

Safety Management + Consulting LLC

CAPABILITY STATEMENT

ABOUT US:

SMC is a certified 8(a), HUBZone, and Small Business based in Puerto Rico, proudly serving the Federal Government across Puerto Rico and the Caribbean. We specialize in full-cycle construction and project management, with a strong emphasis on cost control, operational efficiency, and rigorous safety compliance.

Our team has successfully delivered projects for key federal agencies, including the Forces Surveillance Support Center, the U.S. Navy, Fort Buchanan, the CDC, the GSA, and the U.S. Army Corps of Engineers (USACE). SMC has direct, hands-on experience supporting Fort Buchanan, including five years of grounds maintenance operations under Contract W9124J-16-C-0059.

From planning to closeout, we ensure each project is completed on time, within budget, and in accordance with federal standards and safety protocols.

At SMC, our mission is to lead in delivering high-quality, dependable construction and safety management services that exceed expectations and contribute to the mission readiness of our federal partners.

UEI: HBEHRY8SMVM3

CAGE CODE: 8VEG1

NAICS CODES:

541618: Administrative Management Consulting Services

561730: Landscaping Services

238110: Poured Concrete Foundation and Structure Contractors

238220: Plumbing, Heating, and Air-Conditioning Contractors

238990: Specialty Fencing Contractors

CORE COMPETENCIES:

Construction Services

Skilled in concrete work and fencing installation for federal and commercial clients. Our team delivers durable, high-quality construction solutions that meet contract specifications and safety standards.

Project Management

Comprehensive management consulting services, including quality assurance, safety compliance audits, and risk assessments. We tailor our approach to align with client objectives and federal regulations.

Landscaping & Grounds Maintenance

Full-service landscaping and grounds maintenance for military installations, including mowing, trimming, edging, vegetation control, drainage maintenance, debris removal, and compliance with Army Garrison appearance standards.

Safety Compliance & Training

Experts in workplace safety and OSHA standards. We provide job hazard analyses, emergency action planning, workplace inspections, and OSHA 10/30-Hour Construction Safety Training.

DIFFERENTIATORS:

Active member of the Society of American Military Engineers (SAME)

Reinforcing our commitment to supporting military infrastructure and federal partnering.

Award-Winning Leadership

Recognized as a *Young Entrepreneur* during the 2025 MEDWEEK event in Puerto Rico, highlighting leadership, innovation, and commitment to small business excellence in federal contracting.

Federal Disaster Recovery Experience

Successfully executed a time-sensitive disaster recovery project at Fort Buchanan, demonstrating our capacity for rapid mobilization, compliance, and quality under pressure.

Proven Performance & Reliability

Consistently deliver construction projects ahead of schedule, earning the trust of agencies through efficiency, clear communication, and a safety-first approach.

ACTIVE MEMBER:

CERTIFICATIONS:

Bonding Capacity

Bonding capacity up to \$1,000,000, supporting our ability to perform on federal contracts and meet procurement requirements.

Immediate Mobilization Capability

Established workforce, equipment, and management infrastructure ready to support rapid phase-in and uninterrupted service delivery.

PAST PERFORMANCE:

- US Navy ROTH Detachment – Vieques, PR**
 Installed 971 linear feet of security fencing at the Forces Surveillance Support Center (FSSC), demonstrating technical proficiency, adherence to military specifications, and timely execution.
- NAVFAC Southeast – NOSC Puerto Rico**
 Provided Quality Management services for the N69450-19-D-1750 roof replacement and interior repair project, ensuring compliance with NAVFAC standards and performance metrics.
- Fort Buchanan – Grounds Maintenance Contract**
 Completed a five-year contract (WJ124J-16-C-0059) for grounds maintenance services during tenure with TPS, delivering consistent results and compliance with base environmental and appearance standards.
- Camp Santiago MILCON Project – Salinas, PR**
 Oversaw safety operations for the Design-Bid-Build Construction Contract at the Joint Training Center, part of a \$293.4 million military construction initiative, ensuring site-wide OSHA compliance and risk mitigation.
- US Coast Guard - BSJ Bldg. 100 Duct Cleaning & Sanitizing**
 Comprehensive HVAC duct and air handling unit cleaning in compliance with NADCA ACR 2021, including antimicrobial treatment and electrostatic disinfection. Services improve indoor air quality, reduce allergens, and are delivered with full OSHA compliance and final certification. Contract (70Z02825PSANJ0033).
