MATERNITY KICK PAYMENT METHODOLOGY

ATTACHMENT 29 – MATERNITY DELIVERY KICK PAYMENT

This attachment provides the methodology that ASES will use in determining maternity deliveries for reimbursement by ASES. This payment is in addition to the monthly capitation payment process.

Reporting Template

On a monthly basis, Contractor must submit the claims and encounter files included at Attachment 9 on the reporting format provided by ASES on or before the 15th of each month (CLM), unless a different frequency is specified by ASES. These files will be the primary source for the maternity kick payment.

ASES will use the encounter/claims data submitted by the Contractor, which shall be auditable by ASES, to determine the number of deliveries eligible for payment. Only one payment is made per delivery. The Contractor shall receive amount fee indicated in the Attachment H for each delivery that is reported to and validated by ASES. If during a validation process, the data or audit does not provide evidence of the reported delivery(ies), ASES may retroactively recoup the maternity kick payment. Each delivery claim must be submitted as an institutional or professional claims with a CPT procedure code listed in the table below.
