

San Juan, June 24, 2024

The Office of Management and Budget (OMB), in coordination with the Puerto Rico Broadband Program (PRBP), announces a modification to the timeline for the "Broadband Workforce Training Providers" NOFA as published on April 19, 2024.

Due to the need to accommodate additional review processes and to ensure a thorough evaluation of all submitted proposals, the date for announcing the NOFA grant awardees has been revised.

Revised Timeline:

- Original notice of award date: June 14, 2024
- First revision of award date due to additional time for submissions: June 24, 2024
- Revision to award date for additional review: July 26

This amendment allows additional time for our review panel to conduct a comprehensive assessment of all proposals in accordance with the criteria set forth in the NOFA documentation. We appreciate your understanding and commitment to enhancing Puerto Rico's broadband workforce, and we look forward to your continued participation.

For any questions regarding this change or further clarifications, please do not hesitate to contact us at FAQ@smartisland.pr.gov.

Thank you for your interest in contributing to the broadband infrastructure and workforce development in Puerto Rico.
