

ATTACHMENT 29 – MATERNITY KICK PAYMENT

This attachment provides the methodology that ASES will use in determining maternity deliveries for reimbursement by ASES. This payment is in addition to the monthly capitation payment process.

Reporting Template

On a monthly basis, Contractor must submit the claims and encounter files included at Attachment 9 unless a different frequency is specified by ASES. These files will be the primary source for the maternity kick payment.

ASES will use the encounter/ claims data submitted by the Contractor, which shall be auditable by ASES, to determine number of deliveries. Only one payment is made per delivery per pregnancy per member. If a member has multiple births delivered for the same pregnancy, only one (1) maternity kick payment will be issued. The Contractor shall receive \$4,641.59 for each delivery that is reported to and validated by ASES. If during a validation process, the data or audit does not provide evidence of the reported delivery(ies), ASES may retroactively recoup the maternity kick payment. Each delivery claim must be evidenced with the following parameters.
