(C)

1.1.4 Residential Rate Periods:

The evening/off peak rate period applies from 5:00 pm to, but not including, 9:00 pm Monday through Friday. The Night and Weekend rate period applies from 9:00 pm to, but not including, 8:00 am, from Monday through Friday, all day Saturday, all day Sunday.

1.1.5 Commercial Rate Periods:

The Night and Weekend rate period applies from 9:00 pm to, but not including, 8:00 am, from Monday through Friday, all day Saturday, all day Sunday.

1.1.6 Rate Distances:

Rate distances are airline mileage determined by the V&H Coordinate System (vertical and horizontal coordination) which was introduced in 1960 for interstate toll telephone service. Some states (including the Commonwealth of PR) introduced the system on Intraissland services at the same time and all others have subsequently made the conversion. Under this system each rate center is designated by a vertical (V) and horizontal (H) coordinate. These coordinates are computed from the latitude and longitude of each rate center adjusted to reflect the curvature of the earth's surface, using the coordinated differences between rate centers, the rate distances are mathematically computed for all messages of all lengths of haul. MTS rates between Intraissland (Intraissland) points in the state are usually based on airline distance between rate centers.

1.1.7 AT&T Intralata Special Rates for Speech and Hearing-Impaired:

The AT&T Intralata Special Rates for speech and hearing-impaired will be based on the upgrading of the regular residential rates and periods. On calls placed during the day period (8am -5pm), the evening rates will apply; on calls placed during the evening period (5pm-9pm), the night/weekend rates will apply, unless a lower price will apply. The night weekend Rate will remain as established on regular residential tariff (section C).
