**LEASE IN FURTHERANCE
OF CONVEYANCE
BETWEEN
THE UNITED STATES OF AMERICA
AND
THE LOCAL REDEVELOPMENT AUTHORITY FOR NAVAL
STATION ROOSEVELT ROADS**

1 **THIS LEASE**, made this 25th day of January 2012 by and between **THE UNITED**
2 **STATES OF AMERICA**, acting by and through the Department of the Navy, hereinafter called
3 the "Government", and **THE LOCAL REDEVELOPMENT AUTHORITY FOR NAVAL**
4 **STATION ROOSEVELT ROADS**, hereinafter called the "Lessee."

W I T N E S S E T H:

5
6
7
8 **WHEREAS**, the Government has declared certain real and personal property surplus at
9 the former Naval Station Roosevelt Roads, Ceiba, Puerto Rico ("NSRR"); and

10
11 **WHEREAS**, by application dated 17 December 2010, the LRA applied for an Economic
12 Development Conveyance ("EDC") of approximately one thousand and three hundred and
13 seventy (1,370) acres to be used and developed in accordance with the reuse plan submitted in
14 December 2004, as amended on 30 April 2010 by the "Roosevelt Roads Redevelopment
15 Addendum to the 2004 Reuse Plan" ("Reuse Plan"); and

16
17 **WHEREAS**, the Government, on 16 September 2011, approved an EDC to the NSRR
18 LRA for the sale and transfer of approximately 1370.20 acres of surplus property at the former
19 NSRR; and

20
21 **WHEREAS**, the Government and the Lessee entered into that certain Economic
22 Development Conveyance Memorandum of Agreement dated December 20, 2011 ("EDC
23 Agreement"); and

24
25 **WHEREAS**, a Finding of No Significant Impact (FONSI) consistent with the Reuse Plan
26 presented by the Local Redevelopment Authority for Naval Station Roosevelt Roads (NSRR
27 LRA) in 2004 was issued 10 April 2007, and a subsequent FONSI was executed on 26
28 September 2011 for a Supplemental Environmental Assessment prepared to evaluate potential
29 impacts of the NSRR LRA's April 2010 Reuse Plan Addendum; and

30
31 **WHEREAS**, the Lessee has been approved as the recipient of multiple parcels of land
32 and improvements which together make up the entire EDC conveyance comprised of 1370.20±

NSRR LEASE IN FURTHERANCE OF CONVEYANCE

Page 2.

1 acres to be conveyed, including the Lease Premises, as defined below, which total 356.1230
2 acres; and

3
4 **WHEREAS**, Lessee has an immediate need to use the Lease Premises, as hereinafter
5 defined; and

6
7 **WHEREAS**, further environmental remediation of the Lease Premises is necessary
8 before the Lease Premises can be conveyed to Lessee in fee; and

9
10 **WHEREAS**, the Secretary of the Navy, pursuant to the provisions of 10 U.S.C.
11 §2667(g)(1), has determined that this Lease will facilitate Commonwealth and local economic
12 adjustment efforts pending final disposition of the Lease Premises; and

13
14 **WHEREAS**, the Secretary of the Navy, pursuant to 10 U.S.C. § 2667(g)(1) and (2) has
15 determined that a public interest will be served as a result of this Lease; and

16
17 **WHEREAS**, the Government is amenable to such a Lease with the Lessee upon the
18 terms and conditions hereinafter set forth.

19
20 **NOW, THEREFORE**, in consideration of the terms, covenants, and conditions
21 hereinafter set forth, the Government and the Lessee hereby agree as follows:

22
23 1. LEASE PREMISES.

24
25 1.1 The term, "Lease Premises" as used in this Lease, shall mean those
26 facilities and/or land areas identified in **Exhibit "A"** to this Lease, as and if modified, and all
27 improvements thereon.

28
29 1.1.1 As of the Execution Date, the Government is in the process of
30 shutting down the wastewater utility system at NSRR. Following completion of the shut-down
31 process in accordance with all applicable laws and regulations, the Government shall provide
32 written notice of such shut-down to the Lessee and, upon receipt of such written notice by the
33 Lessee, the wastewater utility system, as described in **Exhibit "A-1"** to this Lease, shall
34 automatically become part of the Lease Premises.

35
36 1.2 Government does hereby lease, rent, and demise to Lessee, and Lessee
37 does hereby hire and rent from the Government the Lease Premises together with the right of
38 ingress and egress thereto.

39
40 1.3 Lessee shall monitor for archeological artifacts during its construction
41 activities and shall take appropriate action should any artifacts be discovered in accordance with
42 the Memorandum of Agreement between the United States Navy and the Puerto Rico Historic

NSRR LEASE IN FURTHERANCE OF CONVEYANCE

Page 3.

1 Preservation Officer concerning the disposal of Naval Activity Puerto Rico executed September
2 28, 2011.

3
4 2. TERM. The term of this Lease shall be for a period of twenty (20) years,
5 beginning on January 25, 2012 and ending on January 25, 2032, unless terminated earlier in
6 accordance with the provisions of Paragraph 15.

7
8 3. CONSIDERATION. The consideration for this Lease is the consideration
9 provided by the Lessee to the Government pursuant to the EDC Agreement.

10
11 4. USE OF LEASE PREMISES. Lessee may use the Lease Premises for those uses
12 permitted in the EDC Agreement.

13
14 5. ASSIGNMENT OR SUBLETTING.

15
16 5.1 Lessee may sublease the Lease Premises without the prior approval of
17 Government; provided, however, that in the event that the terms and conditions of this Lease and
18 a sublease contradict, the terms and conditions of this Lease shall take precedence.

19
20 5.2 Any sublease granted by the Lessee shall contain a copy of this Lease as
21 an attachment and shall be subject to all terms and conditions of this Lease except for Paragraph
22 18.2.2 and shall terminate immediately upon the expiration or any earlier termination of this
23 Lease, without any liability on the part of the Government to the Lessee or any sublessee. Under
24 any sublease made, the sublessee shall be deemed to have assumed all of the obligations of the
25 Lessee under this Lease. No sublease shall relieve the Lessee of any of its obligations hereunder.

26
27 5.3 The Lessee shall provide to the Government a fully executed copy of any
28 sublease executed hereunder within ten (10) days of the date of its execution. Within ten (10)
29 days of receipt of such sublease, the Government may send a written notice to the Lessee that the
30 sublease must be amended if the terms of the sublease either (i) interfere with the Government's
31 environmental remediation of the Lease Premises, or (ii) contradict a material term or condition
32 of this Lease.

33
34 5.4 The Lessee shall neither transfer nor assign this Lease or any interest
35 therein or any property on the Lease Premises without the prior written approval of the
36 Government.

37
38 6. JOINT INSPECTION REPORT.

39
40 6.1 Prior to the execution of this Lease, and except as set forth in Paragraph
41 6.2, a joint inspection was conducted by representatives of the Lessee and the Government of the
42 Lease Premises; a report was made of the condition of the Lease Premises and any deficiencies

NSRR LEASE IN FURTHERANCE OF CONVEYANCE

Page 4.

1 found to exist were noted in the report as described in **Exhibit "C"** attached hereto (the "Joint
2 Inspection Report"). Each inventory prepared for the Joint Inspection Report, upon completion,
3 was identified by building or facility number. The Joint Inspection Report is signed and dated by
4 both parties to this Lease. The Lease Premises delivered to the Lessee shall be delivered "as-is,
5 where-is", and, as such, the Government makes no warranty as to such facilities and property
6 either as to their usability generally or as to their fitness for any particular purpose. At the
7 termination of this Lease, Lessee shall turn over to the Government the Lease Premises in the
8 same condition that existed on the date the respective sublease was executed as reflected in the
9 Joint Inspection Report, subject, however, to ordinary wear and tear and conformance with the
10 EDC Agreement. The Government and the Lessee will jointly conduct a close-out inventory and
11 condition survey of the Lease Premises on the date of termination or expiration of this Lease.
12 All significant variances from the original Joint Inspection Report shall be clearly documented.
13 The close-out report shall be completed within thirty (30) days after termination or expiration of
14 this Lease and will constitute the basis for settlement by the Lessee for any of the Lease Premises
15 shown to be lost, damaged or destroyed, subject, however, to ordinary wear and tear.

16
17 6.2 SWMU 11 (Building 38) and SWMU 77 (Former Small Arms Range). A
18 Joint Inspection Report was not completed with respect to SWMU 11 (Building 38) and SWMU
19 77 (Former Small Arms Range) on the Lease Premises. The Lessee is prohibited from entering
20 SWMU 11 (Building 38) and SWMU 77 (Former Small Arms Range). Security, maintenance,
21 repair, upkeep and inspection of the interior, exterior and subsurface of SWMU 11 (Building 38)
22 and SWMU 77 (Former Small Arms Range) shall be the responsibility of the Government. The
23 Lessee's tenancy with respect to SWMU 11 (Building 38) and SWMU 77 (Former Small Arms
24 Range) is acknowledged by the Government to place no obligations upon the Lessee other than
25 to be excluded from entry onto SWMU 11 (Building 38) and SWMU 77 (Former Small Arms
26 Range). In the event of an emergent circumstance affecting SWMU 11 (Building 38) and
27 SWMU 77 (Former Small Arms Range), the Lessee, its agents, contractors and area first
28 responders shall not respond or take any other action related to SWMU 11 (Building 38) and
29 SWMU 77 (Former Small Arms Range).

30
31 7. ENVIRONMENTAL CONDITION OF PROPERTY AND FINDING OF
32 SUITABILITY TO LEASE. An Environmental Condition of Property Report ("ECP") was
33 prepared for the Lease Premises on 15 July 2005 and is incorporated by reference herein. A
34 Finding of Suitability to Lease ("FOSL") for the Lease Premises prepared by the Government is
35 attached as **Exhibit "D"** and made a part of this Lease. The ECP sets forth the existing
36 environmental conditions of the Lease Premises as represented by a baseline survey which has
37 been conducted by the Government. The FOSL sets forth the basis for the Government's
38 determination that the Lease Premises are suitable for leasing. Lessee and sublessees are hereby
39 made aware of the notifications contained in the ECP and FOSL and shall comply with all
40 restrictions set forth therein.

NSRR LEASE IN FURTHERANCE OF CONVEYANCE

Page 5.

1 8. ALTERATIONS.

2
3 8.1 Prior to undertaking any substantial construction, demolition, alterations,
4 additions or improvements on the Lease Premises, the Lessee shall provide written notification to
5 the Government's Authorized Contracting Officer or his authorized representative. Within
6 fifteen (15) days of the receipt of the notification, the Government shall determine whether such
7 addition or alteration is to be disallowed because it will adversely impact the Government's
8 ability to complete its environmental remediation obligations on the Lease Premises. In the
9 event the Government determines that any addition or alteration is disallowed, a notice of
10 disallowance shall be forwarded to the Lessee. Upon disapproval, the Lessee shall not be
11 authorized to commence or cause to commence the alteration or placement of the addition that is
12 the subject of the notification without further Government approval. In the event that the
13 Government does not respond to Lessee within such fifteen (15) day period, then the proposed
14 addition or alteration shall be deemed approved.

15
16 8.2 The Lessee shall not construct, or make or permit its sublessees or assigns
17 to construct or make, any substantial alterations, additions, or improvements to, or installations
18 upon, or otherwise modify or alter the Lease Premises in any way which may adversely affect
19 the cleanup, human health, the environment or, the historical character in compliance with the
20 National Historic Preservation Act, without the prior written consent of the Government. Such
21 consent may involve a requirement to provide the Government with a performance and payment
22 bond satisfactory to it in all respects and other requirements deemed necessary to protect the
23 interests of the Government. For construction or alterations, additions, modifications,
24 improvements or installations (collectively "work") in the proximity of solid waste management
25 units (SWMU) that are part of a Navy Installation Restoration Program, such consent may
26 include a requirement for written approval by the Government's BRAC Environmental
27 Coordinator (BEC). Upon termination, revocation, or surrender of this Lease, in whole or in
28 part, the Lessee shall, at the option of and to the extent directed by the Government, either:

29
30 8.1.1 Promptly remove all alterations, additions, modifications,
31 improvements, and installations, including, but not limited to, Lessee's or sublessee's trade
32 fixtures, made or installed on the Lease Premises subject to the termination, revocation or
33 surrender, and restore the same to the same or as good condition as existed on the date of the
34 respective sublease as reflected in the Joint Inspection Report, subject, however, to ordinary wear
35 and tear; or

36
37 8.1.2 Abandon such additions or alterations to the Lease Premises,
38 subject to the termination, revocation, or surrender in place, at which time title to said alterations,
39 improvements, and additions shall vest in the Government.

40
41 8.2 Notwithstanding anything set forth herein to the contrary, Lessee or its
42 sublessee may, at its (or their) sole discretion, remove any of its (or their) equipment or trade

NSRR LEASE IN FURTHERANCE OF CONVEYANCE

Page 6.

1 fixtures installed on the Lease Premises subject to termination, revocation, or surrender, or
2 attached to the Lease Premises, provided, however, it (they) shall restore the Lease Premises to
3 the condition that existed on the date of the respective sublease, as reflected in the Joint
4 Inspection Report, subject, however, to ordinary wear and tear.

5
6 9. ACCESS BY GOVERNMENT. In addition to access required under Paragraphs
7 13.6 and 13.10, at all reasonable times throughout the term of this Lease, the Government shall
8 be allowed access to the Lease Premises for any purposes upon notice to the Lessee.
9 Government normally will give Lessee and any sublessee 24-hour prior notice of its intention to
10 enter the Lease Premises unless it determines that entry is required for safety, environmental,
11 operations or security purposes. Lessee shall have no claim against the Government, except for
12 claims allowed for and limited by the Federal Tort Claims Act, 28 U.S.C. 2671, et seq., on
13 account of any entry onto the Lease Premises by the Government (including any officer or
14 employee of the Government) or as otherwise permitted by law. All necessary keys to the Lease
15 Premises occupied by the Lessee or any sublessee shall be made available to the Government
16 upon request.

17
18 10. UTILITIES. All utilities located on the Lease Premises, including but not limited
19 to electricity, water, gas, sewer, and telephone, may be operated and maintained by the Lessee or
20 the appropriate utility provider, in their sole discretion. Any costs associated with such
21 operations and maintenance shall be the responsibility of the Lessee. It is expressly agreed and
22 understood that the Government in no way warrants the condition or adequacy of such utility
23 systems for the purposes intended. It is also expressly agreed and understood that neither the
24 Government nor the Lessee is in any way obligated to provide any utility service whatsoever.

25
26 11. NO INTERFERENCE WITH NAVY OPERATIONS. The Lessee shall not
27 conduct or allow to be conducted any operations, nor make or allow to be made any alterations,
28 that would interfere with or otherwise restrict Navy operations or environmental clean-up or
29 restoration activities by the Government, EPA, Commonwealth of Puerto Rico, or their
30 contractors. Environmental clean-up, restoration, or testing activities by these parties shall take
31 priority over the Lessee's use of the Lease Premises in the event of any conflict.

32
33 12. MAINTENANCE SERVICES.

34
35 12.1 It is understood and agreed that Lessee shall, at its own expense, protect
36 and maintain, or cause to be protected and maintained, the Lease Premises, subject to normal
37 wear and tear, so that no further environmental releases on the Lease Premises occur.

38
39 12.2 The Lessee shall not undertake any actions that would interfere with or
40 impede the Government's environmental remediation of the Lease Premises.
41

NSRR LEASE IN FURTHERANCE OF CONVEYANCE

Page 7.

1 12.3 Subject to the approval of the Government in accordance with Paragraph
2 8.1, the Lessee is permitted to demolish any improvements on the Lease Premises in accordance
3 with applicable law and regulation.

4
5 12.4 The Lessee must not commit waste of any kind except as authorized in
6 writing by the Government.

7 8 13. ENVIRONMENTAL PROTECTION PROVISIONS.

9
10 13.1 RCRA Section 7003 Administrative Order on Consent. Lessee is hereby
11 notified that the Lease Premises are regulated under an Administrative Order on Consent
12 (Consent Order) between the Navy and the Environmental Protection Agency, Region II under
13 section 7003 of the Resource Conservation and Recovery Act (RCRA) that requires the
14 Government to perform corrective actions at Solid Waste Management Units (SWMUs) and
15 Areas of Concern (AOCs). Where required by Federal Law, actions necessary for the
16 Government to comply with the Consent Order shall take precedence over all other provisions of
17 this Lease.

18
19 13.1.1 The Consent Order shall require corrective actions at the following
20 SWMUs within the Lease Premises:

- 21
22 • **SWMU 3, Base Landfill** – Approximately 110.228 acres. The unlined landfill
23 was used since the early 1960s. The active portion (a lined 35-acre cell within the
24 limits of the old 85-acre landfill) was closed and capped in 2007.
- 25
26 • **SWMU 9, Tank 212-217 Sludge Burial Pits** – Approximately 42 acres in two
27 non-contiguous areas referred to as SWMU 9 A/B (36.114 acres) and SWMU 9C
28 (6.27 acres). Unlined, earthen pits in which petroleum sludges were buried after
29 tank cleanings between 1940 and 1978.
- 30
31 • **SWMUs 11/45, Old Power Plant (Building 38 Interior/Exterior)** –
32 Approximately 15 acres. SWMU 11 (0.728 acres) is the interior of Building 38,
33 including a former concrete pad where transformers and transformer fluids
34 containing PCBs were stored. SWMU 45 (14.586 acres) is the exterior of
35 Building 38 where transformer oils containing PCBs were routinely discarded
36 directly onto the ground, and includes the path of the cooling water intake tunnel
37 from Puerca Bay. There are two closed in place 50,000-gallon underground
38 storage tanks (USTs) associated with SWMUs 11/45.
- 39
40 • **SWMUs 27, 28, 29, Waste Water Treatment Plants Sludge Drying Beds,**
41 **Capehart, Bundy and Forrestal Plants, Respectively** – Approximately 0.405
42 acres for SWMU 27, 1.17 acres for SWMU 28, and 2.735 acres for SWMU 29.

NSRR LEASE IN FURTHERANCE OF CONVEYANCE

Page 8.

1 Sludge from the waste water treatment plants would be placed in the drying beds
2 and allowed to dry before properly disposing of the sludge. Includes the sludge
3 drying beds at each of the three waste water treatment plants and adjacent
4 property undergoing soil investigation.
5

- 6 • **SWMU 31, Waste Oil Collection Area, Buildings 31 and 2022** - Approximately
7 0.6 combined acres with SWMU 32. Located in the Public Works Department
8 storage yard near the Transportation Shop, it consists of a curbed, concrete pad
9 used for temporary outdoor storage of waste oil containers. During a 1993
10 inspection, oil staining surrounded the storage pad.
11
- 12 • **SWMU 32, Public Works Department Storage Yard/Battery Collection Area**
13 – Approximately 0.55 combined acres with SWMU 31. In 1988, it was an outdoor
14 area where discarded batteries were stored. Approximately 100 55-gallon drums
15 of contaminated jet fuel and soil were observed stored on wooden pallets resting
16 on bare ground during the 1993 follow-up investigation. Along with these drums,
17 an area of stained soil was visible, discarded batteries were noted, and a small,
18 partially open, uncurbed storage building (“paint locker”) contained cans.
19
- 20 • **SWMU 57 (ECP 3), POL Drum Storage Area (Facility 278)** – Approximately
21 2.150 acres. Rectangular concrete pad approximately 100 feet by 160 feet in size.
22 Used as Petroleum, Oils and Lubricants (POL) drum storage facility from the
23 1950s to the 1990s.
24
- 25 • **SWMU 59 (ECP 5), Former Vehicle Maintenance and Refueling Area** –
26 Approximately 10.006 acres. Includes Buildings 377, 2344, and 2345. Used
27 from the 1940s to the 1980s, and contained drums, vehicle racks, USTs (unknown
28 quantity and disposition), and fuel islands. The majority of the site is presently
29 covered by paving.
30
- 31 • **SWMU 60 (ECP 6), Former Landfill at the Marina** – Approximately 11.996
32 acres. Used as a landfill (scrap disposal) from the 1940s to the 1960s, with piles
33 of solid waste and scrap metal. The marina now covers most of the site, except
34 for a level area described as estuarine intertidal scrub-shrub broad-leafed
35 evergreen.
36
- 37 • **SWMU 67 (ECP 13), Former Gas Station** – Approximately 5.495 acres.
38 Located on east side of Langley Drive north of the tennis courts in a level area
39 covered with secondary growth vegetation. A concrete pad and building
40 foundation are present north of the tennis courts in the woods. No UST has been
41 identified.
42

NSRR LEASE IN FURTHERANCE OF CONVEYANCE

Page 9.

- 1 • **SWMU 70 (ECP 16), Disposal Area Northwest of Landfill** – Approximately
2 55.153 acres. Located northwest of the current base landfill, it is a construction
3 debris and/or solid waste disposal site with potential disposal of POLs and/or
4 hazardous materials containers.
5
- 6 • **SWMU 74 (ECP 20), Fuel Pipelines and Hydrant Pits** - Site consists of four
7 non-contiguous portions of the JP-5 fuel pipeline totaling approximately 20.737
8 acres.
9
- 10 • **SWMU 77, Closed Small Arms Range** – Approximately 66.18 acres. A closed
11 small arms range and potential, former open burning/open detonation (OB/OD)
12 area located on the peninsula at Punta Medio Mundo. An investigation is being
13 performed for the potential OB/OD sites and the small arms range.
14
- 15 • **SWMU 78, Transformer Storage Pad** – Approximately 2.793 acres. Located
16 off of Hollandia Street, near the intersection of Forrestal Drive and Valley Forge
17 Road. The suspected release is associated with a raised concrete-curbed pad that
18 formerly stored approximately 25 (non-PCB) transformers. A small area
19 (approximately 10 feet by 3 feet) of stained soil and stressed vegetation was
20 observed at the discharge of the drainage valve.
21
- 22 • **AOC F, Site of Four Former USTs (USTs 124A-D; Building 124)** –
23 Approximately 1.231 acres. AOC F 124 was the location of former USTs 124A
24 (2,000-gallon motor gasoline tank), 124B and 124C (5,000-gallon motor gasoline
25 tanks), and 124D (550-gallon waste oil tank) which were removed in 1996 and
26 replaced by two motor gasoline USTs and one diesel UST. After the tank
27 removals and subsequent investigation, the site was recommended for remedial
28 action by monitored natural attenuation.
29
- 30 • **AOC F, Site of Four Former USTs (USTs 1738A-D; Building 1738)** –
31 Approximately 5.195 acres. After the removal of three 10,000-gallon motor
32 gasoline USTs and one 550-gallon waste oil UST at this site in 1995, and the
33 subsequent investigation, the site was recommended for remedial action by
34 monitored natural attenuation, and a Methyl Tertiary Butyl Ether (MTBE)
35 groundwater remediation pilot study is in the planning stages.
36
- 37 • **AOC F, Site of 1 former UST (UST 2842B; Building 3188)** - Approximately
38 1.53 acres. After the removal of this 5,000-gallon diesel UST in 1997, and the
39 subsequent investigation, the site was recommended for remedial action by
40 monitored natural attenuation.
41

NSRR LEASE IN FURTHERANCE OF CONVEYANCE

Page 10.

1 13.1.2 No provision of this Lease and no act of Lessee or any sublessee
2 on the Lease Premises shall affect, impact or diminish any rights that the Lessee may have under
3 42 U.S.C. 9620(h), including any right that Lessee may have thereunder related to the transfer of
4 any other part, area or parcel of the NSRR.
5

6 13.2 To prevent unacceptable risks to human health and the environment,
7 Lessee shall comply with all land use controls (LUCs) for the Lease Premises including the
8 following:
9

- 10 • **SWMU 3, 9, 11, 45, 57, 59, 60, 67, 70, 74, 77, 78, AOC F, Site of 4 former**
11 **USTs (USTs 1738A-D; Building 1738), AOC F, Site of 1 former UST (UST**
12 **2842B, Building 3188)** – A restriction on land use to non-residential uses only.
13

- 14 • **SWMU 3, 9, 45, 57, 59, 60, 67, 70, 74, 27/28/29, 77, 78, AOC F, Site of 4**
15 **former USTs (USTs 1738A-D; Building 1738), AOC F, Site of 1 Former**
16 **UST (UST 2842B; Building 3188)** – A restriction on access and/or certain
17 invasive activities in areas where surface soil, subsurface soil and or sediments
18 are contaminated.
19

- 20 • A restriction on use of groundwater and installation of new wells in or near
21 areas of known groundwater contamination.
22

- 23 • **SWMU 27/28/29** – A requirement to protect the integrity of any existing and all
24 future groundwater monitoring or extraction wells, remedial action equipment
25 and associated utilities until remediation is complete and federal and
26 Commonwealth cleanup standards have been met.
27

- 28 • A requirement that all ongoing and future environmental investigations and
29 remedial activities at or adjacent to the Subject Property not be disrupted.
30

- 31 • **Maintenance, Monitoring, and Inspection Activities for Landfill cap at**
32 **SWMU 3** – As outlined in the Landfill Closure and Post-Closure Plan, May
33 2005, the Lessee will not impact or change the contours and drainage system for
34 the finished landfill cover. The landfill cover will be mowed to maintain the
35 original vegetation and prevent trees and other deep rooted vegetation from
36 growing into the landfill cover. In addition, mowing will be conducted as
37 necessary to provide access to perimeter monitoring wells. Lessee will ensure
38 that landfill cover is clear of debris, refuse, or equipment. The Lessee will
39 inspect the Landfill for rodents during inspections of the vegetative cover and
40 ensure that the landfill cover is clear of rodents and burrowing animals.
41

NSRR LEASE IN FURTHERANCE OF CONVEYANCE

Page 11.

1 13.3 The Lessee and its contractors and sublessees hereby assume all
2 responsibility for protection of the environment as related to the Lessee or its contractors or
3 sublessees use of the Lease Premises. The Lessee and its contractors and sublessees shall be
4 responsible for compliance with all applicable Federal, Commonwealth, and local laws,
5 regulations, and standards that are or may become applicable to Lessee's activities on the Lease
6 Premises and to the environment.

7
8 13.4 The Lessee and any sublessee shall be solely responsible for obtaining at
9 its cost and expense any environmental permits which may be required for its operations under
10 the Lease, independent of any existing permits held by the Government.

11
12 13.5 Subject to paragraph 13.1 hereof, and to the extent permitted by law, the
13 Lessee shall indemnify and hold harmless the Government from any costs, expenses, liabilities,
14 fines, or penalties resulting from discharges, emissions, spills, storage, and disposal occurring
15 during the term of this Lease solely as a result of Lessee's, sublessee's, contractor's,
16 subcontractor's, guests', and invitee's control, occupancy, use or operations, or any other action
17 by the Lessee or any sublessee, contractor, subcontractor, guest, and invitee giving rise to
18 Government liability, civil or criminal, or responsibility under Federal, Commonwealth, or local
19 environmental laws, arising solely out of Lessee's, sublessee's, contractor's, subcontractor's,
20 guests, and invitee's control, occupancy, use or operations of the Lease Premises. This provision
21 shall survive the expiration or termination of this Lease, and the Lessee's obligations hereunder
22 shall apply whenever the Government incurs costs or liabilities solely as a result of the Lessee's,
23 sublessee's, contractor's, subcontractor's, guests', and invitee's actions. Notwithstanding the
24 foregoing, nothing contained in this Paragraph or elsewhere in this Lease shall be construed to
25 repudiate or vitiate any statutory or other obligation of the United States.

26
27 13.6 The Government's rights under this Lease specifically include the right for
28 Government officials, upon reasonable notice, to inspect the Lease Premises for compliance with
29 environmental, safety, and occupational health laws and regulations, whether or not the
30 Government is responsible for enforcing them. Such inspections are without prejudice to the
31 right of duly constituted enforcement officials to make such inspections. Lessee shall have no
32 claim on account of any entries against the United States or any officer, agent, employee,
33 contractor or subcontractor thereof. Notwithstanding the foregoing, nothing contained in this
34 Paragraph or elsewhere in this Lease shall be construed to repudiate or vitiate any statutory or
35 other obligation of the United States.

36
37 13.7.1 If environmentally sensitive materials or substances are to be
38 utilized, by or on behalf of Lessee, within the Lease Premises under this Lease, and excluding
39 those pre-existing on the Lease Premises, the Lessee and its contractors or sublessees shall
40 provide a Hazardous Waste Management Plan to the Government for review and approval prior
41 to commencement of any action. If environmentally sensitive materials or substances are to be
42 utilized by or on behalf of Lessee or sublessee on the Lease Premises, the Lessee or its sublessee

NSRR LEASE IN FURTHERANCE OF CONVEYANCE

Page 12.

1 shall, if required by Federal, Commonwealth or local law, apply for and obtain its own Resource
2 Conservation and Recovery Act (RCRA) generator identification number and RCRA hazardous
3 waste permit which permits shall be limited to generation, transportation and storage. The
4 Lessee shall not, under any circumstances, allow any hazardous waste to remain on or about the
5 Lease Premises for any period in excess of ninety (90) days. Any violation of these requirements
6 shall be deemed a material breach of this Lease. Government hazardous waste storage areas will
7 not be available to the Lessee or any sublessee. The Lessee or any sublessee must provide at its
8 own expense such hazardous waste storage facilities, complying with all laws and regulations, as
9 it needs for temporary (less than ninety (90) days) storage. Government accumulation points for
10 hazardous and other wastes will not be used by the Lessee or any sublessee. Neither will the
11 Lessee or any sublessee permit its hazardous wastes to be commingled with hazardous waste of
12 the Government.

13
14 13.7.2 Lessee shall strictly comply with the hazardous waste
15 permit requirements under the Resource Conservation and Recovery Act or its applicable
16 Commonwealth equivalent. Except as specifically authorized by Government in writing, Lessee
17 must provide at its own expense such hazardous waste management facilities complying with all
18 laws and regulations. Government hazardous waste management facilities will not be available
19 to Lessee. Any violation of the requirements of this condition shall be deemed a material breach
20 of this Lease.

21
22 13.8 The Lessee, its contractors, and any sublessee shall, if required by Federal,
23 Commonwealth or local law, have a completed and approved plan for responding to hazardous
24 waste, fuel, and other chemical spills prior to the commencement of operations on the Lease
25 Premises.

26
27 13.9 Any air, land or water pollution that emanates, as a result of the Lessee's
28 occupancy, use or operation of the Lease Premises, and which is not a result of Department of
29 Defense activities, shall be the responsibility of the Lessee and its contractors or sublessees for
30 reporting, containment, removal, and clean-up, as required by applicable law.

31
32 13.10 The Government, the U.S. Environmental Protection Agency (EPA), and
33 the Puerto Rico Environmental Quality Board (PREQB), and their officers, agents, employees,
34 contractors, and subcontractors shall have the right, upon reasonable notice to the Lessee and any
35 sublessee, to enter upon the Lease Premises for the purposes enumerated in this paragraph and
36 for such other purposes consistent with any provision of the Consent Order that may be required
37 with respect to the Lease Premises and which provisions thereof the Lessee agrees to incorporate
38 into this Lease:

39
40 13.10.1 To conduct investigations and surveys, including, where
41 necessary, drilling, soil and water sampling, test pitting, testing soil borings and other activities
42 related to the NSRR, Puerto Rico Consent Order that may be required in the future.

NSRR LEASE IN FURTHERANCE OF CONVEYANCE

Page 13.

1
2 13.10.2 To inspect field activities of the Government and its
3 contractors and subcontractors in implementing the NSRR Consent Order that may be required
4 in the future.

5
6 13.10.3 To conduct any test or survey required by the EPA or
7 PREQB related to the implementation of the requirements of the Consent Order or
8 environmental conditions at the Lease Premises or to verify any data submitted to the EPA or
9 PREQB by the Government relating to such conditions.

10
11 13.10.4 To construct, operate, maintain, or undertake any other
12 response or remedial action as required or necessary under the NSRR Consent Order including,
13 but not limited to, monitoring wells, pumping wells, and treatment facilities.

14
15 13.11 The Lessee agrees to comply with the provisions of any health or safety
16 plan in effect under the Consent Order during the course of any of the above described response
17 or remedial actions. Any inspection, survey, investigation, or other response or remedial action
18 will, to the extent practicable, be coordinated with representatives designated by Lessee and any
19 sublessee. Lessee, any sublessees, or licensees shall have no claim on account of such entries
20 against the Government or any officer, agent, employee, contractor, or subcontractor thereof,
21 except for claims allowed for and limited by the Federal Tort Claims Act, 28 U.S.C. 2671, *et seq.*
22 or as otherwise permitted by law. In addition, the Lessee shall comply with all applicable
23 Federal, Commonwealth, and local occupational safety and health regulations.

24
25 13.12 The Lessee shall not conduct or permit its contractors or sublessees to
26 conduct any subsurface excavation, digging, drilling or other disturbance of the surface of the
27 Lease Premises without the prior written approval of the Government, which consent will not be
28 unreasonably withheld.

29
30 14. ENVIRONMENTAL REMEDIATION.

31
32 Remediation by Lessee. Upon the execution by the Government and the Lessee
33 of this Lease, the Lessee will be permitted, but not required to, at its own cost, perform certain
34 environmental remediation requirements, as necessary to satisfy applicable Federal and PREQB
35 regulatory requirements.

36
37 15. TERMINATION.

38
39 15.1 Termination Upon Tender of Deed. Upon the occurrence of either of the
40 following, the passing of thirty (30) days after the Government tenders to Lessee, in accordance
41 with applicable law, a good and sufficient Quitclaim Deed conveying fee title to any portion of
42 the Lease Premises (each such portion hereinafter referred to as “Conveyed Portion”), or the

NSRR LEASE IN FURTHERANCE OF CONVEYANCE

Page 14.

1 acceptance by the Lessee of the Government tendered Quitclaim Deed, whichever occurs first,
2 (i) this Lease shall automatically terminate with respect to the applicable Conveyed Portion as if
3 such date were the stated expiration date contained herein and neither party shall have any
4 further obligations under this Lease with respect to the Conveyed Portion (other than any
5 obligations which otherwise would survive termination of this Lease), (ii) all references to the
6 Lease Premises shall be deemed to exclude such Conveyed Portion, and (iii) this Lease shall
7 continue in full force and effect with respect to the remainder of the Lease Premises.

8
9 15.2 Government Termination. The Government shall have the right to
10 terminate this Lease, at any time:

11
12 (i) upon Lessee's failure to perform or fulfill any obligation,
13 condition, term or agreement contained in this Lease required on the part of the Lessee to be
14 performed or fulfilled or,

15 (ii) in the event that the use is incompatible with the Finding of No
16 Significant Impact, or

17 (iii) in the event of a national emergency as declared by the President
18 or the Congress of the United States.

19
20 The Government's right to terminate this Lease under subdivisions (i) and (ii)
21 above may only be exercised if the Lessee does not cure such failure in a manner acceptable to
22 the Government within thirty days (or more if authorized in writing by the Government after
23 receipt of the written notice from the Government specifying the failure). Unless special
24 circumstances justify a shorter period, the Lessee will be provided with no less than sixty (60)
25 days written notice that termination is necessary and will be provided a reasonable time to vacate
26 the Lease Premises.

27
28 In the event that the Government shall elect to terminate this Lease on account of
29 the breach by the Lessee of any of the terms and conditions, the Government shall be entitled to
30 recover and the Lessee shall pay to the Government:

31
32 (i) the reasonable costs incurred in resuming possession of the Lease
33 Premises; and

34 (ii) the costs incurred in performing any obligation on the part of the
35 Lessee to be performed hereunder.

36
37 15.3 Termination by Lessee. Upon ninety (90) days written notice to the
38 Government, the Lessee shall have the right to terminate this Lease at no cost or expense or
39 further obligation or liability on the part of either party whatsoever, provided that Lessee shall
40 render the Lease Premises safe prior to such Lease termination and Lessee or sublessee(s)
41 vacating the Lease Premises.

NSRR LEASE IN FURTHERANCE OF CONVEYANCE

Page 15.

1 15.4 Environmental Contamination. In the event that an environmental
2 condition is discovered on the Lease Premises which creates, in the Government's determination,
3 an imminent and substantial endangerment to human health or the environment, and
4 notwithstanding any other termination rights and procedures contained in this Lease, this Lease
5 shall terminate with respect to the portion of the Lease Premises where such imminent and
6 substantial endangerment to human health or the environment exists, and the Lessee shall vacate,
7 or require any sublessee to vacate, such portion of the Lease Premises immediately upon notice
8 from the Government, or determination by Lessee and notice to Government, of the existence of
9 such a condition and the requirement to vacate such portion of the Lease Premises. Exercise of
10 this right by either party shall be without liability except that the Lessee shall not be responsible
11 for the further performance of any obligations under this Lease, after this Lease has been so
12 terminated for such portion of the Lease Premises.

13
14 16. INDEMNIFICATION BY LESSEE - GOVERNMENT NON-LIABILITY.

15
16 16.1 To the extent permitted by law, Lessee shall indemnify, defend, and save
17 the Government harmless, and shall require all sublessees (to the extent permitted by law) to
18 indemnify, defend, and save the Government harmless, and shall pay all costs, expenses, and
19 reasonable attorney's fees for all trial and appellate levels and post-judgment proceedings in
20 connection with any fines, suits, actions, damages, liability, and causes of action of every nature
21 whatsoever (civil or criminal) arising or growing out of, or in any manner connected with, the
22 occupation or use of the Lease Premises by the Lessee and the employees, subtenants, agents,
23 servants, guests, and invitees of the Lessee, including but not limited to, any fines, claims,
24 demands, and causes of action of every nature whatsoever which may be made upon, sustained,
25 or incurred by the Government by reason of any breach, violation, omission, or non-performance
26 of any term, covenant, or condition hereof on the part of the Lessee or the employees, subtenants,
27 agents, servants, guests, or invitees of the Lessee; however, this indemnity shall not extend to
28 matters caused by or resulting from acts or omissions by the Government, its officials, agents,
29 employees, contractors, guests or invitees. This covenant shall survive the termination of this
30 Lease.

31
32 16.2 To the extent permitted by law, the Lessee covenants that it will indemnify
33 and save and hold harmless, and shall require all sublessees (to the extent permitted by law) to
34 indemnify and save and hold harmless, the Government, its officers, agents, and employees for
35 and from any and all liability or claims for loss of or damage to any property owned by or in the
36 custody of the Lessee, its officers, agents, servants, employees, subtenants, licensees, or invitees,
37 or for the death of or injury to any of the same which may arise out of or be attributable to the
38 condition, state of repair or the Lessee's use or occupancy of the Lease Premises, whether or not
39 the same shall be occasioned by the negligence or lack of diligence of the Lessee, its officers,
40 agents, servants, subtenants or employees; however, this indemnity shall not extend to matters
41 caused by the Government, including Government officials, agents, employees, contractors,
42 guests and invitees.

NSRR LEASE IN FURTHERANCE OF CONVEYANCE

Page 16.

1
2 17. LESSEE'S LIABILITY EXTENDS TO ITS CONTRACTORS AND
3 SUBLESSEES. The Lessee's liability to the extent assumed under this Lease shall extend to the
4 performance of work or the use of the Lease Premises by any contractor or sublessee of the
5 Lessee under this Lease.

6
7 18. INSURANCE.

8
9 18.1 All Risk. Lessee shall in any event and without prejudice to any other
10 rights of Government bear all risk of loss or damage to the Lease Premises occupied or used by
11 Lessee or any of its sublessees, arising from any causes whatsoever, or in any manner connected
12 with the occupation or use of the Lease Premises by Lessee or any sublessees, or by a risk
13 customarily covered by insurance in the locality in which the Lease Premises are situated, even
14 where such loss or damage stems from causes beyond Lessee's control. In the event that any
15 item or part of the Lease Premises shall require repair, rebuilding, or replacement resulting from
16 loss or damage, the risk of which is assumed under this section, Lessee shall promptly give
17 notice thereof to Government, and shall, in the event that this Lease is terminated by reason of
18 the default of the Lessee and upon demand of Government, either compensate Government for
19 such loss or damage, or rebuild, replace, or repair the item or items of the Lease Premises so lost
20 or damaged.

21
22 18.2 Lessee's Insurance. During the entire period that this Lease shall be in
23 effect, the Lessee at its expense will carry and maintain or cause to be carried and maintained:
24

25 18.2.1 All-risks property and casualty insurance against the risks
26 enumerated in Paragraph 18.1 above in an amount at all times equal to at least 100 percent of the
27 full functional equivalent replacement value of the improvements within the Lease Premises not
28 approved for demolition.

29
30 18.2.2 Public liability and property damage insurance including, but not
31 limited to, insurance against assumed or contractual liability under this Lease, with respect to the
32 Lease Premises and improvements hereon, to afford protection with limits of a combined single
33 limit of liability of not less than \$5,000,000 in the event of bodily injury or death to any number
34 of persons in any one accident and for property damage.

35
36 18.2.3 If, and to the extent required by law, worker's compensation or
37 similar insurance in form and amounts required by law.

38
39 18.2.4 Automobile liability coverage of not less than \$1,000,000 per
40 person and not less than \$2,000,000 per occurrence for personal injury or death, and not less than
41 \$1,000,000 per occurrence for property damage.
42

NSRR LEASE IN FURTHERANCE OF CONVEYANCE

Page 17.

1 18.3 Lessee's Contractor's and Sublessee's Insurance. During the entire period
2 that this Lease shall be in effect, the Lessee shall require its contractors and sublessees and any
3 contractor performing work on the Lease Premises to carry and maintain the insurance required
4 below:

5
6 18.3.1 Comprehensive general liability insurance including, but
7 not limited to, contractor's liability coverage and contractual liability coverage of a combined
8 single limit of \$5,000,000 per occurrence with not less than \$5,000,000 general aggregate with
9 respect to personal injury or death and with respect to property damage. The comprehensive
10 general liability shall contain a per project aggregate endorsement.

11
12 18.3.2 Worker's compensation or similar insurance in form and
13 amounts required by law.

14
15 18.3.3 Automobile liability coverage of not less than \$1,000,000 per
16 person and not less than \$2,000,000 per occurrence for personal injury or death, and not less than
17 \$1,000,000 per occurrence for property damage.

18
19 18.4 Policy Provisions. All insurance which this Lease requires the Lessee to
20 carry and maintain, or cause to be carried or maintained shall be in such form, for such amounts,
21 for such periods of time, and with such insurers as the Government may require or approve. All
22 policies or certificates issued by the respective insurers for public liability and all-risks property
23 insurance shall name the Government as an additional insured; shall provide that any losses shall
24 be payable notwithstanding any act or failure to act or negligence of the Lessee or the
25 Government or any other person; shall provide that no cancellation, reduction in amount, or
26 material change in coverage thereof shall be effective until at least thirty (30) days after receipt
27 by the Government of written notice thereof; shall provide that the insurer shall have no right of
28 subrogation against the Government; and shall be reasonably satisfactory to the Government in
29 all other respects. In no circumstances will the Lessee be entitled to assign to any third party
30 rights of action which the Lessee may have against the Government.

31
32 18.5 Delivery of Policies. The Lessee shall deliver or cause to be delivered
33 promptly to the Government a certificate of insurance evidencing the insurance required by this
34 Lease and shall also deliver no later than thirty (30) days prior to the expiration of any such
35 policy, a certificate of insurance evidencing each renewal policy covering the same risks.

36
37 19. LABOR PROVISION.

38
39 19.1 Equal Opportunity. During the term of this Lease, the Lessee agrees as
40 follows:

NSRR LEASE IN FURTHERANCE OF CONVEYANCE

Page 18.

1 19.1.1 The Lessee will not discriminate against any employee or applicant
2 for employment because of race, color, religion, sex, or national origin. The Lessee will take
3 affirmative action to ensure that applicants are employed and that the Lessee's or sublessee's
4 employees are to be treated during employment without regard to their race, color, religion, sex,
5 or national origin. Such actions shall include, but not be limited to the following: employment,
6 upgrading, demotion, or transfer, recruitment or recruitment advertising, layoff or termination,
7 rate of pay or other forms of compensation, selection for training, including apprenticeship. The
8 Lessee agrees to post, in conspicuous places, notices to be provided by the Government setting
9 forth the provisions of this nondiscrimination clause.

10
11 19.1.2 The Lessee will, in all solicitations or advertisements for
12 employees placed by or on behalf of the Lessee, state that all qualified applicants will receive
13 consideration for employment without regard to race, color, religion, sex, or national origin.

14
15 19.1.3 The Lessee will send to each labor union or representative of
16 workers with which it has a collective bargaining agreement or other contract or understanding a
17 notice to be provided by the Government, advising the labor union or worker's representative of
18 the Lessee's commitments under this Equal Opportunity Clause and shall post copies of the
19 notice in conspicuous places available to employees and applicants for employment.

20
21 19.1.4 The Lessee will comply with all provisions of Executive Order
22 11246 of September 24, 1965, as amended by Executive Order 11375 of October 13, 1967, and
23 with the rules, regulations, and relevant orders of the Secretary of Labor.

24
25 19.1.5 The Lessee will furnish all information and reports required by
26 Executive Order 11246 of September 24, 1965, as amended by Executive Order 11375 of
27 October 13, 1967, and by the rules, regulations, and orders of the Secretary of Labor or pursuant
28 thereto, and will permit access to its books, records, and accounts by the Government and the
29 Secretary of Labor for purposes of investigating to ascertain compliance with such rules,
30 regulations, and orders.

31
32 19.1.6 In the event of the Lessee's noncompliance with the Equal
33 Opportunity Clause of this Lease or with any said rules, regulations, or orders, this Lease may be
34 canceled, terminated, or suspended in whole or in part, and the Lessee may be declared ineligible
35 for further Government contracts in accordance with procedures authorized in Executive Order
36 11246 of September 24, 1965, as amended by Executive Order 11375 of October 13, 1967, and
37 such other sanctions may be imposed and remedies invoked as provided in Executive Order
38 11246 of September 24, 1965, as amended by Executive Order 11375 of October 13, 1967, or by
39 rule, regulation, or order of the Secretary of Labor, or as otherwise provided by law.

40
41 19.1.7 The Lessee will include the above provisions in every sublease or
42 purchase order unless exempted by rules, regulations, or orders of the Secretary of Labor issued

NSRR LEASE IN FURTHERANCE OF CONVEYANCE

Page 19.

1 pursuant to section 204 of Executive Order 11246 of September 24, 1965, as amended by
2 Executive Order 11375 of October 13, 1967, so that such provisions will be binding upon each
3 sublessee or vendor. Lessee will take such action with respect to any sublessee or purchase order
4 as the Government may direct as a means of enforcing such provisions including sanctions for
5 noncompliance; provided, however, that in the event the Lessee becomes involved in, or is
6 threatened with, litigation with the sublessee or vendor as a result of such direction by the
7 Government, the Lessee may request the United States to enter into such litigation to protect the
8 interests of the United States.
9

10 19.2 Contract Work Hours and Safety Standards Act (40 U.S.C. 327-330). This
11 Lease, to the extent that it is a contract of a character specified in the Contract Work Hours
12 Standards Act (40 U.S.C. 327-330) and is not covered by the Walsh-Healy Public Contracts Act
13 (41 U.S.C. 35-45), is subject to the following provisions and exceptions of said Contract Work
14 Hours and Safety Standards Act and to all other provisions and exceptions of said law:
15

16 19.2.1 The Lessee shall not require or permit any laborer or mechanic any
17 workweek in which he is employed on any work under this Lease to work in excess of 40 hours
18 in such workweek on work subject to the provisions of the Contract Work Hours and Safety
19 Standards Act, unless such laborer or mechanic receives compensation at a rate not less than one
20 and one-half times his basic rate of pay for all such hours worked in excess of 40 hours in such
21 workweek. The "basic rate of pay", as used in this clause, shall be the amount paid per hour,
22 exclusive of the Lessee's contribution or cost for fringe benefits and any cash payment made in
23 lieu of providing fringe benefits, or the basic hourly rate contained in the wage determination,
24 whichever is greater.
25

26 19.2.2 In the event of any violation of the provisions of paragraph 19.2.1,
27 the Lessee shall be liable to any affected employee for any amounts due and to the United States
28 for liquidated damages. Such liquidated damages shall be computed with respect to each
29 individual laborer or mechanic employed in violation of the provisions of paragraph 19.2.1 in the
30 sum of \$10.00 for each calendar day on which such employee was required or permitted to be
31 employed on such work in excess of the standard workweek of 40 hours without payment of the
32 overtime wages required by paragraph 19.2.1.
33

34 19.3 Government Employees.

35

36 19.3.1 The Government shall pay and/or shall have its contractors pay all
37 wages and accruals of the current work force (hereinafter the "Employees") employed, directly
38 or indirectly by the Government or its contractors, at the Lease Premises in accordance with the
39 terms of the Government's contracts. No liabilities or claim relating to any of the Employees
40 shall be assumed by the Lessee, unless expressly agreed in writing. The Government retains
41 liability for all severance payments required by law, including payments under Puerto Rico Act
42 80 of May 30, 1976, as amended, any applicable Collective Bargaining Agreement and any other

NSRR LEASE IN FURTHERANCE OF CONVEYANCE

Page 20.

1 agreement executed by the Government that provides for payments for termination of
2 employment to any Employees.

3
4 19.3.2 The Government agrees to provide promptly to the Lessee copies
5 of all (i) Employee or contractor requests for severance payments, including requests for
6 severance payments under Puerto Rico Act 80 of May 30, 1976, as amended, any applicable
7 Collective Bargaining Agreement and any other agreement executed by the Government that
8 provides for payments for termination of employment to any Employees, together with the
9 names of such Employees, their status, seniority dates, and other pertinent information that
10 allows the Government to properly validate the request for severance payment, (ii) Government
11 responses to such requests for severance payments, and (iii) any releases executed by Employees
12 or contractors in consideration of such severance payments.

13
14 20. SUBMISSION OF NOTICES.

15
16 20.1. Notices. Notices shall be sufficient under this Lease if made in writing and
17 submitted, via certified mail or via a recognized overnight carrier, in the case of the Lessee to:

18
19 Executive Director
20 Local Redevelopment Authority for Naval Station Roosevelt Roads
21 New San Juan Office Building
22 159 Chardon Avenue, 2nd Floor
23 San Juan, PR 00918

19

20 Such notices shall be effective upon receipt if delivered personally or by messenger or
21 fourteen (14) business days after deposit in the mails if mailed. The above-named individuals or
22 offices so designated shall be the representatives of the parties and the points of contact during
23 the period of this Lease.
24

25 20.2 Additional Notice Parties. From time to time during the lease term,
26 Lessee may designate one or more additional parties (each, an “Additional Notice Party” and
27 collectively the “Additional Notice Parties”) to receive a copy of every notice sent to Lessee
28 hereunder. Such designation shall be made in writing in accordance with Paragraph 20.1 above,
29 and shall include the name of the Additional Notice Party, a complete mailing address (including
30 street address), telephone number and contact person. Following Government’s receipt of such
31 designation, Government shall cause a copy of any notice given to Lessee to be given
32 simultaneously to all Additional Notice parties. Lessee may remove an Additional Notice Party
33 or change an address or contact person by giving notice of the same in accordance with
34 Paragraph 20.1 above.
35

36 21. STORAGE. Any Government property which must, in the Lessee’s
37 determination, be removed to permit exercise of the privilege granted by this Lease shall be
38 stored, relocated, or removed from the site and returned to a specified location designated by the
39 Government within the confines of the Lease Premises, upon termination of this Lease, at the
40 sole cost and expense of the Government.
41

NSRR LEASE IN FURTHERANCE OF CONVEYANCE

Page 22.

1 22. AUDIT. This Lease shall be subject to audit by any and all cognizant
2 Government agencies. The Lessee shall make available to such agencies for use in connection
3 with such audits all records which it maintains with respect to this Lease and copies of all reports
4 required to be filed hereunder.

5
6 23. RESERVED.

7
8 24. AGREEMENT. This Lease shall not be modified unless in writing and signed by
9 both parties.

10
11 25. FAILURE TO INSIST ON COMPLIANCE. The failure of the parties to insist, in
12 any one or more instances, upon performance of any of the terms, covenants, or conditions of
13 this Lease shall not be construed as a waiver or relinquishment of such party's right to the future
14 performance of any such terms, covenants, or conditions, and such party's obligations in respect
15 of such future performance shall continue in full force and effect.

16
17 26. DISPUTES.

18
19 26.1 If a dispute arises under this Lease, the following procedures shall apply:
20 (1) Either party may invoke this dispute resolution procedure, (2) The parties shall make
21 reasonable efforts to informally resolve disputes at the lowest level prior to the issuance of a
22 formal written statement of dispute under the procedures set forth below, and (3) Both parties
23 shall abide by the terms and conditions of any final resolution of the dispute.

24
25 26.2 Within thirty (30) days after any action which leads to or generates a
26 dispute or after efforts to informally resolve a dispute have failed, either party may submit a
27 written statement of dispute to the other party setting forth the nature of the dispute, the work
28 affected by the dispute, the disputing party's technical and legal position regarding the dispute,
29 and the relief requested. The BRAC Real Estate Contracting Officer, BRAC Program
30 Management Office, Northeast, Naval Facilities Engineering Command, and the Executive
31 Director, LRA, shall serve as Dispute Resolution Managers for their respective party. The
32 written statement of dispute shall be mailed by the Dispute Resolution Manager for the disputing
33 party to the Dispute Resolution Manager for the other party.

34
35 26.3 The Dispute Resolution Managers shall have twenty-one (21) working
36 days to resolve the dispute from the date of receipt of the written statement of dispute. The
37 resolution of the dispute shall be memorialized in writing.

38
39 26.4 The parties shall diligently perform under this Lease pending the
40 completion of these dispute resolution procedures.
41

NSRR LEASE IN FURTHERANCE OF CONVEYANCE

Page 23.

1 26.5 If the Dispute Resolution Managers are unable to resolve the dispute
2 within twenty-one (21) working days of receipt of the written statement of dispute, the parties
3 may pursue whatever remedies they may have at law or equity.
4

5 26.6 The timeframes set forth above for reporting and resolution of disputes
6 may be extended by mutual agreement of the parties and such agreement shall be memorialized
7 in writing.
8

9 27. COVENANT AGAINST CONTINGENT FEES. The Lessee warrants that no
10 person or agency has been employed or retained to solicit or secure this Lease upon an
11 agreement or understanding for a commission, percentage, brokerage, or contingent fee,
12 excepting bona fide employees or bona fide established commercial agencies maintained by the
13 Lessee for the purpose of securing business. For breach or violation of this warranty, the
14 Government shall have the right to annul this Lease without liability or in its discretion to require
15 the Lessee to pay, in addition to the rental or consideration, the full amount of such commission,
16 percentage, brokerage, or contingent fee.
17

18 28. OFFICIALS NOT TO BENEFIT. No member of or delegate to Congress, or
19 Resident Commissioner, shall be admitted to any share or part of this Lease or to any benefit to
20 arise therefrom, but this provision shall not be construed to extend to this Lease if made with a
21 corporation for its general benefit.
22

23 29. MORTGAGE OF LEASEHOLD INTERESTS.
24

25 29.1 Except as herein provided, the Lessee or sublessee shall not: (a) engage in
26 any financing or other transaction creating any mortgage upon the Lease Premises; (b) place or
27 suffer to be placed upon the Lease Premises any lien or other encumbrance; or (c) suffer any levy
28 or attachment to be made on the Lessee's interest in the Lease Premises; any such mortgage,
29 encumbrance or lien shall be deemed a violation of this covenant on the date of its execution or
30 filing of record, regardless of whether or when it is foreclosed or otherwise enforced.
31

32 29.2 During the term of this Lease, the Lessee or sublessee may encumber its
33 (or their) leasehold interest(s) as well as its (or their) interest(s) in the improvements on the
34 Lease Premises by one or more loans secured by a mortgage. The proposed holder of any such
35 mortgage must be approved by the Government prior to the execution of such loan and, upon
36 such approval, which shall not be unreasonably withheld, shall be referred to herein as the
37 "Mortgagee". Notwithstanding any foreclosure, the Lessee shall remain liable for the
38 performance of all the provisions of this Lease which, by the terms hereof are to be carried out
39 and performed by the Lessee, and any approved sublease shall remain subject to the provisions
40 of this Lease in accordance with Paragraph 5.
41

NSRR LEASE IN FURTHERANCE OF CONVEYANCE

Page 24.

1 29.3 The Lessee shall notify the Government promptly of any lien or
2 encumbrance which has been created or attached to the improvements or the Lessee's or
3 sublessee's interest in the improvements, whether by act of the Lessee or sublessee or otherwise,
4 of which the Lessee or the sublessee itself has notice. If a Mortgagee or purchaser at foreclosure
5 of the mortgage shall acquire the Lessee's or sublessee's interest in the improvements by virtue of
6 the default by the Lessee or sublessee under the mortgage or otherwise, this Lease shall continue
7 in full force and effect so long as the Mortgagee or purchaser at foreclosure is not in default
8 hereunder. The Mortgagee or purchaser at foreclosure may not appoint an agent or nominee to
9 operate this Lease on its behalf without obtaining the prior written approval of the Government's
10 Authorized Contracting Officer. For the period of time during which the Mortgagee or any
11 purchaser at foreclosure of a mortgage holds the Lessee's or sublessee's interest, the Mortgagee
12 or such purchaser shall become liable and fully bound by the provisions of this Lease.
13

14 29.4 In no event shall the right granted herein to the Lessee or sublessee to
15 mortgage or otherwise encumber Lessee's or sublessee's leasehold interest, created by and
16 pursuant to this Lease, be deemed or interpreted as a subordination of the Government's interest
17 in the Lease Premises to the lien of such mortgage or encumbrance, it being expressly agreed
18 that under no circumstances shall the Lessee or sublessee have the right to mortgage or encumber
19 the interest of the Government in the Lease Premises or subordinate such interests to the lien of
20 any mortgage or encumbrance that Lessee or sublessee may place upon its leasehold estate
21 created by and pursuant to this Lease.
22

23 29.5 The Government consents to Lessee's or its sublessee's grant, if any, to the
24 Mortgagee of a security interest in any fixtures, equipment, inventory and/or other personal
25 property owned by the Lessee or its sublessees and located on the Lease Premises. The
26 Government hereby waives any interest that the Government may have in such personal
27 property, by virtue of this Lease.
28

29 29.6 Any mortgages, liens, encumbrances or other interests created pursuant to
30 Paragraph 29 shall not be subject to the provisions of Paragraph 30.
31

32 29.7 Estoppels Certificates. Provided the facts support such a statement,
33 Government and Lessee shall within 10 days of written request by the other, certify by written
34 instrument as to the following:
35

- 36 (i) That the Lease is unmodified and in full force and effect;
37 (ii) That no default has occurred under the Lease which has not been
38 waived, and no event has occurred which, but for the passage of time and/or the giving of notice,
39 would constitute a default under the Lease;
40 (iii) that to their best knowledge, there are no existing claimed set-offs
41 or defenses against the enforcement of any of the agreements, terms, covenants or conditions of

NSRR LEASE IN FURTHERANCE OF CONVEYANCE

Page 25.

1 the Lease and any modifications of the Lease on the part of the other party to be performed or
2 complied with; and

3 (iv) The date of expiration of the term.
4

5 30. LIENS. Subject to Paragraph 29 above, the Lessee shall promptly discharge or
6 cause to be discharged valid liens, rights in rem, claims, or demands of any kind, except one in
7 favor of the Government, which at any time may arise or exist as a result of any action of Lessee
8 or any sublessee with respect to the Lease Premises or materials or equipment furnished
9 therefore, or any part thereof, and if the same shall not be promptly discharged by the Lessee, or
10 should the Lessee or sublessee be declared bankrupt or make an assignment on behalf of
11 creditors, or should this Leasehold estate be taken by execution, the Government reserves the
12 right to take immediate possession without any liability to the Lessee or any sublessee. The
13 Lessee and any sublessee shall be responsible for all costs incurred by the Government in
14 securing clear title to its property.
15

16 31. TAXES. To the extent that Lessee subleases the Lease Premises, such sublessee
17 shall pay to the proper authority, when and as the same become due and payable, all taxes,
18 assessments, and similar charges which, at any time during the term of this Lease, may be
19 imposed upon the Lessee with respect to the Lease Premises. Section 2667(e) of title 10, United
20 States Code, contains the consent of Congress to the taxation of the Lessee's interest in the Lease
21 Premises, whether or not the Lease Premises are in an area of exclusive Federal jurisdiction.
22 Should Congress consent to taxation of the Government's interest in the Lease Premises, this
23 Lease will be renegotiated.
24

25 32. SUBJECTION TO EXISTING AND FUTURE EASEMENTS AND RIGHTS OF
26 WAY. This Lease is subject to all outstanding easements and rights of way for location of any
27 type of facility over, across, in, and upon the Lease Premises, or any portion thereof, and to the
28 right of the Government to grant such additional easements and rights of way over, across, in and
29 upon the Lease Premises as it shall determine to be in the public interest; provided that any such
30 additional easement or right of way shall be conditioned on the assumption by the grantee
31 thereof of liability to the Lessee for such damages as the Lessee shall sustain for property
32 destroyed or property rendered unusable on account of the grantee's exercise of its rights
33 thereunder. There is hereby reserved to the holders of such easements and rights of way as are
34 presently outstanding or which may hereafter be granted, to any workers officially engaged in
35 the construction, installation, maintenance, operation, repair, or replacement of facilities located
36 thereon, and to any Federal, Commonwealth, or local official engaged in the official inspection
37 thereof, such reasonable rights of ingress and egress over the Lease Premises as shall be
38 necessary for the performance of their duties with regard to such facilities.
39

40 33. INGRESS-EGRESS. The Lessee and any sublessees shall be granted reasonable
41 access to the Lease Premises. Such access will be coordinated with the local representative of
42 the Government. As a condition, the Lessee and any sublessee agrees to adhere to all

NSRR LEASE IN FURTHERANCE OF CONVEYANCE

Page 26.

1 Government rules and regulations regarding security, ingress, egress, safety and sanitation as
2 may be prescribed from time to time by the Local Government Representative.

3
4 34. ADMINISTRATION. Except as otherwise provided for under this Lease, the
5 Director, Navy BRAC PMO SE, shall have complete charge of the administration of this Lease
6 and shall exercise full supervision and general direction thereof insofar as the interests of
7 Government are affected.

8
9 35. SURRENDER. Should the Lease be terminated prior to conveyance of the Lease
10 Premises, the Lessee shall quietly and peacefully remove itself and its property from the Lease
11 Premises and surrender the possession thereof to the Government; provided, that in the event the
12 Government shall terminate this Lease upon less than ninety (90) days notice, the Lessee shall be
13 allowed a reasonable period of time, as determined by the Government, but in no event to exceed
14 ninety (90) days from receipt of notice of termination, in which to remove all of its property from
15 and terminate its operations on the Lease Premises. During such period prior to surrender, all
16 obligations assumed by the Lessee under this Lease shall remain in full force and effect. The
17 Government may, in its discretion, declare that any property which has not been removed from
18 the Lease Premises upon termination as provided above, is abandoned property, upon an
19 additional thirty (30) days notice.

20
21 36. APPLICABILITY OF LAW. Lessee shall comply with all applicable Federal,
22 Commonwealth and local laws, rules and regulations which may arise by reason of this Lease.

Said parcel containing 53,607.9 square feet or 1.231 acres, which equates to 4,980.3 square meters or 1.267 cuerdas.

LEGAL DESCRIPTION AOC F 2842 B

Beginning at a survey control point in the Ward of Machos, said point being a brass disk set in concrete. Said point also known as 'CAMP' and having a northing of 800851.3059 and an easting of 941574.6311 noted as the Point of Beginning on the plat labeled "SWMU 78, 11, 45 & AOC F 2842 B" Thence S15°12'23"W 844.28' to an iron rod set, the True Point of Beginning, having a northing of 800036.5863 and an easting of 941353.1808:

Thence S57°04'05"E 335.05' to an iron rod set;
Thence S37°06'48"W 63.83' to a MAG nail set;
Thence S37°05'01"W 45.51' to a MAG nail set;
Thence N57°38'42"W 72.97' to an iron rod set;
Thence S35°44'10"W 121.41' to a MAG nail set;
Thence N55°32'58"W 254.23' to an iron rod set;
Thence N34°27'08"E 224.39' to an iron rod set, the True Point of Beginning.

Said parcel containing 66,625.6 square feet or 1.530 acres, which equates to 6,189.7 square meters or 1.575 cuerdas.

DN-301 **SWMU 57 (AS IS & For Segregation)**

RURAL: Parcel of land identified as SWMU 57, situated in the Ward of Machos, Municipality of Ceiba, Puerto Rico, containing an area of eight thousand seven hundred square meters and three hundred thousandths of a square meter (8,700.300 s.m.); equivalent to two cuerdas and two hundred and fourteen thousandths of a cuerda (2.214 cuerdas); bounded on the NORTH, SOUTH, EAST and WEST by lands of the principal estate from which it is segregated, property of the United States of America.

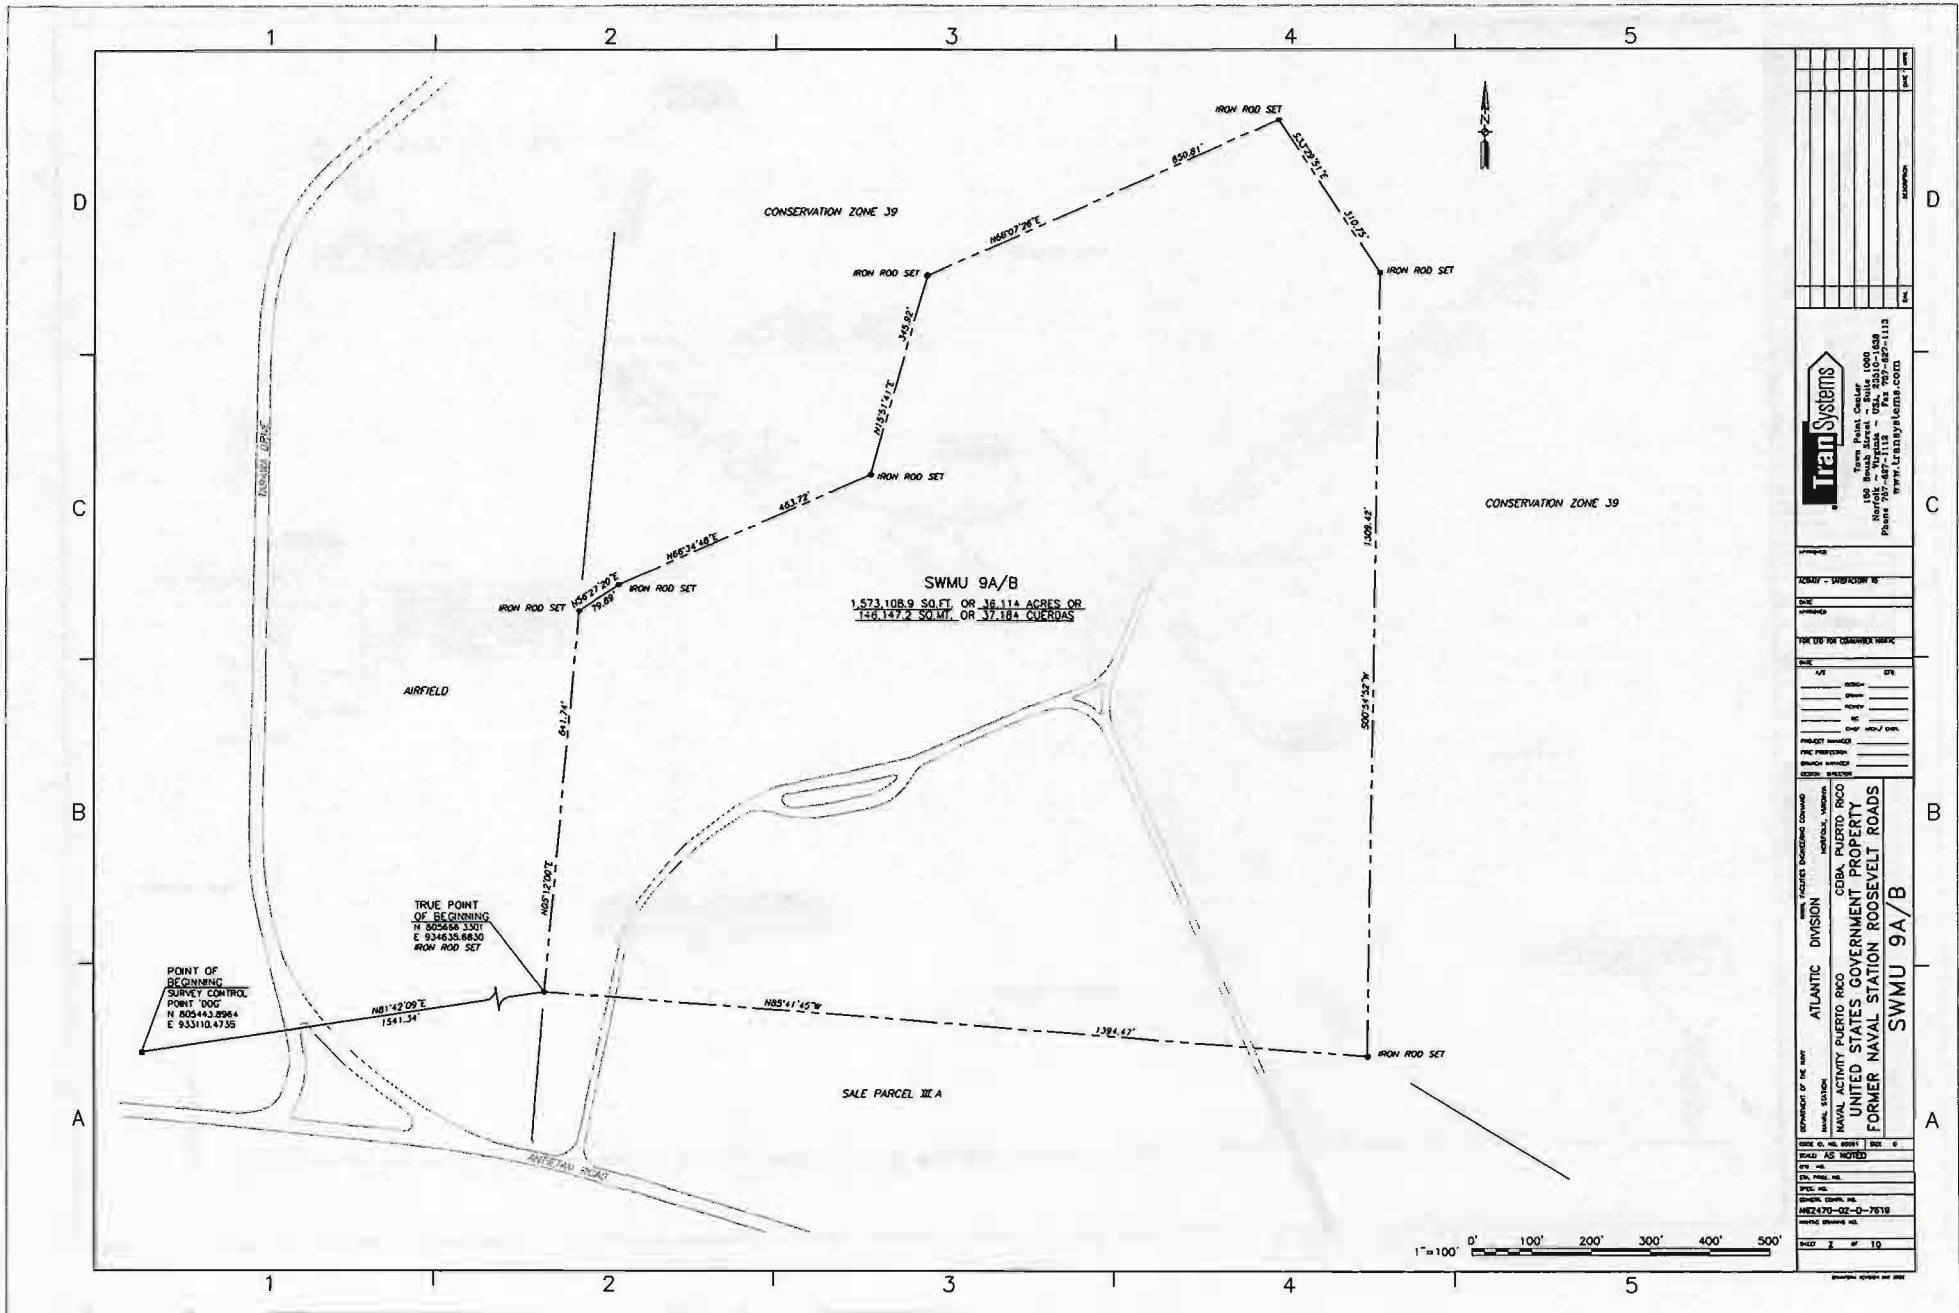

DN-301 **AOC F 1738 (AS IS & For Segregation)**

RURAL: Parcel of land identified as AOC F 1738, situated in the Ward of Machos, Municipality of Ceiba, Puerto Rico, containing an area of twenty one thousand twenty four square meters (21,024.000 s.m.); equivalent to five cuerdas and three hundred forty nine thousandths of a cuerda (5.349 cuerdas); bounded on the NORTH by lands of Conservation Zone 39 (Commonwealth of Puerto Rico, Department of Natural Resources) and by lands of the principal estate from which it is segregated, property of the United States of America, on the SOUTH, EAST and WEST by lands of the principal estate from which it is segregated, property of the United States of America.

Segregation from Forrestral Treatment Plant Parcel

DN-301 **SWMU 29 (AS IS & For Segregation from Forrestral)**

RURAL: Parcel of land identified as SWMU 29, situated in the Ward of Guayacán, Municipality of Ceiba, Puerto Rico, containing an area of eleven thousand sixty nine square meters and six hundred thousandths of a square meter (11,069.600 s.m.); equivalent to two cuerdas and eight hundred sixteen thousandths of a cuerda (2.816 cuerdas); bounded on the NORTH, SOUTH, EAST and WEST by lands of the principal estate from which it is segregated, property of the United States of America.

DESCRIPTION OF WASTEWATER UTILITY SYSTEM

Waste Water Utility System (or when singular, Waste Water Utility): Sanitary sewer system.

Waste Water Utility Facilities (or, when singular, Waste Water Utility Facility): All surface, subsurface or elevated pipes, poles, lines, service connections, conduits, tanks, feeders, wires, fixtures, ducts, manholes, handholes, hydrants, valves, cables, equipment (including but not limited to process equipment), facilities, and necessary devices now or hereafter used for supplying, distributing, treating, storing, containing or conducting any Waste Water Utility, up to the five (5) foot building line.

Waste Water Utility Structures (or when singular, Waste Water Utility Structure): Any building, structure, facility, pumphouse, pumping station, metering station, reducing station, lift station, containment vessel, reservoir, catch basin, outfalls, vault, or similar improvement, used or intended to be used for containment, conduction, distribution, assembly, location or relocation of any Waste Water Utility Facility.

FINDINGS OF NO SIGNIFICANT IMPACT (FONSI)s

DEPARTMENT OF DEFENSE
DEPARTMENT OF THE NAVY

FINDING OF NO SIGNIFICANT IMPACT FOR THE PROPOSED DISPOSAL OF
NAVAL ACTIVITY PUERTO RICO (FORMER NAVAL STATION ROOSEVELT
ROADS), CEIBA, PUERTO RICO.

Pursuant to section 102(2)(C) of the National Environmental Policy Act (NEPA) of 1969 and the Council on Environmental Quality (CEQ) regulations (40 CFR Parts 1500-1508) implementing the procedural provisions of NEPA, the Department of the Navy (the Navy) gives notice that an Environmental Assessment (EA) has been prepared, and that an Environmental Impact Statement is not required for the disposal of Naval Activity Puerto Rico (NAPR), Ceiba, Puerto Rico. The United States Department of Interior, United States Fish and Wildlife Service (USFWS) was a cooperating agency in the preparation of the EA.

The proposed action of the EA is to comply with Public Law 108-87, charging the Navy to close Naval Station Roosevelt Roads (NSRR). Accordingly, on March 31, 2004, NSRR ceased operations as a Naval Station and was re-designated as NAPR. The property is currently in caretaker status. The proposed action evaluated in this EA is the disposal of 8,435 acres of excess federal land at NAPR. This EA addressed only the environmental impacts of disposal to non-federal interests. Properties totaling approximately 230 acres would remain in federal ownership; however, operational responsibility for these parcels would be transferred by the Navy to other federal entities. Therefore, these lands were excluded from analysis in this EA.

Although the proposed action is the disposal of the excess 8,435-acre property at NAPR, reuse and redevelopment of the property by third-party entities would follow the disposal of NAPR as required by the Base Realignment and Closure Act of 1990 (BRAC), the Reuse Plan is included as part of the proposed action. Therefore, the Reuse Plan for the property developed by the Commonwealth of Puerto Rico, which provides the most current information regarding reasonable future-use scenarios, once transfer of ownership of the property is completed, has been incorporated into the EA. Because the Reuse Plan was developed while keeping the use of existing infrastructure and facilities in mind, the proposed reuse of the land is very similar to its historic uses before NSRR ceased operations.

The process of identifying and selecting reasonable alternatives for the disposal of NAPR evolved during the completion of the ECP and Reuse Plan. The primary goal of the Local Redevelopment Authority's (LRA) Reuse Plan is to lessen the immediate negative economic impact of the base closure on the surrounding region. For that to occur, redevelopment must be completed in a timely fashion and avoid extensive delays associated with agency permitting requirements and site remediation activities. To that end, the LRA has worked diligently and closely with the Navy to develop a reuse scenario that maximizes existing infrastructure at NAPR while avoiding or accommodating areas constrained by significant natural resources, historic properties,

and cleanup sites. As a result of the close coordination between the LRA and Navy during the preparation of the Reuse Plan, each of the proposed land uses through Phase II are virtually consistent with existing land uses. Because the Reuse Plan was developed keeping the use of existing infrastructure and facilities in mind, the proposed reuse of land is very similar to historic uses before NSRR ceased operations. Moreover, since historic and proposed land uses are congruent, those restrictions that need to be instituted by the Navy would be nearly identical under any disposal scenario. Consequently, no other reasonable alternatives for disposal of NAPR were identified as susceptible to a meaningful analysis.

A No-Action Alternative was also considered in this EA and entailed placing NAPR in an inactive status but maintaining it for some potential future federal use. Implementation of the No-Action Alternative does not benefit the Navy in that it would retain ownership and liability for the property with no functional, operational, or strategic value; and does not benefit the local community in that any possibility of viable, productive use of the land would be removed.

The LRA, in conjunction with the Puerto Rico Planning Board (PRPB) is developing a Special Zoning Plan for NAPR. Upon its adoption, this plan would serve as the official zoning of the property. Any future development projects proposed on former NAPR property would be reviewed by the PRPB to ensure that such development is consistent with the Special Zoning Plan.

Marine waters adjacent to NAPR support sensitive environmental resources such as essential fish habitat (e.g., coral reefs and sea grass beds) as well as threatened and endangered species, including sea turtles, the West Indian manatee, and the yellow-shouldered blackbird. Because of the speculative nature of the Reuse Plan, its full effects on listed species cannot be addressed. However, there are a number of conservation measures that Commonwealth and/or federal resource agencies could/may impose on non-federal owners/developers before development-specific approvals or permits are issued. Implementing these conservation measures would be the responsibility of the new owner/developer, and the respective issuing agency would be responsible for ensuring that these recommendations are instituted. The Navy would no longer retain any ownership or control of these properties.

In consultation with the U.S. Fish and Wildlife Service (USFWS), the Navy has developed parcel-specific conservation guidelines that list species-specific conservation recommendations for future land owners to consider. This EA identifies the conservation guidelines to be provided to new owner(s)/developer(s) to offset potential impacts. Accordingly, during Section 7 consultation pursuant to the Endangered Species Act (ESA), in a letter dated April 7, 2006, USFWS concurred with the Navy's determination that the proposed action is "not likely to adversely affect" federally listed species and would not result in adverse modification of critical habitat within the project area.

The EA was prepared concurrently with the performance of relevant Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA) hazardous

substance studies and investigations. The cleanup of contaminated sites at NAPR is primarily managed under the corrective action portion of the current Resource Conservation and Recovery Act (RCRA) Part B permit issued by the Environmental Protection Agency (EPA). The Navy has submitted an application for renewal of the Part B permit. Since base operations requiring the Part B permit are no longer in operation, only the corrective action portion of the permit remains applicable. The Navy has worked in cooperation with EPA and PREQB to convert the regulation of corrective action requirements from this permit to a RCRA §7003 Administrative Order on Consent (§7003 Order) prior to property transfer.

Prior to implementing the Proposed Action, a Memorandum of Agreement (MOA) between the Navy and the Puerto Rico State Historic Preservation Office (SHPO) has been executed. The MOA details which archaeological sites at NAPR would undergo data recover and to what level. In addition, it specifies the level of documentation needed for respective historic structures or the consultation process needed to establish the level of recordation. Through the execution of a MOA, and by implementing the stipulations of the MOA, the Navy would meet their requirements under Section 106 of the NHPA.

The analysis conducted in the EA focused on the following resources: Land Use and Aesthetics, Soils, Water Quality, Air Quality, Noise, Terrestrial and Marine Environments, Threatened and Endangered Species, Socioeconomic Conditions, Cultural Resources, Environmental Contamination, and Coastal Zone Management.

Based on information gathered during preparation of the EA, the Navy concluded that implementation of the Proposed Action will have no significant adverse impacts on the environment and that an EIS is not warranted.

The EA and FONSI prepared by the Navy addressing this action may be obtained from: Department of the Navy, BRAC Program Management Office SE, 4130 Faber Place Drive, Suite 202, North Charleston, SC 29405, Attn: Darrell Molzan, 843-743-2129, darrell.molzan@navy.mil. A limited number of copies of the EA and FONSI are available to fill single copy requests.

**DEPARTMENT OF DEFENSE
DEPARTMENT OF THE NAVY**

**FINDING OF NO SIGNIFICANT IMPACT FOR THE PROPOSED DISPOSAL
OF NAVAL ACTIVITY PUERTO RICO (FORMER NAVAL STATION
ROOSEVELT ROADS), CEIBA, PUERTO RICO.**

Pursuant to section 102(2)(C) of the National Environmental Policy Act (NEPA) of 1969 and the Council on Environmental Quality regulations (40 CFR Parts 1500-1508) implementing the procedural provisions of NEPA, the Department of the Navy (the Navy) gives notice that a Supplemental Environmental Assessment (SEA) has been prepared, and that an Environmental Impact Statement is not required for the disposal of Naval Activity Puerto Rico (NAPR), Ceiba, Puerto Rico. The Puerto Rico Environmental Quality Board was a cooperating agency in the preparation of the SEA.

Pursuant to the United States Department of Defense (DoD) Appropriations Act of Fiscal Year 2004 (Public Law 108-87), the Navy closed Naval Station Roosevelt Roads (NSRR) in Puerto Rico in Spring 2004. Accordingly, on March 31, 2004, NSRR ceased operations as a Naval Station. The base was re-designated as Naval Activity Puerto Rico (NAPR) to maintain a Navy presence and associated security during the disposal process.

In 2007, the Navy prepared the Environmental Assessment (EA) for the Disposal of Naval Activity Puerto Rico (referred to herein as the 2007 EA) that evaluated the potential environmental impacts associated with the disposal of NAPR. To oversee the planning process for future development of NAPR, the Commonwealth created a Local Redevelopment Agency (LRA). In 2004, the LRA developed the Naval Station Roosevelt Roads Reuse Plan (Reuse Plan). The potential disposal and reuse of the property, as proposed in the Reuse Plan, was the basis for the evaluation of the potential impacts in the 2007 EA, which was considered consistent with the Puerto Rico Public Environmental Act (Law No. 9).

Proposed Action: In April 2010, the Commonwealth, through the LRA, submitted an addendum to the original 2004 Reuse Plan (referred to herein as the 2010 Reuse Plan Addendum, or the Addendum). The Proposed Action evaluated in this SEA is the proposed reuse of Parcel III located at NAPR, as identified in the 2010 Reuse Plan Addendum. The 2010 Reuse

Plan Addendum is conceptual and focuses on proposed land uses and not on specific developments. The LRA, in conjunction with the Puerto Rico Planning Board (PRPB), has developed a Special Zoning Plan for NAPR based on the 2010 Reuse Plan Addendum. Upon its adoption, this plan would serve as the official zoning of the property. Any future development projects proposed on former NAPR property would be reviewed by the PRPB to ensure such development is consistent with the Special Zoning Plan.

The SEA herein evaluates the environmental consequences of the proposed reuse of the NAPR property in accordance with the Commonwealth's 2004 Reuse Plan, as modified by the 2010 Reuse Plan Addendum, and adopted by the Commonwealth and the LRA. The disposal of the NAPR property is the responsibility of the Navy; redevelopment will be the responsibility of future owners of the property.

The 2007 EA evaluated the environmental consequences of the 2004 Reuse Plan. This SEA supplements the 2007 EA in accordance with the CEQ regulations (40 CFR 1502.21) and analyzes only the effects of those elements of the 2010 Reuse Plan Addendum that are substantially different than those of the original 2004 Reuse Plan. The 2010 Reuse Plan Addendum categorized the proposed redevelopment into four distinct phases. The impacts associated with the proposed reuse, as defined by Phases I and II, are considered indirect impacts of reuse of the predominantly existing infrastructure of NAPR. CEQ regulations (40 CFR 1508.8[b]) cite growth-inducing effects and other effects related to induced changes in the pattern of land use, population density, or growth rate and related effects on air and water and other natural systems as examples of indirect impacts. The impacts associated with long-range future redevelopment (Phases III and IV) are based on expansion of the existing infrastructure at NAPR and unforeseen economic factors and, therefore, are being considered as cumulative effects of the Proposed Action. All reasonably foreseeable elements of the 2010 Reuse Plan Addendum are analyzed in this SEA.

Alternatives Analyzed: Although the Navy's Proposed Action is reuse of Parcel III of the NAPR property, restrictions imposed on land use by the Navy may affect the long-term redevelopment potential for the property. Thus, the two alternatives analyzed in this document are: (1) reuse of Parcel III property at NAPR as identified in the Commonwealth's 2010 Reuse Plan Addendum, and (2) (the No-

Action Alternative): disposal of NAPR consistent with the 2004 Reuse Plan in accordance with the Preferred Alternative for Parcel III as identified in the 2007 EA (Finding of No Significant Impact [FONSI] signed on April 10, 2007). The No-Action Alternative also establishes a baseline to identify and compare potential environmental consequences from the redevelopment of NAPR as identified for the Preferred Alternative in the 2004 Reuse Plan.

Marine waters adjacent to NAPR support sensitive environmental resources such as essential fish habitat (e.g., coral reefs and sea grass beds) as well as threatened and endangered species, including sea turtles, the West Indian manatee, and the yellow-shouldered blackbird. Because of the speculative nature of the Reuse Plan, its full effects on listed species cannot be addressed. However, there are a number of conservation measures that Commonwealth and/or federal resource agencies could/may impose on non-federal owners/developers before development-specific approvals or permits are issued. Implementing these conservation measures would be the responsibility of the new owner/developer, and the respective issuing agency would be responsible for ensuring that these measures are instituted. After disposal, the Navy would no longer retain any ownership or control of these properties.

In consultation with the U.S. Fish and Wildlife Service (USFWS), the Navy has developed parcel-specific conservation guidelines that list species-specific conservation recommendations for future land owners to consider. This EA identifies the conservation guidelines to be provided to new owner(s)/developer(s) to offset potential impacts. Accordingly, during Section 7 consultation pursuant to the Endangered Species Act (ESA), in a letter dated August 25, 2011, USFWS concurred with the Navy's determination that, by adoption of the conservation measures previously approved for the 2004 Reuse and Special Zoning Plan, re-initiation of consultation under Section 7 of the ESA would not be necessary.

Prior to implementing the Proposed Action, a Memorandum of Agreement (MOA) negotiated between the Navy and the Puerto Rico State Historic Preservation Office (SHPO) will be executed. The MOA details which archaeological sites at NAPR would undergo data recovery and to what level. In addition, it specifies the level of documentation needed

for respective historic structures or the consultation process needed to establish the level of recordation. Through the execution of a MOA, and by implementing the stipulations of the MOA, the Navy would meet their requirements under Section 106 of the NHPA. Although the MOA has not yet been signed by the SHPO (signature by all parties is anticipated shortly) agreement has been reached between the SHPO and the Navy as to the contents of the document and signature by all parties will occur prior to any transfer of property by the Navy as a result of this FONSI.

The analysis conducted in the SEA focused on the following resources: Land Use and Aesthetics, Soils, Water Quality, Air Quality, Noise, Terrestrial and Marine Environments, Threatened and Endangered Species, Socioeconomic Conditions, Cultural Resources, Environmental Contamination, and Coastal Zone Management.

Based on information gathered during preparation of the SEA, the Navy concluded that implementation of the Proposed Action will have no significant adverse impacts on the environment and that an EIS is not warranted.

The SEA and FONSI prepared by the Navy addressing this action may be obtained from: Department of the Navy, BRAC Program Management Office SE, 4130 Faber Place Drive, Suite 202, North Charleston, SC 29405, Attn: Dale Johannesmeyer, 843-743-2128, dale.johannesmeyer.ctr@navy.mil. A limited number of copies of the SEA and FONSI are available to fill single copy requests.

JOINT INSPECTION REPORT

JOINT INSPECTION REPORT

Naval Activity Puerto Rico EDC – Leased Premises Parcels

On 24 January 2012, Mr. Daniel Kalal (Area Program Director) and Mr. Pedro Ruiz (Environmental Engineer) representing the Naval Activity Puerto Rico, and Mrs. Thuane B. Fielding (Base Closure Manager) representing the BRAC PMO SE, and Mr. Alfonso Martinez, Mr. Hector Ralat, Mr. Freddy de Jesus representing the Naval Station Roosevelt Roads Local Redevelopment Authority (NSRR LRA), conducted a walk-through inspection of facilities/ Solid Waste Management Units (SWMUs)/Area of Concerns (AOCs) located within the parcels identified as the Leased Premises parcel.

This report covering the following facilities/SWMUs/AOCs has been examined and represents the condition of the real property as observed during the walk through.

Buildings 1471 (Capehart Waste Water Treatment Plant), 1757 (Bundy Waste Water Treatment Plant), 1758 (Forrestal Waste Water Treatment Plant); SWMU 3 – Base Landfill; SWMU 9 – Tank 212-217 Sludge Burial Pits; SWMU 45 – Building 38 Exterior; SWMU 27 – Capehart Waste Water Treatment Plant Drying Beds; SWMU 28 – Bundy Waste Water Treatment Plant Drying Beds; SWMU 29 – Forrestal Waste Water Treatment Plant Drying Beds; SWMU 31 – Waste Oil Collection Area (Buildings 31 & 2022); SWMU 32 – Public Works Department Storage Yard/Battery Collection Area; SWMU 57 – POL Drum Storage Area (Facility 278); SWMU 59 – Former Vehicle Maintenance & Refueling Area (Buildings 377, 2344, 2345); SWMU 60 – Former Landfill at Marina; SWMU 67 – Former Gas Station; SWMU 70 – Disposal Area Northwest of Landfill; SWMU 74 – Fuel Pipelines & Hydrant Pits; SWMU 78 – Transformer Storage Pad; AOC F – Former Underground Storage Tanks (USTs) (Building 124); AOC F – USTs (Building 1738); and AOC F – USTs 2842B (Building 3188).

A joint inspection report was not completed with respect to SWMU 11 (Building 38 Interior) and SWMU 77 (Former Small Arms Range) as entry to these areas is prohibited. Security, maintenance, repair, upkeep and inspection of the interior, exterior and subsurface of SWMU 11 (Building 38 Interior) and SWMU 77 (Former Small Arms Range) shall be the responsibility of the Navy.

Specific characteristics of the facilities/SWMUs/AOCs have been identified to the parties during the walk through. The information and findings presented herein are recorded for protection of both the Navy and the NSRR LRA. Existing conditions so noted do not render the facility unsuitable for its continued use.

SWMU 31- Waste Oil Collection Area (Buildings 31 & 2022)

EXTERIOR & GENERAL

<u>ITEM</u>	<u>CONDITION</u> (Good-Fair-Poor)	<u>DESCRIPTION</u>	<u>FINDINGS</u>
--------------------	---	---------------------------	------------------------

Approximately 0.6 combined acres with SWMU 32. Located in the Public Works Department storage yard near the Transportation Shop, it consists of a curbed, concrete pad used for temporary outdoor storage of waste oil containers. During a 1993 inspection, oil staining surrounded the storage pad.

SWMU 31

SWMU 32 – Public Works Department Storage Yard/Battery Collection Area

EXTERIOR & GENERAL

<u>ITEM</u>	<u>CONDITION</u> (Good-Fair-Poor)	<u>DESCRIPTION</u>	<u>FINDINGS</u>
--------------------	---	---------------------------	------------------------

Approximately 0.6 combined acres with SWMU 31. In 1988, it was an outdoor area where discarded batteries were stored. Approximately 100 55-gallon drums of contaminated jet fuel and soil were observed stored on wooden pallets resting on bare ground during the 1993 follow-up investigation. Along with these drums, an area of stained soil was visible, discarded batteries were noted, and a small, partially open, uncurbed storage building (“paint locker”) contained cans.

SWMU 32

SWMU 45 – Power Plant (Building 38 Exterior)

EXTERIOR & GENERAL

<u>ITEM</u>	<u>CONDITION</u> (Good-Fair-Poor)	<u>DESCRIPTION</u>	<u>FINDINGS</u>
--------------------	---	---------------------------	------------------------

Approximately 15 acres. SWMU 45 is the exterior of Building 38 where transformer oils containing PCBs were routinely discarded directly onto the ground, and includes the path of the cooling water intake tunnel from Puerca Bay. There are two closed in place 50,000-gallon underground storage tanks (USTs) associated with SWMU 45.

SEE ATTACHED PHOTO

SWMU 57 – POL Drum Storage Area (Facility 278)

EXTERIOR & GENERAL

<u>ITEM</u>	<u>CONDITION</u> (Good-Fair-Poor)	<u>DESCRIPTION</u>	<u>FINDINGS</u>
--------------------	---	---------------------------	------------------------

Approximately 2 acres. Rectangular concrete pad approximately 100 feet by 160 feet in size. Used as Petroleum, Oils and Lubricants (POL) drum storage facility from the 1950s to the 1990s.

SEE ATTACHED PHOTO

SWMU 59 – Former Vehicle Maintenance & Refueling Area (Buildings 377, 2344, 2345)

EXTERIOR & GENERAL

<u>ITEM</u>	<u>CONDITION</u> (Good-Fair-Poor)	<u>DESCRIPTION</u>	<u>FINDINGS</u>
--------------------	---	---------------------------	------------------------

Approximately 10 acres. Includes Buildings 377, 2344, and 2345. Used from the 1940s to the 1980s, and contained drums, vehicle racks, USTs (unknown quantity and disposition), and fuel islands. The majority of the site is presently covered by paving.

SEE ATTACHED PHOTOS (2)

SWMU 60 – Former Landfill at Marina

EXTERIOR & GENERAL

<u>ITEM</u>	<u>CONDITION</u> (Good-Fair-Poor)	<u>DESCRIPTION</u>	<u>FINDINGS</u>
--------------------	---	---------------------------	------------------------

Approximately 12 acres. Used as a landfill (scrap disposal) from the 1940s to the 1960s, with piles of solid waste and scrap metal. The marina now covers most of the site, except for a level area described as estuarine intertidal scrub-shrub broad-leafed evergreen.

SEE ATTACHED PHOTO

SWMU 67 – Former Gas Station

EXTERIOR & GENERAL

<u>ITEM</u>	<u>CONDITION</u> (Good-Fair-Poor)	<u>DESCRIPTION</u>	<u>FINDINGS</u>
--------------------	---	---------------------------	------------------------

Approximately 5.55 acres. Located on east side of Langley Drive north of the tennis courts in a level area covered with secondary growth vegetation. A concrete pad and building foundation are present north of the tennis courts in the woods. No UST has been identified.

SEE ATTACHED PHOTO

Attachment "A"

SWMU 70 – Disposal Area Northwest of Landfill

EXTERIOR & GENERAL

<u>ITEM</u>	<u>CONDITION</u> (Good-Fair-Poor)	<u>DESCRIPTION</u>	<u>FINDINGS</u>
--------------------	---	---------------------------	------------------------

Approximately 55 acres. Located northwest of the current base landfill, it is a construction debris and/or solid waste disposal site with potential disposal of POLs and/or hazardous materials containers.

SEE ATTACHED PHOTO

SWMU 74 – Fuel Pipelines & Hydrant Pits

EXTERIOR & GENERAL

<u>ITEM</u>	<u>CONDITION</u> (Good-Fair-Poor)	<u>DESCRIPTION</u>	<u>FINDINGS</u>
--------------------	---	---------------------------	------------------------

Site consists of four non-contiguous portions of the JP-5 fuel pipeline totaling approximately 13.5 acres underground.

SWMU 78 – Transformer Storage Pad

EXTERIOR & GENERAL

<u>ITEM</u>	<u>CONDITION</u> (Good-Fair-Poor)	<u>DESCRIPTION</u>	<u>FINDINGS</u>
--------------------	---	---------------------------	------------------------

Approximately 3 acres. Located off of Hollandia Street, near the intersection of Forrestal Drive and Valley Forge Road. The suspected release is associated with a raised concrete-curbed pad that formerly stored approximately 25 (non-PCB) transformers. A small area (approximately 10 feet by 3 feet) of stained soil and stressed vegetation was observed at the discharge of the drainage valve.

SEE ATTACHED PHOTO

AOC F – Former Underground Storage Tanks (USTs) (Building 124)

EXTERIOR & GENERAL

<u>ITEM</u>	<u>CONDITION</u> (Good-Fair-Poor)	<u>DESCRIPTION</u>	<u>FINDINGS</u>
--------------------	---	---------------------------	------------------------

Approximately 1.2 acres. AOC F 124 was the location of former USTs 124A (2,000-gallon motor gasoline tank), 124B and 124C (5,000-gallon motor gasoline tanks), and 124D (550-gallon waste oil tank) which were removed in 1996 and replaced by two motor gasoline USTs and one diesel UST. After the tank removals and subsequent investigation, the site was recommended for remedial action by monitored natural attenuation.

SEE ATTACHED PHOTO

AOC F - Underground Storage Tanks (USTs) (Bldg 1738)

EXTERIOR & GENERAL

<u>ITEM</u>	<u>CONDITION</u> (Good-Fair-Poor)	<u>DESCRIPTION</u>	<u>FINDINGS</u>
--------------------	---	---------------------------	------------------------

Approximately 2 acres. After the removal of three 10,000-gallon motor gasoline USTs and one 550-gallon waste oil UST at this site in 1995, and the subsequent investigation, the site was recommended for remedial action by monitored natural attenuation, and a Methyl Tertiary Butyl Ether (MTBE) groundwater remediation pilot study is in the planning stages.

SEE ATTACHED PHOTO

AOC F - Underground Storage Tanks (USTs 2842B) (Building 3188)

EXTERIOR & GENERAL

<u>ITEM</u>	<u>CONDITION</u> (Good-Fair-Poor)	<u>DESCRIPTION</u>	<u>FINDINGS</u>
--------------------	---	---------------------------	------------------------

Approximately 5.3 acres. After the removal of this 5,000-gallon diesel UST in 1997, and the subsequent investigation, the site was recommended for remedial action by monitored natural attenuation.

FINDING OF SUITABILITY TO LEASE, REVISION 1 CARVE-OUTS WITHIN SALE PARCEL III AND SCIENCE PARK NAVAL ACTIVITY PUERTO RICO

1.0 PURPOSE

This Finding of Suitability to Lease (FOSL) summarizes how the requirements and notifications for hazardous substances, petroleum products and other regulated material on the subject property have been satisfied, and documents my determination, as the responsible Department of Defense (DoD) component official, that certain real property and associated improvements known as Carve-outs Within Sale Parcel III and Science Park (collectively, Subject Property) at Naval Activity Puerto Rico (NAPR), Ceiba, Puerto Rico are environmentally suitable for lease subject to the conditions, notifications and restrictions set forth in this document. This decision is based primarily on my review of information contained in two of the documents listed in Exhibit A (References) – CERFA Identification of Uncontaminated Property, Former Naval Station Roosevelt Roads, Puerto Rico (the CERFA Report; Navy, 2006b) and Phase I/II Environmental Condition of Property Report, Former Naval Station Roosevelt Roads, Ceiba, Puerto Rico (the ECP Report; Navy, 2005). Factors leading to this decision and other pertinent information related to property lease requirements are stated below.

The Subject Property is comprised of approximately 345 acres in numerous non-contiguous areas carved out of the Sale III and Science Park parcels located primarily along the ridge overlooking the northeastern side of Ensenada Honda and also on the southern peninsula of Bahía de Puerca. Facilities located on the Subject Property include a marina, a gasoline filling station, hazardous waste and materials storage facilities, maintenance shops, storage buildings, and recreational facilities. The carve-out areas were removed from Sale Parcel III and Science Park because they are Resource Conservation and Recovery Act (RCRA) Solid Waste Management Units (SWMUs) and Areas of Concern (AOCs) with work remaining to be completed under the Administrative Order on Consent (Consent Order; EPA Docket No. RCRA-02-2007-7301; EPA, 2007) that sets out the Navy's corrective action obligations under RCRA. Until a Corrective Action Complete determination has been approved by EPA for the SWMUs and AOCs located within the carve-out areas, the Navy will continue to be responsible for completion of any remaining corrective and/or remedial actions required for those SWMUs and AOCs, pursuant to the Consent Order. Furthermore, the SWMUs cannot be included in the transfer of Sale Parcel III and the Science Park because all necessary remedial actions have not been taken prior to transfer as required by Section 120(h)(3)(A)(ii)(I) of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA).

FINDING OF SUITABILITY TO LEASE, REVISION 1 CARVE-OUTS WITHIN SALE PARCEL III AND SCIENCE PARK NAVAL ACTIVITY PUERTO RICO

The Navy and the new owner of Sale Parcel III and the Science Park will execute a lease in furtherance of conveyance for the carve-out areas. Upon successful completion of all necessary remedial actions by the Navy, the leased property will be transferred to the new owner. At the time of the transfer of each carve-out, the Navy will issue a Finding of Suitability to Transfer for the parcel(s) to be conveyed. Any land use controls required after the completion of all necessary remedial actions will be outlined in the FOST for that parcel(s) and included in the transfer deed. Vicinity maps showing Sale Parcel III, the Science Park parcel, and the carve-out (lease) areas within each are included in Exhibit B.

2.0 DESCRIPTION OF PROPERTY

NAPR was formerly known as Naval Station Roosevelt Roads (NSRR) until it ceased operation as an active Naval Station on March 31, 2004, at which point it was designated Naval Activity Puerto Rico. NAPR is located on the east coast of Puerto Rico adjacent to the municipality of Ceiba.

The carve-outs that comprise the Subject Property are as follows:

- **SWMU 3, Base Landfill** – Approximately 110 acres in Sub-parcels 56, 59 and 60. The unlined landfill was used since the early 1960s. The active portion (a lined 35-acre cell within the limits of the old 85-acre landfill) was closed and capped in 2007.
- **SWMU 9, Tank 212-217 Sludge Burial Pits** – Approximately 42 acres in two non-contiguous areas of Sub-parcel 40. Unlined, earthen pits in which petroleum sludges were buried after tank cleanings between 1940 and 1978.
- **SWMUs 11/45, Old Power Plant (Building 38 Interior/Exterior)** – Approximately 15 acres in Sub-parcel 59. SWMU 11 is the interior of Building 38, including a former concrete pad where transformers and transformer fluids containing PCBs were stored. SWMU 45 is the exterior of Building 38 where transformer oils containing PCBs were routinely discarded directly onto the ground, and includes the path of the cooling water intake tunnel from Puerca Bay. There are two closed in place 50,000-gallon underground storage tanks (USTs) associated with SWMUs 11/45.
- **SWMU 31, Waste Oil Collection Area - Buildings 31 and 2022** - Approximately 0.6 combined acres with SWMU 32 in Sub-parcel 52. Located in the Public Works Department storage yard near the Transportation Shop, it consists of a curbed, concrete pad used for temporary outdoor storage of waste oil containers. During a 1993 inspection, oil staining surrounded the storage pad.
- **SWMU 32 - Public Works Department Storage Yard/Battery Collection Area** – Approximately 0.6 combined acres with SWMU 31 in Sub-parcel 52. In 1988, it was an outdoor area where discarded batteries were stored. Approximately 100 55-gallon drums of contaminated jet fuel and soil were observed stored on wooden pallets resting on bare ground during the 1993 follow-up investigation. Along with these drums, an area of

FINDING OF SUITABILITY TO LEASE, REVISION 1 CARVE-OUTS WITHIN SALE PARCEL III AND SCIENCE PARK NAVAL ACTIVITY PUERTO RICO

stained soil was visible, discarded batteries were noted, and a small, partially open, uncurbed storage building ("paint locker") contained cans.

- **SWMU 57 (ECP 3), POL Drum Storage Area (Facility 278)** – Approximately 2 acres in Sub-parcel 40. Rectangular concrete pad approximately 100 feet by 160 feet in size. Used as Petroleum, Oils and Lubricants (POL) drum storage facility from the 1950s to the 1990s.
- **SWMU 59 (ECP 5), Former Vehicle Maintenance and Refueling Area** – Approximately 10 acres in Sub-parcel 43. Includes Buildings 377, 2344, and 2345. Used from the 1940s to the 1980s, and contained drums, vehicle racks, USTs (unknown quantity and disposition), and fuel islands. The majority of the site is presently covered by paving.
- **SWMU 60 (ECP 6), Former Landfill at the Marina** – Approximately 12 acres in Sub-parcels 42 and 45. Used as a landfill from the 1940s to the 1960s, with piles of solid waste and scrap metal. The marina now covers most of the site, except for a level area described as estuarine intertidal scrub-shrub broad-leafed evergreen.
- **SWMU 67 (ECP 13), Former Gas Station** – Approximately 4.5 acres in Sub-parcels 30 and 31. Located on east side of Langley Drive north of the tennis courts in a level area covered with secondary growth vegetation. A concrete pad and building foundation are present north of the tennis courts in the woods. No UST has been identified. An additional 1.05 acres of SWMU 67 is located on Sub-parcel 29 (University Parcel) which is not within Sale Parcel III or the Science Park.
- **SWMU 70 (ECP 16), Disposal Area Northwest of Landfill** – Approximately 55 acres in Sub-parcels 54, 56, and 59. Located northwest of the current base landfill, it is a construction debris and/or solid waste disposal site with potential disposal of POLs and/or hazardous materials containers.
- **SWMU 74 (ECP 20), Fuel Pipelines and Hydrant Pits** - On the Subject Property, this site consists of four non-contiguous portions of the JP-5 fuel pipeline totaling approximately 13.5 acres.
- **SWMU 77, Active Small Arms Range** – Approximately 69 acres that comprise Sub-parcel 38. A closed small arms range and former open burning/open detonation (OB/OD) area located on the peninsula at Punta Medio Mundo. Originally, it was an active range slated for transfer to the Department of Homeland Security (DHS) for continued use as a range. DHS has decided not to take it. In accordance with Consent Order requirements an RFI is being performed for the three potential OB/OD sites, and the small arms range.
- **SWMU 78, Transformer Storage Pad** – Approximately 3 acres in Sub-parcel 48. Located off of Hollandia Street, near the intersection of Forrestal Drive and Valley Forge Road. The suspected release is associated with a raised concrete-curbed pad that formerly stored approximately 25 (non-PCB) transformers. The concrete pad was not present in aerial photographs of NAPR as late as 1995. The pad has a concrete berm surrounding the perimeter that acts as secondary containment. A valve is installed in the berm to allow the drainage of accumulated rainwater. A small area (approximately 10 feet by 3 feet) of stained soil and stressed vegetation was observed at the discharge of the drainage valve.
- **AOC F, Site of Four Former USTs (USTs 124A-D; Building 124)** – Approximately 1.2 acres in Sub-parcel 52. One of seven former UST sites and one aboveground

FINDING OF SUITABILITY TO LEASE, REVISION 1 CARVE-OUTS WITHIN SALE PARCEL III AND SCIENCE PARK NAVAL ACTIVITY PUERTO RICO

storage tank (AST) site that comprise the AOC F Monitored Natural Attenuation (MNA) sites at various locations on NAPR. MNA 124 was the location of former USTs 124A (2,000-gallon motor gasoline tank), 124B and 124C (5,000-gallon motor gasoline tanks), and 124D (550-gallon waste oil tank) which were removed in 1996 and replaced by two motor gasoline USTs and one diesel UST. After the tank removals and subsequent investigation, the site was recommended for remedial action by monitored natural attenuation.

- **AOC F, Site of Four Former USTs (USTs 1738A-D; Building 1738)** – Approximately 2 acres in Sub-parcel 40. One of seven former UST sites and one AST site that comprise the AOC F MNA sites at various locations on NAPR. After the removal of three 10,000-gallon motor gasoline USTs and one 550-gallon waste oil UST at this site in 1995, and the subsequent investigation, the site was recommended for remedial action by monitored natural attenuation, and a Methyl Tertiary Butyl Ether (MTBE) groundwater remediation pilot study is in the planning stages.
- **AOC F, Site of 1 former UST (UST 2842B; Building 3188)** - Approximately 5.3 acres in Sub-parcel 52. One of seven former UST sites and one current AST site that comprise the AOC F MNA sites at NAPR. After the removal of this 5,000-gallon diesel UST in 1997, and the subsequent investigation, the site was recommended for remedial action by monitored natural attenuation.

The carve-out SWMUs and AOCs are shown on the aerial photographs in Exhibit C. The survey maps in Exhibit D provide the final boundaries for Sale Parcel III, the Science Park parcel, and the carve-outs in Sale Parcel III. The boundaries of the Science Park carve-outs (SWMUs 31/32 and AOC F USTs 124A-C) are shown on the maps in Exhibit C). Table 1 (Exhibit E) provides the facility number, former user, name or description, area and year of construction of each of the numbered buildings, structures, and facilities on the Subject Property.

3.0 PAST USE AND PROPOSED REUSE

The former NSRR, including the Subject Property, has been used as a military installation since its acquisition and development by the Navy in the 1940s. The ECP Report states that most of the arable land on what is now NAPR was previously used for sugar cane cultivation and cattle grazing. No significant industrial facilities or environmental concerns were identified with respect to activities conducted on the former NSRR prior to Navy ownership. The Navy established NAPR to serve as the caretaker of the real property associated with NSRR and to assist in the transfer of the property. Since the establishment of NAPR, all industrial and commercial operations on the former NSRR with a significant potential for environmental contamination have ceased.

FINDING OF SUITABILITY TO LEASE, REVISION 1 CARVE-OUTS WITHIN SALE PARCEL III AND SCIENCE PARK NAVAL ACTIVITY PUERTO RICO

The carve-out areas were undeveloped prior to the uses described in Section 2 that resulted in their being designated RCRA SWMUs and AOCs. The former vehicle maintenance area that is SWMU 59 became the location of a ground electronics maintenance shop and storage facilities; a marina now covers most of the area that is SWMU 60; tennis courts were constructed at the SWMU 67 former gas station location; and, a solid waste recycling facility was constructed on the eastern side of SWMU 70.

The Naval Station Roosevelt Roads Reuse Plan (CBRE et al, 2004) developed by the Puerto Rico Department of Economic Development and Commerce (acting as the Local Redevelopment Authority) anticipated the following types of land uses for Sale Parcel III and the Science Park parcel: University Campus, Industrial, Recreation or Open Space Reserve, Science Park/Conference Center, Water-Oriented Commercial, and Passenger/Cargo Ferry Terminal and Related Uses. An April 2010 addendum (CSS, 2010) to the Reuse Plan indicates the Subject Property will be in portions of areas with the following types of uses – mixed use (retail and upper floor residential), hotel, and lodging, golf course, and retail/restaurant/entertainment district.

The Subject Property will be leased in furtherance of conveyance to the new owner. The Lessee will be allowed use of the property subject to the land and groundwater use restrictions described in Section 5.D. of this FOSL. The lease will contain these land use controls as well as requirements for Navy approval of any alterations to the property or uses of the property that result in a change in land use.

4.0 ENVIRONMENTAL FINDINGS

All available information concerning the past storage, release, or disposal of hazardous substances and/or petroleum products on NAPR, as collected through record searches, aerial photographs, personnel interviews, and on-site visual inspections, is contained in the ECP Report. The following summarizes the findings as they relate to the Subject Property and the corresponding Condition of Property Classification assigned to the real property to be leased and eventually transferred.

A. Hazardous Substance Contamination

The Subject Property includes 14 RCRA SWMUs with work remaining to be completed to address hazardous substance contamination (SWMUs 3, 9, 11, 31, 32, 45, 57, 59, 60, 67, 70, 74,

**FINDING OF SUITABILITY TO LEASE, REVISION 1
CARVE-OUTS WITHIN SALE PARCEL III AND SCIENCE PARK
NAVAL ACTIVITY PUERTO RICO**

77 and 78). Detailed descriptions of these SWMUs are provided in the ECP Report, except for SWMU 78 (Transformer Storage Pad) which was identified in August 2007. Detailed information for SWMU 78 will be provided in the RFI Report which is currently being prepared. Summary descriptions and their current status are provided in Table 2 (Exhibit E).

B. Petroleum Contamination

According to the ECP Report, there were 12 USTs and three aboveground storage tanks (ASTs) that once stored diesel fuel, motor gasoline and waste oil on the Subject Property at the time of the ECP inspection in March 2005. Table 3 lists the known USTs and ASTs on the Subject Property along with their location, capacity, material stored and the year installed. The ECP Report and field verification also documented two oil/water separators (OWSs) on the Subject Property. The OWSs are listed in Table 3. The records do not indicate there have been any spills or releases associated with the USTs, ASTs and OWSs currently known to be present on the Subject Property.

The ECP Report indicated there were nine former USTs associated with AOC F that were removed in 1995, 1996, and 1997 – USTs 1738 A through D, USTs 124 A through D, and UST 2842B, two USTs closed in place at Building 38 (SWMUs 11/45), and possible former USTs of unknown number and disposition at Buildings 377, 2344 and 2345 (SWMU 59). Table 3 lists the known former USTs on the Subject Property along with their location, capacity, material stored and year removed.

The Navy is conducting a monitored natural attenuation (MNA) study of the groundwater contamination associated with the seven UST sites and one AST site that comprise AOC F. These MNA sites include former USTs 124A through 124D, 1738A through 1738D, and 2842B on the Subject Property. During the time NSRR was an active installation, the study was conducted in accordance with monitoring protocols developed by the Underground Storage Tank Management Division of the Puerto Rico Environmental Quality Board (EQB). Given the closure and pending transfer of the former NSRR, the Navy was required to prepare a work plan in accordance with U.S. Environmental Protection Agency (EPA) MNA standards. The Navy submitted the MNA Work Plan to EPA in October 2007, and EPA approved it in April 2008. A revision to the work plan was completed following the first round of sampling and submitted to the EPA in August 2008. Long-term quarterly groundwater monitoring is ongoing, and the Year 9, Second Quarter sampling event was completed in August 2011. Because MTBE has been found

FINDING OF SUITABILITY TO LEASE, REVISION 1 CARVE-OUTS WITHIN SALE PARCEL III AND SCIENCE PARK NAVAL ACTIVITY PUERTO RICO

in the groundwater at AOC F - Site 1738, a separate remediation plan for the MTBE contamination is currently under development.

C. Condition of Property Classification

The ECP Report divided all property at NAPR into parcels, and classified them into one of the three following categories:

- **Category 1** – Areas where no known or documented releases, or disposal of hazardous substances or petroleum products or their derivatives has occurred, including no migration of these substances from adjacent areas.
- **Category 2** – Areas where the release, disposal, or migration, or some combination thereof, of hazardous substances, or petroleum products or their derivatives has occurred, but at concentrations that do not require a removal or remedial action, or all remedial actions necessary to protect human health and the environment have been taken.
- **Category 3** – Areas where a confirmed or suspected release, disposal, or migration, or some combination thereof, of hazardous substances, or petroleum products or their derivatives has occurred, but required investigation and/or response actions have not yet been initiated or are ongoing.

These categories are derived from the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA), Community Environmental Response Facilitation Act (CERFA) and the American Society for Testing and Materials (ASTM) Standard Practice for Conducting Environmental Baseline Surveys (ASTM Standard D 6008-96), which further incorporates ASTM D 5746-98 (2002) Standard Classification of Environmental Condition of Property Area Types for Defense Base Closure and Realignment Facilities.

CERFA stipulates that the federal government must identify "uncontaminated property" scheduled for transfer, and defines this as "...real property on which no hazardous substances and no petroleum products or their derivatives were known to have been released, or disposed of" [(Section 9620(h)(4)(A)]. In accordance with the property condition classification guidelines discussed above, the Navy classified the Subject Property as Category 3 (except for SWMU 78 which had not been identified at that time). Following its review of the CERFA Report, the Puerto Rico Environmental Quality Board (EQB) concurred with this classification and provided a concurrence statement (Exhibit F) in the Final CERFA Report on 11 August 2006. The 14 SWMUs on the Subject Property may not be transferred until all required remedial actions have been taken to address residual contamination in accordance with the requirements of

**FINDING OF SUITABILITY TO LEASE, REVISION 1
CARVE-OUTS WITHIN SALE PARCEL III AND SCIENCE PARK
NAVAL ACTIVITY PUERTO RICO**

CERCLA Section 120(h)(3)(A)(ii)(I), and the three Category 3 petroleum sites (AOC F) may not be transferred until the work remaining to be completed under the Consent Order is completed.

D. Other Environmental Aspects

1. Munitions and Explosives of Concern

SWMU 77 is a closed small arms range and former open burning/open detonation (OB/OD) area located on the peninsula at Punta Medio Mundo. Range locations have periodically moved throughout the peninsula since its first use. Review of historic records and interviews indicate that the SWMU was used for munitions disposal or detonation and as a small arms range. The Navy had planned to transfer this range to DHS for continued operation as a range without shutting it down. No further action was required under the Consent Order as long as the range stayed operational. DHS recently decided it would not take possession of the range, therefore it is no longer considered active and under the terms of the Consent Order, an RFI is currently being performed for three potential OB/OD sites, several potential munitions burial trenches, and the small arms and rifle ranges.

According to the ECP Report, there are no other heavy (crew-served) weapon ranges, unexploded ordnance/impact areas, explosive ordnance disposal areas or open burning/open detonation activities on the Subject Property.

2. Asbestos-Containing Materials

According to the June 2005 *Final Asbestos Inspection Report for Naval Activity Puerto Rico, Ceiba, Puerto Rico* (Baker, 2005), asbestos-containing material (ACM) was identified in two (2) of the facilities inspected on the Subject Property, as summarized in Table 4 of Exhibit E. Friable, accessible and damaged (FAD) ACM was not identified in any of the facilities. Detailed information about the materials identified and sampled during the asbestos inspection, including summary tables, location drawings, photographs and laboratory reports, is included in the report.

The possibility remains for the presence of undiscovered ACM associated with underground utilities and miscellaneous building materials at NAPR. While this potential ACM does not pose a hazard to site users, future demolition and/or subsurface work performed by the lessee could result in FAD ACM hazards. Thus, the lessee must

**FINDING OF SUITABILITY TO LEASE, REVISION 1
CARVE-OUTS WITHIN SALE PARCEL III AND SCIENCE PARK
NAVAL ACTIVITY PUERTO RICO**

comply with all applicable Commonwealth and Federal laws relating to ACM management in order to ensure future protection of human health and the environment during any future renovation/demolition activities or underground utility work. An ACM acknowledgement form (Exhibit G) will be provided to the lessee for execution at the time of lease.

3. Lead-Based Paint

A lead-based paint (LBP) survey and risk assessment was completed at NAPR in Spring 2008 for military family housing only, thus none of the facilities on the Subject Property were included in the survey.

Table 1 (Exhibit E) indicates approximately 12 buildings, structures and facilities on the Subject Property were constructed prior to 1978, the year in which LBP was banned for consumer use. These facilities and any others built before 1978 are presumed to contain LBP. A Lead-Based Paint Hazards Advisory Statement, Exhibit H to this FOSL, will be provided to the lessee and executed at the time of lease.

4. Polychlorinated Biphenyls

Polychlorinated biphenyls (PCBs) are the key contaminant at SWMUs 11, 45, and 78, as described in Exhibit E, Table 2 and the ECP Report. Remediation of PCB-contamination at SWMUs 45 and 78 is ongoing under the RCRA corrective action program. Although the final disposition of the PCB contamination at SWMU 11 has not yet been determined, interim measures requiring site access restriction are being implemented under the RCRA Consent Order.

All PCB-contaminated transformers and equipment, including any on the Subject Property, were removed from the former NSRR prior to 1998. Due to the age of the majority of facilities and the size of the station, it is possible that PCB-contaminated fluorescent light ballasts and other minor PCB sources may be present on NAPR. There are no other records of PCBs having been stored, released or disposed of on the Subject Property.

CARVE-OUTS WITHIN SALE PARCEL III AND SCIENCE PARK
NAVAL ACTIVITY PUERTO RICO**

5. Radon

According to the U.S. Geological Survey Open-File Report 93-292-K, *Preliminary Geologic Radon Potential Assessment of Puerto Rico* (USGS, 1993), the Commonwealth of Puerto Rico exhibits generally low indoor radon levels, and a survey of radon concentrations of offices, housing units, schools and other buildings was conducted by the DoD between 1989 and 1992 on federal military reservations in Puerto Rico, including the former NSRR. Indoor radon levels ranged from 0.0 to 1.9 picoCuries/Liter (pCi/L), well below the current EPA residential indoor radon screening action level of 4 pCi/L. The majority of the reservations, including NAPR, are situated on coastal plains, so the low indoor radon levels were not unexpected on the Subject Property.

6. Threatened and Endangered Species

As shown on the aerial photographs in Exhibit I, breeding habitat and nesting/foraging palms for the endangered yellow-shouldered blackbird and sea turtle habitat have been identified on the Subject Property. The Commonwealth of Puerto Rico has indicated that it intends to zone the property in a manner that will implement the planning, development, maintenance, mitigation and use requirements described in Exhibit I.

In accordance with the Endangered Species Act, the Navy developed a Biological Assessment (BA) for the former NSRR in 2006 to assess the potential impact on any federally protected species from the disposal of NSRR. Given the protection measures addressed in detail in the *Biological Assessment for the Disposal of Naval Station Roosevelt Roads/Naval Activity Puerto Rico Final Report* (Navy, 2006a), the Navy has determined that the disposal of the former NSRR and transfer of the property to future owners is not likely to adversely affect federally-listed species and would not result in adverse modification of designated critical habitat within the project area. The U.S. Fish and Wildlife Service concurred with this determination in a letter dated April 7, 2006.

5.0 REQUIREMENTS APPLICABLE TO PROPERTY LEASE

A. National Environmental Policy Act Compliance

In accordance with National Environmental Policy Act requirements, an Environmental Assessment (EA) and Finding of No Significant Impact (FONSI) have been prepared and executed in connection with the planned disposal and reuse of NAPR. The FONSI was signed on

FINDING OF SUITABILITY TO LEASE, REVISION 1 CARVE-OUTS WITHIN SALE PARCEL III AND SCIENCE PARK NAVAL ACTIVITY PUERTO RICO

April 10, 2007. A Supplemental EA (SEA) was prepared to address changes in proposed reuse in the 2010 Reuse Plan Addendum. The FONSI for the SEA was signed September 26, 2011.

B. Hazardous Substance Notice

Past activities within the Subject Property included the use and storage of hazardous substances and petroleum products. The ECP Report provides details on hazardous materials use/storage, hazardous waste generation/management, and the nature and extent of hazardous substance and petroleum product releases to the environment. In accordance with Section 120(h)(1) of CERCLA, the lease shall provide notice as to those hazardous substances which it is known, based on a complete search of agency files, were stored for 1 year or more, released or disposed on the Subject Property in excess of those reportable quantities specified under Title 40 of the Code of Federal Regulations (CFR) Part 373 (Hazardous Substances Reporting Requirements for Selling or Transferring Federal Real Property), and all response actions taken to date to address any such releases or disposals. The hazardous substances notice and response action summary for the Subject Property is attached to this FOGL as Exhibit J.

C. Access Clause

The lease for the Subject Property shall contain a clause reserving to the United States, its officers, agents, employees, contractors, and subcontractors the right to enter upon the leased property to complete its RCRA corrective action obligations, including any remedial or corrective action found to be necessary after the date of lease. The right to enter to be set forth shall include the right to conduct annual physical inspections, tests, investigations, long term monitoring, 5-year reviews, and surveys, including, where necessary, drilling, test pitting, boring, and other similar activities. Such right shall also include the right to construct, operate, maintain, or undertake any other response or remedial action as required or necessary, including, but not limited to, monitoring wells, pumping wells, and treatment facilities. The United States retains the authority to enter to conduct investigations on adjacent parcels as well as the parcel subject to the lease. These access rights are in addition to those granted to Federal, state, and local authorities under applicable environmental laws and regulations.

D. Land and Groundwater Restrictions

To prevent unacceptable risks to human health and the environment during the lease period, the Navy will ensure the lease includes the following land use controls on the Subject Property:

FINDING OF SUITABILITY TO LEASE, REVISION 1 CARVE-OUTS WITHIN SALE PARCEL III AND SCIENCE PARK NAVAL ACTIVITY PUERTO RICO

- A restriction on land use to non-residential uses only. (AOC F [124, 1738, and 2842B] and SWMUs 3, 9, 11, 31, 32, 45, 57, 59, 60, 67, 70, 74, 77 and 78).
- A restriction on certain invasive activities in areas where surface soil, subsurface soil and or sediments are contaminated. (AOC F [124, 1738, and 2842B] and SWMUs 3, 9, 31, 32, 45, 57, 59, 60, 67, 70, 74, 77 and 78).
- A restriction on use of groundwater and installation of new wells in or near areas of known groundwater contamination. (AOC F [124, 1738, and 2842B] and SWMUs 3, 9, 45, 57, 59, 60, 67, 70, 74, 77 and 78).
- A restriction on disturbance of the SWMU 3 landfill cover.
- A restriction on disturbance of adjacent wetlands (SWMUs 9, 60, and 70).
- A restriction on access to the interior of Building 38 (SWMU 11).
- A requirement to protect the integrity of any existing and all future groundwater monitoring or extraction wells, remedial action equipment and associated utilities.
- A requirement that all ongoing and future environmental investigations and remedial activities at or adjacent to the Subject Property not be disrupted.

The Navy will remain in the area for several years completing environmental cleanup work, and will work with future property owners to provide levels of protection against land use control violations including inspections, education, and coordination with property owners and regulators. Furthermore, the Navy will review each individual site to determine what protections (e.g., fences and signage) are necessary for implementation of land use controls based on contaminant concentrations and proximity to receptors.

Upon completion of required corrective and/or remedial actions for any of the SWMUs and AOCs located within the carve-out areas, if a Corrective Action Complete With Controls determination is proposed by the Navy and approved by EPA, the Navy and/or the acquiring party of the Subject Property where the SWMUs and/or AOCs are located will be responsible for maintaining all land use controls and/or other controls upon which that Corrective Action Complete With Controls determination was based. Any land use controls required after the completion of all necessary remedial actions will be outlined in the FOSTs and transfer deeds for the carve-out areas. EPA and EQB will be afforded the opportunity to review these documents prior to execution.

E. Environmental Compliance Agreements / Permits / Orders

On January 29, 2007, the Navy and EPA voluntarily entered into a Consent Order that sets out the Navy's corrective action obligations under RCRA and replaces the 1994 RCRA permit as the document memorializing these obligations concerning NAPR. The SWMUs and AOCs that

**FINDING OF SUITABILITY TO LEASE, REVISION 1
CARVE-OUTS WITHIN SALE PARCEL III AND SCIENCE PARK
NAVAL ACTIVITY PUERTO RICO**

comprise the Subject Property have investigation and/or cleanup work remaining to be completed under the terms of the Consent Order. Detailed descriptions of the AOCs and SWMUs that comprise the Subject Property are provided in the ECP Report, while summary descriptions and their current status are provided in Table 2 (Exhibit E).

F. Notification to Regulatory Agencies

In accordance with DoD guidance, the U.S. EPA Region 2 and the Puerto Rico EQB have been advised of the proposed lease of the Subject Property, and copies of the ECP Report, CERFA Report, and Draft FOSL were provided to those agencies for review and comment. Navy responses to regulatory agency review comments on the draft version of this FOSL are provided in Exhibit K. In accordance with CERCLA Section 120(h)(3)(B), Navy consulted with EPA Region 2 on the FOSL and EPA provided its concurrence letter on 05 March 2009 (Exhibit K). This Revision 1 to the FOSL has been prepared to add three carve-outs from the Science Park and was provided to EPA and EQB for review. The ECP Report was made available for public review upon finalization. Copies of all lease documentation will be made available to EPA and EQB representatives upon request after execution of the same.

6.0 SUITABILITY DETERMINATION

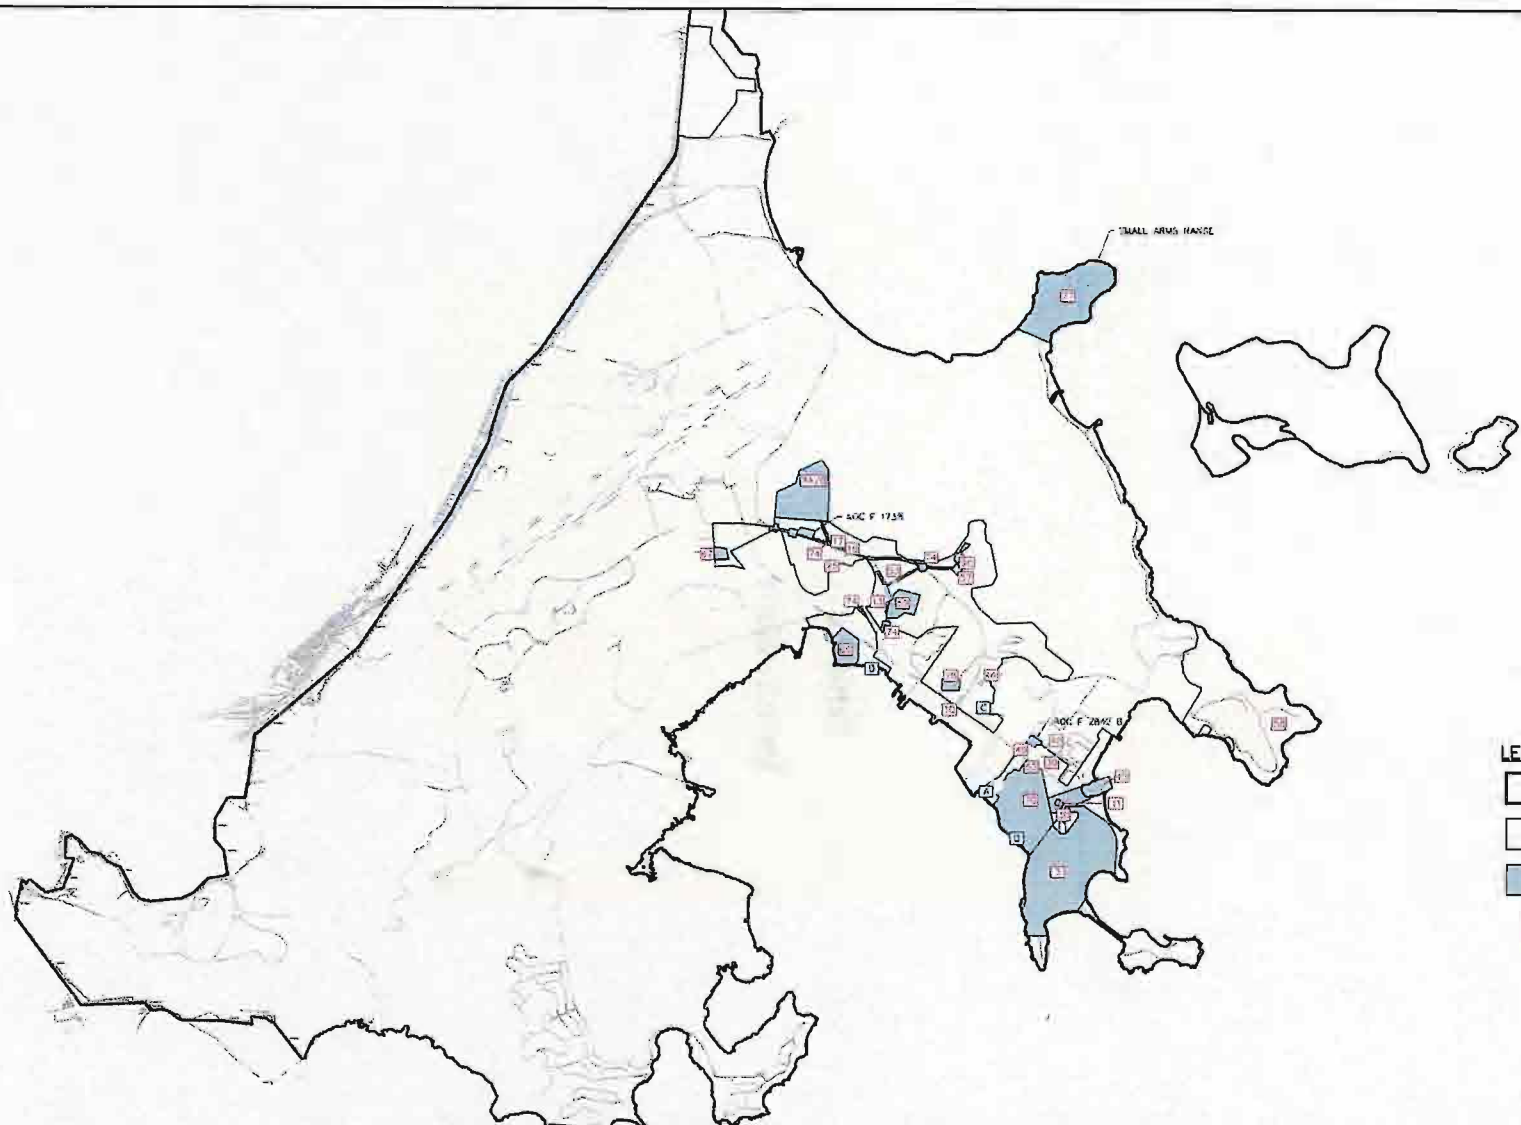

NOW THEREFORE, based on my review of the information contained in this FOSL and the notices and restrictions discussed herein that will be contained in the lease, the Subject Property is suitable for lease.

- SURVEY NOTES:**
- BOUNDARY SURVEY PREPARED BY TRANSYSTEMS CORPORATION FROM FIELD DATA COLLECTED IN MARCH 2008. FIELD PROCEDURES, CALCULATIONS AND FINAL PLAT HAVE BEEN REVIEWED FOR CONTENT BY LUIS BERRIOS MONTES & ASSOCIATES OF VEGA BAJA, PUERTO RICO.
 - HORIZONTAL COORDINATES SHOWN HEREON ARE IN FEET AND REFER TO THE PUERTO RICO/VIRGIN ISLAND STATE PLANE COORDINATE SYSTEM, NAD 83 (1987 ADJUSTMENT). HORIZONTAL COORDINATES WERE DERIVED USING DUAL FREQUENCY GPS RECEIVERS AND ARE REFERENCED TO NATIONAL GEODESIC SURVEY MONUMENTS ANGEL (PID A09987), FAJARDO (PID A69834), HUANACAO 1 (PID A69846) AND MT BRITTON (PID A69830).
 - THE FOLLOWING PLATS AND DEEDS WERE USED TO ESTABLISH THE BOUNDARY LINES AS SHOWN ON THIS PLAT:
 - PLAT TITLED "UNITED STATES GOVERNMENT PROPERTY FORMER NAVAL STATION ROOSEVELT ROADS BOUNDARY REESTABLISHMENT SURVEY" PREPARED BY TRANSYSTEMS CORPORATION AND LUIS BERRIOS MONTES, NAVFAC DRAWING No. 4522928, DATED FEBRUARY 15, 2005.
 - PLANIMETRIC DATA AND SHORELINE PROVIDED BY HOGGARD EURE ASSOCIATES PORTSMOUTH, VA. AERIAL SURVEY PERFORMED BY AERO-DYNAMICS CORPORATION CHARLOTTE, N.C. SURVEY FLOWN FEBRUARY 1998.
 - DUE TO THE SPECIALIZED USAGE OF THE SUBJECT PROPERTY, TERRESTRIAL-MARITIME REGULATIONS ARE INAPPLICABLE. AS A SINE QUA NON CONDITION, ALL FUTURE RECIPIENTS OF THIS SUBJECT PROPERTY BY SUBDIVISION, SHALL RECOGNIZE THE BOUNDARY OF THESE LANDS WITH REGARDS TO THE TERRESTRIAL-MARITIME ZONE REGULATIONS, THE PUBLIC ACCESS TO PROPERTY TRANSFERRED TO OTHER FEDERAL AGENCIES SHALL REMAIN STATUS QUAO.

Parcel	SWMU No.	Description	CERFA *	RCRA Status	Investigation and Remedial Action Summary and Status	Media Affected / Key Contaminants	Site Specific Land Use Controls	Current RCRA Phase	Remaining Work Required
3	3	Base Landfill. This currently active landfill is unlined, and has been used since the early 1960s as a disposal site for solid wastes. To dispose of wastes, a trench is dug to the water table, and then filled with wastes. When the trench is full, it is covered with soil.	3	IM/Closure	IRP Round 1 (1986) and 2 (1987) sampling of the groundwater found metals (arsenic, chromium, lead, and selenium) above cleanup standards. An RFI of soil, surface water and sediments, and groundwater was required by the permit. The Consent Order requires a Semi-Annual Groundwater Monitoring Program as an Interim Measure (IM), and implementation of the Closure Plans for the Station Landfill. Landfill closed and implementation of Closure Plan underway. Landfill Gas Monitoring Work Plan implementation underway. Submit semi-annual rpts w/in 60-days of receiving validated lab data until closure completion notification approved. Old Landfill portions need to be closed by new owner.	GW, Sediment - metals, SVOCs, VOCs	1, 2, 4 and No Disturbance of Landfill Cover	Semi-Annual GW and Landfill Gas Monitoring until Sale.	Close remaining portions of landfill, continue semi-annual GW monitoring, continue landfill gas monitoring.
3	9	Tank 212-217 Sludge Burial Pits. SWMU 9 consists of unlined earthen pits in which petroleum sludges were buried after tank cleanings. These burial pits are near fuel tanks 212 through 217, located along Forestal Drive. The tanks were installed in 1940, and were cleaned approximately every five years, until 1978.	3	CMS	IRP Round 1 (1986) groundwater sampling indicated the presence of benzene and toluene at levels above relevant action levels. Sediment samples collected in the mangrove swamps below the tanks detected organic constituents and lead below relevant action levels. The RFI of soils and groundwater required in the permit recommended additional investigation for surface water and sediments. Submitted Final Phase I RFI WP for Area B Tank 214 Area 1/17/07. Completed Phase I RFI field investigation for Area B Tank 214 Area. Draft Phase I RFI Report approved by EPA. Full RFI Work Plan approved and field investigation implemented. Draft-Final Full RFI Report submitted 6/16/11. Implement ERA for this site through Steps 7 and 8.	GW, Subsurface and Surface Soil, Sediment - metals, SVOCs, VOCs	1, 2, 4 and No Disturbance of Adjacent Wetlands	Full RFI, BERA Steps 7/8	CMS/SoB/CMI
3	11	Old Power Plant (Bldg. 38) SWMU 11 is the interior of Building 38, the "Old Power Plant" and includes a former concrete pad where transformers and transformer fluids containing PCBs were stored. The entire building is constructed of concrete approximately two to three feet thick. Both the 1998 VSI and the 1993 follow-up inspection reported extensive staining. There were also indications of transformer fluids being discarded by pouring into subsurface cooling water tunnels associated with the Power Plant, which then empty into Puerca Bay. The exterior of Building 38 is classified as SWMU 45.	3	IM	In accordance with requirements of the Consent Order, an IM has been implemented in the form of engineering controls to restrict access to the interior of the building. A Land Use Control (LUC) plan has been submitted to EPA. Controls must prohibit building access and preclude future use of the site until acceptable clean-up is implemented.	Building Interior - PCBs and ACM	1 and No Access to Building Interior	NA	Maintain LUCs
Science Park	31	Waste Oil Collection Area (Bldgs. 31 and 2022) Located in the Public Works Department storage yard near the Transportation Shop, it consists of a curbed, concrete pad used for temporary outdoor storage of waste oil containers. There is also a 500-gallon tank for waste oil collection. During a 1993 inspection, oil staining surrounded the storage pad. This SWMU is associated with Building 31, where the Navy's 1984 IAS reported that containers of unidentified wastes had been stored outside the building. Solvent odors were reported in the 1984 IAS report. The entire area surrounding this SWMU is now paved with asphalt. Since the 1993 inspection the area has been reconfigured and new facilities have been constructed. The former area not used in the new construction was paved.	3	CMI	The CMS recommended no further action based on the fact that a majority of the area is currently covered with asphalt, which mitigates the exposure pathway for dermal contact with surface soil, and also recommended the remaining small unpaved area within SWMUs 31/32 be covered with asphalt to mitigate a potential exposure pathway. The existing and new pavement would be maintained to protect the integrity of the cap. Land use controls were recommended to prevent the use of this SWMU for residential housing. Approved CMS and CMI Design Package. CMI requires installation and maintenance of asphalt parking lot. Navy is currently negotiating with contractor for installation of new cap.	Soil - dioxin, furans	1, 2	NA	Implement CMI and maintain LUCs for non-residential land use and maintain integrity of asphalt.
Science Park	32	PWD Storage Yard/Battery Collection Area Described in the 1988 RFA as an outdoor area where discarded batteries were stored. However, approximately 100 to 110 55-gallon drums of contaminated jet fuel and soil were observed during the 1993 follow-up investigation. They were stored on wooden pallets resting on bare ground. Along with these drums an area of stained soil was visible, discarded batteries were noted, and a small, partially open, uncurbed storage building ("paint locker") contained cans. The area has now been cleaned up and is used for the storage of spare parts and for equipment parking.	3	CMI	The CMS recommended no further action based on the fact that a majority of the area is currently covered with asphalt, which mitigates the exposure pathway for dermal contact with surface soil, and also recommended the remaining small unpaved area within SWMUs 31/32 be covered with asphalt to mitigate a potential exposure pathway. The existing and new pavement would be maintained to protect the integrity of the cap. Land use controls were recommended to prevent the use of this SWMU for residential housing. Approved CMS and CMI Design Package. CMI requires installation and maintenance of asphalt parking lot. Navy is currently negotiating with contractor for installation of new cap.	Soil - dioxin, furans	1, 2	NA	Implement CMI and maintain LUCs for non-residential land use and maintain integrity of asphalt.

 Solid Waste Management Units and Areas of Concern Summary and Status
 Page 2 of 4

Parcel	SWMU No.	Description	CERFA #	RCRA Status	Investigation and Remedial Action Summary and Status	Media Affected / Key Contaminants	Site Specific Land Use Controls	Current RCRA Phase	Remaining Work Required
3	45	PCB Spill Area/Old Power Plant Area outside of Building 38, the Old Power Plant (SWMU 11), where transformer oils containing PCBs were routinely discarded directly onto the ground during transformer maintenance. This area extends from the property around Building 38 and includes the path of the cooling water intake tunnel from the embayment of Puerca Bay. There are also two abandoned 50,000 gallon USTs associated with SWMU 45/SWMU 11.	3	CMS	PCB contamination was found in soil immediately outside of Building 38. An ICM soil removal was performed in 1994. RFI sampling in 1996 indicated the USTs and cooling water tunnel represented a possible source of continuing release. Another ICM was performed to clean and abandon in place the USTs and tunnel. Inflow of groundwater to the tunnel necessitated a field design change which provided for the filling of the USTs and sealing the tunnel with low-density concrete. This approach entombed and effectively immobilized any residual contamination. Draft CMS Final Report due within 60 days of all work under the CMS Work Plan. Final Steps 3b/4 BERA approved 8/06. Completed Baseline ERA field investigation. Baseline ERA reviewed by the EPA. Final Steps 6/7 of Baseline ERA approved by EPA on 1/15/09. Draft-Final CMS Report submitted and EPA comments received 7/13/11.	GW, Sediments, Subsurface Soil - metals, PCBs, SVOCs	1, 2, 4	CMS	CAC w/out controls
3	57	POL Drum Storage Area (Facility No. 278) Rectangular concrete pad approximately 100' x 160' in size. Historic records reviews indicate drum storage and staining on concrete pad and surrounding soil, and the facility was used as the Petroleum, Oils and Lubricants (POL) drum storage facility from the 1950s to the 1990s.	3	RFI	PCBs, arsenic, and vanadium were determined to be Chemicals of Potential Concern (COPCs) at this site based on their exceedance of residential RBCs. However, none of the COPCs exceeded industrial RBCs (the likely reuse scenario) in the soil except arsenic. Phase 1 RFI work plan approved by EPA, and investigation completed. EPA comments on Phase I RFI Report on 3/17/11. Draft Full RFI Work Plan is currently being prepared.	Soil - arsenic > industrial RBC	1, 2, 4	RFI Investigation	Implement RFI and follow on work
3	59	Former Vehicle Maintenance and Refueling Area The site, which includes Buildings 377, 2344, and 2345, was used as a vehicle maintenance and refueling area from the 1940s to the 1980s, and contained drums, vehicle racks, stains, and fuel islands. The final disposition of the suspected USTs is unknown. Interviewees confirmed that numerous spills and leaks of POL and hazardous materials occurred throughout the usage period. Presently, the site is a level area with paving covering the majority of it.	3	CMS	ECP Phase II sampling identified arsenic, chromium, and lead as COPCs in surface soil with detected concentrations in excess of the residential RBCs and base background criteria. No COPCs were identified in subsurface soil. In groundwater, heptachlor epoxide, barium, and vanadium were identified as COPCs because they exceeded residential tap water RBCs. In accordance with the Consent Order, the Navy submitted a CMS Work Plan which was approved by EPA. The CMS investigation was implemented and the Draft CMS Investigation Report submitted to EPA on 7/14/11.	Soil - arsenic, chromium, and lead; GW - heptachlor epoxide, barium, and vanadium	1, 2, 4	CMS Investigation	CMS/SoB/CMI
3	60	Former Landfill at the Marina Located in the immediate area of the base marina. It was used as a landfill from approximately the 1940s to the 1960s, with piles of solid waste and scrap metal. The marina now covers most of the area, except for the portion of the site which consists of a level area described as estuarine intertidal scrub-shrub broad-leaved evergreen.	3	RFI	The primary contaminants detected in sediment, surface soil and subsurface soil samples are consistent with fuel and pesticide contamination. Groundwater does not appear impacted by previous site activities. Phase 1 RFI work plan required. Phase I RFI work plan approved by the EPA. Phase I RFI investigation has been completed and the Final Phase I RFI Report submitted to EPA on 7/22/11.	Soil - metals; Sediments - metals, pesticides, and PAHs	1, 2, 4 and No Disturbance of Adjacent Wetlands	RFI Investigation	Implement RFI and follow on work
3	67	Former Gas Station Located on the east side of Langley Drive north of the tennis courts in a level area covered with secondary growth vegetation. Records reviews identified a small building on the site as a gas station. During site inspections, a concrete pad and building foundation were observed north of the tennis courts within the woods. This building foundation contained an area where suspected previous vehicle maintenance was performed. No UST was identified. There were no signs of stressed vegetation observed during the investigation.	3	RFI	Subsurface soil and groundwater samples were collected and analyzed to characterize the site. The organic compounds detected are typical of those associated with fuel and solvent use. The Consent Order required submittal of a Phase 1 RFI work plan which was subsequently approved by EPA. Phase I RFI investigation has been completed and the Final Phase I RFI Report submitted to EPA on 6/2/11.	GW - vanadium and mercury	1, 2, 4	RFI Investigation	Implement RFI and follow on work

 Page 3 of 4

Parcel	SWMU No.	Description	CERFA	RCRA Status	Investigation and Remedial Action Summary and Status	Media Affected / Key Contaminants	Site Specific Land Use Controls	Current RCRA Phase	Remaining Work Required
3	70	Disposal Area Northwest of Landfill. Located northwest of the current base landfill. It covers a large area of flat land consisting of open areas and areas covered by secondary growth vegetation. The central and southern portions of the site are classified as wetlands. Aerial photography identified a disposal area with disturbed ground, debris, a cleared or graded area, and stressed vegetation with containers discarded in a vegetated area north. During the site inspection and investigation, numerous piles of construction debris were observed but drums or evidence of stains or stressed vegetation were not noted. Interviews confirmed the area as a construction and/or solid waste disposal site, including potential disposal of POL or hazardous materials containers.	3	RFI	Surface soil, groundwater, surface water and co-located sediment samples were collected to characterize the site. Analytes detected are consistent with its use as a former disposal area. The Consent Order required submittal of a Phase I RFI work plan. EPA approved the work plan. Phase I RFI Investigation completed in 2009. Full RFI Work Plan prepared and field work initiated on 5/16/11.	Soil - arsenic, chromium, zinc; GW - indeno(1,2,3-cd)pyrene, vanadium; Sediments -silver, copper, tin	1, 2, 4 and No Disturbance of Adjacent Wetlands	RFI Investigation	Implement RFI and follow on work
Airfield, Ports, 3	74	Fuel Pipelines and Hydrant Pits. On the Subject Property, this site consists of specific portions of the JP-5 fuel pipeline, and the aircraft hydrant refueling pits. In 1995, an evaluation of the integrity of specific portions of the base POL system identified a leak at a JP-5 fuel line valve pit between Hangar 200 and the main runway. Interviews indicated that numerous small spills and leaks of jet fuel have occurred at the aircraft hydrant refueling pits since they went into operation in the early 1960s.	3	CMS	ECP Phase I/II sample locations indicating contaminant releases associated with this SWMU on the Subject Property were Valve Pit 8 and USTs 381, 1084 and 1086. The Navy submitted a CMS Work Plan to complete site characterization and the CMS. The work plan includes additional characterization along the underground fuel lines in the Subject Property. Phase I of the CMS Investigation was conducted in April, May, and June 2008. Report on the findings of Phase I of the CMS Investigation completed in 2010 identified areas needing further study in Phase II of the CMS Investigation. The Phase II Investigation Work Plan was approved 3/24/11, and field work initiated 4/18/11 at Fueling Piers, 4/26/22 at JP-5 Hill/DFM Area, 5/16/11 at Airfield Area, and 7/5/11 at SWMU 9 A/B Area. SWMU 9 C Area remains to be investigated.	Soil, GW - fuel related compounds	1, 2, 4	CMS Investigation	CMS/SoB/CM
Federal	77	Active Small Arms Range. Active and historic small arms range and former open burning/open detonation (OB/OD) area located on the peninsula at Punta Medio Mundo. Range locations have periodically moved throughout the peninsula since its first use. Review of historic records and interviews indicate that the SWMU was used for munitions disposal or detonation and as a small arms range.	3	Phase I RFI for three potential OB/OD sites and small arms range closure	This site is still an active small arms range and original reuse called for transfer to the Department of Homeland Security (DHS) for continued operation as a range. However DHS has declined future ownership and the range will be closed by the Navy. EPA has required in the Consent Order that following closure of the small arms range, a Phase I RFI will be performed for the three potential OB/OD sites, as well as closure of the small arms range. Phase I RFI field work was implemented in May 2010, and the Phase I RFI Report was approved by EPA on 4/28/11. The Full RFI Work Plan is currently being developed.	Soil - Metals, nitro-glycerine; subsurface anomalies; additional COPCs to be determined during Full RFI.	1, 2, 4	RFI Investigation	Implement RFI and follow on work
3	78	Transformer Storage Pad. Located off of Hollandia St, near the intersection of Forrestal Dr and Valley Forge Rd. The suspected release is associated with a raised concrete curbed pad that is currently storing approximately 25 (non-PCB) transformers. The concrete pad was not present in aerial photographs of NAPR as late as 1995. The pad has a concrete berm surrounding the perimeter that acts as secondary containment. A valve is installed in the berm to allow the drainage of accumulated rainwater. Standing water, with a slight oily sheen, was observed in the bermed area and on the concrete pad. A small area (approximately 10 feet by 3 feet) of stained soil and stressed vegetation was observed at the discharge of the drainage valve.	NA	RFI	Soil appears to be the media primarily impacted by the release, based on existing information. Constituents associated with transformer dielectric fluid (reported to be mineral oil), including total recoverable petroleum hydrocarbons and PCBs, are likely the potential chemicals of concern. It should be noted that all PCB-contaminated transformers and equipment were removed from NSRR prior to 1998 except for one remaining PCB-containing transformer located in Building 386 (which is not on the Subject Property). The Phase I RFI has been completed, a Full RFI Work Plan approved, and field work for the Full RFI initiated 4/26/11.	Soil - PAHs, TPH-DRO, Metals	1, 2, 4	RFI Investigation	Implement RFI and follow on work
Science Park	AOC F (MNA 124)	Site of 4 former USTs (Bldg 124). One of seven former UST sites and one current AST site that comprise the AOC F monitored natural attenuation (MNA) sites at NAPR. After the removal of the USTs and the subsequent investigations and reports, the sites were recommended for remedial action by MNA with separate protocols for each site, including soil sampling and/or groundwater sampling on a quarterly or annual basis depending upon the site.	3	MNA	Submitted MNA Work Plan to EPA October 9, 2007. EPA contingently approved the MNA Work Plan April 10, 2008. The first round of sampling under the new work plan was conducted in May 2008. The final report was submitted to the EPA November 21, 2008. A revision to the work plan was completed following the first round of sampling and submitted to the EPA in August 2008. The Revised Final II MNA Work Plan was submitted to EPA on 5/16/11. The Year 9, Second Quarter sampling event was completed in August 2011. Long-term quarterly groundwater monitoring is ongoing.	GW - TPH, VOCs	1, 2, 4	MNA monitoring	Continuation of MNA monitoring program in accordance with MNA Work Plan

Exhibit F

CERFA Concurrence

**CERFA Identification of Uncontaminated Property
Former Naval Station Roosevelt Roads, Puerto Rico**

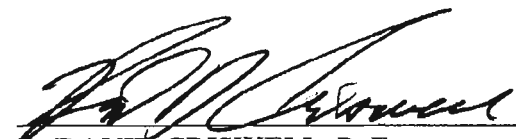

Accordingly, this CERFA Uncontaminated Property Report reflects final site categorizations that may differ from those presented in the Final ECP report.

In summary, all NAPR property not otherwise identified as sites belonging to Categories 2 or 3 are classified as "CERFA Clean" (i.e. uncontaminated) as defined in CERFA [§9620 (h)(4)(A)]. The bulk of the NAPR acreage is classified as such. Of the approximately 8,400 acres of NSRR property, about 7,000 acres have been identified as "CERFA Clean" (i.e., Category 1). Figure 1 depicts the results of this classification.

Included in the CERFA Clean classification are a total of 14 SWMUs. Ten of these SWMUs were identified by EPA in the 1994 RCRA Part B permit, and an additional four sites were identified by the ECP. All 14 of these sites were originally identified based on a suspected release or disposal activity, but subsequent investigations determined that no release or disposal activity occurred. EPA has indicated their concurrence with this determination in the draft §7003 Order on Consent by designating each of these sites as having achieved "corrective action complete without controls" designation. The SWMUs and ECP sites designated as CERFA Clean are SWMUs 5, 15, 20, 21, 22, 47, 48, 49, 50, 52, 63 (ECP 9), 64 (ECP 10), 65 (ECP 11), and 66 (ECP 12). These sites are presented in Table 1.

The remaining property has been classified as Category 2 or 3 and as such is not qualified for designation as CERFA Clean.

Submitted

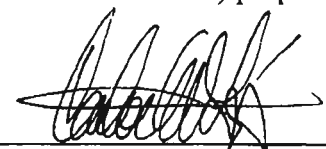

R. DAVID CRISWELL, P. E.
BRAC Environmental Coordinator

Date

Concurrence

Concurrence with CERFA Identification of Uncontaminated Property is indicated by signature below. This concurrence applies only to the identification of "CERFA Clean" (i.e. uncontaminated) property, identified in this document as ECP Category 1.

Carlos Lopez Freytes, President
Environmental Quality Board
Commonwealth of Puerto Rico

ASBESTOS WARNING STATEMENT

YOU ARE ADVISED THAT CERTAIN BUILDINGS WITHIN THE SALE PARCEL III AND SCIENCE PARK CARVE-OUT LEASE AREAS AT THE FORMER NAVAL STATION ROOSEVELT ROADS HAVE ASBESTOS-CONTAINING MATERIALS. INDIVIDUALS (WORKERS) MAY SUFFER ADVERSE HEALTH EFFECTS AS A RESULT OF INHALATION EXPOSURE TO ASBESTOS. THESE ADVERSE HEALTH EFFECTS INCLUDE ASBESTOSIS (PULMONARY FIBROSIS) AND MESOTHELIOMAS (BENIGN OR MALIGNANT TUMORS).

ACKNOWLEDGEMENT

I acknowledge that:

- (1) I have read and understand the above-stated Asbestos Warning Statement.
- (2) I have received from the Government the following document(s): *Phase I/II Environmental Condition of Property Report, Former Naval Station Roosevelt Roads, Ceiba, Puerto Rico, the Final Asbestos Inspection Report for Naval Activity Puerto Rico, Ceiba, Puerto Rico, and the Finding of Suitability to Lease, Revision 1, Carve-Outs Within Sale Parcel III and Science Park, Former Naval Station Roosevelt Roads, Ceiba, Puerto Rico* representing the best information available to the Government as to the presence of and condition of asbestos-containing-materials hazards in the building covered by this Lease.
- (3) I understand that my failure to inspect or to become fully informed of the condition of all or any portion of the property offered will not constitute grounds for any claim or demand for adjustment or withdrawal of any bid or offer made after its opening or tender.
- (4) I understand that, upon execution of this Lease, I shall assume full responsibility for preventing future asbestos exposure by properly managing and maintaining or, as required by applicable federal, State, or local laws or regulations, for abating any asbestos hazard that may pose a risk to human health.

Lessee (or duly authorized agent)

Exhibit H

Lead-Based Paint Hazard Advisory

**LEAD-BASED PAINT HAZARD
DISCLOSURE AND ACKNOWLEDGEMENT FORM**

LEAD WARNING STATEMENT

YOU ARE ADVISED THAT STRUCTURES CONSTRUCTED PRIOR TO 1978 MAY PRESENT EXPOSURE TO LEAD FROM LEAD-BASED PAINT THAT MAY PLACE YOUNG CHILDREN AT RISK OF DEVELOPING LEAD POISONING. LEAD POISONING IN YOUNG CHILDREN MAY PRODUCE PERMANENT NEUROLOGICAL DAMAGE. YOU ARE FURTHER ADVISED THAT LEAD POISONING ALSO POSES A PARTICULAR RISK TO PREGNANT WOMEN. WORKERS MAY ALSO SUFFER ADVERSE HEALTH EFFECTS FROM LEAD DUST AND FUME EXPOSURE

ACKNOWLEDGEMENT

I acknowledge that:

1. I have read and understand the above stated Lead Warning Statement;
2. I have received from the Federal Government the following document(s): *Phase I/II Environmental Condition of Property Report, Former Naval Station Roosevelt Roads, Ceiba, Puerto Rico and Finding of Suitability to Lease, Revision 1, Carve-Outs Within Sale Parcel III and Science Park, Naval Activity Puerto Rico, Ceiba, Puerto Rico* representing the best information available to the Government as to the presence of Lead-Based Paint and Lead-Based Paint hazards for the buildings covered by this Lease;
3. I understand that my failure to inspect, or to become fully informed as to the condition of all or any portion of the property offered will not constitute grounds for any claim or demand for adjustment or withdrawal of any bid or offer made after its opening or tender; and
4. I understand that upon execution of this Lease, I shall assume full responsibility for preventing future lead exposure by properly managing and maintaining or, as required by applicable Federal, state, or local laws or regulations, for abating any lead-based paint hazard that may pose a risk to human health.

Threatened and Endangered Species Conservation Measures

THREATENED AND ENDANGERED SPECIES CONSERVATION MEASURES—PARCEL 30

Common Name—Sale
Conveyance—Sale
Neighboring Parcel(s)—28, 29, 31

Yellow-shouldered Blackbird

GENERAL REQUIREMENTS

- No development is allowed in Parcel 28 (Conservation).
- All development related activities (new construction, ground clearing, demolition/remodeling) adjacent to conservation parcels (28) should occur between September 1 and March 15 (non-breeding season) or be restricted to an area 50 m from the parcel boundary from March 15-August 30 (breeding season).
- Notify USFWS if a yellow-shouldered blackbird nest is found anywhere on the property (787-851-7297).
- Pesticide and herbicide applications must follow Commonwealth of Puerto Rico regulations.

Activity	Conservation Measures
Development Planning	Save as many existing on site palms and trees as possible in new development plans.
Grounds Maintenance	No trimming or cutting of palms and trees between March 15 and August 30 except in an emergency (i.e., downed trees and palms from storms).
Property Sale/Lease	Notify buyer/lessee of all mitigation requirements (see above) and include mitigation with all legal documents.

NOTICE:

Consult with the U.S. Fish and Wildlife Service if you have any questions on the conservation measures. Property owners that cannot adhere to the conservation measures must consult with the U.S. Fish and Wildlife Service to seek a Section 10.0 permit for authorization to modify the identified critical habitat. Failure to comply with the identified conservation measures violates Section 9.0 and/or Section 10.0 of the Endangered Species Act. The U.S. Fish and Wildlife Service has the authority to prosecute violations under the Endangered Species Act.

THREATENED AND ENDANGERED SPECIES CONSERVATION MEASURES—PARCEL 31

Common Name—Sale
Conveyance—Sale
Neighboring Parcel(s)—27-29, 33, 40

Yellow-shouldered Blackbird

GENERAL REQUIREMENTS

- No development is allowed in Parcel 28 (Conservation).
- All development related activities (new construction, ground clearing, demolition/remodeling) adjacent to conservation parcels (28) should occur between September 1 and March 15 (non-breeding season) or be restricted to an area 50 m from the parcel boundary from March 15-August 30 (breeding season).
- Notify USFWS if a yellow-shouldered blackbird nest is found anywhere on the property (787-851-7297).
- Pesticide and herbicide applications must follow Commonwealth of Puerto Rico regulations.

Activity	Conservation Measures
Development Planning	Save as many existing on site palms and trees as possible in new development plans.
New Construction/Clearing	If undeveloped yellow-shouldered blackbird habitat is proposed for clearing consult with USFWS a minimum of one year prior to planned project initiation.
Demolition/Remodeling	Schedule activity from September 1 through March 14 or conduct outdoor survey of building(s) (ledges, etc.) and nearby trees (within 50 m of the building) for yellow-shouldered blackbird nests prior to start date if the development activity is scheduled to occur between March 15 and August 30. Consult with USFWS if a yellow-shouldered blackbird nest is found.
Grounds Maintenance	No trimming or cutting of palms and trees between March 15 and August 30 except in an emergency (i.e., downed trees and palms from storms).
Building Maintenance	Check for yellow-shouldered blackbird nests prior to any outdoor building maintenance activities between March 15 and August 30. Determine identity of any bird nest found. Notify and consult with USFWS if a yellow-shouldered blackbird nest is found.
General Operations	Before moving parked outdoor equipment (e.g., carts, vehicles) check for yellow-shouldered blackbird nests (March 15-August 30). Notify USFWS if a yellow-shouldered blackbird nest is located.
Property Sale/Lease	Notify buyer/lessee of all mitigation requirements (see above) and include mitigation with all legal documents.

NOTICE:

Consult with the U.S. Fish and Wildlife Service if you have any questions on the conservation measures. Property owners that cannot adhere to the conservation measures must consult with the U.S. Fish and Wildlife Service to seek a Section 10.0 permit for authorization to modify the identified critical habitat. Failure to comply with the identified conservation measures violates Section 9.0 and/or Section 10.0 of the Endangered Species Act. The U.S. Fish and Wildlife Service has the authority to prosecute violations under the Endangered Species Act.

Consult with USFWS if a yellow-shouldered blackbird nest is found.
Grounds Maintenance	No trimming or cutting of palms and trees between March 15 and August 30 except in an emergency (i.e., downed trees and palms from storms).
General Operations	Before moving parked outdoor equipment (e.g., carts, vehicles) check for yellow-shouldered blackbird nests (March 15-August 30). Notify USFWS if a yellow-shouldered blackbird nest is located.
Property Sale/Lease	Notify buyer/lessee of all mitigation requirements (see above) and include mitigation with all legal documents.

Sea Turtle

GENERAL REQUIREMENTS

- Consult with U.S. Fish and Wildlife Service (USFWS) and Puerto Rico Department of Environmental Resources (DNER) on all beach use plans and permit requirements.
- Notify USFWS if you observe an injured or dead turtle anywhere on the property (787-851-7297).
- Pesticide and herbicide applications must follow Commonwealth of Puerto Rico regulations.

*Parcel Map for the Disposal
of Naval Activity Puerto Rico*

Activity	Conservation Measures
Beach Development/Use	Implement all USFWS and Puerto Rico DNER lighting standards/requirements (includes parcels bordering the nesting area). Implement USFWS/ Puerto Rico DNER precautionary measures for sea turtles before, during, and after development activities. Establish a 50 m buffer zone between any developed or undeveloped site and the land edge of the sea turtle nesting beach.

NOTICE:

Consult with the U.S. Fish and Wildlife Service if you have any questions on the conservation measures. Property owners that cannot adhere to the conservation measures must consult with the U.S. Fish and Wildlife Service to seek a Section 10.0 permit for authorization to modify the identified critical habitat. Failure to comply with the identified conservation measures violates Section 9.0 and/or Section 10.0 of the Endangered Species Act. The U.S. Fish and Wildlife Service has the authority to prosecute violations under the Endangered Species Act.

CERCLA Hazardous Substance Notice/Response Action Summary**

The table below identifies those hazardous substances that it is known, based upon a complete search of agency files, were stored for one year or more in quantities greater than or equal to 1,000 kg (or greater than or equal to 1 kg if designated an acutely hazardous waste under 40 CFR Part 261.30) and/or were released or disposed of on the property to be transferred in quantities greater than or equal to their respective reportable quantities under 40 CFR 302.4. The information in this notice is required under the authority of regulations promulgated under Section 120(h) of the Comprehensive Environmental Response, Compensation and Liability Act ("CERCLA" or "Superfund"), 42 U.S.C. Section 9620(h).

Re: Naval Activity Puerto Rico (NAPR), formerly Naval Station Roosevelt Roads,
EPA I.D. Number PRD2170027203

Draft Finding of Suitability to Lease (FOSL), Carve-outs Within Sale Parcel III and
Science Park, Revision 1, dated September 2011

Dear Mr. Davidson:

This letter is addressed to you as the Navy's designated project coordinator pursuant to the January 29, 2007 RCRA Administrative Order on Consent ("the Consent Order") between the United States Environmental Protection Agency (EPA) and the U.S. Navy (the Navy).

EPA Region 2 has completed its review of the above listed document, which revises the April 2009 Final Finding of Suitability to Lease (FOSL), Sale Parcel III-Forrestal. EPA by letter dated March 5, 2009 had commented on the 2009 FOSL. The revised Draft FOSL was submitted to EPA and the Puerto Rico Environmental Quality Board (PREQB) on behalf of the Navy by Mr. Lawson Anderson's (of Tetra Tech NUS Inc.) letter of September 15, 2011.

EPA has the following comments on the revised Draft FOSL:

- 1) In Section 2.0 (Description of Property), for AOC F, Site of Four Former USTs (USTs 124 A-D; Building 124); please confirm that the approximately 1.2 acre area indicated for this site includes the full extent of the subsurface contaminant plumes as well as the well locations being monitored under the approved MNA Work Plan. Also, please confirm the same regarding the "Land Use Control Area" shown for this site on Figure 41 of Exhibit C (SWMU and AOC Carve Out Maps).
- 2) In Section 4.0 (Environmental findings), Subsection B (Petroleum contamination): after the last paragraph, EPA requests that the Navy add a statement noting that because MTBE has been found in the groundwater at Site 1738, in addition to the approved MNA plan, as requested by

EPA, the Navy is currently developing a separate remediation plan for the MTBE contamination present at site 1738. (Note - Even though Subsection B is in regards to Petroleum contamination, the constituent MTBE is typically an additive to petroleum fuels, and thus the MTBE contamination at site 1738 is most likely related to releases of petroleum fuels).

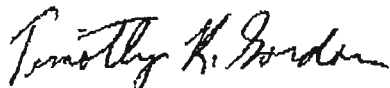

3) In Section 4.0 (Environmental findings), Subsection D (Other Environmental Aspects), in the last sentence of the first paragraph of Subsection I (Munitions and Explosives of Concern), please modify the last sentence to read "...an RFI is currently being performed for three potential OB/OD sites, **several potential munitions burial trenches, and the small arms and rifle ranges.**" (Note - the text shown in bold is the recommended new text to be added to the sentence.)

4) Exhibit B (Vicinity Maps), the figure labeled Sale Parcel III, does not include the "Land Use Control Area" for SWMU 45 in the green areas indicated to be Sale Parcel III Lease Areas. Please correct this figure.

5) Exhibit C (SWMU and AOC Carve Out Maps): Please clarify whether on Figure 9 (SWMU 11 Controlled Land Use), the "Land Use Control Area" shown includes the entire area/foot-print of Building 38 (the former Power Plant), as there appears to be some discrepancy in Figure 9 between the "Land Use Control Area" and the foot-print on the building's northeast side.

Please revise the Draft FOSL to address the above comments, and submit two hard copies and two CDs of the Final FOSL to EPA NY and one hard copy and 1 CD to Mr. Carl A. Soderberg of EPA's Puerto Rico office. If you have any questions, please telephone me at (212) 637- 4167.

RE: Technical Review of the Draft Finding of Suitability to Lease (FOSL), Carve-Outs within the Sale Parcel III and Science Park, Revision 1, Naval Activity Puerto Rico, Ceiba, Puerto Rico (NAPR)

Dear Mr. Davison:

The Puerto Rico Environmental Quality Board (PREQB) has completed its review of the Draft Finding of Suitability to Lease (FOSL), Carve-Outs within Sale Parcel III and Science Park, Revision 1, Naval Activity Puerto Rico, Ceiba, Puerto Rico, dated September 2011. Our comments are provided in the attachment.

If you have any additional questions or comments, please contact me at (787) 767-8181, extension 6129

**Review Draft Finding of Suitability to Transfer, Revision 1
Carve-Outs within Sale Parcel III and Science Park
Naval Activity Puerto Rico, Ceiba
EPA ID No. PR2170027203**

General Comments:

1. The document should made clear distinction between land use control (LUC) to be placed as part of the lease deed. It is EQB understanding that there are LUCs that should be placed during the corrective action process to avoid disturbances to the 14 carve-out sites. The previously mentioned LUCs are different from the ones that are placed when a Corrective Action with Controls is achieved at some sites. The last one is the one accepted when the maximum achievable clean-up is reach.

Specific Comments:

1. Page 1, Section 1.0, Second Paragraph, Third Sentence: Please include the Order on Consent reference number.
2. Page 6, Section 4.0A: There are 13 SWMUs listed inside parenthesis and the paragraph stated that the subject property includes 14 RCRA SWMUs. It should be revised since there are 13 SWMUs and 1 AOC (grouping several sites). Or include AOC F at this section.
3. Page 7, Section 4.0B, Third Paragraph: Please include the MtBE Investigation being carried at AOC F Site 1738.
4. Page 9, Section 4.0D.4, Last Paragraph: The document state that due to the age of the majority of facilities and size of the former Naval Station, it is possible that PCB-Contaminated fluorescent lights ballast and other minor PCBs sources may be present...". As presented for the ACM and the Lead-Based Paint, what would be the step forward regarding PCBs once the Subject Property be leased.
5. Page 11, Section 5.0B, Last Sentence: Please revise the reference to Exhibit I to Exhibit J.

**Navy Responses to U.S. Environmental Protection Agency (EPA) Region 2
and Puerto Rico Environmental Quality Board (EQB) Comments**

EPA Comments

EPA has the following comments on the revised Draft FOSL:

- 1) in Section 2.0 (Description of Property), for AOC F, Site of Four Former USTs (USTs 124 A-D; Building 124); please confirm that the approximately 1.2 acre area indicated for this site includes the full extent of the subsurface contaminant plumes as well as the well locations being monitored under the approved MNA Work Plan. Also, please confirm the same regarding the "Land Use Control Area" shown for this site on Figure 41 of Exhibit C (SWMU and AOC Carve Out Maps).

Response: The 1.2-acre area of the site includes the full extent of the contaminant plumes as well as the monitoring well locations, as does Figure 41 in Exhibit C.

- 2) in Section 4.0 (Environmental findings), Subsection B (Petroleum contamination): after the last paragraph, EPA requests that the Navy add a statement noting that because MTBE has been found in the groundwater at Site 1738, in addition to the approved MNA plan, as requested by EPA, the Navy is currently developing a separate remediation plan for the MTBE contamination present at site 1738. (Note - Even though Subsection B is in regards to Petroleum contamination, the constituent MTBE is typically an additive to petroleum fuels, and thus the MTBE contamination at site 1738 is most likely related to releases of petroleum fuels).

Response: The suggested edit has been made. The end of the last paragraph of Section 4.0, Subsection B now reads, "Long-term quarterly groundwater monitoring is ongoing, and the Year 9, Second Quarter sampling event was completed in August 2011. Because MTBE has been found in the groundwater at AOC F - Site 1738, a separate remediation plan for the MTBE contamination is currently under development."

- 3) In Section 4.0 (Environmental findings), Subsection D (Other Environmental Aspects), in the last sentence of the first paragraph of Subsection 1 (Munitions and Explosives of Concern), please modify the last sentence to read "**....an RFI is currently being performed for three potential OB/OD sites, several potential munitions burial trenches, and the small arms and rifle ranges.**" (Note - the text shown in bold is the recommended new text to be added to the sentence.)

Response: The text has been modified as requested.

- 4) Exhibit B (Vicinity Maps), the figure labeled Sale Parcel III, does not include the "Land Use Control Area" for SWMU 45 in the green areas indicated to be Sale Parcel III Lease Areas. Please correct this figure.

Response: The figure has been corrected as requested.

**Navy Responses to U.S. Environmental Protection Agency (EPA) Region 2
and Puerto Rico Environmental Quality Board (EQB) Comments**

- 5) Exhibit C (SWMU and AOC Carve Out Maps): Please clarify whether on Figure 9 (SWMU 11 Controlled Land Use), the “Land Use Control Area” shown includes the entire area/foot-print of Building 38 (the former Power Plant), as there appears to be some discrepancy in Figure 9 between the “Land Use Control Area” and the foot-print on the building’s northeast side.

Response: Figure 9 in Exhibit C has been revised so that the “Land Use Control Area” now includes the entire area/foot-print of Building 38.

EQB Comments

General Comments:

1. The document should made clear distinction between land use control (LUC) to be placed as part of the lease deed. It is EQB understanding that there are LUCs that should be placed during the corrective action process to avoid disturbances to the 14 carve-out sites. The previously mentioned LUCs are different from the ones that are placed when a Corrective Action with Controls is achieved at some sites. The last one is the one accepted when the maximum achievable clean-up is reach.

Response: The first sentence of Section 5.0, Subsection D (Land and Groundwater Restrictions) has been modified to state, “To prevent unacceptable risks to human health and the environment during the lease period,...”, and the following sentence has been added to the end of the last paragraph of this subsection, “Any land use controls required after the completion of all necessary remedial actions will be outlined in the FOSTs and transfer deeds for the carve-out areas. EPA and EQB will be afforded the opportunity to review these documents prior to execution.”

Specific Comments:

1. Page 1, Section 1.0, Second Paragraph, Third Sentence: Please include the Order on Consent reference number.

Response: EPA Docket No. RCRA-02-2007-7301 has been added as requested.

2. Page 6, Section 4.0A: There are 13 SWMUs listed inside parenthesis and the paragraph stated that the subject property includes 14 RCRA SWMUs. It should be revised since there are 13 SWMUs and 1 AOC (grouping several sites). Or include AOC F at this section.

Response: SWMUs 11/45 have been separated in the list in parentheses so the total number of separate SWMUs equals 14 (SWMUs 3, 9, 11, 31, 32, 45, 57, 59, 60, 67, 70, 74, 77 and 78).

**Navy Responses to U.S. Environmental Protection Agency (EPA) Region 2
and Puerto Rico Environmental Quality Board (EQB) Comments**

3. Page 7, Section 4.0B. Third Paragraph: Please include the MtBE Investigation being carried at AOC F Site 1738.

Response: The suggested edit has been made. The end of the last paragraph of Section 4.0B now reads, "Long-term quarterly groundwater monitoring is ongoing, and the Year 9, Second Quarter sampling event was completed in August 2011. Because MTBE has been found in the groundwater at AOC F - Site 1738, a separate remediation plan for the MTBE contamination is currently under development."

4. Page 9, Section 4.0D.4, Last Paragraph: The document state that due to the age of the majority of facilities and size of the former Naval Station, it is possible that PCB Contaminated fluorescent lights ballast and other minor PCBs sources may be present...". As presented for the ACM and the Lead-Based Paint, what would be the step forward regarding PCBs once the Subject Property be leased.

Response: The following notification will be included in the lease,

Presence of PCBs: The LESSEE acknowledges that fluorescent light fixture ballasts on the lease parcel may contain PCBs. Prior to beginning any maintenance, alterations, demolition, restoration, or construction work affecting fluorescent light fixtures, the LESSEE must determine if PCB ballasts are present. If present, PCB ballasts and/or fixtures must be disposed of properly at the LESSEE's expense, in accordance with all applicable Federal, State, and local laws and regulations.

5. Page 11, Section 5.0B, Last Sentence: Please revise the reference to Exhibit I to Exhibit J.

Response: The reference has been corrected as requested.

Re: Naval Activity Puerto Rico (NAPR), formerly Naval Station Roosevelt Roads,
EPA I.D. Number PRD2170027203,

Draft Finding of Suitability to Lease (FOSL) Carve-Outs within Sale Parcel III

Dear Mr. Criswell:

The United States Environmental Protection Agency (EPA) Region 2 has received the Draft Finding of Suitability to Lease (FOSL) Carve-Outs within Sale Parcel III, transmitted to Mr. Timothy Gordon of EPA and to Ms. Wilmarie Rivera of the Puerto Rico Environmental Quality Board (PREQB), with your letter of February 25, 2009.

The FOSL covers approximately 382 acres in numerous non-contiguous areas carved out of the 963 acre Sale Parcel III, located in the developed waterfront area along the northeastern side of Ensenada Honda and on a peninsula on the southern side of Bahia de Puerca. The carve-out areas contain 12 Solid Waste Management Units (SWMUs) and portions of one Areas of Concern (AOC) which have corrective action work remaining to be completed under the January 2007 RCRA Administrative Order on Consent (the Consent Order).

EPA Region 2 has two comments on the Draft FOSL:

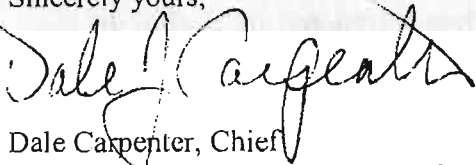

- 1) A statement should be added to Section 1.0 (Purpose) indicating that until a corrective action complete determination has been approved by EPA for the SWMUs and AOCs located within the carved-out areas, the Navy will continue to be responsible for completion of any remaining corrective and/or remedial actions required for those SWMUs and AOCs, pursuant to the 2007 RCRA Consent Order.

- 2) A statement should be added to Section 5.0.D (Land and Groundwater Restrictions) indicating that upon completion of required corrective and/or remedial actions for any of the SWMUs and AOCs located within the carved-out areas, if a corrective action complete *with controls* determination is proposed by the Navy and approved by EPA, the Navy and/or the acquiring party of the Subject Property where the SWMUs and/or AOC are located will be responsible for maintaining all land use controls and/or other controls upon which that corrective action complete *with controls* determination was based.

In addition, as discussed previously in EPA's letter of January 6, 2009, if the U.S. Department of Homeland Security (DHS) is not going to acquire the SWMU 77 site, the provisions of the Consent Order allowing delayed submission of the RFI work plan until 90 days following DHS' cessation of usage of the area as a small arms training range, would no longer be applicable. Therefore, as previously indicated in EPA's January 6, 2009 letter, the Navy should submit a draft Phase I RFI work plan for SWMU 77 within 90 calendar days of its receipt of the January 2009 letter.

Once the FOSL has been revised and finalized, please submit two copies to my office. If you have any questions, please telephone Mr. Tim Gordon, of my staff, at (212) 637- 4167.

Sincerely yours,

Dale Carpenter, Chief
Resource Conservation and Special Projects Section

**Re: Draft Finding of Suitability to Lease (FOSL) Carve-Outs within Sale Parcel III
Forrestal, Naval Activity Puerto Rico, Ceiba, Puerto Rico
PR2170027203**

Dear Mr. Criswell:

The Puerto Rico Environmental Quality Board (PREQB) has completed its review of the Draft Finding of Suitability to Lease (FOSL) Carve-Outs within Sale Parcel III – Forrestal, Naval Activity Puerto Rico, dated February 2009. PREQB has the following comments on the Draft FOSL:

- Page 9, fourth point documented that polychlorinated biphenyls (PCB) are key contaminants at SWMU 11, 45, and 78. The statement is inconclusive regarding the steps to remove or control PCBs contamination.
- Section 5.0 D Land and Groundwater Restrictions should include Institutional Controls to avoid access to the site, in addition to the land use control clauses. It is a recommended practice to install fences and visible signs to dissuade trespassers.
- A groundwater well survey of Parcel III (including all groundwater restrictions) should be submitted to the Department of Environmental and Natural Resources (DENR). DENR is the leading Agency regarding groundwater wells and water franchises and they should be aware of any groundwater restrictions during the corrective action activities and after considering the carved-out sites as corrective

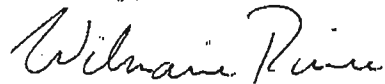

Mr. David Criswell
March 25, 2009
Page 2

action completed with or without controls. The information should be updated periodically, since the groundwater conditions on the SWMUs could impact future uses, specially considering the up-coming development of the property.

The contact person at DENR is Mr. Nelson Velázquez, Director of the Water Franchises, P.O. Box 9066600, San Juan, PR 00906-6600. A copy of this survey should be submitted to EPA and EQB.

If you have any questions or comments about our review, please contact me at (787) 767-8181, extension 6141.

Cordially,

Wilmarie Rivera Otero
Federal Facilities Coordinator

**FINDING OF SUITABILITY TO LEASE
CARVE-OUTS WITHIN SALE PARCEL III - FORRESTAL
NAVAL ACTIVITY PUERTO RICO**

**Navy Responses to U.S. Environmental Protection Agency (EPA) Region 2
and Puerto Rico Environmental Quality Board (EQB) Comments**

EPA Comment 1 of 2

A statement should be added to Section 1.0 (Purpose) indicating that until a corrective action complete determination has been approved by EPA for the SWMUs and AOCs located within the carved-out areas, the Navy will continue to be responsible for completion of any remaining corrective action and/or remedial actions required for those SWMUs and AOCs, pursuant to the 2007 RCRA Consent Order.

Navy Response

The following text has been added to the second paragraph of Section 1.0:

Until a Corrective Action Complete determination has been approved by EPA for the SWMUs and AOCs located within the carve-out areas, the Navy will continue to be responsible for completion of any remaining corrective and/or remedial actions required for those SWMUs and AOCs, pursuant to the Consent Order.

EPA Comment 2 of 2

A statement should be added to Section 5.0.D (Land and Groundwater Restrictions) indicating that upon completion of required corrective and/or remedial actions for any of the SWMUs and AOCs located within the carved-out areas, if a corrective action complete *with controls* determination is proposed by the Navy and approved by EPA, the Navy and/or the acquiring party of the Subject Property where the SWMUs and/or AOCs are located will be responsible for maintaining all land use controls and/or other controls upon which that corrective action complete *with controls* determination was based.

Navy Response

The following text has been added to the end of Section 5.0.D:

Upon completion of required corrective and/or remedial actions for any of the SWMUs and AOCs located within the carve-out areas, if a Corrective Action Complete With Controls determination is proposed by the Navy and approved by EPA, the Navy and/or the acquiring party of the Subject Property where the SWMUs and/or AOCs are located will be responsible for maintaining all land use controls and/or other controls upon which that Corrective Action Complete With Controls determination was based.

EQB Comment 1 of 3

Page 9, fourth point documented that polychlorinated biphenyls (PCB) are key contaminants at SWMU 11, 45, and 78. The statement is inconclusive regarding the steps to remove or control PCBs contamination.

Navy Response

The following text has been added to the PCB discussion:

Remediation of PCB-contamination at SWMUs 45 and 78 is ongoing under the RCRA corrective action program. Although the final disposition of the PCB contamination at SWMU 11 has not yet been determined, interim measures requiring site access restriction are being implemented under the RCRA Consent Order.

EQB Comment 2 of 3

Section 5.0 D Land and Groundwater Restrictions should include Institutional Controls to avoid access to the site, in addition to the land use control clauses. It is recommended practice to install fences and visible signs to dissuade trespassers.

Navy Response

The Navy will remain in the area for several years completing environmental cleanup work, and will work with future property owners to provide levels of protection against land use control violations including inspections, education, and coordination with property owners and regulators. Furthermore, the Navy will review each individual site to determine what protections (e.g., fences and signage) are necessary for implementation of land use controls based on contaminant concentrations and proximity to receptors.

EQB Comment 3 of 3

A groundwater well survey of Parcel III (including all groundwater restrictions) should be submitted to the Department of Environmental and Natural Resources (DENR). DENR is the leading Agency regarding groundwater wells and water franchises and they should be aware of any groundwater restrictions during the corrective action activities and after considering the carved-out sites as corrective action complete with or without controls. The information should be updated periodically, since the groundwater conditions on the SWMUs could impact future uses, especially considering the up-coming development of the property.

The contact person at DENR is Mr. Nelson Velázquez, Director of the Water Franchises, P.O. Box 9066600, San Juan, PR 00906-6600. A copy of this survey should be submitted to EPA and EQB.

Navy Response

The Navy will coordinate with EQB and DENR to determine the appropriate contents of a groundwater well survey. Also, the Navy will send a final copy of the report "Annual Land Use Control (LUC) Status Report - January 2009" to DENR and will provide copies of annual reports to DENR in the future.
