Other Guidelines

me

- No Entity other than ASES should create folders or subfolders without the written authorization of ASES, as they will be deleted without prior notice and files placed in a folder not authorized by ASES will not be considered received.

- For Test environments the folder structure will be the same as the Production Environment, except that the root folder will be as follows:

- For QA Tests the root folder is:

- FTP_ASES_TEST

- For other required tests that are used in parallel, a specific structure can be created using a number after the word TEST, this environment will be created on demand.

Example of root folders:

- FTP_ASES_TEST01

- FTP_ASES_TEST02
