I. INTRODUCTION

A. THE PUERTO RICO PUBLIC-PRIVATE PARTNERSHIPS AUTHORITY

The Puerto Rico Public-Private Partnerships Authority ("P3A") was created by the Public-Private Partnerships Act, Act No. 29-2009, as amended ("Act"), for the purpose of implementing the public policy of the Government of Puerto Rico (the "Government") of favoring the establishment of public-private partnerships ("PPPs") in Puerto Rico. The Act sets forth the public policy framework to establish PPPs for the completion of priority projects in alliance with the Puerto Rico Fiscal Agency and Financial Advisory Authority ("FAFAA"). The aim of the Act is to enhance the development and maintenance of infrastructure facilities, to allocate risks between the Government and potential proponents, to improve Government services and functions, to foster job creation, and to promote the social and economic development, and competitiveness of Puerto Rico.

The Authority encourages all qualified advisors to evaluate this Request for Qualifications ("RFQ") and to submit a proposal as specified therein. Please note that nothing in this RFQ shall be interpreted as being in contravention of the provisions set forth in Executive Order 2021-029 ("EO-2021-029") regarding the engagement of professional services in amounts of two hundred fifty thousand dollars (\$250,000.00) or more. Any professional services agreement entered into by the P3A in excess of such amount must comply in full with EO-2021-029 and the applicable requirements established by Circular Letter 013-2021 issued by the Office of Management and Budget ("OGP", by its Spanish acronym). All proposals must include evidence registration in the Sole Registry of Professional Service Providers of the General Service Administration of Puerto Rico ("Registro Único de Proveedores de Servicios Profesionales de la Administración de Servicios Generales", as known in Spanish)¹, as required by Act 73-2019, as amended, known as the General Services Administration Act for the Centralization of Purchases of the Government of Puerto Rico 2019.

B. BACKGROUND

1. PUERTO RICO'S CURRENT FISCAL SITUATION

Puerto Rico faces unprecedented fiscal and economic challenges and the

administration believes that PPPs will form the cornerstone of the island's economic development. As part of the proposed Fiscal Plan prepared pursuant to the requirements of the Puerto Rico Oversight, Management, and Economic Stability Act ("PROMESA"), the administration's economic development plans heavily depend on the establishment of PPPs for many of government services and the delivery of new infrastructure.

¹ For more information related to the Sole Registry of Professional Service Providers of the General Service Administration of Puerto Rico, please visit the following internet address: <https://rup.asg.pr.gov>.

With Act 1–2017, which amends the Act, the Government positioned the PPP model as the primary path to achieve infrastructure and government right- sizing. Amongst many changes, Act 1-2017 improves the ability of the P3A to evaluate, analyze and develop projects submitted through unsolicited proposals and provides P3A with the authority to establish pre-development agreements.
