Carta Normativa 23-1005

5 de octubre de 2023

Contrato Número

A: Organizaciones de Cuidado Coordinado de Salud (MCOS, por sus siglas en inglés) contratadas bajo el Plan de Salud del Gobierno – Plan Vital, Administrador del Beneficio de Farmacia, Farmacias, Grupos Médicos Primarios (GMP), y Proveedores participantes

Re: Actualización Códigos y costo de Administración de vacunas contra el COVID-19 bajo Plan Vital

Basándonos en la información más reciente presentada por el Centro para el Control y la Prevención de Enfermedades (CDC, por sus siglas en inglés) y la Administración de Alimentos y Medicamentos (FDA, por sus siglas en inglés) compartimos la información más actualizada al momento de publicada esta carta. Esta comunicación y los Anejos 1 y 2 actualizan la información vigente de las vacunas recomendadas y los códigos de facturación para administración por vacuna para la Población Adulta y Pediátrica. Las normativas anteriores: 20-1214, 20-1214 B, 20-1214 C, 20-1214 D, 20-1214 E, 20-1214 F, 20-1214 G, 22-0202, 22-0202 B, 22-0202 C, 22-0202 D, 22-0202 E, 22-0202 F (Enmendada), 22-0202 (Enmendada) (Aclaración), (Carta Circular) 23-0710, quedan sin efecto y permanece vigente esta normativa.

- El Comité Asesor sobre Prácticas de Inmunización (ACIP) del CDC recomendó, el 12 de septiembre de 2023, que todos los estadounidenses de seis (6) meses de edad o más reciban las vacunas actualizadas de COVID-19 (fórmula 2023-2024).
- Hay dos (2) tipos de vacunas contra el COVID-19 disponibles para su uso en los Estados Unidos:
 - Vacunas de ARNm:
 - La vacuna **Moderna COVID-19** (fórmula 2023-2024) está autorizada para niños de seis (6) meses a 11 años.
 - **SPIKEVAX** de Moderna para personas de 12 años en adelante.
 - La vacuna **Pfizer-BioNTech COVID-19** (fórmula 2023-2024) está autorizada para niños de seis (6) meses a 11 años.
 - **COMIRNATY** de Pfizer-BioNTech para personas de 12 años en adelante.
 - Vacuna de subunidades proteicas:
 - La vacuna **Novavax** contra el COVID-19 está autorizada para personas de 12 años o más para la vacunación primaria y, en determinadas situaciones, como dosis de refuerzo en personas de 18 años o más.
- El 11 de septiembre de 2023, las vacunas Moderna y Pfizer-BioNTech COVID-19 (formulación 2023-2024) se actualizaron a una vacuna monovalente basada en el subvariante Omicron XBB.1.5 del SARS-CoV-2. Estas vacunas fueron aprobadas para personas de 12 años o más y bajo una autorización de uso de emergencia (EUA) para niños de seis (6) meses a 11 años.
- Las vacunas con la formulación bivalente (Original y Omicron BA.4/BA.5) ya no se recomiendan en los Estados Unidos. La FDA revocó la autorización de uso de emergencia (EUA) de la vacuna de COVID-

19 de Janssen, por lo tanto, fue eliminada de los Anejos. Es por esto por lo que la Carta Normativa 22-0202-F (Enmendada) queda sin efecto. Contrato Número

- Para más información relacionado al tiempo de espera entre dosis o régimen de vacunación para personas con inmunodeficiencia, favor referirse al siguiente enlace: <https://www.cdc.gov/vaccines/covid-19/clinical-considerations/interim-considerations-us.html#%3Acovid-vaccines>
- A continuación, se resume consideraciones clínicas para administración de las vacunas:

	No vacunados	Recibió dosis previas
Seis (6) meses a cuatro (4) años	Debe recibir dos (2) dosis de la vacuna Moderna actualizada (fórmula 2023-2024) ó tres (3) dosis de la vacuna Pfizer-BioNTech COVID-19 actualizada (fórmula 2023-2024).	Debe recibir una (1) ó (2) dosis de la vacuna COVID-19 actualizada (fórmula 2023-2024) de Moderna o Pfizer-BioNTech COVID-19, según la cantidad de dosis anteriores.
Cinco (5) años a 11 años	Debe recibir una (1) dosis de la vacuna COVID-19 actualizada (fórmula 2023-2024) de Moderna o Pfizer-BioNTech.	Debe recibir una (1) dosis de la vacuna COVID-19 actualizada (fórmula 2023-2024) de Moderna o Pfizer-BioNTech al menos ocho (8) semanas después de la última dosis.
12 años en adelante	Debe recibir una (1) dosis de la vacuna COVID-19 actualizada (fórmula 2023-2024) de Moderna o Pfizer-BioNTech.	Debe recibir una (1) dosis de la vacuna COVID-19 actualizada (fórmula 2023-2024) de Moderna o Pfizer-BioNTech al menos ocho (8) semanas después de la última dosis. * Aplica recomendación a personas que recibieron una (1) o más dosis de las vacunas Novavax o Janssen.

Por tal razón, efectivo inmediato, se incluyen en el formulario de medicamentos de Plan Vital, Salud Física, las vacunas monovalentes COVID-19 actualizadas (fórmula 2023-2024) de Pfizer-BioNTech y de Moderna.

Farmacias: La población federal menor de 19 años deberá cubrirse por el programa *Vaccine for Children* en farmacias certificadas por el programa y facturar solamente la tarifa de administración. Acorde a la enmienda 11 del *Public Readiness and Emergency Preparedness Declaration (PREP ACT)*, la población estatal mayor de 3 años podrá vacunarse en las farmacias certificadas. Las farmacias deberán comprar la vacuna, la cual será reembolsada al rate contratado por ASES a través del PBM. Se mantiene la tarifa de administración de \$40.00 hasta el 30 de septiembre 2024 para población Vital, *Vaccine for Children (VFC)* y *Vaccine for Adults (VFA)*.

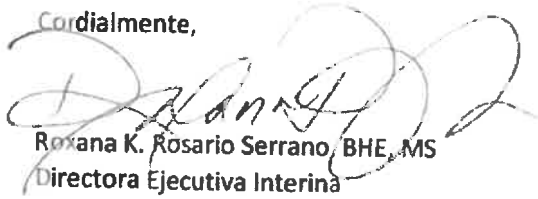

GOBIERNO DE PUERTO RICO
DEPARTAMENTO DE SEGUROS DE SALUD

Los **proveedores médicos y centros de vacunación** contratados por las aseguradoras de Plan Vital deberán facturar el costo de la vacuna, la cual pagará a las tarifas contratadas y la tarifa de administración de \$40.00, a la aseguradora correspondientes. Para población VFC y VFA solo facturará la tarifa de administración de \$40.00.

En adición, toda vacuna bivalente debe ser retirada del inventario y serán removidas del formulario del Plan Vital.

La ASES requiere a todas las aseguradoras contratadas bajo Plan Vital que distribuyan esta información a sus redes de proveedores. Agradecemos su continua colaboración en la prevención de esta enfermedad.

Cordialmente,

Roxana K. Rosario Serrano, BHE, MS
Directora Ejecutiva Interina

1. Acronyms and Terms

The following table provides definitions for acronyms and terms used in this document.

Table 1: Acronyms y Terms

Acronym and Terms	Definition
Pharmacy Benefit Managers (PBM)	Intermediaries that negotiate services and drug costs between pharmaceutical companies and third-party payers, such as the government, insurance companies, businesses, and direct-paying customers.
Advisory Committee on Immunization Practices (ACIP)	Advisory Committee on Immunization Practices. A committee within the U.S. Centers for Disease Control and Prevention that provides advice and guidance on the effective control of vaccine-preventable diseases in the U.S. civilian population.
ASES Centers for Medicare & Medicaid Services (CMS)	Puerto Rico Health Insurance Administration. The Centers for Medicare & Medicaid Services is the agency within the U.S. Department of Health and Human Services (HHS) that administers the nation's major health care programs. CMS oversees programs including Medicare, Medicaid, the Children's Health Insurance Program (CHIP), and the state and federal health insurance marketplaces. CMS collects and analyzes data, produces investigative reports, and works to eliminate fraud and abuse within the health care system.
Puerto Rico Department of Health (PRDH)	Entity responsible for regulating and overseeing the provision of health services in Puerto Rico and ensuring that standards are met to guarantee the general welfare of the people.
Emergency Utilization Act (EUA)	Emergency Use Authorization. It allows FDA to help strengthen the nation's public health protections against chemical, biological, radiological, and nuclear threats by facilitating the availability and use of medically necessary countermeasures during public health emergencies.
Enterprise System (ES)	It is a system for collecting and managing data from various sources, and providing statistical, financial and demographic reports. These are shared between management, offices inside and outside the agency.
Food and Drug Administration (FDA)	An entity responsible for protecting public health by regulating human and veterinary drugs, vaccines and other biological

Acronym and Terms	Definition
Managed Care Organization (MCO)	products, medical devices, our nation's food supply, cosmetics, dietary supplements, and products that emit radiation. An entity that is organized for the purpose of providing health care and is licensed as an insurer by the Insurance Commissioner of Puerto Rico, which contracts with ASES for the provision of Covered Services and Benefits throughout the Island on a PMPM Payment basis, under the GHP program.
VITAL Health Plan/ Government Health Plan (GHP)	It is the Puerto Rico government health plan, which is provided through federal Medicaid funds and state funds.
Standard Operating Procedure (SOP)	A set of instructions that describes all the relevant steps and activities of a process or procedure.
Monthly Income Plan (MIP) System	Module Account Payable Module. MIP stands for Monthly Income Plan. MIP is today's leading accounting software for government and non-profit organizations nationwide. In this module, invoices are recorded for Accounts Payable <u>payment</u> .

Handwritten initials: POP

2. Background

On December 11, 2020, the Food and Drug Administration (FDA) issued an emergency use authorization under the Emergency Utilization Act (EUA) for the use of Pfizer-BioNTech COVID-19 vaccine for the prevention of COVID-19 in persons 16 years of age or older, as described in the scope of the authorization. (Section II) of the response letter, pursuant to Section 564 of the Federal Food, Drug, and Cosmetic Act (the FD&C Act)(21 USC 360bbb-3).

Similarly, on December 18, 2020, the FDA issued a EUA for Modern COVID-19 vaccine for active immunization use to prevent COVID-19 caused by severe acute respiratory syndrome coronavirus 2 (SARS-CoV-2) in persons 18 years

Handwritten initials: JH

of age and older. On December 19, 2020, after a transparent, evidence-based review of available data, the Advisory Committee on Immunization Practices (ACIP) issued a recommendation for the use of Modern COVID-19 vaccine in persons 18 years of age and older for the prevention of COVID-19.

On February 27, 2021, the FDA issued an EUA for a third vaccine for the prevention of coronavirus disease 2019 (COVID-19) caused by severe acute respiratory syndrome coronavirus 2 (SARS-CoV-2). The EUA allows the Janssen COVID-19 vaccine to be distributed in the U.S. for use in people 18 years of age and older.

Therefore, the Department of Health and Human Services (HHS) and the Department of Defense (DOD) have established strategies and protocols for the distribution and administration of these vaccines. The vaccines will be provided at no cost to the public and service providers for the period of time established by the CDC, especially during these early phases established for the vaccination of the population. However, providers will be entitled to bill for vaccine delivery services, which includes not only inoculation, but specific information on vaccine storage, patient counseling, and tracking to allow for any subsequent doses.

The cost for the administration of these vaccines will be a uniform cost for all **duly certified and registered providers** who meet the requirements established by the CDC and the Puerto Rico Department of Health (DOH) for COVID 19 vaccines.

All pharmacy specifically interested in vaccinating Plan Vital beneficiaries with the Pfizer, Moderna, Janssen or other vaccines that become available at

a later date must contact the ASES contracted Plan Vital Pharmacy Benefit Manager (PBM) to submit the necessary paperwork to become a provider of the COVID-19 vaccine and bill Plan Vital for the inoculation. Likewise, **all reimbursement to pharmacies** related to the administration of Covid-19 Vaccines will be handled by the ASES contracted PBM.

3. Purpose

The purpose of this procedure is to establish guidelines for the issuance of the necessary certifications for the execution of payment for reimbursement of claims for the administration of Covid-19 vaccines to Vital Plan beneficiaries by any provider duly certified for this purpose, carrying out the rigorous fiscal controls required by current State and Federal regulations. In addition to maintaining proper and auditable documentation of such reimbursements.

4. Scope

This Procedure applies to the establishment of the necessary controls and proper disbursement and notification of payment of Covid-19 vaccine administration claims submitted by providers certified for this purpose, in compliance with all applicable State and Federal laws.

5. Responsible Parties

1. ASES Office of Planning, Quality and Clinical Affairs.
2. ASES Compliance Office.
3. ASES Information System Office.
4. ASES Office of Fiscal Affairs.
5. Health Care Organizations (MCOs) contracted for Plan Vital.

ADMINISTRACION DE
SEGUROS DE SALUD

Contrato Número

6. Plan Vital Pharmacy Benefit Manager contracted by ASES (PBM).

6. Reimbursement Process of Covid-19 Vaccine Administration to MCO

Providers properly certified to administer COVID-19 vaccines and/or licensed vaccination sites must bill the MCO, based on the Covid-19 vaccine administered (Pfizer/Moderna/Jassen), to Plan Vital beneficiaries. Billing for the administration must be separate from other services provided (unbundled) to the MCO. This administration is considered outside the scope of Per diem and/or any other contracting arrangement between the MCO and the provider. The MCO will receive the invoices of these services and will make the payment according to the rates determined by the ASES.

Billing for these services should therefore be done on a separate line using the following coding:

Coding Fee prior to April 1, 2021 to March 31, 2021

The MCO will process the invoice and issue the corresponding payment in accordance with the volume of services and established fee and payment schedule. No co-payments or deductibles will apply.

Subsequent to payment issued by the MCO to providers or immunization centers, the MCO must report these payment transactions to ASES using the contractual requirement named *.CLM- layout in last verion.

The claims to be evaluated by ASES will be those received in the *.CLM files that are received from the MCOs on or before the 15th of each month. ASES

Handwritten signature

will process the payment in the subsequent month after receiving the transactions issued in *.CLM file.

After the 15th of each month the Office of Information Systems will proceed with the process of identifying and validating claims related to the administration of the COVID-19 vaccine through the COVID-19 Module in ES.

ASES will execute a validation process, which will identify claims transactions that meet the valid codes and/or billing for reimbursement by the ASES to the MCOs related to the administration of Covid-19 vaccines.

The staff of the Fiscal Affairs Office will have a module defined in the Enterprise System (ES) application, where they will be able to manage every month the reimbursement corresponding to the MCOs, based on the payments reported by the reference administrations according to the claims received by the ASES in the *.CLM files, after validation by the Information Systems.

The procedure to be followed to achieve the objective describe above will be as follows:

ASES will perform validation for each of the transactions received for the administration of Covid-19 vaccines.

1) Using the ES database, claims with the following validation criteria will be selected:

- A. Carrier contracted for PSG or Plan Vital. (Medicare Advantage Organizations [MAOs contracted for Medicare Platinum coverage] are not included.)
- B. Services Provided to eligible Plan Vital beneficiaries as of the date of service.
- C. Unduplicated invoices (MIP - Date of Service -from -to).
- D. Identified as paid by the MCO.
- E. Identified as administration of Covid-19 Vaccine.
- F. Date of service (from date) from December 10, 2020 onwards.
- G. Validation of transactions for which ASES has issued a refund.

ADMINISTRACION DE
 SEGUROS DE SALUD

23 - 00047H

- H. Beneficiary eligibility will be verified.
 - I. First, second and third doses will be identified on the appropriate vaccines administered. This is subject to change as doses are approved.
 - J. For MCOs, all pharmacy transactions will be excluded; these will be through the PBM contracted by ASES.
 - K. **Actually, the current Normative Letter is 23-1005.**
- 2) A report will be generated in the Office of Information Systems/ASES in the ES COVID-19 Module with the summary in order of MCO and coverage (Medicaid, CHIP, State) with cost totals for claims that met the established criteria.
 - 3) A file will be generated with the details described above, which will be integrated into the MIP system.
 - 4) Based on the data generated by the ES COVID-19 Module, the Office of Fiscal Affairs will proceed with the corresponding payments to each MCO.
 - 5) A file will be generated for each MCO with the claims received that met all validation criteria, detailing the payment for reimbursement.

General Diagram of the Reimbursement Process

ADMINISTRACION DE
SEGUROS DE SALUD

23 - 000474

STEP 1: Payments For Covid-19 Vaccine

- Certified Providers submits claims to the MCO using the corresponding coding for COVID-19 Vaccine.
- The MCO conducts the adjudication process and payment of these claims.

STEP 2: Monthly Refund

- The MCO sends, on or before the 15th of each month, the *.CLM File.
- ASES identifies transactions that qualify for reimbursement. (Covid-19 Vaccine)
- ASES makes the payment of the refund and sends a payment explanation file.

Right to Object Unreimbursed Submitted Claims

If any MCO identifies that they submitted a claim or claims related to the administration of Covid-19 vaccines and were not reimbursed, they will have the right to challenge the amount of reimbursement made by ASES through the following process:

- 1) The MCO shall submit to ASES, in the format defined by ASES, all documentation supporting its objection no later than ninety (90) calendar days after the payment is made. In the event that ASES notifies changes in the files or file layouts necessary for the reconciliation of payments, the deadline to submit an objection to the payment shall begin to run sixty (60) days after ASES has issued the notice of changes in the files or file layouts. Upon expiration of this time period, the MCO forfeits its right to claim any additional amounts with respect to the period in dispute.
- 2) Within thirty (30) calendar days after the MCO submits all relevant information, the MCO and ASES will meet to discuss the matter. If after discussing the matter and analyzing all relevant data it is subsequently determined that a payment error was made, the MCO and ASES shall develop a plan to remedy the situation, which shall include a mutually agreed upon resolution timeline within a mutually agreed upon time period.
- 3) The remediation plan for any payment error or ASES response to the MCO's payment objection shall be set forth in writing within ninety (90) calendar days from the date the MCO filed the objection. Full

resolution and payment of cases objected to and accepted by ASES shall not exceed one hundred eighty (180) days from the date the MCO filed the objection.

7. Flowchart

Certified Providers bill MCOs using the corresponding codes.

Before the 15th of each month, the MCOs will submit to ASES the corresponding claims in the *.CLM file.

ASES Information and Systems Office will validate whether the submitted claims are eligible for reimbursement.

A report is generated for the Office of Fiscal Affairs with the totals of the transactions, specified according to the coverage of the beneficiary (Medicaid, CHIP, State) per month of service.

A report is generated for each MCO with the transactions accepted by ASES that detail the reimbursements to be made.

Upon receipt of a certification by ASES Information and Systems Office to the Office of Fiscal Affairs, that the reimbursements and transactions have been validated, ASES will proceed with the corresponding payments.

9. Covid -19 Vaccination Administration Payment Process for All Pharmacies through the PBM contracted by ASES

PPS

This section describes the payment process by ASES , with the ASES contracted Vital Plan Pharmacy Benefit Manager (PBM), to all pharmacies participating in the COVID-19 Vaccination Program, for the services of administering such vaccines to Plan Vital members.

This process will be specifically for all pharmacies that provide Covid-19 vaccine administration services to Vital Plan beneficiaries, and involves the steps described below:

- 1) The vaccines covered under this process are described in the table below:

GPI	GP Name	Drug Name
170100002401820	COVID-19 VACC, MRNA(PFIZER)/PF	PFIZER-BIOTECH COVID-19 VACCI

GPI	GP Name	Drug Name
170100002401840	COVID-19VACC, MRNA(MODERNA/PF	MODERNA COVID-19 VACCINE VIAL
170100002101840	COVID-19 VAC,AD26(JASSEN)/PF	JASSEN COVID-19 VACCINE VIAL

2) On each bi-weekly payment cycle, the PBM contracted by ASES will generate a report with the National Drug Code Directory (NDC's) detail of the vaccines that reflected charges for their administration in the payment cycle. This report will be by insurer (MCO) and will include the paid amount for the administration of the vaccines, which will be the responsibility of ASES. The PBM will pay pharmacies the administration amount after receiving the defined funds for this process from ASES.

PPF

3) On each bi-weekly payment cycle, the ASES contracted PBM will deduct from each MCOs utilization bill the amount related to the administration of the vaccines included in this program. Each insurer's bi-weekly invoice will include a report detailing the vaccine administration charges and will be deducted from the Claim Status Report'.

4) The PBM, contracted by ASES, will bill ASES on each bi-weekly payment cycle for payment for the administration of the COVID-19 vaccines. For these purposes the PBM will submit to ASES a utilization report, as presented above, as part of the documentation for payment, which will include a breakdown of all vaccine utilization by each insurer. The PBM will send the report to ASES the following Friday of the week after the payment cycle closes. This way, funds can be received on Tuesday of the following week (2 business days) after ASES has received the report. The PBM will submit the invoice with the summary by MCO to ASES.

1. Acronyms and Terms

The following table provides definitions for acronyms and terms used in this document.

Table 1: Acronyms and Terms

Acronyms	Definition
Actuary	An actuarial science professional who deals with the financial implications of risk and uncertainty. Actuaries provide expert evaluations of actuarial systems, financial collateral, with special attention to its complexity, mathematics and mechanisms.
ASES	Puerto Rico Health Insurance Administration.
Centers for Medicare & Medicaid Services (CMS)	The Centers for Medicare & Medicaid Services is the agency within the U.S. Department of Health and Human Services (HHS) that administers the nation's major health care programs. CMS oversees programs including Medicare, Medicaid, the Children's Health Insurance Program (CHIP), and the state and federal health insurance marketplaces. CMS collects and analyzes data, produces investigative reports, and works to eliminate fraud and abuse within the health care system.
Enterprise System (ES)	A system for collecting and managing data from diverse sources to provide meaningful business information. A data warehouse is generally used to connect and analyze business data from heterogeneous sources.
Managed Care Organization (MCO)	An entity that is organized for the purpose of providing health care and is licensed as an Insurer by the Insurance Commissioner of Puerto Rico, which contracts with ASES for the provision of Covered Services and Benefits throughout the Island on a PMPM Payment basis, under the GHP program.
VITAL Health Plan/ Government Health Plan (GHP)	It is the health plan that the government of Puerto Rico provides through federal Medicaid funds and state funds.
MIP System	Account Payable Module. This module registers the Invoices for payment of Account Payable. The information to be entered in A/P Invoices Form is the following: invoice, date, amount, description, Vendor ID, enter the transaction in debit and credit among others.
Standard Operating Procedure (SOP)	A set of instructions that describes all the relevant steps and activities of a process or procedure.

2. Legal Basis

The Centers for Medicare & Medicaid Services (CMS) has made more flexible and promoted access to services and treatments available for COVID-19. These policy changes are based on regulatory flexibilities granted under the emergency declaration. CMS is extending this benefit on a temporary and emergency basis under the 1135 waiver authority and the Coronavirus Adequacy of Response Act.

Therefore, the Health Insurance Administration (ASES) is issuing the following procedure pursuant to CMS approval (TN-20-0010) effective October 1, 2020. CMS approved the State Plan Amendment (SPA) process to include in the beneficiary coverage under the Government Health Plan (GHP) "Vital Plan" the treatment for COVID-19 Remdesivir and Plasma Convalescent.

3. Purpose

In response to the COVID-19 pandemic, the Centers for Medicare and Medicaid Services (CMS) has approved the introduction or infusion of therapies, including **Remdesivir and Convalescent Plasma**.

The CMS-approved SPA, submitted by the Medicaid PR Program Office, states that costs associated with the treatment of Remdesivir and/or Convalescent Plasma are excluded from the Monthly Premium Payment for Health Care Organizations (MCO). The payment methodology is reimbursement based. This determination was supported, as the constant changes in the Clinical Guidelines and Novel Treatment are elements that impact the cost projection.

Based on the above, ASES has established the operational procedure to allow reimbursement to MCOs for referral treatments. In addition to maintaining the necessary documentation of such reimbursements in a correct and auditable manner.

The purpose of this procedure is to establish and provide guidelines to the ASES Information Systems Department personnel who perform the automated data entry and certifications necessary for the execution of payment for reimbursement of claims on Remdisivir and/or Convalescent Plasma treatments to the MCOs, carrying out the rigorous fiscal controls required by current State and Federal regulations.

4. Scope

This Procedure applies so that the necessary controls are established and the proper disbursements and notifications of payment of claims submitted by MCOs are made in compliance with all applicable State and Federal laws.

5. Effectiveness

Treatments and/or services provided to Vital Plan beneficiaries on or after October 1, 2020.

6. Responsible Parties

The following parties are responsible for the execution of this Procedure.

- ASES Planning Department
- ASES Compliance Office
- ASES Information System Office
- ASES Office of Fiscal Affairs
- Health Care Organizations (MCOs contracted with Plan Vital)

ADMINISTRACION DE
SEGUROS DE SALUD ,

23 - 00047H

Contrato Número

7. Reimbursement of Paid Services for Remdesivir and/or Convalescent Plasma Treatments

Hospitals should bill MCOs for the treatment used (Remdesivir/Plasma) as well as the administration of such treatment to Vital Plan beneficiaries on the CMS-1450 form (UB-04). Billing for the treatment and its administration must be done separately from other services provided (unbundled) to MCOs. These services/treatments are considered outside the scope of Per diem and/or some other contracting modality between the MCO and the hospital. MCOs will be billed for these services/treatments and will make payment at rates determined by ASES.

Therefore, the identification of these services, in the file of claims issued by the Insurers to the ASES (*.CLM), will be carried out using the coding according to the Normative Letter 20-1110-A:

Treatment Management

Remdesivir:

CLM FILE LAYOUT				REIMBURSEMENT CODIFICATION

The MCO will process the invoice and issue the corresponding payment according to the volume of services and established fee and payment schedule. No co-payments or deductibles will apply.

Subsequent to the payment issued by the MCO to the hospitals, the MCO must report these payment transactions to ASES via the contractual requirement called *.CLM.

Handwritten signature

The claims to be evaluated by ASES will be those received in the *.CLM files sent by the insurers on or before the 15th of each month. ASES will process the payment in the subsequent month after receiving the transactions issued in *.CLM.

ASES will perform a series of validations to identify claims that are eligible for reimbursement from the ASES to MCOs related to claims for Remdesivir and/or Convalescent Plasma treatments.

The staff of ASES's Office of Fiscal Affairs will have a module in the ES application where they will be able to manage each month the reimbursement corresponding to the MCOs based on the payments reported by the referral treatments according to the claims received by ASES in the *.CLM files.

After the 15th of each month the Office of Fiscal Affairs will proceed to begin the process of identifying and validating COVID-19 related claims through the COVID-19 Module in ES.

The procedure to be followed to achieve the objective described above will be as follows:

1) The ASES will perform the following validation for each of the transactions received for treatments and/or services of Remdesivir and/or Convalescent Plasma.

Using the ES database, claims with the following validation criteria will be selected:

- A. Carriers contracted for PSG or Plan Vital. (Medicare Advantage Organizations (MAOs contracted for Medicare Platinum coverage are included).
- B. Services Provided to Vital Plan beneficiaries as of the date of service.
- C. Unduplicated invoices (MIP - Date of Service -from -to).
- D. Identified as paid by the MCO
- E. Identified as Hospital/Inpatient
- F. Service date (from date) from October 1, 2020 onwards
- G. Validation of transactions for which ASES has issued a refund.
- H. Treatment codes:

- i. Remdesivir
- ii. Convalescent Plasma

- 2) The MCO will include in the required monthly certification *.CLM the amount of payments issued for the referenced treatments. This Certification will be received by the ASES Information Systems Department and will be shared with the ASES Office of Fiscal Affairs. The report generated by the ASES Information Systems Office must match the amounts submitted by each MCO on the certification.
- 3) The Office of Information Systems will generate a report and file for Finance with the summary by MCO and by coverage (Medicaid, CHIP, State) of the cost and claims totals that met the established criteria.
- 4) The ASES will perform a series of validations on the identified claims: duplicity / dates of services / beneficiaries of the Vital Plan.
- 5) Upon receipt of a Certification from Information Systems to the Office of Fiscal Affairs that the reimbursements and transactions have been validated, Finance/ASES will proceed with the corresponding payments to each MCO.
- 6) A report will be generated for each MCO with the claims that met all validation criteria, detailing the payment for reimbursement.
- 7) ASES will generate a report for the MCOs with claims that did not meet the explanatory validation criteria.

General Diagram of the Reimbursement Process

STEP 1: Payments For Covid-19 Treatment

-The hospital submits claims to the MCO using the corresponding coding for COVID-19 treatment.

-The MCO conducts the adjudication process and payment of these claims.

STEP 2: Monthly Refund

Handwritten signature

ADMINISTRACION DE SEGUROS DE SALUD

23 - 00047 *Handwritten 'D'*

Contrato Número

-The MCO sends, on or before the 15th of each month, the *.CLM File.

-ASES identifies transactions that qualify for reimbursement (Remdesivir and/or Convalescent Plasma)

-ASES makes the payment of the refund and sends a payment explanation file.

Claims or transactions submitted by MCOs that do not meet established criteria

- 1) A report will be generated for the MCOs of claims or transactions that ASES judged did not meet the defined criteria and therefore were not considered in the reimbursement calculation. For each transaction there will be a note explaining the criteria that was not met and therefore excluded from the reimbursement calculation process.

Handwritten signature

- 2) If the transactions that were not considered in the refund calculation are corrected, MCO should re-submit them in the next *.CLM with adjustment status.

- 3) Upon receipt of the corrected transactions submitted by the MCO and the report generated for reimbursement by the Office of Information Systems, the Office of Fiscal Affairs/ASES will proceed with the corresponding payments to each MCO.

8. Flowchart

Hospitals bill MCOs via form CMS-1450(U8-04), using the corresponding codes.

Before the 15th of each month, the MCOs will submit to ASES the corresponding claims in the *.CLM file.

ASES Information and Systems Office will validate whether the submitted claims are eligible for reimbursement.

A report is generated for the Office of Fiscal Affairs with the totals of the transactions, specified according to the coverage of the beneficiary (Medicaid, CHIP, State) per month of service.

Yes

Eligible Claims?

No

A claims report is generated for the MCO detailing the claims that ASES found did not meet the defined criteria.

A report is generated for each MCO with the transactions accepted by ASES that detail the reimbursements to be made.

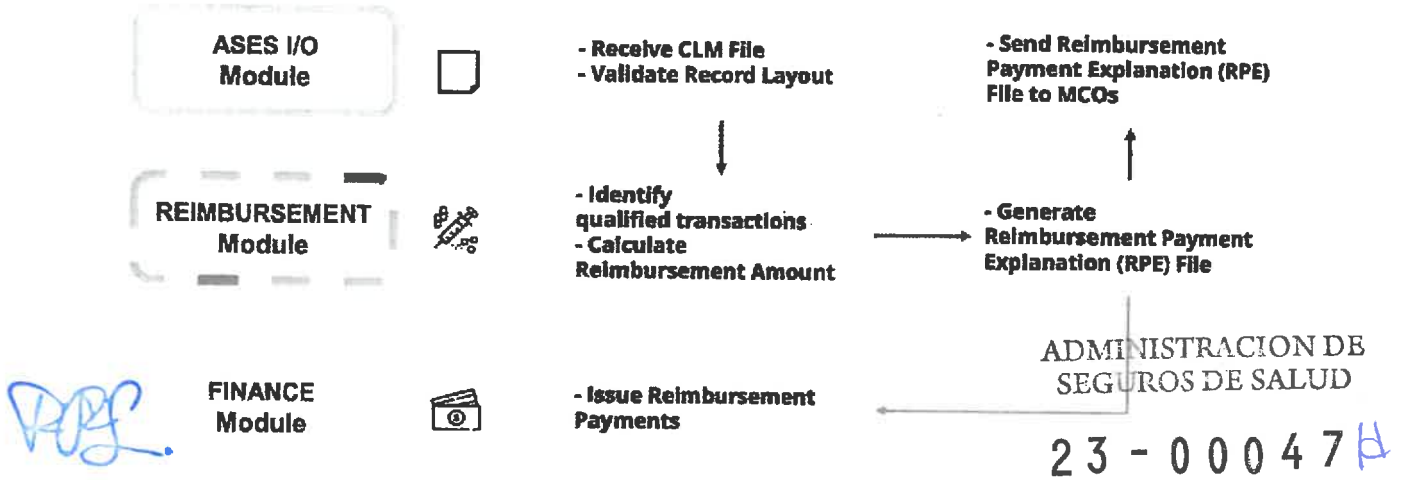

Upon receipt of a certification by ASES Information and Systems Office to the Office of Fiscal Affairs, that the reimbursements and transactions have been validated, ASES will proceed with the corresponding payments.

9. Internal Subsystems in ASES

10. Applicable Standard Coding

The International Classification of Diseases, Tenth Revision Procedural Coding System (ICD-10-PCS), effective August 1, 2020.

11. Special One-Time Report: Period October 2020- August 2021

In order to perform in the most effective and agile manner the verification and reimbursement of payments for COVID-19 treatments (Remdesivir and Convalescent Plasma) to MCOs for the period from October 1, 2020 to August 31, 2021, ASES has created a special coding system to validate claims for these services and proceed with reimbursement.

This coding will be a Special One-Time Report that will be made only once for the reimbursement of the period indicated above. Subsequent reimbursements will be made monthly according to the claims received and validated by ASES in the files named *.CLM sent by the Insurers on or before the 15th of each month, as described

in the previous sections of this procedure and the Normative Letter 20-1110-A, issued by ASES on May 18, 2021.

Therefore, for the identification and reimbursement of these services for the period specified above, it will be made in a Special One-Time Report by the MCO to ASES using the following coding:

Reporting Period
 Please include information for services for the following period

Service Period
 From October 01, 2020
 To August 31, 2021

Payment Period
 From October 01, 2020
 To August 31, 2021

File Naming Convention
 Please use the following naming convention

CC_COVID19_TREATMENT_REIMBURSEMENT_202010_202108.REIMB

CC Carrier Code: 09, 10, 12, 13

File Contents and Format
 Please provide all services paid by the MCO for the administration of remdesivir and convalescent plasma
 This is a fixed length format file with contents specified in the Tab "File Layout"

Field	Description	Deliverable Data Format	Validation Rules
Carrier Id	Value that identifies carrier which is reporting claims. Must be a valid code.	99	Use value as it was reported in the CLM File for Field #1 Carrier Id, it must comply with all validation rules from CLM File.
Claim Id	See Carrier Code List in Attachment II	X(20)	Use value as it was reported in the CLM File for Field #5 Claim Id, it must comply with all validation rules from CLM File.
NPI	National Provider Identifier (NPI) of the provider billing for the service	X(10)	Use value as it was reported in the CLM File for Field #70 Billing Provider, it must comply with all validation rules from CLM File.
MPI	Master Patient Index (MPI) As supplied in ASES Eligibility Data	X(13)	Use value as it was reported in the CLM File for Field #20 MPI, it must comply with all validation rules from CLM File.
Procedure Code	Standard procedure code conforming to HCPCS/CPT	X(15)	Use value as it was reported in the CLM File for Field #36 Procedure Code, it must comply with all validation rules from CLM File.
Service Date	Date of the treatment	YYYYMMDD	Use value as it was reported in the CLM File for Field #14 From Date, it must comply with all validation rules from CLM File.
Service Units	Number of occurrences of service	9(10)	Use value as it was reported in the CLM File for Field #107 Units Of Service, it must comply with all validation rules from CLM File.
Paid Date	This will be the date of payment for paid claims or the process date for denied claims.	YYYYMMDD	Use value as it was reported in the CLM File for Field #16 Payment Date, it must comply with all validation rules from CLM File.
Amount Allowed	Total amount allowed for the service by the carrier.	99(7)99	Use value as it was reported in the CLM File for Field #76 Allowed Amount, it must comply with all validation rules from CLM File.
Amount Paid	Total amount paid by carrier for this service	99(7)99	Use value as it was reported in the CLM File for Field #51 Paid Amount, it must comply with all validation rules from CLM File.
ICD Diagnose Code	ICD Diagnose code (Used for historic Reconciliation)	X(8)	Use expected value for this transaction following instructions from ASES normative Letter 20-1110-A
ICD Procedure Code	ICD10PCS (Used for historic Reconciliation)	X(7)	Use expected value for this transaction following instructions from ASES normative Letter 20-1110-A
Revenue Code	NUBC Revenue Code (Used for historic Reconciliation)	X(4)	Use expected value for this transaction following instructions from ASES normative Letter 20-1110-A

Notes:
 All values must comply with CLAIMSERVICES INPUT FILE LAYOUT (CLM)

The MCO shall attach to this Special One-Time Report an attestation stating that the information provided is correct, current, complete and accurate.

(Attachment 1)

The report file and the attestation should be sent to the ASES FTP server, in the "Submit To ASES" folder.

Once the Report is received, with the corresponding attestation, the Information Systems Office will proceed with the validation of each of the transactions received for treatments and/or services of Remedial and/or Convalescent Plasma. A series of validations will be performed on the identified claims, as previously defined in this procedure.

Upon validation, the Office of Information Systems will generate a report and file for the Office of Fiscal Affairs summarizing, by MCO and by coverage (Medicaid, CHIP, State), the cost and claims totals that met the established criteria.

RFJ

Upon receipt of a Certification from Information Systems to Finance that the reimbursements and transactions have been validated, Finance/ASES will proceed with the corresponding payments to each MCO.
