Title: 102883 - L-231 - Mayaguez Arriba - Mayaguez

NEPA DETERMINATION

Non Compliant Flag: No	EA Draft Date:	EA Final Date:
EA Public Notice Date:	EA Fonsi	Level: CATEX
EIS Notice of Intent	EIS ROD Date:	

Comment PR INDUSTRIAL DEVELOPMENT COMPANY, 102883 - L-231 - Mayaguez Arriba y Mayaguez; DI#219206 (18.20734, -67.12810), DI#219208 (18.20705, -67.12818), DI#219220 (18.22280, -67.16673), DI#219224 (18.18008, -67.14706), DI#219232 (18.20777, -67.12738). Category E, 0.0% of work completed. The Applicant will utilize contracts to repair the facilities within the existing footprint. Work to be completed involves painting exterior and interior surfaces and remove and replace the following components: waterproofing membrane, aluminum exhaust fan, and aluminum flashing at DI#219206; waterproofing membrane, exhaust fan, aluminum flashing, aluminum jalousie windows, and 30 LF of perimeter fence at DI#219208; exhaust fans, aluminum flashing, metal siding, and 80 LF of chain-link fence at DI#219220; 80 LF of chain-link fence at DI#219224; extractor fan cover, aluminum flashing, waterproofing membrane, and 90 LF of chain-link fence at DI#219232. MITIGATION: 406 Mitigation measures proposed for the facilities consist on the following: add an additional roof membrane, install an anchoring system to the exhaust fans, add a waterproof coating on the exterior walls, and install a break-away fencing. - ncolonpe - 01/28/2021 20:05:37 GMT

CATEX CATEGORIES

CateX Category Code	Description	Selected
*n7	(*n7) Federal Assistance for Structure and Facility Upgrades. Federal assistance for the reconstruction, elevation, retrofitting, upgrading to current codes and standards, and improvements of pre-existing facilities in existing developed areas with substantially completed infrastructure, when the immediate project area has already been disturbed, and when those actions do not alter basic functions, do not exceed capacity of other system components, or modify intended land use. This category does not include actions within or affecting streams or stream banks or actions seaward of the limit of moderate wave action (or V zone when the limit of moderate wave action has not been identified).	Yes

EXTRAORDINARY

Title: 102883 - L-231 - Mayaguez Arriba - Mayaguez

Environmental Law/ Executive Order	Status	Description	Comment
Clean Water Act (CWA)	Completed	Project would not affect any water of the U.S. - Review concluded	
Coastal Zone Management Act (CZMA)	Completed	Project is located in a coastal zone area and/or affects the coastal zone	FEMA's financial assistance for the proposed action (DI#219220), as described in the scope of work, conforms with Resolution JP 2018-324, Federal Consistency Certification with the Puerto Rico Coastal Zone Management Program FEMA Puerto Rico DR-4336-PR and DR-4339-PR Permanent Work: Federal Assistance for Permanent Work through the Public Assistance (PA) Program and Hazard Mitigation Grant Program (HMGP), dated October 3, 2018. Recipients and Sub-recipients that receive FEMA financial assistance through these programs, as described in Appendix A of this Resolution, are not exempt from compliance with Federal Consistency Requirements (according to Subpart C of the 15 CFR Part 930) for certain projects and activities that may affect the Puerto Rico Coastal resources. - ncolonpe - 01/28/2021 19:59:03 GMT
	Completed	State administering agency requires consistency review - Review concluded	
Executive Order 11988 - Floodplains	Completed	Located in floodplain or effects on floodplain/flood levels	Portions of the project are located in the floodplain. The proposed project is to repair damaged facilities to pre-disaster condition, which is not likely to result in any potential direct impacts that will adversely affect the natural values and function of floodplains nor is it likely to increase the risk of flood loss. The Initial Disaster Public Notice was published in (El Vocero for DR-4339 on December 17, 2017). - ncolonpe - 01/28/2021 20:02:32 GMT
	Completed	Possible adverse effects associated with investment in floodplain, occupancy or modification of floodplain environment	
	Completed	8 Step Process Complete - documentation attached - Review concluded	
Executive Order 11990 - Wetlands	Completed	No effects on wetlands and project outside wetlands - Review concluded	Per the USFWS Wetlands Inventory Mapper, accessed on (1/28/2021), the proposed scope of work is not located in a wetland. - ncolonpe - 01/28/2021 20:05:04 GMT

		Review concluded	B.5.a and B.6.b. For DI #219208: The proposed activity complies with programmatic allowances Tier II, Allowances A.2.b, B.1.c, B.3.a, B.4.c, B.5.a and B.6.b. For DI #219220: The proposed activity complies with programmatic allowances Tier II, Allowances A.2.b, B.3.a, B.5.a, B.5.b and B.6.b. For DI #219224: The proposed activity complies with programmatic allowances Tier II, Allowance A.2.b. For DI #219232: The proposed activity complies with programmatic allowances Tier II, Allowances A.2.b, B.1.c, B.3.a, B.5.a and B.6.b. This is as identified in Appendix B of the Puerto Rico Programmatic Agreement among FEMA, PRSHPO, and the COR3, as amended November 13, 2019. This determination was made by Eduardo Frías Etayo (Archaeologist) and César I. López López (Architect), who meet the applicable SOI qualifications, pursuant to Stipulation I.B.1.a of the Agreement. - clopezl2 - 01/28/2021 19:45:35 GMT
Resource Conservation and Recovery Act, aka Solid Waste Disposal Act (RCRA)	Completed	Review concluded	The applicant is responsible to ensure potentially hazardous materials, if any, shall be removed and disposed of in accordance with all applicable federal and state laws and local compliance requirements. - ncolonpe - 01/28/2021 20:01:39 GMT
Wild and Scenic Rivers Act (WSR)	Completed	Project is not along and does not affect Wild and Scenic River - Review concluded	

CONDITIONS

Special Conditions required on Implementation of Projects:

Applicant must comply with the appropriate local floodplain management ordinance or if more restrictive per EO 11988 Sec. 2(a)(1) best available data as defined by the Puerto Rico Advisory Base Flood Elevation (ABFE, 2018). Applicant must coordinate with the local floodplain administrator, obtain any required permits prior to initiating work, and comply with any conditions of the permit, as well as the National Flood Insurance Program (NFIP) requirements to ensure harm to and from the floodplain is minimized. All coordination pertaining to these activities should be retained as part of the project file in accordance with the respective grant program instructions.

Source of condition: Executive Order 11988 - Floodplains

Monitoring Required: No

Conservation Measures for the Puerto Rican Boa

1. Inform all personnel about the potential presence of the PR boa and the VI boa in areas where the proposed work will be conducted. Photographs of the PR and VI Boa are to be prominently displayed at the site. The recipient must ensure

17:58:34

RECORD OF ENVIRONMENTAL CONSIDERATION (REC)

Project PA-02-PR-4339-PW-08329

Title: 102883 - L-231 - Mayaguez Arriba - Mayaguez

that project personnel is able to correctly identify a PR or VI boa. For information on PR boa, please visit: <https://ecos.fws.gov/ecp/species/6628>.

2. Prior to any construction activity, including removal of vegetation and earth movement, the boundaries of the project area must be delineated, buffer zones, and areas to be excluded and protected, should be clearly marked in the project plan and in the field to avoid further habitat degradation into forested areas. Once areas are clearly marked, and prior to any construction activity, including site preparation, project personnel able to correctly identify a PR or VI boa must survey the areas to be cleared to ensure that no boas are present within the work area. Vehicle and equipment operation must remain on designated access roads/paths and within rights-of way.

3. If a PR boa is found within any of the working or construction areas, activities should stop in the area where the boa was found. Do not capture the boa. If boas need to be moved out of harm's way, project personnel designated by the recipient shall immediately contact the Puerto Rico Department of Natural and Environmental Resources (PRDNER) Rangers for safe capture and relocation of the animal (PRDNER phone #: 787-724-5700, 787-230-5550, 787-771-1124). If immediate relocation is not an option, project-related activities at this area must stop until the boa moves out of harm's way on its own. Activities at other work sites, where no boas have been found after surveying the area, may continue.

4. Measures should be taken to avoid and minimize PR boa casualties by heavy machinery or motor vehicles being used on site. Any heavy machinery left on site (staging) or near potential PR boa habitat (within 50 meters of potential boa habitat), needs to be thoroughly inspected each morning before work starts to ensure that no boas have sheltered within engine compartments or other areas of the equipment. If PR boas are found within vehicles or equipment, do not capture the animal and let it move on its own or call PRDNER Rangers for safe capture and relocation of the boa (PRDNER phone #: 787-724-5700, 787-230-5550, 787- 771-1124). If not possible, the animal should be left alone until it leaves the vehicle on its own.

Source of condition: Endangered Species Act (ESA)

Monitoring Required: No

5. PR boas may seek shelter in debris piles. Measures should be taken to avoid and minimize boa casualties associated with sheltering in debris piles as a result of project activities. Debris piles should be placed far away from forested areas. Prior to moving, disposing or shredding, debris piles should be carefully inspected for the presence of boas. If PR boas are found within debris piles, do not capture the animal and let it move on its own or call PRDNER Rangers for safe capture and relocation of the animal. If debris piles will be left on site, we recommend they be placed in areas that will not be disturbed in the future.

6. For all boa sightings (dead or alive), personnel designated by the recipient must record the time and date of the sighting and the specific location where the boa was found. Data should also include a photo of the animal dead or alive, and site GPS coordinates, and comments on how the animal was detected and its behavior. If the PR boa was accidentally killed as part of the project actions, please include information on what conservation measures had been implemented and what actions will be taken to avoid further killings. All boa sighting reports should be sent to the USFWS Caribbean Ecological Services Field Office, Marelisa Rivera - Deputy Field Supervisor, 787-851-7297 extension 206, 787-510-5207, marelisa_rivera@fws.gov.

For Virgin Islands Boas in St. Thomas and Steven's Cay US Virgin Islands (VI boas have not been reported on St. Croix or St. John):

7. Follow the same guidance above but contact the VI Division of Fish and Wildlife (VIDFW), for technical assistance (340-775-6762) and capture of any VI boas. For information on USVI boa, please visit: <https://ecos.fws.gov/ecp/species/3247>
The VIDFW has developed site-specific VI boa protocol; Applicants will be responsible for executing conservation measures recommended by VIDFW. Final project report to be submitted to USFWS.

Source of condition: Endangered Species Act (ESA)

Monitoring Required: No

The Applicant must provide documentation at close-out that proves completion of required Conservation Measures.

Source of condition: Endangered Species Act (ESA)

Monitoring Required: No

The Applicant shall handle, manage, and dispose of all solid and hazardous waste in accordance with requirements of local, state, and federal laws, regulations, and ordinances. In addition, the Applicant shall ensure that all debris is separated and disposed of in a manner consistent with the PR DNER guidelines at a permitted site or landfill.

For asbestos containing material and lead base paint the Applicant shall handle, manage, and dispose of all solid and hazardous waste in accordance with requirements of local, state, and federal laws, regulations, and ordinances. In

17:58:34

RECORD OF ENVIRONMENTAL CONSIDERATION (REC)**Project PA-02-PR-4339-PW-08329****Title: 102883 - L-231 - Mayaguez Arriba - Mayaguez**

addition, the Applicant shall ensure that all debris is separated and disposed of in a manner consistent with the DNER/EQB guidelines at a permitted site or landfill or provide evidence of the close out permit from DNER/EQB for activities of remediation, abatement or removal of those materials.

Unusable equipment, debris, white goods, scrap metal any other material shall be disposed in approved manner and location. In the event significant items are discovered during the implementation or development of the project the Applicant shall handle, manage and dispose petroleum products, hazardous materials and toxic waste in accordance to the requirements of the local and federal agencies. Noncompliance with these requirements may jeopardize receipt of federal funds.

Source of condition: Resource Conservation and Recovery Act, aka Solid Waste Disposal Act (RCRA)

Monitoring Required: No

Standard Conditions:

Any change to the approved scope of work will require re-evaluation for compliance with NEPA and other Laws and Executive Orders.

This review does not address all federal, state and local requirements. Acceptance of federal funding requires recipient to comply with all federal, state and local laws. Failure to obtain all appropriate federal, state and local environmental permits and clearances may jeopardize federal funding.

If ground disturbing activities occur during construction, applicant will monitor ground disturbance and if any potential archeological resources are discovered, will immediately cease construction in that area and notify the State and FEMA.
