Puerto Rico

URS Table Number	General Notes
3	Total number of consumers served in State Psychiatric Hospital increased from last year because the total of served clients increased in State Hospitals (including forensic) during the reported year (2009-2010).
4	The large 1 year change employment data is due to the reduction of clients served among community settings.
5A	Total number of consumers with Non-Medicaid Funding data increased because the total of served clients with private health insurance increased during the reported year (2009-2010).
6	The agency reorganized some programs and other community services closed, resulting the change between 2009 and 2010 for other psychiatric inpatient setting at the beginning of the year for the community programs admissions and other psychiatric inpatient setting at the beginning of the year.
12, 14A	The total of SMI/SED data decreased is due to the reduction of clients served among State Mental Health System for 2009-2010.
15	The agency reorganized some programs and other community services closed resulting in the reduction of clients served living in jail/correctional facility and those homeless/shelter.
16	Total number of adults with SMI increased because the total of served clients increased in State Hospitals, clients served in hospitals has a SMI diagnosis; Family functional therapy services practice was not available during fiscal year 2009-2010; Children services were also affected by the agency reorganization, that's why the total number of children with SED decreased.
17	The only EBP implemented was Illness Self Management.
20A, 20B	Forensic Hospitals do not report 180 days readmissions for FY 2010.
