Re: Employee passed away during working hours on September 30, 2023

Dear Mr. Hurtado:

The P3 Authority ("P3A") became aware through the local media that last September 30, 2023, a LUMA employee lost his life in an accident during working hours. Consequently, in its role as Administrator of the O&M Agreement, the P3A is obligated to request information from LUMA to obtain the details of the incident's particulars.

Per Section 5.14(a) of the T&D O&M Agreement¹, LUMA is required to inform the Administrator in writing of any material accident associated with the T&D System within twenty-four (24) hours of acknowledging the incident.

¹ Section 5.14(a) Emergency Action. Accidents. Operator shall promptly notify Administrator in writing of any material accident or incident related to the T&D System within twenty-four (24) hours of receiving knowledge of the occurrence thereof and promptly notify Administrator in writing of all material claims made by or against Operator of which Operator has knowledge, or potential material claims that Operator reasonably expects to make against, or to be made against it by, third-parties.

To such effect, please provide the following information in regard to this incident:

1. Copy of LUMA's report or documents related to the in-process investigation.
2. Any additional information that may satisfy our request.

The P3A kindly requests that the information requested above be provided by no later than October 20, 2023.

Kind regards,

Administrator
Puerto Rico Public-Private Partnerships Authority
