br><br>Select the state agency/division or contractor tasked with evaluating the validity of encounter data submitted by MCPs.<br>Encounter data validation includes verifying the accuracy, completeness, timeliness, and/or consistency of encounter data records submitted to the state by Medicaid managed care plans. Validation steps may include pre-acceptance edits and post-acceptance analyses. See Glossary in Excel Workbook for more information. | State Medicaid agency staff<br><br>Other state agency staff<br><br>State actuaries<br><br>EQRO<br><br>Other third-party vendor<br><br>Proprietary system(s) |
| <b>BIII.2</b> | <b>HIPAA compliance of proprietary system(s) for encounter data validation</b><br><br>Were the system(s) utilized fully HIPAA compliant? Select one.  | Yes   |

## Topic X: Program Integrity

| Number      | Indicator  | Response   |
|-------------|--|--|
| <b>BX.1</b> | <p><b>Payment risks between the state and plans</b></p> <p>Describe service-specific or other focused PI activities that the state conducted during the past year in this managed care program. Examples include analyses focused on use of long-term services and supports (LTSS) or prescription drugs or activities that focused on specific payment issues to identify, address, and prevent fraud, waste or abuse. Consider data analytics, reviews of under/overutilization, and other activities.</p> | <p>The Program Integrity Unit (PIU) is an important division within the Puerto Rico Medicaid Program. Its primary responsibility is to maintain the integrity and accountability of the program. The PIU accomplishes this by identifying instances of fraud, waste, and abuse within the program. This ensures the program's resources are being utilized appropriately to provide high-quality healthcare services to eligible beneficiaries. To achieve its objectives, the PIU works in collaboration with other agencies, including law enforcement. It also conducts audits and reviews of Medicaid providers to ensure they comply with program policies and regulations. The PIU carries out its responsibilities through data analysis and investigative efforts, including interviews with healthcare providers and beneficiaries.</p> |
| <b>BX.2</b> | <p><b>Contract standard for overpayments</b></p> <p>Does the state allow plans to retain overpayments, require the return of overpayments, or has established a hybrid system? Select one.</p>   | <p>State requires the return of overpayments</p>   |
| <b>BX.3</b> | <p><b>Location of contract provision stating overpayment standard</b></p> <p>Describe where the overpayment standard in the previous indicator is located in plan contracts, as required by 42 CFR 438.608(d)(1)(i).</p>   | <p>ASES contract with MCO, Section 19.1.9</p>  |
| <b>BX.4</b> | <p><b>Description of overpayment contract standard</b></p> <p>Briefly describe the overpayment standard (for example, details on whether the state allows plans to retain overpayments, requires the plans to return overpayments, or administers a hybrid system) selected in indicator B.X.2.</p>  | <p>"The Contractor shall report and return to ASES an Overpayment within sixty (60) calendar days after the date on which the Overpayment was Identified. The Contractor must specify their retention policies for the treatment of recoveries for all Overpayments to a Provider, including specifically for the treatment of overpayments due to Fraud, Waste or Abuse. The Contractor must also have and require the use of a mechanism for a Network Provider to report to Contractor an Overpayment, and to return the Overpayment with a written explanation of the reason for the overpayment in accordance with this Section."</p>   |

|              |   |  |
|--------------|---|--|
| <b>BX.5</b>  | <p><b>State overpayment reporting monitoring</b></p> <p>Describe how the state monitors plan performance in reporting overpayments to the state, e.g. does the state track compliance with this requirement and/or timeliness of reporting?</p> <p>The regulations at 438.604(a)(7), 608(a)(2) and 608(a)(3) require plan reporting to the state on various overpayment pieces (whether annually or promptly). This indicator is asking the state how it monitors that reporting.</p> | <p>Per contract, the Plan must report overpayments as part of required quarterly reporting. This reporting is reviewed by ASES when received.</p>  |
| <b>BX.6</b>  | <p><b>Changes in beneficiary circumstances</b></p> <p>Describe how the state ensures timely and accurate reconciliation of enrollment files between the state and plans to ensure appropriate payments for enrollees experiencing a change in status (e.g., incarcerated, deceased, switching plans).</p>   | <p>As part of the beneficiary reconciliation and status change process, PRMP uses internal and state resources to complement the process. The demographic registry under the Department of Health is consulted prior to removing beneficiaries due to death. For individual waivers, the beneficiary must report the change of circumstance; for mass waivers it is conducted through a change request. Currently, PRMP has no interface with the Department of Corrections, so there is no way to know when a Medicaid beneficiary becomes confined until the beneficiary applies for renewal. The other scenario is when the confined beneficiary is hospitalized for more than 24 hours. The Department of Corrections notifies PRMP, and the beneficiary's eligibility is suspended. Partial eligibility is given to cover hospital expenses. This partial eligibility is provided for one year, and ASES only pays the hospital expenses incurred by the inmate</p> |
| <b>BX.7a</b> | <p><b>Changes in provider circumstances: Monitoring plans</b></p> <p>Does the state monitor whether plans report provider “for cause” terminations in a timely manner under 42 CFR 438.608(a)(4)? Select one.</p>   | <p>Yes</p>   |

|              |  |   |
|--------------|--|---|
| <b>BX.7b</b> | <b>Changes in provider circumstances: Metrics</b><br><br>Does the state use a metric or indicator to assess plan reporting performance? Select one.  | No  |
| <b>BX.8a</b> | <b>Federal database checks: Excluded person or entities</b><br><br>During the state's federal database checks, did the state find any person or entity excluded? Select one.<br>Consistent with the requirements at 42 CFR 455.436 and 438.602, the State must confirm the identity and determine the exclusion status of the MCO, PIHP, PAHP, PCCM or PCCM entity, any subcontractor, as well as any person with an ownership or control interest, or who is an agent or managing employee of the MCO, PIHP, PAHP, PCCM or PCCM entity through routine checks of Federal databases. | No  |
| <b>BX.9a</b> | <b>Website posting of 5 percent or more ownership control</b><br><br>Does the state post on its website the names of individuals and entities with 5% or more ownership or control interest in MCOs, PIHPs, PAHPs, PCCMs and PCCM entities and subcontractors? Refer to §455.104 and required by 42 CFR 438.602(g)(3).   | No  |
| <b>BX.10</b> | <b>Periodic audits</b><br><br>If the state conducted any audits during the contract year to determine the accuracy, truthfulness, and completeness of the encounter and financial data submitted by the plans, what is the link(s) to the audit results? Refer to 42 CFR 438.602(e).   | Puerto Rico did not complete an audit in the 2022 reporting year. |

### Topic III: Encounter Data Report

| Number  | Indicator  | Response  |
|---------|--|---|
| C1III.1 | <b>Uses of encounter data</b><br><br>For what purposes does the state use encounter data collected from managed care plans (MCPs)? Select one or more.<br>Federal regulations require that states, through their contracts with MCPs, collect and maintain sufficient enrollee encounter data to identify the provider who delivers any item(s) or service(s) to enrollees (42 CFR 438.242(c)(1)).   | Rate setting  |
|         |  | Quality/performance measurement                               |
|         |  | Monitoring and reporting                                      |
|         |  | Contract oversight  |
|         |  | Program integrity   |
|         |  | Policy making and decision support                            |
| C1III.2 | <b>Criteria/measures to evaluate MCP performance</b><br><br>What types of measures are used by the state to evaluate managed care plan performance in encounter data submission and correction? Select one or more.<br>Federal regulations also require that states validate that submitted enrollee encounter data they receive is a complete and accurate representation of the services provided to enrollees under the contract between the state and the MCO, PIHP, or PAHP. 42 CFR 438.242(d). | Timeliness of initial data submissions                        |
|         |  | Timeliness of data corrections                                |
|         |  | Timeliness of data certifications                             |
|         |  | Use of correct file formats                                   |
|         |  | Provider ID field complete                                    |
|         |  | Overall data accuracy (as determined through data validation) |
| C1III.3 | <b>Encounter data performance criteria contract language</b><br><br>Provide reference(s) to the contract section(s) that describe the criteria by which managed care plan performance on encounter data submission and correction will be measured. Use contract section references, not page numbers.   | "13.8 14.3.3 15.2.1.2 15.2.1.21"                              |

## Topic V. Availability, Accessibility and Network Adequacy

### Network Adequacy

| Number       | Indicator   | Response   |
|--------------|---|--|
| <b>C1V.1</b> | <b>Gaps/challenges in network adequacy</b><br><br>What are the state's biggest challenges? Describe any challenges MCPs have maintaining adequate networks and meeting standards. | The Medicaid portion for Platino population covers limited services only (wraparound services). The MAOs do not have Network Adequacy reporting requirements written in the contract; therefore, no data were reported. The MAOs follow the Medicare requirements for network standards. |
| <b>C1V.2</b> | <b>State response to gaps in network adequacy</b><br><br>How does the state work with MCPs to address gaps in network adequacy?   | The Medicaid portion for Platino population covers limited services only (wraparound services). MAOs do not have Network Adequacy reporting requirements written in the contract; therefore, no data were reported. The MAOs follow the Medicare requirements for network standards.     |

---

## Access Measures

Describe the measures the state uses to monitor availability, accessibility, and network adequacy. Report at the program level.

Revisions to the Medicaid managed care regulations in 2016 and 2020 built on existing requirements that managed care plans maintain provider networks sufficient to ensure adequate access to covered services by: (1) requiring states to develop quantitative network adequacy standards for at least eight specified provider types if covered under the contract, and to make these standards available online; (2) strengthening network adequacy monitoring requirements; and (3) addressing the needs of people with long-term care service needs (42 CFR 438.66; 42 CFR 438.68).

42 CFR 438.66(e) specifies that the MCPAR must provide information on and an assessment of the availability and accessibility of covered services within the MCO, PHIP, or PAHP contracts, including network adequacy standards for each managed care program.

For managed care plans that cover LTSS, enter the number of critical incidents filed within the reporting period by (or on behalf of) LTSS users who previously filed grievances in the reporting year. The grievance and critical incident do not have to have been "related" to the same issue - they only need to have been filed by (or on behalf of) the same enrollee. Neither the critical incident nor the grievance need to have been filed in relation to delivery of LTSS - they may have been filed for any reason, related to any service received (or desired) by an LTSS user.

If the managed care plan does not cover LTSS, the state should enter "N/A" in this field.

Additionally, if the state already submitted this data for the reporting year via the CMS readiness review appeal and grievance report (because the managed care program or plan were new or serving new populations during the reporting year), and the readiness review tool was submitted for at least 6 months of the reporting year, the state can enter "N/A" in this field.

To calculate this number, states or managed care plans should first identify the LTSS users for whom critical incidents were filed during the reporting year, then determine whether those enrollees had filed a grievance during the reporting year, and

whether the filing of the grievance preceded the filing of the critical incident.
